Earthquakes rock L.A.
damage and death rise

UPI—California’s mightiest earthquake in 34 years smashed sections of Los Angeles and its sprawling suburbs into fire and rubble yesterday, killing at least 31 persons and forcing 160,000 to flee their homes beneath a cracked and leaking earthfill.

Nearly half the victims died when the earthquake, “like a giant hand,” telescoped two buildings at a veterans hospital in the San Fernando Valley into a high pile of rubble.

Three others died when a wall collapsed at a new sanitarium and 31 persons and forcing 140,000 to flee their homes beneath a cracked and leaking earthfill.

Nearly 1000 persons were injured. Damage mounted into the millions of dollars. President Nixon declared California a disaster area and dispatched Vice President Spiro T. Agnew to help coordinate rescue efforts.

Governor Ronald Reagan flew to inspect the wreckage veterans hospital at San Fernando where several persons died and the grounds of the rapped and dying drifted up to firemen working into the night under arc lights, as they frantically chopped holes in the collapsed roof.

Reagan also flew over the Olive View Sanitarium. He said it looked “like it was made of blocks that were knocked down. It was lying down there like a child’s plaything. It was literally lifted up and dropped.”

The quake was centered 40 miles northwest of Los Angeles and fell along 300 miles of California’s underground fault network from Fresno to the Mexican border.

Tall buildings swayed and raised bricks and plaster in Los Angeles, where more than 400 buildings were damaged. The sidewalks of Hollywood Boulevard were littered with glass. Terrified residents fled into the streets in their nightclothes.

Hundreds of fires broke out from ruptured gas mains.

Telephone and electrical services were interrupted. The Los Angeles public schools closed and 400,000 children were sent home.
LETTERS TO THE EDITOR

Learn more, gripe less

Editor:
Apprently there is some concern that the school motto of "learn by doing" may become "learn and that's it." I'm just wondering if that's not such a bad idea anyway.

Personally, I don't care if I learn by doing, by reading or by osmosis. It's still my sole purpose for being here.

I already know about the atrocities committed by the "Yankee Imperialist." No one has to remind me of the racial problems in this country. I'm well aware of the apparent discontinuities of our present administration. And I even get a through update on these issues every night at six o'clock.

More protest voices of dissatisfaction we don't need. Instead of using the campus as a sounding board for more dissent, why not utilize it as a tool for understanding and solving our massive problems. Who knows, we might learn something.

Garrick Lascum

EDITORIAL

Love to CP

Ah, the agony of the ecstasy,
Paint the block, open the alley.
Let us in, there's hair to be cut,
Feed the grease, yeah that's education.

What's that you say about a war?
Sell that land, shovel that dirt.
Hurry, cars are waiting,
There's gas for all.

Someone's rocking the boat! Drown em!
War? yeah that's too bad,
Ppoly's my life, I love it.
These mountains sure keep out the fog.

Yeah that's not all, where's the world?
We've gotta fight to keep,
We can't lose.
Jobs are waiting, get those grades,
If you learn too, that's okay.

Fit right in, pay the tax,
Ugly? Sure war's ugly.
I love Poly, such high mountains,
And the war rages on,

Ah, the agony of the ecstasy.

Shakes mark quakes

By United Press International
Seismologists have devised at least three scales for determining the force of earthquakes. They are the Richter scale, which registers the magnitude of quakes as shown by the movement of seismograph needles, and the modified Mercalll and the Rosai-Forel scales, which measure intensity—the amount of damage caused when a quake strikes.

The Richter and Mercalll scales are most widely used today.

The Richter scale was devised in the 1930's by Dr. Charles F.

Richter of the California Institute of Technology, one of the world's foremost authorities on earthquakes, volcanic eruptions and other seismic disturbances.

The scale has no theoretical upper limit, although 10 is generally considered its practical limit. Each full number on the scale indicates a tremor one time as strong as the next smallest number. Thus, a quake with a magnitude of 2 is one times greater than a magnitude 1 quake, a magnitude 3 is one times greater than magnitude 2 and 100 times greater than magnitude 1 and so forth.

Using this logarithmic progression, a quake with a billion times more powerful than a tremor with a magnitude of one. The most powerful earthquake ever recorded—in Chile—had a magnitude between nine and 9.5 on the Richter scale. The Alaska earthquake of 1964 had a magnitude of about 9.3 on the scale.

The Mercalll and Rosai-Forel scales, rather than offering a mathematical formula for determining the force of quakes, instead provide rough guidelines for determining their strength by observing surface effects. The Mercalll scale ranges from 1, described as "not felt except by a very few under especially favorable circumstances," to 12, "damage total," which would be similar to a quake with the magnitude of 9 on the Richter scale.

The Rosai-Forel scale, seldom used today, runs from one to ten and is quite similar to the Mercalll scale.

The West's only all-news station WXAQ, began transmitting one hour a day from Los Angeles in 1981.
A flag’s valiant demise

Not since the days of Betsey Ross has the American flag received as much controversy and as much testing as it has during the past year.

Used for everything from decorative shirts and ties to red, white and blue sheaths and pillow cases, the colors are destined to become a commercial gimmick "so gallantly streaming," Abbie Hoffman sees as a six button shirt. And what was once a symbol of freedom and peace has turned into a weapon between the "straight" and the radicale.

The acute radical, however, takes his case off of car windows and uses the flag in a rakish manner. Victims of the "Easy Rider" syndrome, these people are usually seen with a flag sewn to the seat of their panta or as a patch in an old pair of Levi's.

Stepping into the spotlight now, the government has supplied one of the most paradoxical policies in history. A series of arrests condemning unrestricted use of the flag has shed a great deal of light on a delicate subject. Arrests that, some complain, have every tendency to be discriminatory to young Nipple types.

California serves as an excellent example of how a law can be vague and often self-defeating. In that state, as in most others, the law states it "is a misdemeanor to publicly mutilate, deface, defile, or trample on any flag of the United States." Yet the same law guarantees the right to display the flag as a symbol of peaceful opposition to government, and thereby creating a problem of value judgments in arrests.

But why do people put flags on their windows? One student at this college with a flag on his car said simply that "I don't see any reason why I shouldn't display the American flag. I have a shell because I'm an American," and another said, "I have it there because I think every American should display the flag if he's proud of it."

But what about those displaying a variation of the flag?

When asked why he had a flag with a peace symbol over it, and one with an ecology sign on it, one student summed it up, "I believe in peace and I believe in ecology."

There are others who aren't really sure why they have a flag on the car. One man said, "I guess it's supposed to be symbolic of American patriotism," while another flag was there because it came in the mail.

A number of people are worried about the treatment of the flag. This concern was indicated in a New York Times story, where no one was arrested. In retrospect, however, in the same area an inverted flag at an American Legion Hall, in response to the Pueblo incident, went unnoticed; and no arrest was made on a N.Y. state's agricultural advertisement with Gov. Nelson Rockefeller's face superimposed on a flag with potatoes in place of the stars.

Motorists were arrested for having decals on their windshield.

On the legal issue the question stands as to how far a person can go in displaying the flag and still remain within bounds of the law—a problem which has caused much discussion.

A housewife in Hoppaague, N.Y., was arrested for flying the flag upside down to protest the war in Vietnam.

The American flag—a symbol of both pride and dissent—is on trial throughout the country by people like Clyde Lager, who has found a new place to display the flag.

Army requests more muscle

The Defense Department yesterday asked the Selective Service System to draft 17,000 for the Army in March, the same total called up in January and February.

The calls for the first three months of this year are roughly about the same as in the first quarter of 1971, and about half the total of the first quarter in 1970. Pentagon spokesman Jerry W. Lundheim said he expected the 1971 draft total to be somewhat lower than last year.

A past All president has been appointed to the governor's staff.

Ruth Hill, class of '62, is the Assistant to the Educational Advisor, Dr. Alex Herriffls. His job concerns matters that relate to current academic issues, from school on up. Hill will also stand in for the governor when he is unable to attend an educational event.

Hill was All President in 1968-69. He graduated with a double major in Architecture and Business Administration.

Mothers ‘zapped’

London (UPI)—A joint concert by the American pop group The Mothers of Invention and the Royal Philharmonic Orchestra at Royal Albert Hall was called off abruptly Monday night when officials objected to the program.

The concert was to have been the musical score from the film “200 Motels” to be played by the Mothers and the 110 members of the Philharmonic, led by Frank Zappa, lead guitarist for the pop group.

“We heard rumors about the program,” said an Albert Hall spokesman. “The concert as programmed is not acceptable to us.” The trouble is not with the music but what it stands for. The film is about the life of a rock group on tour and contains references to drugs and “groupie” girls—teen-age girls who follow rock musicians.

“This must be the first time a classical orchestra has been turned away from a concert it was about to give,” said Herbert Cohen, manager of the Mothers. The performance would have been about 75 per cent orchestral plus six or seven individual songs with lyrics.

“I don’t know why it’s been cancelled,” said Zappa. “I gather the management thinks the script is obscene.”

Blake Lotter—A Joint concert by the American pop group The Mothers of Invention and the Royal Philharmonic Orchestra at Royal Albert Hall was called off abruptly Monday night when officials objected to the program.

The concert was to have been the musical score from the film “200 Motels” to be played by the Mothers and the 110 members of the Philharmonic, led by Frank Zappa, lead guitarist for the pop group.

“We heard rumors about the program,” said an Albert Hall spokesman. “The concert as programmed is not acceptable to us.” The trouble is not with the music but what it stands for. Veiled in mystery

"It was really terrific," says Bobbl Burgess about the Leadership Conference she attended last November. "I really didn’t want to go to the conference, but I was ‘talked into it by friends.’" She says it ended up being a "great experience," and "It teaches you how to talk to people."

Gregg Cato, a senior in business administration, was at the November conference too. He says through the group situation at the conference "you get to know yourself a lot better." Cato says everyone should go to one of them.

"We called a Leadership Conference," says Joyce Burns, chairman of the ASI Leadership Conference Committee. "Last October," Vilhauer said, "the Atlantic Richfield Oil Company sponsored five people from the committee at a national conference which was held in Riverside. Going to that conference gave us a lot of ideas which we were able to apply at the November conference which we put on. We want to try even more things at the February conference."

Exactly what goes on at a Leadership Conference is something which remains veiled in mystery. "We really don’t like to say," Vilhauer says, "because the reactions from people are better if they don’t know what to expect."

If you’re thinking you missed out on an opportunity to learn to talk to others, learn a lot about others, and get to know yourself better by not attending the Leadership Conference last November, you’re right. But you have another chance, if you go to the next Leadership Conference which will be held Feb. 14-15, according to Gary Vilhauer, chairman of the ASI Leadership Conference Committee.

Soliciting box to gather ideas

A suggestion box has been set up opposite the main circulation desk for the purpose of soliciting ideas from students, faculty, and staff for the improvement of library services. Forms are provided for submitting suggestions.

The addition of a suggestion box was recommended by Shannon Patterson, a reference librarian, who noted the favorable results reported by another academic library in a professional library journal.

Goose rhymes

If you have a yen for "Chinese Mother Goose Rhymes," the College Theater during College Hour is the place for you to be. Music maestros Harold P. Davidson and Graydon Williams will be waving the chopsticks as they lead the Women’s Glee Club and the Collegians through Thursday’s free concert.

Music with an international flavor will be potpourried with contemporary American strains. A handful are: "I Like the Lad With the Golden Hair," "Danny Boy," "Look At That Girl," "I’m a Man," and "Sunny."

Also on the slate are the Majors and Minors, Harlequin music men and the Collegiate Quartet, another male group known for its renditions of contemporary, popular and folk tunes.

Heading them off at the pass with snowmobiles instead of horses, sheriff's deputies Monday tracked down and captured two men accused of trying to hold up a ski resort with a machine gun.  

Authorities said the suspects had bound and gagged six employees at the Sugarbowl Ski Resort near the summit of historic Donner Pass but abandoned the plot when the undercover officers informed them that they had been caught.  

Although the fish are serving as a senior project, the far reaching affects of the program could be of importance. Dr. Richard Kreja, a biological science instructor working with Olson, is presently submitting a plan to the Committee of Marine Science Technology to gain support in making the catfish a regular feature of the school.  

Approached rather skeptically in the past, because of a somewhat gruesome appearance, catfish farming has recently become a popular business in California, as well as in many southern states, where catfish farming first started.  

An estimated 16 million catfish are expected to be sold in California alone this year, with the rest of the country producing over 800 million prospective catfish dinners. The fish are usually sold to fee fishing lakes, but lately the sportman has been outranked by the gourmet who finds that the catfish doesn't taste all that bad. In fact, many fish eaters find it to be quite a treat.

Black films shown at 7

by Aminu Ez-Bolton

The second Black Film Festival sponsored by the BAF will be held tonight in the Engineering Auditorium. The films will run from 7 p.m. through midnight. "I Have A Dream . . . The Life of Martin Luther King"; "The Heritage of Slavery"; and "Body and Soul, Part 1 & 2."

"I Have A Dream . . ." is the story of King's life and the forces that brought him to the leadership of his people. The film brings a better understanding of the parallels between attitudes then and now.

"Body and Soul, Part 1" is an examination of the black American's contribution to sports in America. Harry Edwards, leader of the Olympic Games in 1968, is interviewed along with other black athletes such as Tommie Smith, Lee Evans, Charlie Greene, June Hines and Ralph Boston.

"Body and Soul, Part 2" is narrated by singer Ray Charles. Charles discusses soul music in detail. He explains that because of isolation and the misery suffered by the black man, the music called "soul" has been developed. Singers Aretha Franklin, Mahalia Jackson, and Billie Holiday cry out their souls to them.

The second Black Film Festival brings a better understanding of the parallels between attitudes then and now.

Two comedies coming

The New Shakespeare Company of San Francisco, a professional repertory company, will give two performances on this campus the last weekend in February. "As You Like It," a romantic comedy, will be performed Feb. 27. A second comedy, "A Midsummer Night's Dream," is scheduled for Sunday, Feb. 28th at 5 p.m.

Tickets for either performance will be on sale at the CUC starting Feb. 22. General admission is $2.50, students $1.50.

Sponsoring the performances on campus is the Fine Arts Committee.

Virginia Woolf

"An evening of fun and games at the home of George and Martha Middleton" is being promised by the campus theater when it presents Edward Albee's play Virginia Woolf. Performances of the contemporary and once controversial plays of America are scheduled for Wednesday, Thursday, Friday and Saturday (Feb. 17, 18, 19, and 20) evenings. Curtain time each evening will be 8 p.m.

Edward Pinson, a senior majoring in speech who is directing the campus production of Who's Afraid of Virginia Woolf as part of the requirements for his bachelor's degree, describes it as "a gripping play that shocked conservative theatre-goers with its debut in 1962. Its approach to life is realistic, untouchable, and unembroidered by euphemistic parody. The viewer becomes inescapably a part of this vibrating production, seeing perhaps, reflections of his own life mirrored in the action," Pinson continued.

Who's Afraid of Virginia Woolf is four experienced student actors. Barbara Harris, which Elizabeth Taylor memorably portrayed in the motion picture version of the play. The role of George Middleton will be acted by Bruce Wilkinson, a speech major, and Nick and Honey will be played by George Delilagana and Debbie Ware, both speech students.

An advance sale of tickets for all four performances began this week at the Speech Department office, English 306. Tickets will also be available at the door on the four performance nights. General admission tickets are priced at $1 for students and $2 for others.

Suzel Canal is not seen as a path for peace

UPI-Israeli Premier Golda Meir rejected Tuesday Egyptian President Anwar Sadat's proposal to reopen the long-closed Suez Canal if Israel's 1973 blocades would withdraw from the occupied east bank of the waterway. She said the proposal was designed merely to give Egypt a "strategic advantage" without advancing the cause of peace.

At the same time, however, Mrs. Meir told the Russian Parliament in Jerusalem, closed since the June, 1967 war, that she was ready to discuss a separate deal with Egypt for reopening the canal, closed since the June, 1967 war. She said such discussions could include a military deescalation on both sides of the canal and the return of civilian life to cinacle sites devastated by heavy fighting before the ceasefire last August 7.

There was no immediate offical reaction from Cairo to Mrs.

Meir's rejection of the proposal made last Thursday by Sadat, announcing Egypt's acceptance of an extension of the ceasefire. Israel until July 1, 1978. Egyptian officials had predicted Israel would turn down what Sadat called a new peace initiative.

Sadat had said the partial withdrawal would be the first step in the timetable the Arabs have demanded for the surrender of Israel of all Arab territory conquered in the 1967 war.

The Foreign Ministry in Cairo announced Tuesday that Egypt had called on the United Nations to stop "savage Israeli attacks" on Arab civilians in occupied territories. A memorandum delivered to U.N. Secretary General Thant in New York Monday protested the "increasingly aggressive attitude" of Israeli occupation troops against Arabs in the occupied Sinai peninsula and Gaza Strip.

Similar protests were made by the Egyptian Red Crescent Red Cross Society to the International Red Cross and the Palestinian Red Crescent to Thant, according to Cairo and Amman reports.

Israeli dismissed the Egyptian charges as "false and hostile propaganda in a letter delivered Tuesday to the U.N. Security Council president."

The deepest sounding recorded in the Indian Ocean is 23,900 feet.
Matmen ranked eleventh in drive for top ten spot

The latest national rankings by Amateur Wrestling News place the Mustang wrestlers in the number 11 spot. This ranking does not take in the grapplers' recent trip against Michigan, Michigan State and Southern Illinois.

Coach Vaughn Hitchcock explained the rankings are not held like those for football. The rankings are based upon how the Amateur Wrestling News feels that particular team will finish in the University division finale. It does not deal primarily with the outcomes of the dual meets, but the dual meets do have an effect on the rankings.

The Mustangs continue to rank in the top position in the college division rankings. But it is the University class rankings that the grapplers seek.

In a battle for the top spot, two Big Eight schools, Iowa and Oklahoma State, fight it out. In the rest of the top ten, the Mustangs will have at least three opponents. Two of them will challenge the grapplers this weekend.

Oregon State, number six, will tackle the matmen Thursday night in the Men's Gym. A critical match comes Friday against Portland State. Though Portland State is behind Oregon State in the rankings, it gave Oklahoma State a scare before bowing, 17-16.

The top team on the West coast will visit the Mustangs later in the season. Washington, number 3, has beaten Portland State earlier this year. According to Hitchcock, this week figures to be one of the toughest for his grapplers.

Amateur Wrestling News said in its release that the Mustangs could make into the top ten again before the end of the season. The next ranking will come in the first week of March.

The Rileys Bride...

She's as beautiful as love, as regal as a queen...

She's a Rileys bride. Her gown is only one from a romantic collection just arrived for spring in our bridal salon downtown.

Rileys complete bridal department features an experienced bridal consultant to help you with every detail of your wedding, a bridal gift registry, and, of course, beautiful gowns and accessories for every member of your wedding party.

Come in and discover for yourself why the most beautiful weddings begin at Rileys!
Brown, Gill first again in two weekend events

High jumper Reynaldo Brown added another trophy to his collection by establishing a Canadian Open record at the ninth annual Telegram Maple Leaf Indoor Games in Toronto, Canada.

Brown, who will be eligible to compete on the Mustang track team at the start of Spring Quarter, was competing as a member of the California Track and Field Club. His leap of 7-4¼ brought an ovation from the crowd at the event.

He later failed at three attempts at 7-4½, which would have tied the world indoor record.

Also last weekend Brown and triple crown jumper Mohinder Gill claimed first places at the Seattle Invitational. Brown leaped 7 feet even in the high jump, and Gill triple-jumped 58-10½.

Broncos and Highlanders to test Mustang aquamen

The Mustang swim team, home from a fifth place finish at the UCSB Relays held last weekend, will take on UC Riverside and Poly Pomona at Pomona this Saturday at noon.

The University of Pacific took first place honors with 112½ points. Host UCSB claimed second place with 104½ points. The coming foes, Riverside and Pomona both participated in the relays, placing seventh and tenth, respectively.

"This meet won't be any pushover by any means, but I think that we can beat both teams," stated Head Swim Coach Dick De Grasse as a qualifier for the CCAA at a 46.6 per cent clip.

"If they (UC Riverside and Poly Pomona) enter the same relay teams, we should be able to win both the 400 yard freestyle relay and the 400 yard medley relay. We will also be strong in the 50 yard freestyle and the distance events (300 and 1000 yard freestyle)."

Art Carpenter joined Bob De Grasse as a qualifier for the NCAA college division championships at Springfield, Mass. in March. Carpenter turned in an 18:17.8 clocking in the 1650 yard freestyle. "This performance from Carpenter is second similar to ours in regards to water temperature and lane markings."

"The Mustangs are in strong position, tied with San Fernando Valley State College for first place. Both the Mustangs and Titans are 3-1, Cal State Fullerton is 3-4, and both the University of California at Riverside and Cal Poly Pomona are 1-3. The pole position loss was administered by the Mustangs, and Neale Stoner's boys lost only their first game to Riverside.

On the season the Mustangs sport a 12-4 mark. Six straight teams have fallen before them, a fact Stoner attributes to sharp shooting by the players and better team play. The Mustangs have shot over 50 per cent the past three games and are leading the CCAA at a 46.6 per cent clip.

Consistent offensive performance from Billy Jackson and the all around leadership of Lew Jennings has contributed toward the team's success. Billy Jackson is second in CCAA scoring with a 22.2 average and is 18.5 on the season. His season rebound average of 9.5 is second only to Bob Jennings' average of 10.7, and both men are averaging three rebounds per game more since conference play began early in January.

Mustang center Bob Jennings muscles up for two points. Jennings transferred to this school and has contributed desperately needed rebound strength in addition to consistent scoring.

Golfers set for season opener

Mustang golfers, under the guidance of second-year coach Bill Hicks, are in their final week of preparation for their season opening tournament this weekend at Vandenberg Air Force Base.

San Fernando Valley State and UCSB are the pre-tournament favorites. Also competing against the Mustangs will be UCLA and Vandenberg Air Force Base.

Leading the field of returning lettermen for Hicks' squad is senior Greg Edwards. Edwards was the number one man of the 1970 golf team that sported an 11-5 dual match record, a third place finish in CCAA standings and a 19th place tie in the NCAA college division championships.

Last year Edwards' averaged a 71.1.

Other returning lettermen are sophomore Bob Miller qualified for the team's third spot while Mike Jones, who played on the 1969 championship team, is averaging an even 77 this season.

Freshman Bob Miller qualified for the team's third spot while Cuesta College transfer Steve Freeborn landed the fourth spot.

Starting Varsity Day Tournament February 10, 1971

The name of the game is “wait and see” for Augie Garrido and 1971 edition of his baseball Mustangs.

Garrido, in his second year at the helm, said his club "will have to execute well to win." Last year's squad posted a 15-33 docket overall and were 9-12 in league play. This year's schedule has the Mustangs listed for 14 games, plus the UC Santa Barbara tournament in late March.

Garrido emphasized the point that his team must concentrate on "not beating ourselves" if they are to improve on last year's record.

Garrido will be facing the schedule with basically the same team he fielded last season. Only two newcomers have broken into the lineup. They are third-earner Dave Snow from Cerritos' state junior college championship team and first baseman Gary Kruckeke, a freshman who hit .360 for Richmond last year.

Starting Varsity Day opener against San Francisco State at 2:30 p.m. will be: all-CCAA centerfielder Dave Kline, San Francisco senior leading off; three year starter at shortstop Rick Pence will follow him; Dave Oliver, sophomore second and last year's leading bat man at .360 will bat third; Snow will hit clean up; and senior left fielder Steve Freeborn will follow him. The sixth, seventh and eighth spots will be filled by right fielder Lathan Marsh, Kruckeke, and catcher Rodd Baggett.

Friday's hurlers will be Larry Sylva, Kent Agler and Allen Noble.

"We should be quite a bit improved this year in that we will have more people capable of playing in the top six," "In Miller, Doug Jones and Burtidwain, who are all freshmen, we have a good nucleus for the future," states Hicks. "We're a little behind schedule because of the bad weather that we had the first two weeks of practice, but I think we're coming along pretty well right now," he added.

This week sets off an action-packed quarter of athletics. The basketball team hosts tough CCAA teams Friday and Saturday, the wrestlers host two top-ranked teams, the swimmers travel to Fullerton, and gold tennis and baseball each start their individual seasons.

Neale Stoner's cagers have yet to lose on their own hardwood this season and have a six game winning streak overall. Based upon the homecourt advantage, last year's frosh cagers compiled a 20-4 mark as the Mustangs took the lead and firmly secured a foothold in the conference race. This week sets off an action-packed quarter of athletics. The baseball slate this year boasts 54 games including the Vandenberg Golf Invitational Friday, led by two returning lettermen.

Larry Morgan has been selected the "Mustang Wrestler of the Week" for his performance in defeating Santa Clara. Three returning letterman form a nucleus for Ed Jorgenson's Mustang tennis team as it opens the season tomorrow (Thursday) at Westmont and entertains the University of California at Santa Barbara Sunday.

Last year's No. one man, John Ross of Hanford, Greg Piers of Merdo Park and Paul Summers of Carpenteria are back to lead the team. Top newcomer prospects include Dan Lambert of Arroyo Grande and John McCormick of Fullerton. The Mustangs, who lost three key lettermen to graduation, are the defending California Collegiate Athletic Association champions and look second place in the NCAAC College Division Championships. However, San Fernando Valley State College, last year's pick to win the conference, again figures to be a thorn in the side of the Mustangs.
