The Educational Opportunity Program is facing a hard hit by both critics and the present squeeze of funds, according to Ricardo A. Martinez, director of the EOP office on campus.

"We spent a lot of our time trying to break down rumors started by people who never bothered to learn the real facts," says Martinez. "I wish more people, both critics and those who might be interested in the program, would come into the office and see me.

The facts show, stresses Martinez, that EOP is not a giveaway type program like most people think. Much of the cost goes to the necessary services: recruitment, admissions, registration, curriculum advice, tutoring and counseling.

It was hoped that the current $8 million state budget would be increased to $8.1 million for next year, but the proposed budget cuts the present figure by more than half.

The state supplies only 30 percent of EOP funds, but grant-money from the federal government compensated that allowed from state funds.

"If the state cuts back $800, we lose $800," explains Martinez.

English instructor, Dr. Fred Rizo, has requested that the American Association of University Professors send in a non-local team of investigators to examine administrative procedures here at this school and determine whether censure action should be placed on the college.

The request came yesterday in the wake of a news conference held by Pres. Kennedy to discuss the matter concerning the three faculty members who spoke at a Students for New Action Politics meeting last Thursday in the Engineering Auditorium, of which Rizo was included together with Wayne Williams, Biological Science, and Ralph Vranes, Physics Department.

In the letter that Rizo sent to the Western Regional Office of the AAPP he details the case surrounding his non-reten­tion and also the alleged "political implications" surrounding the dismissal. The letter makes reference to materials which were in Rizo's personnel file and which he felt gave evidence of political overtones.

He states, "There were also two other letters in my file which bring politics directly into this picture. One is written by a chairman, who compliments my high academic credentials, but at the same time elaborates on my political attitudes, which have nothing to do with my academic credentials. The other is written by a tenured member of the English Department, who states 'I feel that Mr. Rizo's 'radical-liberal' orientation has placed him on an eventual collision course with Cal Poly's basically conservative orientation'. I feel that Mr. Rizo's 'radical-liberal' orientation has placed him on an eventual collision course with Cal Poly's conservative orientation. In short, I feel that both he and I would be served by the parting of com­pany. He can be replaced.'"

In calling for the AAPP in­vestigation, Rizo also asked the group to furnish legal aid, if possible, to take censure action against the college.

Commenting on the request for the investigation, Kennedy said, "I will welcome any team of investigators, but I think that the AAPP will send a team to California to take a look at the situation at Humboldt State Colleges, which is the subject of the investigation. I feel that the individuals involved in the situation at Humboldt State Colleges are to have some program of drug abuse in this area. The local curriculum provides for any instruction in this area below the fifth grade level. What is taught in this program?

The local curriculum provides for any instruction in this area below the fifth grade level. What is taught in this program?

Drug abuse education

Questions and answers concerning the drug abuse problem in the San Luis Obispo Coastal Unified School District were posed by Dr. Charles Lewin, Assistant Superintendent of Education, Tuesday night during the Project Number 9 series.

Lewin feels that the instruction program for drug abuse in this school system is "pretty typical."

Lewin then started his question and answer period.

"Is there a drug problem in the local schools?" Lewin feels that this instruction should not be the sole responsibility of the schools, but it definitely has a place in public instruction. The school systems in California are required by law to have some program of drug abuse education.

"Is there a drug problem in the local schools?" Lewin says there is a problem, but to what extent it reaches, no one knows. For this reason a drug abuse questionnaire is going to be given this week to the seventh through twelfth grade students in the county schools. The questionnaire originated with the County Juvenile Justice Commission. This questionnaire wants to know where the majority of the drug problems lie. The questionnaire is the same one that was administered at this campus and at Cuesta College at the beginning of the quarter.

Who determines the school program for drug abuse instruction?

According to Lewin, each school district decides what kind of program to have. The state legislature doesn't provide any specific guidelines for this instruction.

The local curriculum provides a section in the "health and family living" program for drug abuse education. This program doesn't provide for any instruction in this area below the fifth grade level. What is taught in this program?

These facts are taught to the best of the teacher's ability, and the students learn in groups as a result of infection. These facts are best presented," Lewin stated.

How is the program presented?

According to Lewin there is no present way of instruction, but most teachers talk with the students about different drug problems and how they affect the visual-elds with the instruction. The general concept is teaching the students that smoking is nothing but a way of getting昏 for sure," Lewin explained.

The campus Symphony Band, 84 strong, want from jazz tunes to Western music in their Winter Concert Friday night.
60 questions put to Pres.
Sociology, a response

What is sociology? This is one of the main questions asked by the student of sociology. Man is born an animal; it is only as he learns the appropriate responses to others around him that he becomes a social, or human, being. This socialisation continues as he goes on living.

Learning how to respond to others is brought about through love, teachers, and other groups. Learning what is expected of you. And it is not just that he is expected to become a social, or human, being. This socialisation and learning, with the emotional acceptance of the ideas that significant others have of right and wrong, real and unreal, etc.

By responding first to his parents, this child learns what is expected of him by them: they tell him what their culture and society expects. In this way, children learn what the best behavior would be in a given situation. A social system is one that people learn to really live together.

With the emotional acceptance of family, a society develops. We know that what we are asking will be very hard for you to do. To you it may seem exaggerated. Socialisation cannot be anticipated the actions of the person playing the reciprocal role behavior, we find one thing that is true of all social systems: you seem to disagree?

Sir, I believe that what the person who is helping me on this committee is doing is right and necessary. And though it may discomfort you, I really do ask from you. Above all else, I will not associate myself with any movement which will threaten the freedom of our nation. And though it may discomfort you, I really do.
Mutisna Daily,

Spikers unimpressive

The locals host a non-scoring squad that took firsts away last Saturday.

By winning their eighth last weekend the Mustangs are five weeks ahead of their pace last year. Eight more wins and they will have surpassed their entire total of last season.

Kent Agler and Charles Wilbur shared hurlding duties in the 13-2 rout, with the win going to Agler. An 11-run second put the Mustang ahead to stay.

In that frame after five walks were issued first basemanGary Knuckles slugged a three-run homer. Dave Kline followed with a solo homer and, after Dave Oliver walked, Lathan powered his third-round tripper of the season.

Robin Baggett, Howard Cash and Dave Oliver each collected two hits in the game.

In the Saturday doubleheader, the Mustangs scored in the first on a Knuckles double and sacrifice and an error, and added two more in the third. With two out Kline walked, stole second, and after Oliver singled he stole third. Rich Wallins added a home run on Marsh's safety.

In the fourth, a triple by Pat MacFarlane and a Baggett single added an insurance run.

Bill Hall went the entire nine innings, allowing three hits and

Mustang success story: wins keep on rollin' in

The victories keep rolling in for the Mustang baseball team.

Augie Garruto's squad swept the University of Redlands 13-2, 4-0 and 3-2 last weekend to run its season mark to 3-1-1.

by Oliver and Snow and a throwing error brought in a pair of runs, and in the 11th hit single, scored on MacFarlane's squeeze bunt. Redlands tallied once each in the sixth and seventh.

Outfielder Steve Farners paired Mustang hitters with two hits.

Colts drop final contest but are CCAA champs

Ernie Wheeler's freshman basketball team slipped in the final game of the season Saturday against the University of California at Irvine fresh, a day after winning the California Collegiate Athletic Association title.

The Colts bested Cal State Fullerton 77-70 Friday but committed 30 fouls against the Irvine freshman and could not offset the free throw advantage.

In that game the Colts tailed 56-61 with 14:31 to go but pulled up to 61-64 with 3:31 remaining. With 26 seconds left Irvine led 74-71, and then scored four straight to win 78-71.

The season record of Wheeler's team was finalized at 21-4, giving Irvine freshman and could not offset the free throw advantage.

At Fullerton, Horace Williams and Skip Williams scored 31 and 20 points, respectively, and Mike Krukow also

Turner equals indoor record

Sprinter Bobby Turner tied the world indoor 100-yard dash record at the Idaho State Indoor Invitational Saturday.

Turner, who won the 100 in 8.4 seconds, and also finished second in the 60 at 8.5 seconds and third in the 220 and 3:25.5.

At the same meet Molder Gill won the triple jump with a 54-8 leap and won the long jump at 23-4.

The world competition in New York City high jumper Reynolds Brown leaped 7-4 to capture the National Indoor AAU title.

Turner and Gill are part of the Mustang track team and Brown will be eligible to compete for Steve Simmons' squad spring quarter.
