Superior Court Judge Harold M. Muir and announced the mistrial at 2:46 p.m. (PDT) moments after the jury of seven whites and five blacks said it could not reach a verdict.

The panel, which received the case last Wednesday, was dismissed after being cautioned against discussing the case with anyone about anything that went on in your deliberations. 

The jury reported in its sixth day of deliberations it was "deadlocked on all nine charges."

In a note to the judge, the jurors said, "We feel it is vain to continue deliberating."

Judge Muir, after asking jury foreman Robert Gauthier why, said, "Because if the deadlock concerned both cases, decision was immaterial for the reason that the jury absolutely there will be a second trial."

The trial, the longest and most expensive in the state's history, opened Nov. 17 with jury selection. Testimony began March 18 and ended May 14.

The judge indicated that deadlock in the day in the second trial, he said.

The press was unable to reach a verdict on the panel resumed deliberations at the urging of the judge.

Residents from all over San Luis Obispo County are responding favorably to the call by the Veterans for Peace (VFP) to support a congressional bill to end the war in Vietnam by the end of this year.

Don Tutko, a member of VFP, said support, both morally and financially, has been "more than we expected." So far the VFP has received more than $100,000 according to Tutko.

The VFP were guests on KELY's "Where's On Your Mind" talk show last Friday. The program ran a half hour over and every caller was in praise of the VFP. When the show had to be ended, the lines were still busy. Last Sunday the VFP hosted a table at the Democratic Central Committee meeting at the Veterans Memorial Building downtown. They got a substantial amount of money and 80 letters pledged.

A rally is planned for college hour next Monday. The VFP to enlist support in the letter campaign.

Burt Tutko, said, added Tutko, "We have not pledged support to the congressional bill to end the war this year."

The Veterans for Peace is not affiliated with the Veterans Club on this campus. Officers for the VFP will be elected at their next meeting, which will be announced at the Thursday rally in Mustang Stadium.

The black caucus of the House of Representatives said yesterday at a press conference that Pres. Nixon had demonstrated, in responding to their demands, that his administration was "intent on justifying the status quo."

The black caucus accused Nixon pro status quo

WASHINGTON (UPI) The House black caucus said today President Nixon has demonstrated, in responding to their demands that his administration was "intent on justifying the status quo."

Ten members of the group gave their views at a news conference of a 115-page reply Nixon gave last week to their list of 60 demands aimed at bettering the life of Negroes and other minorities.

The caucus members said the Nixon reply showed the administration was not willing to commit the money and political power needed to carry out its own stated goals and programs for minorities.

"Time and again, throughout the 115 odd pages, the administration has shut off the possibility of new and we believe promising initiatives," the caucus said in a statement. "Too often it proposes no genuine alternatives at all."

The "profound threat of the administration's reply places one central fact in harsh perspective. National decision makers do not define the critical problems facing blacks, the poor, our youth and our nation in ways which may result in their solution and are not prepared to commit the necessary power and resources to achieve their own stated goals.

The answer, the caucus said, "constitutes less a response than a reply, couched predominately in the form of bureaucratic reports intention justifying the status quo."

Rep. Charles C. Diggs, Detroit, Mich., said Sunday Nixon's reply was "very disappointing."

**ASI budget vote tonight**

Editor:

Pete and I were elected two weeks ago in the largest voter turnout in ASI Cal Poly history. In our campaign we focused on the urgent problems facing us as students at Cal Poly and the programs our experience has led us to believe could best bring immediate relief of those problems. The election, as we see it, is a mandate by the students for these programs. In order to resolve the housing crisis we need a comprehensive student-run housing office to coordinate the cleaning deposit check, free housing office to coordinate the cleaning deposit check, checking and substitution service, instituting of the model lease, insure tenants rights, etc. To be able to enjoy your rights as a student and citizen, you must know them and the availability of a lawyer to advise and inform you is necessary to achieve this. President Kennedy has lawyers to advise him—are your rights any less important? How many students will be deprived of an education because there are no childcare facilities available? The present Cal Poly nursery is full and has closed applications for two years. These programs are part of the mandates for changes voted by the students two weeks ago.

NONE of these programs are going to happen, UNLESS something is done to change the budget for next year. Last year's ASI budget entitled the distribution of $800,000. This year it is even bigger. The funds come from the compulsory ASI fees you and I pay at registration. Which programs are enlarged and which are unable to continue or begin is determined by how much money is appropriated. What groups get money and how much money these groups get is decided by the Finance Committee and ASI prior to the spring elections. The budget for next year has already been planned—BEFORE the new ASI and SAC representatives take office or can vote.

The budget will be presented to the ASI next month. It is essentially the same as last year's and the year before. UNLESS YOU TAKE ACTION—come to the meeting and speak up—the changes you voted for this month won't happen. MAKE IT HAPPEN. Tues. Night: 7:15 p.m.

Marianne Doshi

**Veterans rejection of claims**

Editor,

I am writing this letter in response to a few inquiries that our club has received in the last few days. Chi Gamma Iota, campus veteran's club, is not in any way connected with the Veterans of Peace in Vietnam or the Vietnam Veterans for Peace. Chi Gamma Iota is a social and fraternal organization which was recently formed. Several veterans have asked us if we gave the Veterans of Peace the address and names of the members of our organization. We have not.

Chi Gamma Iota is a non-political club interested in the social and fraternal well being of veterans. The following month had been well received from the first quarter to as far away as Russia, began on a happy note with "American Overtones for Vietnam," a work which featured music from a variety of different cultures and was performed in the new College Union and It was also the first time the band had played a concert. The second section of the program was vincent Per- scheid's four movements: "Symphony for Band," the first one to be performed by the Symphony Band. "Firsts" shine through at fifth spring band concert

The fifth annual Spring Band Concert was truly an evening of "Firsts." It was the first time the American Overtones for Band was performed in the new College Union and It was also the first time the band had played a concert. Part Two

Jesus is back again.

Editor's Note: This is second in a three-part series dealing with the placement of the younger generation in Christianity.

By Paul Tenaschak

His hair is long and curly. His

name is Lonnie Shoemaker. He's a

love minister. Lonnie, a student at

Cal Poly Pomona, is a popular name

among the younger generation

(116,000) of 4,000 who were

baptized in Newport Beach last

year. The church where he is

ministering, Newport Beach United

Presbyterian, is one of the largest in

Orange County. The name he's

given himself is Right-On. His

message is known as "Love's Light."

We saw Right-On and Lonnie in

recent months and have been

interested in his message and the

effect it has been having on young

people.

Right-On says he saw himself

among the younger generation and

began to minister to them.

"I saw the younger people and

that's where I decided to focus my

efforts," he said.

Lonnie Shoemaker, 24, is one of

several ministers who have been

called to the 'underground church.'

He maintains that the church

movement is a "second generation" in

Christianity, separate from the

mainstream church.

"We're the younger generation of

Christianity," he said.

Lonnie Shoemaker was born and

brought up in a strict, fundamentalist

church. His parents were strict

members of the church and he

attended church weekly.

"I was born in a family that was

very serious about religion," he said.

"But I was a rebel from the start."

Lonnie Shoemaker was a member

of the Church of God, which he

described as a "strict church with

strict rules."

"I was always fighting against the

rules," he said.

"I was always fighting against the

rules."

Lonnie Shoemaker became a

Christian at the age of 16 and

attended California State College,

Fullerton. He was a full-time

student and worked as a part-time

minister.

"I was a minister for a year," he

said.

"I was a minister for a year," he

said.

Two passes from Oakland Raider quarterback candidate Don Milan to ex-Mustang quarterback Gary Abate proved to be the only margin that the alumni needed as they downed the Mustang varsity football team 18-7.

The Milan to Abate pass combination seemed a bit odd to some, as Abate as a Senior was the number one quarterback for the Mustangs during the 1988 campaign, setting passing records in the process, and then during the 1970 football season Milan to ex-Mustang quarterback Steve Bremahan and is then smashed by a group of alumni.

Milan to Abate passes subdue varsity in clash

The two teams battled through the first half of the game, with the varsity in charge most of the time. Twice in the first quarter and once again in the second quarter, the varsity, guided by senior quarterback Steve Bremahan, drove inside the alumni 10 yard line, only to lose the ball on two fumbles and a deflected fourth down pass. The only real alumni threat was halfback Abate, quarterback while his primary target was halfback Abate. Touchdown passes of 15 and 71 yards gave the alumni all the momentum they needed to take the victory in the annual spring contest.

Swim and track meets

Students will get their chance to prove themselves in track and swimming as intramural meets for the two have been scheduled, according to coach Dick Heaton, intramural director.

The track meet is scheduled for tomorrow on the new track and is to begin at 5 p.m. Sign up will be at the track at each event. Anyone who is not competing on an intercollegiate team is allowed to participate.

The swim meet is scheduled for June 2 at 7 p.m. at the men's pool and Coffee Station.

BATHTUB RACE

Strange sight flies downhill

Get on your mark. Get set. Go. Two super-modified bathtubs creep away from the starting blocks. The crowd starts to cheer. The bathtubs pick up speed, and we're off.

The scene is Avila Beach. The occasion is Greek Week's annual bathtube race.

Last Saturday, at 7 a.m. before the sun broke through the cool fog, bathtubs from seven of the fraternities from this campus coasted down Avila full tilt each before the winner was decided.

Each bathtube was to race against each other bathtub two times, and the bathtube with the most wins was the winner.

Delta Chi emerged as this year's first place winner, as they went undefeated in 12 of their 14 races. Phi Kappa Psi and Delta Sigma Phi tied for second place with 11 wins each, and Theta Chi was fourth with just 8 wins to their credit.

Although only tied for second place, Phi Kappa Psi turned in the fastest time for the 100 yard plus downhill straight-away, with a 2:58 clocking.

The reason that it is possible to have the fastest time but still not be the winner is that each tub races against another twice, once on the inside lane and once on the outside lane. The difference in the times is such that it is possible for one tub to beat another in one lane, it may not be able to duplicate the feat in the next race when it is in a different lane. The weight of the tub and body, the accuracy of the driver and many other things enter the picture.

These over-sized soap box cars come in many different sizes and shapes. But all of them have one thing in common, the bathtub, a car chassis, complete with wheels, tires, a steering system and hydraulic brakes. One of the tubs was constructed like a dragster rail, one or two of them are sitting in Volkswagen frames, and the others are on ordinary American-made frames.

If you missed the races this year, there is always next year to see them. Do see them, the whole thing is a fun...
