Budget hassle continues

by Richard Bocchetti

The budget for the 1971-72 fiscal

year is still undecided after Tuesday night's lengthy Student Affairs Council meeting. After four and a half hours of dialogue between students and SAC members, further discussion of the budget was postponed until next Tuesday night.

Newly elected Pres. Pete Evans and Vice Pres. Marianne Doshi proposed that the board cut $18,717 from the proposed budget so that those programs which they said to be of major importance to the student body could be put into operation for the start of next Fall Quarter.

The three programs cited by Evans were the establishment of a housing office, a legal aid center, and a day care center. Evans said that his and Mrs. Doshi's election was a mandate by the student body for these programs.

After hearing out representatives of the different groups the proposed cuts would effect, Ken Bruce of SAC made a motion that there be a four per cent cutback across the board for all SAC funded groups. Bruce later made an amendment to his motion asking all organizations which break even to be excluded from the four per cent cutback.

The four per cent cut was the amount of the budget Evans and Mrs. Doshi estimated would cover the costs of their three programs which they expect to run as high as $30,000.

Evans and Mrs. Doshi also asked SAC to override its bylaws which read a proposed program must take three weeks before it can be approved. Mrs. Doshi explained, "If we don't have those programs in full operation by next fall, many of the problems facing students will go unresolved. The Fall Quarter is when these programs will be of most help to the students."

"If the programs are not passed by SAC and the proposed cutbacks do get passed, then the money which is cut from the proposed budget will go into contingency. Once the money is in contingency, we would not be able to use the money until next fall quarter when the programs would be too late to really be effective for the students."

It was then moved and passed by SAC that the discussion of the budget be dropped until next week so that Evans and Mrs. Doshi would have time to organize and present to SAC the three programs which they expect to run as high as $30,000.

It was later announced by Vice Pres. Tony Turkovich that SAC would hold a special meeting on Monday night to consider "procedural matters and business other than the budget."

Turkovich explained, "The special meeting will let us take care of other business as well as enabling us to devote all our time to the budget on Tuesday night."

Senate rejects draft extension

WASHINGTON (UPI)—The Senate rejected a program on the draft bill yesterday, opening the door for a vote on legislation designed to create a volunteer Army in one year.

The members who extended the President's draft authority for 18 months were rejected by a vote of 67 to 3.

Administration supporters, backing a two-year extension, opposed the measure as did administration critics, who want to end the draft, or expand it, for a period of just one year.

The vote came as the Senate ended its third week of debate on the administration's controversial proposal to extend the draft bill for 18 months of UPI. The measure would also raise military pay and provide for a "deferment" of up to two years. UPI

The proposal passed photon here was the rec- doctor who was the head of the hospital in 1971. The dog, whose breed was a cocker spaniel, was shot dead on the job. The dog was 10 years old.

Letters to the editor:

Pinocchio vs. politics and firings

To Dr. Fred Rizzo:

After their escape from the stomach of the sleeping dogfish, Pinocchio says to his father Geppetto, who rides on his back during the swim to shore: "Through your skill in making me, I can see in the night as well as a cat."

They have sent you away Geppetto because your art is too great for them. They envy this, I think: That you touch a piece of wood And it becomes life; wood becomes bone, articulate. Xylem and phloem conduct honest living blood, not simple sap... Your skill has shaped Ebony and Balsa Into anxious listening ears, Eyes of perception and vision, The paternal Italian nose. Taste sufficient to recognize the sweet, from sour... The salt, from bitter... The savory, from unsavory...

And eloquent speech, voices of abundant sounds. Minds that reach out to touch with psychokinetic energy.

You have cut the cord with your mouth. That cord which was our anchor line... our reins... our tether... That cord which pulled and jerked and kept us more marionettes... That cord which hung us on a gallows like a deadwood mobile, clattering and jangling In gusts of hot summer wind... That unbridled cord which bound us secure in prison woe... now cut with the gift of life. They have sent you away--Papa Geppetto. Because your art is too great for them. They envy this, I think: that you have chosen for your lives work, obstetrics not mortician.

With love,
Somme P. Tolk

Fee logistics

Yesterday ASI President Paul Banke told the Board of Trustees that the educational system of the State Colleges is faltering as the result of overcrowded conditions.

Gov. Ronald Reagan thinks differently however, as his proposed budget would like to see some 70 faculty members absent from the ranks here next year. By some incomprehensible logic, the governor feels that colleges will work better with fewer bodies around to teach.

So now, the Senate Finance Committee is trying to meet the budget crunch by allowing students to take a $2 million of a $20 million budget addition for next year. This means that college is going to cost each student about $70 more next year in fees.

Another triumph for Reagan. He did not have to give in to the Democrats and raise taxes, (taxes, you say?). So instead of asking the public for the bucks in what is supposed to be a publicly-supported educational system, the burden goes to the student.

That is just beautiful. Where there was hesitancy on some college campuses about making voluntary—or abolishing altogether—student government, there may not be now. Students may have too much to pay for just their education and also pay for student government.

It would really do a lot for student unity. It would really do a lot for getting Reagan out of hot water—and putting the student in it.

The feeling of the 'shaft' is a universal thing

Editor:

While attending Tuesday night's S.A.C. meeting, it came to my understanding that Pete Evans wants to cut programs which he feels are on the fat side. Being involved with many student organizations on campus and treasurer of two ASI financed boards, I've got four basic questions I'd like to confront you and the student body with:

1) I would like to see an analysis of your services and the percentage of the people you would suspect are on the priority of existing programs.

2) Why don't you run your proposals like the Cal Poly Health Center; they have been successful.

3) Why don't you look into why existing programs have such high costs, such as the increase of food prices in the Cal Poly Foundation.

4) Why don't you cut the ASI officers traveling expenses and stay here at Cal Poly and donate your pay and time to your new proposals and then those of us who are giving up sometime might feel the same "shaft" in budget as you.
The ‘summer cold’—not a different animal

by Tom Fandrock

Warm sunny days, blue skies, and a blazing sun denote the passage of cold weather and the coming of the season called Summer Cold.

The summer cold, however, is "just another cold that happens to appear in the summer," says Dr. Billy Mount, director of the campus health center. "We see colds the year round, most frequently in the months of January and February."

The summer cold is a seasonal name for the "common cold." Mount says the common cold is just like your usual cold, except someone else has it.

Colds are highly contagious viral diseases and usually start with a sore throat, followed by shortness by nasal congestion, runny nose, and sneezing. "A cold is like a tug of war between the infecting bug and a person's resistance," Mount says. "This can be seen, the bug wins."

Within two days, Mount says, the infected person becomes miserable with eye irritation, hoarseness, and the usual nasal passages are worse. "The sense of taste and smell are then affected," Mount says. "Coughs appear as do muscular aches and pains."

When it comes to colds, Mount feels that each individual must be his own physician. "Physician help for the sheets being circulated around campus. Pete Evens and Marianne Doss are featured. Some students may have their tuition refund to them. The Patels Scholarly Association Scholarship passed in the 1970 state legislative session prohibiting state college from collecting any fees or tuition from the children of state government personnel or fumoners who are killed as a result of a performance of optional duties. College fees collected after November 23, 1970 may be refunded. Students who believe they qualify for a refund under the scholarship should contact the Registrar's Office, Adm. 109."

A recent development in the State System College is the establishment of a "visitor" enrollment status at colleges where a summer quarter is offered. Campus students in good academic standing can enroll for the summer at Cal Poly Pomona, Cal State Los Angeles or Hayward. Applications are available at the Admissions Office, Adm. 109.

Preceding for all students planning to attend Summer College will be held at 11 a.m. June 3. Locations are on the department bulletin board. Students who want their grades mailed to their home, should have a self-addressed, stamped envelope at the Records Office, Adm. 223.

The Journalism Department Pizza Feed Awards Banquet will be held at the Pizza Pantry on Thursday, June 3 at 6:30 p.m. More than 100 people have signed up so far. The free performance is directed by John Russell, and features John Jacob, and the Mouth and Jim Hall. Selections by Mozart, Monteverdi and Varese are featured. Some students may have their tuition refund to them. The Patels Scholarly Association Scholarship passed in the 1970 state legislative session prohibiting state college from collecting any fees or tuition from the children of state government personnel or fumoners who are killed as a result of a performance of optional duties. Intramural wrestling set

Yesterday the track men, under the wrestlers', intramural wrestling gets its last breath of life when the last meet of the year begins at 7 p.m. in the wrestling room upstairs in the Men's Gym. All those interested may contact coach Heaton in room 104 of the Men's Gym.

Feet and hands to fly at bodies with judo

If you are good in judo or wear Hai-Karate, then you are invited to enter the second annual judo tournament sponsored by the judo club of this college. Cost is $1 to all entrants. There will be three age divisions for the tournament: 12 years and under; 13-17 years of age and 17 years and over. In each age group there will be three classifications: white, brown and black belt.

The event will be held this Sunday at 5 p.m. and will be open to the public. All those interested in participating may contact Coach Pettas in room 319 of the Men's Gym.

Harper sees grid hopes with improvement in line

If the 1970 Mustang football team could rebound from a 6-4 tie with the alumni in the spring to the school's best record in 12 years, prospects for the 1971 Mustangs just may be out of sight.

In the windup to spring drills last Saturday the Mustangs were beaten by the alumni. Bystanders are wondering if the loss might heared a 4-1 or 4-0 after last fall's 9-4 mark.

After not showing much offense in the spring game a year ago Coach Joe Harper's club went on to rank third in the nation by generating 47 yards per game in total offense, ranked third nationally in scoring with an average of 27.5 points per game, and fifth in rushing offense with an average of 293.8 yards per game.

All Harper will say at this point is that "I don't think we'll be embarrassed on the field this fall. I'm not at all pessimistic about our offense but everything is relative. It's meaningless unless the defense is good enough to stop the opponent from scoring," Harper added.

In last year's spring game the alumni was limited to 13 yards rushing and 67 yards passing while completing five of 11 passes and having one intercepted. This year the alumni rushed for 11 yards and threw for 133 more. However, the alumni completed only eight of 24 passes last year.

Harper noted that his 1971 team "hasn't arrived in any particular area but we've made some gains."
