Tradition kicks the bucket

The main drawback to a student referendum on the budget during the Summer Quarter is the possibility of a vote being handed down from Pres. Kennedy's office, according to Pres.-elect Pete Evans.

There is a possibility of Kennedy exercising his veto power over a referendum on the campus that he may decide a vote during the Summer Quarter, because of minimum enrollments, would not be representative of the student body at large.

Donald Nelson, director of business affairs and the president's advisor to the ASI budget, said that the president has "no recollection, in 28 years I have been here, of the president ever exercising his veto over the ASI budget." On the referendum question Dr. Kennedy said, "I'd caution students and advisors to consider carefully actions which might be considered hasty and which in turn would create a reaction which itself could lead to nowhere but chaos.

The proposed budget for the 1971-72 budget, according to Evans, might be considered hasty and "I don't like people making the assumption that I have a 'secret sti' that's going to be approved by the SIC.

On the subject of a referendum on the budget said that he felt the housing proposal, as presented, has merit and agrees that the programs not be cut." said Martinez.

the legal staff of the Chancellor's Office has declared

SAC vote 'not back lash'

The defeat of the four percent contingency cut for the 1971-72 budget by the SAC this week was not a result of "electoral backlash" against the Evans-Ocando proposal, according to SAC member Joe Martinez. Martinez said that the vote against the Evans-Ocando proposal was not, "a personal vendetta, at least not on my part.

He said that many of the members of the SAC voted down the proposed cut by direct order from their council. He said this was because, "they felt that a further cut could not be made to a budget that had already been closely scrutinized and severely cut by the committee in their hearings.

Martinez said that a call was given before ratification of the budget for students to attend SAC meetings and discuss the concerning program funding.

The first meeting in the college auditorium was attended by 100 SAC members, the second meeting in the college theater, it was moved to the auditorium because of projected crowds, was attended by 300.

"Speaking in terms of mandate, the overwhelming majority of students in the audience defended their budget and asked that their programs not be cut.," said Martinez.

According to Martinez, it's easy to blame SAC for the defeat of needed programs. "The question is what do the students really want. The students who came out felt that the meeting wanted no budget cuts."

As for the alleged personal clashes and insinued used at the SAC meeting, Martinez said that it was not the case on his part. "Personal used emotions and innuendo to back their arguments directed at me," he said, "I didn't get involved with this type of dialogue, but kept to the issues at hand."

I don't like people making the assumption that I have a 'secret sti' that's going to be approved by the SIC.

"I've been consciously guarding the idea that this was a referendum, as presented, has merit and agrees that the programs not be cut."

"I've been consciously guarding the idea that this was a referendum, as presented, has merit and agrees that the programs not be cut."

Kennedy said that in carrying out this function as the person who provides final approval of the budget, he would look favorably on sound proposals which would provide at least a beginning step in the implementation of the new programs proposed by the new ASI officers.

The proposed budget, according to Kennedy, is complicated by the fact that the legal staff of the Chancellor's Office has declared.

SAC: voting in individual interests

This letter is written in response to Ralph Grossi's letter of June 2nd and in conversations I have had with other students during the past week.

A correction was phoned into Mustang Daily on Friday, May 28th. The correction, which I was told would appear in Mustang Daily on the following Tuesday, stated, "Bob Parks, Chairman of Finance Committee, was not a member of the Dairly Cattle Judging Team, but he had tried out for a position on the Livestock Judging Team (a position which Bob Schwab, Til stated, "Bob Parks, Chairman of Finance Committee, was not a member of the Dairly Cattle Judging Team, but he had tried out for a position on the Livestock Judging Team (a position which I, A 1, ^ § »■■■ ii «

I have had with other students during the past week'.

The point of my previous letter, which I still maintain, is that a conflict of interests exists in some of our A.S.I. committees.

Mr. Grossi implied in his letter that Pete and Marianne did not go through proper channels to obtain funds for their programs. The 4 per cent across-the-board cut, as proposed by Ken Bruce, would not give funds to programs that "do not even exist" but merely put additional money into the contingency fund.

According to the Financial Code 33c, Section I: "The purpose of contingency is to provide funds for these activities not budgeted or as unforeseen needs arise. Any group requesting funds from Contingency must meet requirements as set forth in Article VI, Section E of the A.S.I. Financial Code."

Section E states that any student organization or group, with a recognized code, shall have the privilege to submit a budget to Finance Committee. It also makes specific reference to judging teams, special music groups and the rodeo team. By putting additional funds into contingency, this would give new programs a chance next year (without having to wait until the 1972-73 academic year) to be initiated without a major budget overhaul.

In closing, I am truly sorry that some of my statements in my previous letter appeared "totally inaccurate" but I strongly feel that until members of S.A.C. and Finance Committee remove themselves from their own individual interests, the creditability of student government at Cal Poly will leave a lot to be desired.

Ralph Allen

The CSA is the largest recognized club on campus. This past year it has participated in the Homecoming parade, La Fiesta parade, College Union opening, various community events, a Chinese New Year show, Poly Royal, and special events at other state colleges. Next year a table-tennis and Mah-Jong tournament are being planned to supplement the sports department.

"unequivocally" that student body funds collected from mandatory student body fees can not be used to pay an attorney.

Kennedy cited Title 5 of the California Administrative Code as authority for the opinion. "It was to me that this issue sufficiently clouds the issue of legal assistance to warrant further study on the proposal and how such service might be obtained without conflict with provisions of Title 5," Kennedy said.

Kennedy said that he had not discussed his ideas with the new officers or anyone else to date. "My major concern is to provide as fair and equitable treatment as best I can to all groups so as to reflect the general interest of as many students as possible."

A referendum vote may also run one of two ways. It may be a vote to initiate a four percent referendum to the Student Affairs Council. Tony Turkovich, chairman of SAC, said that SAC as a body decides in which areas it can act.

ASI by-laws state that SAC may not act on matters under the jurisdiction of SAC except where a time element dictates an emergency state.

Evans will act as chairman of SAC with one representative from each school council comprising the board.

Evans said another important item to consider for the decision on a referendum is the question of "will the referendum be truly the most effective way to bring about a positive change?"

During the summer quarter the Evans-Doshi administration will act as chairman of SAC. Marianne Kennedy said that they plan to put a student housing service in hopes that it may be functioning by the fall quarter.

The student tenants association, Mrs. Doshi said, will be setting up training workshops for the summer quarter and recruiting volunteers for the service during registration..." Mrs. Doshi also said that their administration is forming a Task Force for the purpose of planning administration strategies and to investigate the avenues for setting up new programs, re-evaluate the present structuring of the ASI and formulate a program for overall change. "At all registration," Mrs. Doshi said, "we will ask that all students fill out a prepared survey form in order to see their funds spent in order to provide a comprehensive survey of student wants for S.A.C."

Top students honored

Phi Kappa Phi Scholastic Honor Society paid tribute to the highest academic scholars and students at its annual spring banquet.

In order to be eligible for membership consideration, juniors must attain a 3.4 overall GPA while seniors must present a 3.5 GPA record.

Dr. Edward Barker, new Dean of the School of Business and Social Science, who will take on his full duties in August, told the top academicians that "good students are not enough." A 4.0 must be input into a computer does not guarantee success. He also noted that "our information explosion is one of the greatest phenomena of the century which we have difficulty enough in understanding let alone controlling."

The top male and female upper classman scholar's were honored.

Daniel S. Joaquin, a Computer Science major, topped them all by amassing 196.5 units while attaining a 3.91 GPA after completing 184.5 units while pursuing his BA in English.

To get credit for any of these courses the student must:
1. Pre-enroll in the appropriate department by 5 p.m., June 11, consulting the instructor as necessary.
2. Acquire and read the required books thoughtfully this summer.
3. At Fall registration, register for three units of English 370X, Speech 370X, etc., for each course undertaken by this method and pay appropriate fees.
4. Take and pass the instructor’s course examination (which may be preceded by papers or other requirements at his discretion) by October 26, 1971.

When these steps are complete, the student will have his 370X credits; these may then be deviated for the appropriate English, Language, Philosophy or Speech courses. Requests for such deviations will be approved by the appropriate department chairman.

STUDENTS ARE RESPONSIBLE FOR ACQUIRING THEIR OWN BOOKS. Consult the department or instructor concerned for further information.

(Pre-enroll by filling out this form; tear here; present form to department or instructor concerned.)

Astrology

Sun, moon and the stars

The following is an Astrological Forecast according to your Sun Sign for the period beginning Friday June 4 and ending Thursday, June 10.

Aries (March 21 to April 20)—During this period you will achieve the greatest success by extending your knowledge, strengthening family ties, and keeping an open mind.

Taurus (April 20 to May 21)—Make needed changes in your budgeting and try to increase your income during this period and you will achieve great success. Seek financial advice if necessary.

Gemini (May 21 to June 21)—If you make decisions based on fact, display optimism and vitality, and take hold of your problems and solve them in addition to trying to become more likeable as a person, this period should go very well for you.

Cancer (June 21 to July 23)—You must start realizing reasons for past mistakes and begin sticking to a regular routine. Also, concentrate on surmounting oversensitivity and strengthening your faith, and things should go well for you during this time.

Leo (July 23 to August 23)—You will achieve greatest success during this period by choosing friends who can help you and letting others know your aims. It would also be helpful if you could become involved in community projects. This is a good time for increasing your income.

Virgo (August 23 to September 23)—Begin discharging your duties and responsibilities and developing new business tactics. This is a good time for you to accent the affairs of superiors and meeting influential people.

Libra (September 23 to October 23)—Try now to reach agreements with your relatives and let others know your beliefs. Remember, too, to heed the views of others. This is a good time to begin formulating a one-range program.

Scorpio (October 22 to November 22)—You should work now to restore your health and vitality. It would also be good for you to try to cooperate with co-workers, display resourcefulness, and try to balance your budget.

Sagittarius (November 22 to December 21)—Try to take an impersonal outlook on things confronting you now and things will go well for you. It would also be well for you to select strong partners, cooperate with others and listen to advice.

Capricorn (December 22 to January 20)—Work to improve your physical condition and bolstering your work efficiency by adapting new methods. You should try to be ready to help and serve others at this time especially.

Aquarius (January 20 to February 19)—Try to find outlet for self-expression where you can use your imagination. It would also help if you could begin seeing things in a new light. Now would be a good time for you to promote the interest of dear ones.

Pisces (February 19 to March 21)—Now is the time for you to begin laying the foundation for achievement and saving for future benefits. You should try to preserve harmony at all costs, and solve matters which have been pending for some time.
The Library exam, vacation schedules

The Library vacation schedule will start on Saturday, June 12 and will end on Wednesday, June 23. During this period the Library will be open from 8:00 a.m. to 5:00 p.m. Monday through Friday. During this vacation period it will be closed both Saturday and Sunday.

The book and periodical stacks will be closed to the public due to a major shift and relocation of services. The Government Documents Section, which will be moved to Room 36, will also be closed during this period.

In order to provide study space for students prior to final examinations week, the Reserve Book Room (Room 210) of the Library will remain open until 12:00 midnight on Friday and Saturday, June 6 and 7, 1971. Regular hours will be maintained during the period June 6-19 and, as usual, the Reserve Book Room will remain open until midnight. The Library will close at 5:00 p.m. on Friday, June 11.

An on campus NAUI sanctioned scuba class will be offered summer quarter. Sponsored by the Cal Poly Skindivers, the course will cost $35. It will meet two nights a week starting July 7th in Science B46 at 7 p.m. For further information contact instructor Gary Kirkland at 543-2541.

EL CORRAL
Gill eyes Olympics, then acting

by Terry Conner

With so many records to his credit, it is difficult to pick out the one that is the most significant. However, I think his most recent record, established at the Fresno Relays on May 8 of this year, is the greatest of his career.

Mohinder Singh Gill, a 23 year-old business administration major on this campus, made a leap of 55 feet-4 1/2 inches, his lifetime best in the triple jump event. The jump was the second longest jump on American soil, and only two feet short of the longest jump on American soil, held in 1969.

The jump came last December in the University Relays on May 8 of this year, is

However, I think his most recent record, established at the Fresno Relays on May 8 of this year, is the greatest of his career.

Mohinder is not only a good long jumper and also a 6-4 foot jumper. But now all of his concentration is placed on bettering his triple jump mark.

"I asked his coach, Steve Simmons, what made Mohinder such a great jumper. First, he is one believer in good athletics. Second, he is one believer in good competition. He is a born competitor. He just responds well to any and all of these things," continued Simmons, "he has tremendous pride."

I then asked Simmons if he thought that Mohinder could crack the existing world record (57-0 1/4) currently held by Viktor Saneev of Russia. "When Gill is healthy, and on a tangent track, I think he could break the world record. But there will have to be some good competition to force it to him. Whatever the competition is, Mohinder will jump just far enough to win." Simons continued.

"Yes, I think he could, but not at the same time as being a world class triple jumper. The two events require different abilities," explained Simmons, "and it is hard to do one of them well and then come back a short time later and do the other one well. In the triple jump, you use all of your energy to thrust yourself forward; in the long jump, you try to jump up and out."

Mohinder agrees with this theory wholeheartedly, but states it a little differently. "I like to triple jump more than long jump, because in the long jump, all you do is jump and land in a pit."

If Mohinder explained it a little too simply, Simmons was able to add credibility to the theory, "the triple jump takes a great deal of rhythm, coordination and strength, and as I explained before, you can't expect to be good in the long jump and then come back in the triple jump. Mohinder is looking forward to the 1972 Olympics. He will compete for India in his specialty. "All I want to do now," stated Mohinder, "is to win the Olympics, I think a jump of 56 or 57 feet will place in the event, but I hope no go over 57 feet before this season is over; and also again in the Olympics."

But before the Olympics roll around, Mohinder still has to face this year's NCAA College Division track championships, and if he qualifies, the University Division championships as well. He will also be around next year to compete for the Mustang track team.

I asked Mohinder what it would take to win at the NCAA championships this year. "I will take a jump of 52 feet to win at the College Division and about 54 feet at the University Division," Gill replied.

On the other hand, it may not take that long a jump to win, because if the competition isn't jumping that far, Mohinder won't jump that far. Mohinder explains it this way, "if I have good competition against me, I will jump good, if not I will jump just far enough to win. At the Fresno Relays, I was behind before I made my 55-1/4_jump," then he added, "I will win the NCAA triple jump and long jump in the College Division, and then triple jump in the University Division."

After the 1972 Olympics, Mohinder plans to retire from the world of athletic competition, and enter the world of competing for starring roles in the movies. According to Mohinder, India has the second largest movie industry in the world, and they don't have many good actors. So he is going to turn to the world of acting. Mohinder also claims that Indian actors make more money than actors in the United States. Mohinder went on to explain why he thought he would become a successful actor, "Dramatics have always been one of my favorite hobbies; also, when an athlete from India does real well in athletics, that athlete's name becomes a household word. We haven't had too many good athletes lately so now I am about the only athlete whose name is known all over the country. I have been the most successful athlete, from India, in over 50 years."

Getting the discussion back to the present, I asked Mohinder how he liked going to school here and also how he liked this area.

(Continued on page 4)
Three at Kennedy meet as rest prepare defense

Coach Steve Simmons is taking his stranded through the final stages before they defend their national title next week. The practices are important since Simmons is simulating the way the national meet is to be run to give his men the feeling of the pressure.

"We are going to run several of our practice sessions this week the same schedule as the nationals will follow at Sacramento State," Simmons said. "We'll run preliminaries, semifinals and finals just like they will in the nationals." While most of the Mustangs are taking a break from action, the "Big Three" of Reynolds Brown, Mohinder Gill and Bobby Turner will be in the Kennedy Games tomorrow at Berkeley. On standby will be the 440-yard relay team waiting for an opening.

Simmons is much pleased with Brown's efforts at Modesto. Brown did not have a miss until he had the meet won as his first miss came at 74\%. "That was a great series of series of series with no misses and over 7.3," Simmons beamed.

A week of rest has been prescribed for the Mustangs' slogging triple jumper Gill who has been bothered by a bruised heel ever since he went 58-3/4 and was accorded the outstanding athlete honor at the West Coast Relays in early May. "He'll last the feel at Berkeley and he'll jump only if there is no pain. We can't afford to go into the nationals with him ailing," Simmons continued.

Turner hopes to do better tomorrow after running "only" a 9.8 despite misreading the finishing line. Pondering the nationals which will be held June 11 and 12 Simmons said, "I feel that we're a darkhorse in the competition for the team title. It's a matter of how well our freshmen do in competition. Bennett (Swanson), Kineman (Ward), and Hame (Dave) will have to perform well and Slane (Mike) and Jennings (Bob) also will have to come through for us."

"We have a solid chance if the five men I've mentioned come through. I feel that we will hit our peak at the national meet. Our training and mental preparation has been keyed for this meet. We've been pointing for it all season." "I feel that we have the advantage in that our key people (Brown, Gill and Turner) are seasoned competitors. They've been involved in pressure situations against top competitors all year long," Simmons said.

Pole vaulter Mark Delitchman is now a national threat as a result of his lifetime best of 15-10 last weekend. Only the winner went higher in the 1970 nationals.

Superstar
(Continued from page 7)

He answered the two questions in one sentence, "It's good going to school here, and I like the climate here because it is good for living and working out, but money-wise I lost; I could have gotten a bigger scholarship and more fringe benefits elsewhere."

Mohinder is well known in the athletic world, but not many people know about his private life. Usually it is no one's business when it comes to someone else's private life. In the case of Mohinder, it is so interesting, and he and his coach don't mind discussing it.

"Mohinder is a very quiet person. Being 23 years old, he doesn't have too much in common with the 18 year old freshmen on the team, but he gets along with everybody. In fact, he is one of the four team captains (the other three are Bobby Turner, John Haley, and Tony Mitchell), but he is pretty much of a loner," stated Simmons.

After the 1972 Olympics, you probably will see Mohinder Singh Gill's name in the newspaper. But it won't be on the sports page. In all likelihood, you will be able to keep up on his activities by turning to the drama or movie reviews.
