You’ve heard of having eyes on the back of your head—but this is too much. Nevertheless, Fanny, an all-female rock group will be here Sunday to kick off the summer concerts.

Fanny here for ’weakend’ gig

by Pat Thorson
Staff Writer

Coming in on the tail end of the week this Sunday night will be a Fanny. Or rather a group of four that comprise Fanny, an all-girl rock band. Ryne’s Night, July 11, at 8 p.m. will be the beginning of the concert schedule set up by the Summer Program Board.

Although the four “Fannies” made their debut only two months ago at the Whiskey A-Go-Go in Los Angeles they already have two albums on the market, “Fanny” and “Charmy.”

The members of Fanny, June and Jean Millington, Alice de Buhr and Nicoel Carday, write and create most of their own music. Although they have not yet had a hit recording to boost their fame, the girls have used their talents to further the success of others in the music industry.

You are about to hear the music of Fanny and get your fill of go-go girl action.

For example, the bass, guitar and keyboard sounds helped Barbara Streisand reach the “Himself” and “Time and Love” singles are courtesy of Fanny.

Mira Barlick is featured in Joe Cocker’s “Mad Dogs and Englishmen,” and two of the “Fannies” helped produce the latest John Simon album.

The four girls, all in their early twenties, have widely varied backgrounds. Two are sisters who were born in Manila and raised in Sacramento. Another is from a farming family. The fourth is from the nation’s capital.

The concert will be in Chumash Hall of the College Union. Admission for college students is 75 cents; all others, $1.50.

A large audience is expected for this first summer concert so be there early. Tickets are only being sold at the door.

Apologies to you for being late. See you on time next Thursday. Thanks for your summer patience.

Farm House a new Greek life

Fraternities didn’t used to be the going thing on this campus. But they are slowly gaining a foothold—fraternities like no one has ever heard of back East.

Farm House is the second agricultural fraternity to be recognized by ASI. The organization has gained a seat on the Agriculture Council and is beginning to become involved in campus life. They sponsored the bucking barrel ride at the Poly Royal carnival.

Farm House members don’t sport Greek heather/glyphics on their sweaters. Their symbol of protection and brotherhood is found on a coat of arms. Pledging in this fraternity is by invitation only and acceptance is based on useful and constructive service projects for the community, school, and fraternity.

Largely for those who have an interest in rural life, this fraternity encourages scholastic as well as personal achievement. Farm House, though different in details from other campus fraternities (join them as they all seek to produce well-rounded personalities).

How would you like to receive a unit of general education credit before enrolling in a single class? This opportunity is being extended to approximately 1,300 freshmen entering San Francisco State College this Fall. The plan is a pilot aspect of new approaches to higher education that was proposed in January by Chancellor Glenn Dumke. Under the program, freshmen can obtain credit toward early graduation by passing a series of five tests. After passing the tests the freshman would be redesignated as a sophomore.

The tests are titled College-Level Examination Program (CLEP). They are developed by a nationally known testing service and cover these subjects: English composition, social-science-history, humanities, natural science and mathematics. A passing score in any of the subjects gives students academic credits that count toward meeting the college’s general studies graduation requirements. Students will not be penalized if they fail any of the tests.

This school will grant credit for satisfactory test scores but no provisions have been made by this college to administer or score the tests. This will probably occur in one year depending on the success of the experiment at S.F. State.

Streamlining the college curriculum according to Tom Dunigan, Committee chairman of the Educational Productivity Improvement Committee, is only one of many ways of improving the present college system. A staggered three-quarter program in which the student would attend three consecutive quarters and then be off one quarter is one possibility. Under this plan the college would become truly a year-round institution. It would also be much easier for administrators to predict the plan for staff positions, budgeting and class scheduling.

KCPR now on the air

The campus radio station, KCPR, has announced that it will continue operations throughout the summer quarter. Hours of operation will be limited to mornings and evenings according to Rick Knepp, summer station manager.

"Musical programming is going to be of a somewhat relaxed nature as a free-form manner will allow the disc-jockey to play whatever music they wish," advised Knepp.

Although no firm schedule has been established, the station will sign on at 7 a.m. At 10 they will leave the air until 4 p.m., when "Concert Hall" will be heard Monday through Friday.

New test idea for freshmen

Welcome. Or anyway, veterans: welcome back.

Somehow, I ended up with 38 typed-written lines to tell you the things they usually do in Editorial Number One of college weekly summer publications. My main goal will be to tell you how nice it is to have so many of you here for the first time of your lives, and so-o-o-o-o many of you here for the last time. But it’s 6:15 of the night before you picked up this paper from one of the boxes, and I’m very tired, missed my handball class this afternoon and haven’t fed my face since this morning. Anyway, we the staff of Mustang Daily—Whether Weekly, would like to take this opportunity to welcome you to or back to California State Polytechnic College—Branch SLO.

Whatever the reason that finds you here—it all goes down to this—you’re here and you might as well make the most of it. Our goal, as your mouthpiece for the summer, is to be your mouthpiece for the summer—and from that perspective—to do all we can to make your weeks as enjoyable as we possibly can.

We ask for your contributions—be it club activities, dorm functions; or simply just information concerning what’s happening outside of the college. And yes, moms and dads, we will try to put into print your progeny’s letters to the editor. Hopefully, as space and sound budget permits, the summer Mustang will attempt to whip into page two print your summer headlines, opinions, dorm functions, or simply just information that you’ve got that you want to share with 4099 others.

As we get our gears rolling by quarter’s end hope to come out with a sparkling clean paper akin to the New York Times or the San Fran—never mind. We hope to print the news as you deserve to see it. Period. We also hope that you can truly have an enjoyable summer and that you can truly have an enjoyable Summer in SLO. It’s going to be a good one Hallelujah.

Avilla Livery Stables
on the road to Avilla Beach over 30 horses to choose from.
Frank Eppard—Jr.-HUMAN—Not a thing really. My wife supports me.

Barbara Harris—Sr.-English-Money. I have very little. I don’t have a job. I’m counting on my parents. My mom has to work part-time and she shouldn’t be. The rent’s due, old bills and the whole bit, but it’ll all work out.

Cathy Hampton—Pr.-Aero Eng.-Till it gets over with. I’ll really be glad when it’s over with.

Fred Nils—Jr.-EL—Money

Paul Haney—Jr.-EL—Same thing as Fred. Money.

Money—I’m lonely—nothing—having a baby—Money

Cathy Vesta—Speech, but I’m going to change it. I’m not worried about anything. We haven’t met anybody to get involved with. All the guys here are hard-up. They’ll take anything.

Jay Yuma—Pr.-Anit. Husbas-There’s not very many girls here. It doesn’t make you feel very good if the boys will take anything.

Fred Casper—Jr.-Social Science—Having my baby right in the middle of class. Not in the middle of class but before classes end. It’s due September 8. The biggest worry really though is whether my water’s going to break in class or not.

Anna Marie Emery—Gr.-Edna—I’m worried about pollution. Did you hear today that all the beaches up North were closed because of pollution? My son is a senior in the English department working on his senior project and I’m worried about my son’s senior project.

Bob Kebet—Gr.-Ed—I don’t have any worries. You worry as much you grow out of it. If you’re excessive in anything— you know.
The ol' working scene: bleak but not that bleak

by Malcolm Stone
Staff Writer

Money—and how to get it—is usually one of the biggest problems facing college students. When scholarships, grants, and loans fail, a job may be the solution to financial ill.

In a time of high unemployment and a deflated economy, a job becomes difficult to find. Add to this the impact of summer job seekers from high school and Vietnam veterans and competition for employment becomes stiff.

But insights of this, all is not gloomy for the Cal Poly students and his or her spouse. The campus Placement Office in Administration B3 could be the answer.

"It's a great service, and you don't have to go running all over," said Eugene A. Rittenhouse, director of placement and financial aid. "It's a very easy office to get to and people who are looking for work should come here."

Rittenhouse said his office has most of the jobs listed downtown and all of the jobs on campus. All campus departments hire students through the campus placement office, and a check downtown revealed that agencies there very seldom have part-time or odd job listed.

Carol Somers, manager of the local Department of Human Resources, said his office does not get many part-time or short-term job listings.

"High unemployment could cause competition between adults and students," he said.

He also said students tend to pass on part-time jobs to friends. That is if someone knows he is leaving a job he will usually tell his employer and at the same time recommend a friend for the position.

"Basically, young people are getting more adept at looking for work earlier," Mr. Wadstrup said. "They are doing a great job of getting their own jobs."

He said his office is also in contact with the campus placement office to arrange interviews between students and employers.

George Shreve, owner of CENCO Employment Agency, said most of his placements are female. "My placements are 90 per cent female students or student wives. Most of them are student wives," he said.

Shreve said very few part-time jobs come into his agency. He said his busiest times are late June and July then just before quarter breaks. The reason is a lot of people quit their jobs so they can go home or on vacation.

Shreve also works with the campus placement office on occasion to fill a particular job. "The hardest job to get is the part-time job that just fits you," Mr. Wadstrup said. "The easiest job to get is the plain old odd job."

"We want to encourage the community and the college to call us, because we have students who can do anything. Our job is to get students and employers together."

The office has filled part-time and odd jobs like secretaries, clerks, accountants, painting, window washing, busboys, and gardeners. He said one of the most interesting calls he has had was for a bean stirrer several years ago.

The procedure for registering for part-time work in the placement office is simple. As you enter the office on the left is a desk where the various jobs are listed by number on yellow five-by-eight cards. They are classified as male, coed, student wives, and miscellaneous.

After selecting a job listing you move to the part-time desk run by Carol Somers who will interview you. If you have the requirements for the job you are given a referral card sent to the employer.

A student can leave a card on this listing his or her skills, and when a listing for that particular skill comes in the student may be contacted if time allows.

"The hardest job to get is the regular part-time job that just fits the student," he said. "The easiest job to get is the plain old odd job."

"We want to encourage the community and the college to call us, because we have students who can do anything. Our job is to get students and employers together."

Resources, said his office does not get many part-time or short-term job listings.

Governor Ronald Reagan's veto is cutting deep into the statewide Educational Opportunity Program Budget, shaving $32.5 million allocated by the Legislature to $17.4 million, co-director of EOP at this school, said his program was hard hit, with only $8,000 allocated for the 1971-1972 academic year. He said 48 first-year students only will receive $100 grants per year from the state.

"This means more National Defense Education Act Loans and federally guaranteed loans, work study, plus any other part-time employment that students can come up with," he said.

According to Martinez, a ten per cent cutback on staff funding will mean less student assistance in counseling and tutoring, two important aspects to the program. He added that the success of EOP is reflected in the academic success of the students in the program. "The only saving grace we have is the $1,000 from the Associated Students," Martinez said.

Buildings—No! Students—Yes!

In late November 1968, a report was published on the campus entitled "The Impact of Increasing College Enrollment on San Luis Obispo." It's author, Eugene L. O'Connor, then an instructor in the Business Administration Department, worked long and hard on his 41-page document. He wrote in the preface that "the knowledge that California State Polytechnic College had an obvious impact upon the community but not knowing to what extent, spurred me on to make this study."

One college administrator called it "the most extensive report of its kind" but added that "it was obsolete before it was published."

O'Connor's report, while figures obsolete or not, points to graphic language to the pertaining problems caused when a college has to overtax itself.

Those directly faced with what to do about the problem are, of course, the college's administration. But it's the students and teachers who have to work through the increased classroom capacities by more than 30 per cent, and take on the responsibility of financing construction of facilities necessary to bring the college to the 12,000 capacity level, was rejected by the state's voters.

The efficiency boys in Sacramento dug for an answer. Their solution, much to the dismay of both teachers and students, provided that more evening and Saturday classes be taught. This would increase classroom capacities by more than 30 per cent.

Presto! A college originally designed for 8800 students now teaches 12,000, without the addition of a single building.
Do own thing,’ but get involved

by Jeanne Wills
Staff Writer

If you are going to school this fall, or maybe you’re just speaking to your future self as a graduate. Or maybe you just have nothing better to do. Whatever your reasons for being here, you are not alone. There are other unfortunate sharing the same fate. You may have to find your way around the campus like others before you. You can climb out of the drudgery of being in school to the heights of some of the finest things in the world.

The campus offers a wealth of opportunities for students. From nightlife to outdoor activities, there is something for everyone. Whether you are interested in movies, speakers, or other events, there is sure to be something that suits your fancy.

For those of you living on campus, it may be tempting to get off campus and explore the area. But you will think twice about spending your hard-earned money on transportation and other expenses. People in the organization drive so the transportation cost is low. Miss Griffin encourages anybody who is interested in going anywhere to come to the meetings held each Tuesday at 7 p.m. in CU 220 and offer suggestions.

You are a student and you have choices. Do your own thing, but get involved. According to Jim Dewing, chairman of the Students Tenants Association (STA), the group sees itself as a gathering place for students. They have meetings every Tuesday in CU 220. Called "Students Rights and the Law", the lecture series will feature local lawyers speaking on topics such as contracts, legal rights and how to make sure you’re getting them, and landlord-tenant hassles and blessings. Last night, Richard Carpel gave an introduction to the legal system. Next Wednesday, Jon Jenkins will speak on "Formation, Performance and Breach of Contracts."

If diving is your thing you can get in on the local action with the Poly Skindivers who have their own compressor. According to club president, Jerry Fortherry, the club is scheduling weekend dives in Santa Barbara, and the Monterey Peninsula, as well as local dives. A big attraction of the club this summer is the scuba class being offered, which costs $35, provides all equipment, and aims at introducing the student to scuba diving. The 24th Annual California Physical Education Workshop will be held August 5-13.

Six workshops ready

This campus will again provide facilities for a number of summer workshops beginning this month. Most of the workshops are open only to those people working in the related fields, and are sponsored by outside organizations and this college. The California Chapter of the American Institute for Accountants will have a workshop from August 23-25. The California Association of Accountants will have a workshop from August 23-26. The California Association of Photographers Association and the Journalism Department will run August 5-13.

Dennis Scott is a photography buff and is working here on an enlargement.
Students aid schools

Not every student enrolled on this campus goes to school here. Some go to school in Monterey, Salinas, Paso Robles, Santa Maria and Lompoc. They go to first grade through high school all over the central coast but they're not regressing to childhood. They are student teachers from the Education Department.

The student teachers from this campus spend a semester working for a school in cooperation with a teacher in a particular class. They teach, give tests and help the regular teacher grading. Once a week, they meet with a resident instructor from this campus to discuss problems and talk about what they have experienced with fellow student teachers.

The coordinator of the student teaching activities here, Richard Jones, says schools located out of the San Luis Obispo area are benefiting from these students. They can be found in schools as far south as Ventura. This college produces a larger number of teachers each year as the need for their help increases in California communities.

Bookstores and Sundry Store hours are 7:40 a.m. to 4:30 p.m. on Mondays through Fridays and 8 a.m. until noon on Saturdays said David Roberta, Assistant Manager.

The Student Directory has been moved from its old position in the Administration Building to the lobby of the Julian A. McPhee College Union.

Extinct tribe paid honor

by Brian McGulness

Not long ago there lived among the rolling hills, coast, and valleys of San Luis Obispo a people who were considered the most advanced of any Indian tribe in California. Although they were not a very cohesive tribe, they shared enough common traits and language with their neighboring villages as to be identified as a family of intelligent, industrious and generally peaceful villages that encompassed the area from present day Ventura to the narrow coastline a few miles north of Morro Bay.

The people called the "Chumash" no longer exist. They are completely racially extinct. It is near impossible to find a person today who can claim even half blood ties to the Chumash even though at one time there were as many as 8,000 to 10,000 of them living on the central coast. The fact that the people are extinct is a paradox. They were once the most populous tribe of Indians on the coast of California. Their food supply was as bountious as the Pacific Ocean that they fished. Their intelligence and mechanical astuteness was above all other peoples in this area in the state of California. After a few years of rule under the Spanish it became apparent to the Chumash of the fate that was in store for them. Their future, in the pursuance of the old ways, was dim. These intelligent people chose genocide rather than life under the white man—slow extinction over servitude. Indian women began side-scale abortions. The Indian nation stopped growing, and what the Indians failed to do the white man's diseases helped accomplish.

Last month the Julian McPhee College Union multi-purpose room was renamed "Chumash Hall" in honor of the vanished people. This three part story will cover some of the unique attributes of the Chumash people. The Chumash first, became known to the white man in 1643 when Juan Rodriguez Cabrillo sailed among the Channel islands and along the Santa Barbara coast. He encountered the Southern Chumash and found them to be very friendly. He observed several villages which consisted of many dome-shaped communal houses. The large boat could accommodate 80 to 90 people and were known in many ways. They were partitioned into rooms which contained several platform bunk-type beds supported by posts. This hotel type arrangement usually housed 8 to 10 families. A common fire was in the middle of the hut for all to use. The present day Mustang Village housing complex is the site of an old Chumash permanent settlement.

These people were the only New World Indians to build planked canoes. Lacking big trees for dugouts, the Indians split planks from driftwood. The planks were shaped and smoothed by hand. The frameless boats were called at the seven seas with a natural asphalt found on all central coast beaches. These fast, light canoes ranged in size from 13 to 25 feet in length and held a crew of from two to 13 fishermen.

Amateur auditions

The Summer Programs Board is sponsoring a series of four Sunday night "out-of-doors" Coffee Hours. The "Concert under the Stars" programs will be featuring amateur talent from Cal Poly and the community. Auditions for the concerts will be held this Tuesday night, July 13, at 7 p.m. in the Mustang Lounge of the College Union. If you're interested but unable to tryout Tuesday, contact Pat Modica at 544-0990.

There are openings for all types of folk entertainment, singing or playing. Interested persons are urged to audition.

Students, pros
to do ‘Fiddler'

The Pacific Conservatory of the Performing Arts, opera last summer season July 7 with "Fiddler on the Roof" in Santa Maria.

It is the only professional students' repertory company of its kind on the West Coast. The conservatory is an outgrowth of Hancock College's drama department. It consists of 18 professional actors and drama students.

The Pacific Conservatory concept is unique in that it brings the professional directors and artist together with talented students from more than 50 colleges and universities west of the Mississippi River. It requires a work day beginning at 9 a.m. and ending at 11 p.m., seven days a week.

Too many people have gotten into situations where they need a lawyer, or have to go to court and don't really know what their rights are or what to do. The SFA, a student chapter of the San Luis Obispo Tenants' Association realizes the binding situations that people get into, so they are sponsoring eight more forums in the internet of informing people of basic law and legal procedures.

The first forum coming up will be Wednesday, July 14, 7:30 p.m. Speaker will be Jon Jenkins, Deputy District Attorney, who will speak on the formation, performance and breach of contracts.

Forums will be held in room 220, U. C. U. building.

The best pizza in Town

For ALL of your shopping needs.
Strange rumors of a massive gathering filtered through San Luis Obispo the week preceding the fourth of July—open invitation, twenty kegs of beer, live music, free dinner, a lake and more. Distributed flyers explained that Steve and Bill Bryan had planned a Fourth of July celebration to be held at the Carrizo Ranch, located approximately sixty miles from San Luis.

Sunday, the Fourth, brought a new day and new hassles to the Carrizo Ranch gathering. It seems that many fun-loving party-goers jumped the gun, somehow and showed up Saturday planning to camp out and possibly make the planned one day gig into a three day affair. Open fires and open gates proved to put the owner on a "downer." The celebration was almost halted by a thoughtless few. Some fast talking kept things open to the public, however, the reported twenty kegs of beer were never released for consumption.

The scene at noon on the Fourth was picturesque. A small lake about half the size of a football stadium nestled between barren hills and rocky slopes was the setting beside which two large hay trucks were in place and the bands began to set up. Three hundred or so people were on hand. This number had doubled by dinner time.

Following some generator problems the music beginning with records started. After the bands "got it together," Mother Ball, Sarah and The Pump House Gang provided a variety of sounds.

As the shadows grew longer and the Carrizo Ranch guests grew weary from swimming and extended frisby contests, a pit barbecue was into the making. Fixing meals at home doesn't make it Having meals fixed like home makes it Try dining at Stenner Glen this summer. Whatever you live, relations come around three times a day, it can be an awesone experience or it can be a drag, it can be inexpensive or it can empty your money bag, but it can be a way to have your cake and eat it too. Try us for tease one of Stenner Glen's four new meal plans and add some style to your price. Mom will be glad you did.

Local joggers hit the beach

One of the highlights of the Fourth of July weekend was the six-mile beach Fun Run from Morro Bay to Cayucos. The forty-two runners ranged in age from 10 to 54 years old, and were from as far away as Napa and Los Angeles. All forty-two runners covered the full distance, each at his own pace. The first runner to reach the Cayucos pier was Jeff James of San Luis Obispo and a graduate of this school. His winning time of 33 minutes and 48 seconds improved on last year’s fastest time by 18 seconds. Joe Dabit and Paul Cummings, both of Santa Maria finished second and third with times of 34:06 and 34:31 respectively.

Cheryl Bridges, wife of men’s physical education instructor Larry Bridges, finished first of the ladies contingent and with a time of 37:47 which put her in tenth position overall. Another representative of this school in this race was Dean Everett Chandler who runs regularly for conditioning.

Trophies were awarded to all finishers. The next six-tie Fun Run, which will be August first, will start at 11 a.m. behind the boy’s gym.

There will be no meetings or dues, but there will be fun, exercise and new friends. Possible future activities would be after-race picnics, historical rides and cross-country racing. Future rides will be alternately leisurely and non-leisurely. Some destinations include the San Luis Obispo County Airport, Avila, Cal Poly, Montana de Oro, Cuesta College, Pismo, Morro Bay and Lopez Lake.

The next ride will be to the vicinity of the airport on July 17, 1971. Call Larry Squier Sr. at 444-2877 for further information.

Students attending school this summer have until July 14 to purchase their student health card according to the Health Center. The price is $8 and purchase insures the student of medical treatment for any illness or mishap he may incur during the summer quarter.

The Health Center is run similar to a private physician’s office with each case being handled individually by a doctor. This summer’s lower rate, the regular school year rate being flat per quarter, is due to the Health Center being classed as all other facilities, including the laboratory and X-ray service, are open, and any illness/condition requiring hospitalization will be transferred to the community hospital.

While there are no automatic treatments doctors will give careful attention to such maladies as cysts, allergies, emotional problems and con-

Cyclists to tour San Luis area

Bicycle riders of all ages and abilities are invited to ride together on Saturday, July 10.

The ride will begin at 8:00 a.m. at the old Mission. This first ride will be an easy, leisurely ride around San Luis Mountain. The route will follow these streets: Broad, Foothill, Los Osos Road, Madonna Road, Higuera, Marsh and Chorro back to the Mission Plaza.

A sag wagon will be provided for those bicycles which break down.

Rodeo men rank tops

The Cal Poly Rodeo team took top honors at the National Rodeo Finals in both team and individual events held June 11-14 at Boxeman, Montana.

Cal Poly team members competing were Jerry Coles of Phoenix, Ariz., Melvin Dick of Las Vegas, Ore., Larry and Ken Ferguson of San Martin, Bill Freeman of Baker, Ore., and Jim Ingram of Haines, Ore.

After winning the Regional Championship, which it has won every year since 1966, the team went on to take the National Team Championship with a score of 536-251 over Black Hills College of South Dakota. The Cal Poly Rodeo Team previously held this title in 1966 and 1970. Cole also won the Individual National Championship Calif Roper title.

Low cost Health Aid

The Health Center is open from 8 a.m. daily with a number of students at the door.

Students who think of quality first think first of Ross Jewelers

Alpha Zeta names head

Tony Turkovich, 1970-71 ASI vice president, will serve as chairman of the Cal Delta Chapter of Alpha Zeta, a national honorary and service fraternity for agricultural students. Turkovich is a senior agricultural engineering major, serving with Turkovich will be Paul Etchechury, censor; Ray Chavers, scribe; and Clint Moffitt, treasurer. Also, Sean O’Brien, chronicler; William DeRaa, representative to the student agricultural council; and Phil Robbetti, sergeant-at-arms.

Anderson in other capacities in the group in 1971-72 will be James Armarli, Herdbook editor; Steve Anderson, newsletter editor; and Howard Saiguer, speaker’s bureau.

— Thursday night movie doesn’t make it! For a little mellow-off-campus scene try a coffeehouse. (Yes, Virginia, San Luis Obispo does have one.)

The name of the place is the Bridge, and it’s tucked neatly away in a corner of a building next door to an ivy-covered church downtown. 963 Marsh St., to be exact. Across the street from the post office.

Eight months old now, after a one-month rest, the Bridge is reopening at 8 p.m. tonight. It will be open again the Saturday night, and every Thursday and Saturday thereafter, until it can find a place of its own where it can be open up to four nights a week. (If you have any suggestions of a location, give Director Craig Osborne a call at 543-5481.)

The Bridge is a non-profit Christian coffeehouse which was founded last fall by Craig Osborne, as his senior project. It features local entertainment, speakers, and lots of talk.
