Dlm hope is predicted

by TONY SANTOS

A dim ray of hope for San Luis Obispo County's future environment was presented to an audience Friday night in the Sanchez Auditorium of the Los Osos High School. The speakers were Dr. Thomas Richards and Dr. Richard Eisele, both biology professors at the University of California, Davis.

SAC agenda

The bill that would change the structure of the Elections Committee will be considered by Student Affairs Council (SAC) Bill 71-2 would enable each school to choose two members to sit on a SAC special committee for general election of the members.

Lawyer sought

by ASI officers

A corporate lawyer should be an essential part of the Associated Students, Inc. (ASI) according to senior ASI officials Pete Evans and MarLEN Doehl.

Drug problem

approach given

At the Project 9 meeting Thursday night, Eglash, who was working the ASI computers, said, "I've noticed the parent using bribery to get the child to quit using drugs, but the child talking to the child in taking prescribed drugs.

Herbducks recalled

The President also said U.S. air power would be continued in Southeast Asia along with the residual ground forces unless there is a negotiated settlement of the war at the Paris Talks. The new withdrawal schedule calls for 15,000 men to leave Vietnam in December and an additional 20,000 in January.

While not specifying how large a permanent force he was considering, the President declared, "I do not get a negotiated settlement, then it is necessary to maintain a residual force."
Who has the right?

Editor: Mr. Bethel's pro-abortion stand seems to hinge on whether a fetus, or an idiot for that matter, conforms to his view of human life. But is it Mr. Bethel's or anybody's right to judge the value of another being's life? He can make no decision on another individual's mental capabilities then it is time we reassess the true value of life. The value of life cannot be determined by a being's mental production but it must be determined by our right to exist, regardless of our mental or physical qualifications.

Judicial action appealed

Editor: We hereby appeal to the Advisory Commission the Student Judiciary's decision and directive of Nov. 2, 1971 on the following grounds:

(1) No where in the official records of the last meeting of the Student Judiciary for the academic year 1971-72 is reference made to the following definitions: that of prominent posting.

(a) The court did not make public such definition if agreed to privately.

(b) Such definition was requested prior to the 8 November 1971 SAC meeting. Request dated 6 November 1971, and 8 November 1971.

(2) No where in Student Judiciary code is the Student Judiciary empowered to make a retroactive directive.

(a) Directive of 2 November 1971 is retroactive and therefore unconstitutional, (invalid)

(3) The directive is discriminatory.

(a) Only groups who use accepted custom of approval of codes and bylaws for the year 1970-71 were affected.

(b) No where is reference made to clubs approved prior to this period of time.

(4) Codes were approved by required committees and councils by previous SAC of academic year 1970-71.

(a) Prior to or upon approval student judiciary has authority to make approval on the legality of all new or changed codes or bylaws.

(b) Affected codes have been approved prior to academic year and therefore do not fall into this category.

(2) For reasons of relief, the named organizations compiled with Student Judiciary's regulations of contemporary period and met all criteria. To force them to undergo the procedure a second time would involve an unjust and unwarranted hardship upon named organizations.

(4) Innumerable problems will result if Council is forced to revert to their old codes. (eg. electing SAC reps from the Council rather than from the school at large.)

Prepared now

Editor: Singers from throughout the county are asked to mark 2 p.m., Sunday, Nov. 31 on their calendars as the date of the first Messiah rehearsal this year. The rehearsal, as well as the final performance on Dec. 12, will be held at the Unitarian Universalist Church in San Luis Obispo. Child care will be provided each time.

The director for the economical performance will be Jon Wood. Participants must be able to read music, are the prerequisites for participants. Proceeds from the performance will benefit a local scholarship foundation that aids needy students. The Committee in charge of the Messiah production consists of Rev. Joseph S. Loughran, Jon Wood and Mrs. Lillian Warnske. Thank you for your help and assistance in this matter.

Rev. Joseph S. Loughran

Mariner 9 set to orbit Mars

Passadena (UPI)—Mariner 9

served in on Mars with unprecedented accuracy Friday
photograph the planets frontsouth polar cap before spinning
into orbit late Saturday.

A 18-minute 20-second firing from a small rocket motor
started at 7:37 a.m. EST will slow the probe enough to place it
into the orbit of the Martian gravity. Mariner 9 would become
man's first satellite around another planet.

Two Russian spacecraft five
times as heavy are also
approaching Mars, but they are not
expected to arrive for at least another
week. U.S. observers
discern the Soviet probes will
first test out and then possibly
attempt landings. Mariner 9
meared the end of its curving 346
million mile, 17-day journey
from Cape Kennedy with ac-
curacy unmatched by any
previous American planetary
probe. It will raise its own
orbit above Mars by only two
miles.

Action to keep recreation
off the terminal reservoir at White
Rock will be the subject at a
meeting of the San Luis Obispo
Pure Water Association today at
10 a.m. in Room A of the County
Courthouse Annex on Palm
Street.

Mrs. AmyArsenio, a member
of the association, said an issue
has arisen over the proposed
fishing plan near Cayucos at
Whale Rock, which provides
drinking water for the city of San
Luis Obispo, Cuesta College,
California Men's Colony, and this
campus.

Peaceme Corps VISTA

by MARSHA BYRNES

Peace Corps and VISTA
recruiters visit this campus
today through Monday to in-
terview possible volunteers for
the two programs.

The Peace Corps, VISTA,
and five other volunteer groups
were merged by Presidential order
on July 1, creating ACTION, the
nation's only national agency
offering both a domestic and
international volunteer service
program.

The merger has considerably
widened the volunteer oppor-
tunities for seniors and
graduate students from this
campus in that there are over 700
various job programs available
in over 100 countries, either
in this country or overseas.

Next Delege, a former poultry
advisor with the Peace Corps in
Iran, said that highly specialized
volunteers with degrees or
backgrounds in agriculture,
industrial arts, math, and science
education are needed in both
programs. He also noted that
there is always a need for ar-
chitects, city planners, and
engineers.

"We always place the liberal arts graduate or a volunteer with experience in
farming, big skilled trades, public health, construction, or business," Delege said.

In addition to Delege, the Peace Corps and VISTA representatives include former
volunteers Richard Niethara, a graduate of this college, Jim
Carpenter, Peace Corps ex-
tension specialist in El Salvador, Jim
Jenkins, VISTA com-
mmunity development and health
care worker. Also on campu-
set will be Larry Leah,
who supervised construction
work in Sierra Leone and Pat
Jones, a vocational education
instructor in Chile.

Revelations

Group revived: to advise SAC

by MARSHA BYRNES

The Associated Students, Inc.
Advisory Commission, an old
board, has been revived on this
campus. Likened by ASI
officials as being equivalent to a
campus "Supreme Court," the com-
mission must be reappointed
each year.

Evans said the 13-member
commission considers any
matter referred to it by student
government or college Pres.
ness.

The Advisory Commission
was composed of eight students, two
faculty members, and two ad-
ministrators. Evans said the
eight students must be elected by
their school councils, but must not
already be representatives to their
councils.

The Advisory Commission
meets the first time Wed-
nesday at 7 p.m. in Evans office.
For this reason Evans said
students interested in serving on
the Commission should make
their wishes known to council
members.

The Mechanical Engineering
Department will have their first
Poly Royal organization meeting
Monday at 11 a.m. in lab room 201.
Films of last year's projects
will be shown, and plans for
upcoming projects discussed.
Refreshments will be served

Mustangs nip Gauchos

by STEVE GALE

The Mustang football team evened its record for the first time this year when it beat the University of California at Santa Barbara County 27-13 Saturday night.

The Mustangs won their fourth game of the season before a disappointing crowd of 3,250 at Mustang Stadium.

A Santa Barbara field goal was the only score of the first half that saw possession of the ball change.

The Mustangs started the second half with a scoring drive from behind victory in the second half when they scored a field goal with 7:19 left in the third period capping a 59-yard drive in 13 plays.

The next time they got the ball, the Mustangs marched 63 yards in eight plays. Tallback Darryl Thornes finished the drive with 3:57 left in the third quarter on a five-yard run for a touchdown that gave Poly a 9-3 lead.

Poly reached the Gauchos yard line early in the fourth period and sophomore tailback Mike Foley fumbled the ball.

The Mustangs had two other opportunities when they reached the Santa Barbara 15 yard line and later the 22 yard line, but they lost the ball when they ran out of downs both times.

Thornes was the leading ground gainer in the game as he carried the ball 27 times for a total of 165 yards.

Plane crash

A four-seat passenger plane carrying three football coaches from Cal State Fullerton crashed in the Santa Ynez mountains Saturday night killing all three coaches and the pilot, according to the Santa Barbara County Sheriff's Department.

The coaches were escorting the Mustang—U.C. Santa Barbara game.

The Gauchos later reached the Poly 38-yard line where they fumbled and then the Poly 17 yard line where senior tailback Randy Palomino threw an interception into the end zone.

The Mustangs won their fourth game of the season before a disappointing crowd of 3,250 at Mustang Stadium.

A Santa Barbara field goal was the only score of the first half that saw possession of the ball change 14 times.

Call Poly scored, the come-from-behind victory in the second half when they scored a field goal and a touchdown.

The Mustangs gained all of their 345 yards by rushing as they were unable to complete a pass in five attempts. All of the Poly pass attempts came in the first half.

Both teams had trouble holding on to the ball. Poly fumbled five times and threw two interceptions while Santa Barbara fumbled twice and had three passes intercepted.

The Gauchos took the opening kickoff and marched to the Poly 40 yard line where Tony Venimiglio failed on a goal field attempt. The Mustangs then advanced to the Santa Barbara 27 yard line where Matt Cavanaugh threw an interception.

Mustang junior punter Mike Amos fumbled the ball on a punt attempt late in the first quarter to set up Santa Barbara's lone touchdown.

The next time they got the ball, the Mustangs marched 63 yards in eight plays. Tallback Darryl Thornes finished the drive with 3:57 left in the third quarter on a five-yard run for a touchdown that gave Poly a 9-3 lead.

Poly reached the Gauchos yard line early in the fourth period and sophomore tailback Mike Foley fumbled the ball.

The Mustangs had two other opportunities when they reached the Santa Barbara 15 yard line and later the 22 yard line, but they lost the ball when they ran out of downs both times.

Thornes was the leading ground gainer in the game as he carried the ball 27 times for a total of 165 yards.
