French customs make record heroin seizure

Marxist, France (UP)—French customs officials today seized 935 pounds of heroin aboard a fake shrimp boat believed to have visited U.S. ports earlier in the year. They also seized anywhere of dangerous drugs aboard the boat. The seizure is enough to supply all cocaine in the United States for a month.

New naming is undecided

The two words are "UH" and "WH". Concerning this campus naming rule, the University of California, Los Angeles, in the fall of 1978, is a university that is representative of the student body. According to Lachlan Macdonald, the acting Dean of Students, the change in the name of the present state system from California State Colleges to California State University and College System.

The Dorm Congress will last three days. The meeting will be held in the dormitory. The members of Interhall Council are automatically voting delegates to the Congress. For more information, contact the names of petition holders in Room 117 B, or the STA.
Issue out of proportion

Editor:
This is the first time I have felt the need to write to the Mustang, but I feel that I must reply to Mr. Haygood's article on March 1. The issue of Mr. Shaw's request for funds has been blown way out of proportion. I fail to see how refusing to fund his trip will result in our excellent wrestling team's depression or sudden slip into mediocrity. The information would arrive in A.L.O. if Mr. Shaw does not attend the matches. There would be a certain time lag—granting. However, I don't think a substantial fraction of the student body wants the news as soon as it happens, at

least not at the expense of $68 of A.L.O. funds.

I would appreciate further response from the silent majority of students who pay the most and get the least out of their fees. I'm tired of small fractions of the student body getting most of the funds because they are the most vocal. Speak out. Until such time see no need to reconsider my actions.

B.A.C. Rep., Frags. & Tech.

'Don't be victimized!'

Editor:
How many of you have been victimized by life insurance companies in B.E.L.T. I have, and I know of others! It's been going on for years here—in fact many of the salesmen are former Cal Poly students, some of these were well-known lettermen! Sort of like our faculty landlords, a more personal approach to student rip-offs! The Cal Poly way? What is the administration doing? Nothing!

Anyway, I have collected much exciting information about these clowns, from ignoring our policy of restricting the use of the card catalog to outright consumer fraud. We have a lawyer now—put him to work for you—come to the A.L.O. office with a written statement of your problem. A student here recently won an $18,000 counter suit against one of our local insurance groups—something to shout for! Let's get it together now; all you have to do is send me a summary of your experience with any life insurance company in the area, put your legal name on it and we'll all have it all we need. Get it on now, and watch the fireworks.

Pete Evans

McGovern will provide government for people

Editor:
Having been on countless marches, vigils, teach-ins and several radio and television programs to protest the war in South East Asia and the draft, I see the draft extended for two more years and the war continuing with bombing escalated in Viet Nam. One trillion dollars of our taxes have been spent since 1964 for nuclear overkill, over-extended military commitments and soaring "defense" costs. According to SANE, "The Pentagon employs 330 lobbyists on Capitol Hill. These 330 lobbyists are controlled by the American military-industrial complex which will dictate the plans of the government.

We should know the voting record of George McGovern vs. other candidates for presidential nomination. He has consistently voted for allocation of funds to military installations for "national security". The only way we can turn the country around, in my opinion, is to vote the government out and replace it with peace candidates.

A hand vote on the expenditure resulted again in SAC approval. Evans withdrew the vote.

Another travel expenditure was brought before SAC concerning the National Student Symposium on the Presidency. The expenditure had failed last week by a vote of 13, yes, 4, no, and 6 abstentions. He rescinded it, but Lager observed that a reconsideration be taken since SAC had failed previously that there had been insufficient interest in the symposium.

He presented Mike Randolph, the student chosen to attend the symposium, who in turn read two letters of recommendation in his behalf as to why he should attend.

Lager moved that the air fare from Contingency be approved and the motion passed with 11 yes, 8 no, and 6 abstentions.

Other items of business concerned a warning to students by Evans to be on the watch for possible "rip-offs" by local insurance companies. He said that past healings of students by such companies had been labelled by All Corporate Lawyer Richard Cord as a "blatant example of consumer fraud."

All Finance Preston Marianne Doshi presented Jim Smith, a major in agriculture, as her appointment for Election Committee Chairman. She gave a brief background on each after which SAC members questioned him on his qualifications before approving him.

Bylaws for the International Fraternity Club and Economics Club were unanimously approved by SAC along with an acceptance for consideration of the Gay Students Union and the Bicycle Club Code.

U.S. facing gas shortage

Washington (UPI)—George A. Lincoln, director of the Office of Emergency Preparedness OEP, said Thursday U.S. gas consumers face rationing and higher prices as result of the nation's serious gas shortage.

In effect, we are moving toward a gas rationing system by categories," Lincoln told the Senate Interior and Insular Affairs Committee, which Thursday wound up a series of public hearings on national gas policy issues.

"Time is running out on our energy situation," Lincoln said. "There is, in the near horizon, a shortage of gas which will cause curtailment or at least threat of curtailment."

He told the committee this gas shortage "will also inhibit access to gas supplies on the part of potential new customers."
Baseball here with Pomona

The Mustang Baseball team, coming off three impressive victories over Pullman State, opens a tough league series with Cal Poly Pomona today at 3 p.m. here at Poly Field.

The locals, who hold an 8-2 overall record and a 5-0 Calif. Collegiate Athletic Association record, will send southpaw Dennis Root, 5-0 on the year, against the Broncos today.

Pitching the doubleheader on Saturday will be righthander Mike Krukow (4-0) and southpaw Joe Nigro, 2-2.

In last weekend's games against the Indians, the pitching staff, headed by Coach Berdy Harr, were magnificent in the three game series. In 18 innings of play, the staff only allowed an amazing one run in the series. In the past four games the staff has lowered their ERA to an impressive 1.30.

Surprisingly, Coach Vaughn Hitchcock is not as pleased as he might be expected.

"With definitely not our strongest lineup, but it's the best one we can field at this time. I regret having to leave such fine wrestlers as Joe Nigro, Denny Johnson, and Frank Luco at home."

Lucio was eliminated Tuesday in a double-elimination challenge match that placed Pete Farmer in the spot at 177, Farmer, an NCAA

Rugby match

The San Luis Obispo Rugby Club will host Eagle Rock in a match this Sunday on the campus soccer field at 1 p.m.

Jan Urich led the locals to a 26-0 win over Irvine last week when he scored two tries. San Luis Obispo is tied with the Los Angeles Rugby Club for the league lead. The team has a record of 8-3 and has won the last five matches in a row.

Cage playoffs for intramurals

Intramural basketball playoffs will begin Sunday and continue through next week with the finals on March 18. Play begins at 1 p.m. and teams are reminded to check the bulletin board outside of Coach Dick Heaton's office (MPE 104) for the draw.
