For the fifth consecutive year, the Mustang wrestling squad has won the National Collegiate Athletic Association College Division Championship. This year’s competition was held at the University of California in Los Angeles.

Three grapplers qualified for the national tournament, meeting the criteria of winning their weight classes. Glenn Anderson was the Mustang’s sole champion, Larry Morgan took runner-up honors and Allyn Cooke placed third.

The second place position in team score was shared by North Dakota State and Northern Iowa, who scored 111 points with nearly 80% of their score from student body funds. Morgan finished fourth with 89 and Carson rounded out the top five with 84.

Kennedy said he hesitated to make the procedure more cumbersome, because he realized the Speakers Forum would have considered various aspects of a proposed speaker’s appearance on campus before making any decision.

He added, however, that “since I am being held responsible by the trustees for the prudent use of student funds in this and other areas of ASI activities, I would like to have the approval of the SAC for any speaker receiving more than 5600 for his appearance at the final.

Anderson was top-seeded,ooking to defend his title as a junior at Slippery Rock to reach the top at 141. The Mustang had jumped to a 5-4 lead in the second period and weathered two separate comeback attempts by the third.

Pioneer exploring space

Pasadena (UPI) — Pioneer 10, the Jupiter-bound spacecraft, completed two critical maneuvers — testing thrusters and turning on its “earth pointing system” — early Sunday, the National Aeronautics and Space Administration announced.

The “Conscan earth pointing system” will keep the spacecraft’s radio signals pointing toward earth when it is a billion miles from earth.

ASI HAS 'LOST US' Expenses taken lightly

Editor:

Last Tuesday I attended Pete Evans' and Marianne Doshi's "Get Back to the People" Rally. I sat there for the first half hour listening to some guy talk about the T.O. situation which was a waste of time because T.O.'s really do not have anything to do with ASI. I finally decided I had enough and spoke out about three serious problems hampering the students on this campus financially.

First, I asked Mr. Evans (Mrs. Doshi forget to get back to the people cause she didn't show up) what he was doing to help students suffering from the "textbook hassle". All he could say was that he was aware of the problem and the problem would be worked out because the Bookstore Advisory Committee is doing something. The real truth is that the Committee is doing nothing! I have spent the better part of this quarter compiling a survey on the test problems with an officer of the Committee on our own time and have yet to be contacted by any member of the ASI Gov't.

I also asked Mr. Evans if the ASI Gov't. is doing anything to battle the issue of the parking citation money which totals some $60,000 per year that goes to the County instead of Poly. The reason it by-passes-Poly is because a small interest group from cities in the County have blocked a bill that would funnel the money back into the college system. Evans said again that he is aware of the problem. It seems to me that the corporate lawyers could be put to use here. After all, we are paying him a few O's a year so he can help us.

Last but not least, I asked Evans about the Day Care Center because I don't want to pay for someone else's kid. Evans said, "Then why should we have football?" Well, only a few can use the Center and everyone can watch football or any other sport on campus. Plus, how much money will the Center make as compared to sports?

SAC member explains his negative 'Shaw' vote

Forum

How many extra expenses will the students be stuck with because of the Gov't? What will the students pay if there is a tuition added to Poly? The reason Evans and Doshi must hold a "Get Back to the People" rally is because somewhere they lost us.

Rep. Martinelli

Forum conflict grows...

(Continued from page 1)

She pointed out that the Speakers Forum code and the ASI bylaws have "built-in safeguards" for democratic quarterly reports on campus speakers required by a resolution of the Board of Trustees on Sept. 23. The report must include all outside speakers whose individual payments for fees and expenses amount to more than $25.00. This campus has already described the procedures to be followed in implementing the speaker policy now in effect for all state college campuses. An important aspect of that memorandum was the format for quarterly reports on campus speakers required by a resolution of the Board of Trustees on Sept. 23.

Students needed for program

Hospital work is offered

An opportunity to obtain experience helping others is being offered at a hospital. Work is being offered in conjunction with the San Luis Obispo County General Hospital on a volunteer program. In the program, volunteers will work with patients and provide extra help for the nurses.

According to Malone, volunteers are accepted from any major. Application forms are available in Science North or Mrs. Shannon can be contacted at 544-1400.

Speaker control sought

Pete Evans opened the Student Executive Cabinet meeting Friday by announcing Chancellor Glen B. Dumke will give a talk on Founders Day, Tuesday, at 11 a.m. in the main gym. A vote was taken to "get adequate controls on selection of campus speakers that receive payment of student fees, and that all appropriate personnel be notified." The amendment passed unanimously.

Philosophy 202 has been replaced by Philosophy 220 (Traditional Logic) and Philosophy 221 (Modern Logic). A list of guests to be featured on the fall semester will make the final choice next month.

The two Republican contenders for President Nixon's job, running in Tuesday's New Hampshire primary, said Sunday they have failed to be a good president because "you can't believe what he says anymore."

Rags John Ashbrook of Ohio and Paul McCloskey Jr. of California, running in the Republican national primary where Nixon is considered to be the overwhelming favorite to win, agreed that Nixon has "almost totally abandoned the principles of the Republican Party" since his 1968 election.

They appeared on CBS's "Face the Nation," Ashbrook speaking from Boston and McCloskey from Washington.
Monday, March 1, 1971

**Wheals of the Gamas from Cal Poly Pomona.** The Broncos took the first game on April 2, but the locals fought to take the next two games by scores of 14-4 and 10-1.

In the first game of the series, Bronco pitcher Roger Fedorun limited the Mustangs to five hits as the locals suffered their first league loss of the season.

The Mustangs, led by Dave Oliver's four hits, won on a 15-hit barrage in the second game of the series as they romped to victory. Pitcher Mika Krukow, who won six innings before tiring, gained his fourth win of the season.

In the third game of the series, the Mustangs combined fine defense and clutch hitting on route to a 10-1 victory. Pitcher Lee Chen, who hurled an outstanding five-hitter, gained his second win of the season.

The Poly nine scored first as Oliver singled, was moved to second, and scored on a long single to left field by Redin.

With the score only 7-4 through six innings, the Mustangs broke the game wide open in the seventh inning as they scored four runs in the frame. They loaded the bases on a walk, an error, and a hit batter in the inning. Dan Marple, who had homered in the first, followed with another walk to force in a run. Oliver added his third of four singles to score two more runs. Marple scored the fourth run in the frame on a ground out.

In the second game of the doubleheader, the Mustangs started the winning rally in the bottom of the seventh inning. Gary Knuckles, who had two hits in the first game of the doubleheader, started the winning rally with a double.

Knuckles moved to third on an error and scored when Jerry Raffety, who had been blanked in the first game, delivered a clutch single to win the game.

After the series, Coach Augie Garrido said, "We urged the bats well in the first game of the doubleheader. However, we made a lot of little mistakes, due to the inexperience of some of our players."

Anyone who happened to pass through the CU Plaza last Thursday during College Hour may have noticed some strange activities taking place.

In addition to the normal scene of sleeping students and wandering dogs, students were seen performing such feats as rocking the cradle, going over the falls and around the world.

No Virginia, it wasn't a TO. It was the First Polyannual Yo-Yo Tournament sponsored by the Recreation and Tournaments Committee (RAT). The contest ended in a tie for first place between John Danaher and Bob Harris.

The contestants were judged on the execution of the afore mentioned stunts plus a vertical and horizontal loop-the-loop and one optional stunt of their own choice.

Danaher received the great responses from the crowd when he performed "The Dog" and let his yo-yo bite him in the leg, and Harris received many oohs and aahs for his double horizontal loop-the-loop with two yo-yos.

Other contestants were Patrick Johnson, John Torres, John Bush, and Eric Molecules. Judges were John Blanks and Larry DeShaner with Gary Dunn as commentator.
