2834 GRADS AT JUNE 14, 1975 COMMENCEMENT

Degrees and certificates will be conferred on 2,834 candidates when Cal Poly holds its 69th annual Commencement at 3:30 pm on Saturday (June 14) in Mustang Stadium. That number includes 303 candidates for master's degrees, 2,486 candidates for bachelor's degrees, and 27 candidates for technical certificates. Also included in the total are 18 candidates who will receive degrees with double majors. President Robert E. Kennedy, who will confer the degrees, will also introduce best selling writer and journalist, Adela Rogers St. Johns, who will deliver the Commencement Address. Mrs. St. Johns will also meet with the public to autograph copies of her books at the El Corral Bookstore at 3:30 pm on Friday (June 13). In the intervening days, members of the graduating class will be busy taking final examinations, picking up their caps and gowns, and bidding adieu to their friends among the university's faculty, staff, and students. More than 1,500 graduates and members of their families and friends will take part in the annual Senior Barbecue to be held at 6 pm on Friday (June 13) in Cuesta Park.

At 8:30 am on Saturday (June 14) the Cal Poly Reserve Officers Training Corps will conduct a ceremony during which graduating seniors who have also completed the ROTC program will be commissioned as second lieutenants in the U.S. Army Reserve in the Cal Poly Theatre. Special awards and recognition will be given to members of the graduating class at the Senior Brunch at 10 am on Saturday, also in Chumash Auditorium. Deans, department heads, and other university administrators will serve as waiters. Immediately following the brunch, the Senior Class will plant a tree on the campus—a tradition begun in 1906. Honor graduates, with a cumulative grade average of 3.5 or better, who are in the upper eight percent of the graduating class, will be initiated into Phi Kappa Phi national honorary society in a special ceremony at 1 pm on Saturday in the Cal Poly Theatre. Commencement day will end with the Senior Ball for the graduates and their families and friends on Saturday evening at Madonna Inn in San Luis Obispo.

U.S. SUPREME COURT UPHOLDS 73-74 PAY DECISION

Donald L. Shelton (Director, Personnel Relations) has announced that word was received from the Chancellor's office that a decision favorable to State employees has been rendered by the United States Supreme Court in the matter of salary increases withheld in 1973-74. California State University and Colleges employees are now eligible to receive the retroactive salary increases withheld in 1973-74. The support staff classes affected are those whose authorized increases in 1973-74 were greater than the 7½% limitation imposed by the then operative Federal Cost of Living Council. Further information indicates that warrants for the increases are expected to be available for pickup by 4 pm on Friday (June 20). A separate check will be forthcoming at a later date reflecting accrued interest.
FEE WAIVER PROGRAM FOR SUMMER QUARTER

Forms are available in the Personnel Office to enroll in either work related or career development courses under the fee waiver program for Summer Quarter. Employees may be eligible to participate in this program subject to the following guidelines:

1. Be a full-time permanent/probatory employee. This excludes part-time employees and temporary (those in limited term appointments for less than one year) full-time employees as well as Graduate Assistants and Student Assistants. Employees in employment categories funded from sources other than California State University and Colleges, such as Foundation, ASI, and Comprehensive Employment and Training Act are not eligible to participate in the program.

2. Be enrolled in a work related course (or courses) that is part of an approved career development program. Eligible employees working full-time may have fees waived for enrollment in no more than six quarter units.

3. Be approved for courses by immediate supervisor, dean, division head and Director of Personnel Relations. Fees for courses taken through the Continuing Education Program (Extension Courses) may not be waived under this program. The following fees may be fully waived: application fee, identification card fee, student services fee (formerly material and service fee). The following fees may be reduced to $1.00: health facilities fees, student body association fee and student union fee. All other charges will be at the regular rate. Additionally, the application fee may be waived if you are enrolling for summer quarter at this time.

To apply for a waiver of University courses for Summer Quarter 1975, full-time employees should: (1) pick up fee waiver request form #133 and Individual Development Plan form #135 in the Personnel Office, Administration Building, Room #110, and (2) complete both forms and return to the Personnel Office after obtaining necessary supervisory signatures as soon as possible. With Summer Quarter approaching, it is imperative that these forms be completed and returned to the Personnel Office as soon as possible. For additional information, contact Robert M. Negranti (Staff Personnel Officer) at Ext. 2236.

FALL CONFERENCE THEME: "A TIME OF CONTRASTS"

A Fall Conference program with the theme of "A Time of Contrasts" has been approved by President Robert E. Kennedy for the week of September 22 through 28. Beginning with departmental meetings at 8:15 on Monday morning (Sept. 22), the conference will include a general session at 9:45 a.m. with recognition of distinguished teachers, outstanding staff, new emeriti, and others, followed by a keynote address to be delivered by President Kennedy. A complete and detailed schedule of the Fall Conference will be mailed to all faculty and staff members early in September.

SUMMER WORK HOURS ANNOUNCED

For the seventh consecutive year, President Robert E. Kennedy has approved the working hours for this summer as 8 a.m. to 4:30 p.m. with one-half hour for lunch. The modified hours will be in effect from Monday (June 16) to Friday (September 19). In cases where an employee needs to take an hour-long lunch period, the supervisor may approve an 8 to 5 workday. However, in the interest of following a uniform policy, it is expected that all offices will be officially closed for business at 4:30 p.m. Supervisors and department heads should be reminded of their responsibility that employees, under their jurisdiction, fulfill an eight-hour day and a forty-hour week.
"Unless some unforeseen problems develop, we can expect to obtain the Cal Poly Life Science Building," Dr. Robert E. Kennedy told the President's Council on Monday (June 9).

The $6.25 million building, which had been omitted from the 1975-76 state budget with other CSUC projects at an earlier date, has now been restored to both State Senate and Assembly versions of the budget to be considered on the floor of the Legislature. The budget measures, supported at committee levels of both houses and by the Legislative Analyst and State Department of Finance, virtually insure the proposal's success. Dr. Kennedy said he expects Governor Edmund G. Brown, Jr., to support the allocation for the building once the measure passes the Legislature.

Also meeting with Legislative support is a budget item which will provide $75,000 to provide working drawings for the Faculty Office Building. The inclusion of the augmentation item in the budget at the committee level resulted from a state-level policy recommendation of the Department of Finance and Legislative Analyst recognizing the critical shortage of permanent faculty office spaces at Cal Poly. Funds for remodeling Crandall Gym were omitted from the budget in the Legislative process, apparently due to increasing remodeling costs.

In connection with other facilities matters, E. Douglas Gerard (Executive Dean) reported that all faculty to be moved for next fall will be advised this week. He said accommodations have been designated for all faculty members. Included in the facilities will be 15 relocatable units, which will begin to arrive later this week, with all units to be on dispersed campus sites by the end of July.

President Robert E. Kennedy has accepted with one exception the report of the Ad Hoc Committee to Study Steady State Enrollment and Staffing "as an interim guideline to be followed at least until the local Academic Senate has agreed to a long-range policy and procedure on steady state staffing." Indicating that the guideline should be considered as a source of planning factors when determining school and departmental future staffing requirements, Dr. Kennedy noted that he did not feel it necessary at this time to establish a requirement that a minimum of ten percent (10%) of FTE faculty positions (on a school or departmental basis) be filled with part-time or temporary faculty. Rejecting the concept of a nonflexible minimum to be applied across-the-board to all schools and departments, Dr. Kennedy has substituted a goal of from 5 to 15 percent of total FTE faculty positions in part-time or lecturer appointments, depending upon the perceived future staffing needs of each department. He asked each dean to review all programs and plan future recruitment in a manner which permits adjustment to sudden declines or other possible shifts in enrollment with the least hardship on continuing faculty.

He also referred the Ad Hoc Committee Report on Steady State Enrollment and Staffing to the recently-appointed Ad Hoc Committee on Equal Term Enrollment for its information and consideration during its deliberations. Dr. Kennedy noted that, since the initiation of the study on Steady State Enrollment and Staffing last year, two significant problems have been the lack of capital improvement funds to provide new classrooms and office facilities and necessity of observing an enrollment ceiling of 13,800 FTE students for the next three years. The problems are complicated further by declining student enrollments in certain fields, both statewide and at Cal Poly. Dr. Kennedy said he expects fluctuations in enrollment between fields to be a continuing problem under the controlled enrollment condition which Cal Poly will experience for the next three years and so has established the Ad Hoc Committee on Equal Term Enrollment.
NEW HEAD APPOINTED FOR HOME ECONOMICS

Appointment of Harry J. Busselen, Jr., of Mt. Pleasant, Mich., as head of the Home Economics Department has been announced by President Robert E. Kennedy. Presently chairman of the Department of Home Economics at Central Michigan University, Dr. Busselen will assume his new duties at Cal Poly on Sept. 1. Carl C. Cummins (Dean, Human Development and Education) who recommended the appointment said the new department head was approved unanimously by the department faculty from 69 applicants. Busselen will succeed Patricia Saam, who has been acting head of the department since last September. Saam, who had agreed to serve while a search for a department head was being conducted, will return to her former assignment as a member of the Home Economics Department faculty.

A native Californian, Dr. Busselen is a graduate of Vallejo Junior College, California State University, Sacramento, and Florida State University, where he completed study for his Doctor of Philosophy Degree in 1970. He has also taken graduate courses at University of Oregon. Before moving to Central Michigan in mid-1970, the new Cal Poly department head taught at Florida State, Southern Oregon College in Ashland, and Lodi High School. Before that he was a civilian employee of the U.S. Air Force at McClellan Air Force Base near Sacramento.

Dr. Busselen, 38, was instrumental in a far-reaching revision of the home economics curriculum at Central Michigan which resulted in the addition of course options in child development, dietetics, family relations, food and nutrition in business, food service administration, interior design, and management and consumer education. The author of several professional papers, he has been a speaker and participant in a number of regional and national professional conferences on home economics, family relations, gerontology, and home economics education.

Since joining the Central Michigan faculty, Dr. Busselen has served on university-wide committees involved in career development, vocational education, women's opportunities, and external degrees, and for the past year has been chairman of the university's curriculum committee. He has also been active as a consultant on home economics education, child care services, and career development to the Michigan State Department of Education, several community colleges, and other community and university organizations.

FACULTY AND STAFF AWARDS ANNOUNCED

President Robert E. Kennedy has accepted the recommendations from the Distinguished Teaching Awards Committee of the Academic Senate and the Personnel Committee of the Staff Senate regarding the respective faculty and staff awards.

From the faculty three individuals have been recognized as distinguished teachers. They are: Peter Jankay (Biological Sciences), Josephine S. Stearns (Child Development), and George J. Suchand (Social Sciences).

From the staff four persons are recognized as outstanding staff employees. They are: Arthur Young (Power Plant), John Lee (Director of Food Services), Gerry Wagner (Dairy Barn), and Robert B. Baldridge (Theatre Manager).

Formal recognition of both faculty and staff members receiving awards will be made at the Fall Staff Conference on Monday (Sep. 22).

Typewritten copy intended for the next issue of Cal Poly Report must be received prior to 12 noon on Friday (June 20) in the Public Affairs Office, Adm. 210. Copy intended for Dateline is due in the Public Affairs Office by 12 noon on Tuesday (June 10).
AERO ENGINEERING GETS NEW HEAD

A man credited with a number of new developments in aerospace design and the first new development in golf ball design in over 50 years, has been named to head the Aeronautical Engineering Department. John D. Nicolaides, current president of A-E-R-O, a research and development company with offices in South Bend, Ind., and former department chairman and member of the faculty at University of Notre Dame, will begin his new duties at Cal Poly in September.

President Robert E. Kennedy said the new department head will succeed Charles P. Davis, who asked to be returned to full-time teaching after having been head of the Aeronautical Engineering Department for the past 13 years. President Kennedy said appointment of Dr. Nicolaides was recommended by Robert Valpey (Dean, Engineering and Technology) and by a committee of tenured members of the department's faculty. The selection committee had the task of reviewing the applications of more than 80 candidates for the position and interviewing a field of 10 finalists.

Dr. Nicolaides, 52, has achieved nationwide recognition over the past four years for his design and development work with the parafoil, a flexible wing or air foil which can be folded and stored for later use like a parachute; the Aero-Irish Flyer, an experimental aircraft; and the Uniroyal Plus-6 golf ball. He is currently involved in tests of two parafoils measuring 80 feet long and 40 feet wide for the U.S. Air Force. The largest flexible air foils ever built, they are being tested at a USAF base in Utah. Both the Aero-Irish Flyer, which Dr. Nicolaides describes as an entirely new aircraft design, and the Uniroyal Plus-6 golf ball have received attention on nationally televised programs.

While at Notre Dame from 1964 through 1974, the new Cal Poly department head was credited with establishment of the Department of Aerospace Engineering, which he headed for five years. During that time the department grew from 60 undergraduate and 3 graduate students to over 300 undergraduate and 60 graduate students. Before that, Dr. Nicolaides spent three years with NASA and more than eight years with the U.S. Navy's Bureau of Ordnance. While with the space agency, he was involved in program and financial management of unmanned satellites, launching rockets, and the agency's university program. During his tenure with the Navy's Bureau of Ordnance, he spent three years as technical director of the entire Navy Space Program and was involved in research programs in aerodynamics, hydrodynamics, and ballistics.

The new Cal Poly department head is a native of Washington, DC, and a graduate of Lehigh University, Johns Hopkins University, and Catholic University of America. He completed his studies for his doctor's degree at Catholic University in 1962. An associate fellow of the American Institute of Aeronautics and Astronautics, and a member of the American Ordnance Association and the Society of Sigma Xi, Dr. Nicolaides is the author of over 60 articles and technical papers published in professional and technical journals. The designer or co-designer of more than 20 new aerospace and military systems, he has been a lecturer at leading universities in the United States, England, and Israel, and has appeared frequently on television and before hearings conducted by the U.S. Congress and Senate.

GIFT FOR POLY BAND

Francine Hapgood (President, California State Employees Association) has announced that the Cal Poly Chapter 97, at its Board of Directors meeting on Tuesday, May 13, 1975, voted unanimously to allocate $250 toward the Cal Poly Band tour to Vienna.
James R. Landreth (Director of Business Affairs) has announced the following changes in parking procedures:

Effective for Summer and subsequent quarters: Revised procedures applicable to alternate vehicle permits are designed to insure that not more than one of the permitted vehicles is on campus at the same time. This will be accomplished by having a unique window permit for each vehicle registered by faculty, staff, or students who have a permit for more than one 4-wheel vehicle. A single clip-on floating permit will be issued to each individual. Both the window permit and the clip-on floater permit must be displayed in order for the vehicle to be legally parked on campus. Individuals buying permits for more than one vehicle must pay the full fee for 1 vehicle, plus $2 for each additional vehicle. Verification by students of vehicle ownership in order to purchase alternate permits will no longer be required under the new procedures. Participants in the 12-month plan for payroll withholding for the payment of parking fees who plan to purchase a parking permit for an alternate vehicle for the new parking year, if they have not already done so, should notify Mary Ann Lefebvre at Ext. 2291 as soon as possible so that correct window permits can be furnished. Advance payments of $2 per alternate permits are being accepted; window permits and a clip-on permit will be mailed to payroll withholding 12-month plan participants on approximately June 16.

Effective for Fall and subsequent quarters: Pool parking privileges will be expanded and pool participants may park in any authorized lot on campus. Student pool permits will be valid in all designated student spaces; staff pool permits will be valid campus-wide. Faculty and staff may participate with students in mixed pools; faculty and staff members of such pools will be issued staff lot window permits and student members of such pools will be issued student lot window permits.

Dates for three summer workshops for professionals in physical education to be held at Cal Poly have been announced by Robert Mott (Head, Men's Physical Education). First program in the series will be the 26th annual California Physical Education Workshop for Women in Secondary Schools, which will be open on Sunday (July 27) and continue through Friday (Aug. 8). Leilani Overstreet of California State University, Fresno, will be workshop director.

Scheduled to open Monday (Aug. 4) and continue through Friday (Aug. 15) is the 28th annual California Workshop for Physical Education and Athletic Coaching. Workshop director for that program will be Charles Howell of Pacific Grove High School in Monterey. Newest of the PE workshops at Cal Poly is the Physical Educational Workshop for Elementary Teachers, which will be presented for the second time from Monday (Aug. 11) through Friday (Aug. 15). Robert English of San Leandro High School will be the director.

Dr. Mott, who said the workshop series at Cal Poly is the only one of its kind in the nation, said it is expected to attract a combined attendance of more than 700 professionals in the field of education. Sessions planned during the series will range from the techniques of coaching and teaching the various sports to modern dance, physical conditioning, and the basic sports skills for children in the primary grades. Joint sponsors of the workshops, which are held each summer at Cal Poly, are the California Association for Health, Physical Education, and Recreation; the California State Department of Education; and the university.
The Board of Trustees of the California State University and Colleges took the following actions at its meeting on Thursday (May 29):

- Reelected Robert A. Hornby (Los Angeles) as Chairman of the Board and William O. Weissich (San Rafael) as Vice Chairman for 1975-76.

- Named Mr. Hornby and Mrs. Winifred H. Lancaster (Santa Barbara) as Trustee representatives to the California Postsecondary Education Commission for 1975-76.

- Resolved that the decision as to whether the sale of beer on campus is permitted shall be made by the individual President in accordance with all applicable provisions of the Department of Alcoholic Beverage Control.

- Resolved that the matter of whether a school or schools of veterinary medicine should be established within the system be referred to the California Postsecondary Education Commission; further resolved that the Board takes no position on this matter.

- Directed the Chancellor to support and encourage on the campuses the development of degree and credential programs with bilingual-crosscultural emphasis by the recruitment and appointment of appropriate faculty.

- Authorized the Chancellor to approve controlled admission experiments designed to provide improved bases for identifying applicants likely to profit from the instruction offered.

- Expressed the Board's intent that faculty members who commence teaching in summer quarters in June be compensated for the entire summer quarter at the salary increase applicable to all faculty on and after July 1.

- Approved a 4.8 percent salary increase for Summer Session faculty, effective with the 1975 session.

Elections to the Statewide Academic Senate have been announced as follows: Gerald C. Marley (California State University, Fullerton) was elected Chairman of the Statewide Academic Senate for 1975-76. Other members of the Executive Committee will be David H. Elliott (San Jose State University), Vice Chairman; Terry Quiett (San Diego State University), Secretary; Judith A. Hunt (California State University, Hayward), Representative-at-Large (re-elected); Helen C. Gilde (California State University, Long Beach), Representative-at-Large; and Charles C. Adams (California State University, Chico), Immediate Past Chairman.

A member of the Foreign Languages Department faculty at Cal Poly, will serve as resident director of the California State University and College system's international study program in Germany next year. Bianca Rosenthal, whose appointment was announced this week by Kibbey M. Horne (director of international programs) at the Chancellor's office, will begin her overseas assignment in August, 1976. During her stay in Germany, Dr. Rosenthal will serve as resident faculty advisor for CSUC students enrolled at University of Heidelberg. She will also serve as liaison between the CSUC system and faculty and administrators of the host university.
COUNCIL OF PRESIDENTS MEMBERS FOR 1975-76

Effective as of July 1, President L. Donald Shields (California State University, Fullerton) will be chairman of the California State University Council of Presidents. He replaces President Robert E. Kennedy of Cal Poly, San Luis Obispo, who served two terms as chairman of the Council of Presidents, 1973-75.

Also elected to the Executive Committee were President John H. Bunzel (San Jose State University) and President James W. Cleary (California State University, Northridge). Continuing members of the Executive Committee are: President Brage Golding (San Diego State University) and President Leo F. Cain (California State College, Dominguez Hills). Replacing Executive Vice Chancellor Harry Brakebill as an ex-officio member of the Council is the new Executive Vice Chancellor, Harry Harmon. Chancellor Glenn S. Dumke continues in his ex-officio role on the Executive Committee.

NEW OPTIONAL RETIREMENT REVISIONS ADOPTED

At their meeting on May 29, the Board of Trustees of The California State University and Colleges adopted a new section to Title 5, California Administrative Code, to provide new optional retirement provisions. The new section provides that if a full-time academic employee satisfies certain conditions as to retirement participation, he may, at age 55, reduce his work load to one-half. If the employee continues to pay into the retirement system at the full rate, five years worked between 55 and 65 (or 67) will be counted as full-time years for retirement benefit purposes. For additional information or to consult a complete copy of the new regulations, call the Personnel Office at ext. 2236.

QUARTER BREAK AND SUMMER QUARTER FOOD SERVICE HOURS

Everette S. Dorrough (Foundation Food Services Director) has announced the following schedule of food service hours during quarter break and Summer Quarter:

- **Staff Dining Room**: Open regular hours, 7 am to 4 pm, through Friday (June 13). Closed Saturday (June 14) through Summer Quarter.
- **Student Dining Rooms**: Closed Friday (June 13) through Summer Quarter.
- **Vista Grande Restaurant**: Open regular hours, 11 am to 9 pm, 7 days per week.
- **Vista Grande Cafeteria**: Closed Friday (June 13) through Summer Quarter.
- **Snack Bar**: Closed Friday (June 13) through Monday (June 16). Reopens Tuesday (June 17) at 7 am to 3:30 pm for the regular Summer Quarter schedule.
- **Burger Bar**: Open Friday and Saturday (June 13 and 14) at 9 am. Closed Sunday (June 15). Reopens Monday (June 16) at 9 am to 3:30 pm for regular Summer Quarter schedule, 9:30 am to 3:30 pm, weekdays.
- **Annex Donut Shop**: Closed Friday (June 13) through Summer Quarter.
- **Annex Sandwich Shop**: Closed Friday (June 13) through Summer Quarter.
- **Annex Vending**: Closed Friday (June 13) through Summer Quarter.
- **Cellar Vending**: Open regular hours, 8 am to 4:30 pm, weekdays.
- **Administration Vending**: Open regular hours, 8 am to 4:30 pm, weekdays.
- **University Union Vending**: Open regular hours starting Saturday (June 14) to include cold drinks, sandwiches, snacks, ice cream items, etc.
**HOWARD BOROUGHNS RETIRING SOON**

Howard Boroughs (Coordinator, Research Development) will retire at the end of the current academic year. He came to the campus in 1970 and at first held a joint assignment in Graduate Studies and Research. During the last two years he has devoted his entire time to research information and development for the faculty.

His undergraduate education was at University of Southern California with graduate work completed at the California Institute of Technology. During his academic career he has held many interesting and significant posts, including: Hawaii Marine Laboratory, University of Hawaii; Interamerican Institute of Agricultural Sciences, Organization of American States, Costa Rica; Nuclear Energy Program; Program Director, National Science Foundation; Science Development Program, United States Office of Education; Bureau of Higher Education; Dean of Faculties, Portland State University.

Despite the dwindling of resource funds and increased competition for the money still available, Dr. Boroughs' efforts have maintained a constant program of funded research proposals which have had an impact upon the improvement of instruction and upon student learning. The faculty and staff congratulate Howard and Evelyn upon their excellent contribution to Cal Poly and wish them well with their future plans and projects.

**GEORGE R. DAVIES WILL RETIRE**

An informal coffee hour will be held in honor of George R. Davies II on Friday (June 27) from 1 pm to 4 pm in Admin 301. George's many friends and associates are cordially invited to join in honoring him and wishing him well. Davies is retiring as Cal Poly's Admissions Officer, a post which he has held for eight years.

Born in Pittsburgh, and raised in Philadelphia, Davies earned his BA in Business Administration from the University of Pittsburgh and began a career in sales promotion. However, World War II changed his plans when drafted in 1942 and selected for Officers Candidate School in 1943. He served as a company commander with the Third Army in Europe. After the war, Davies returned to civilian life as an insurance broker, but was recalled to the Army in 1951.

For the next 16 years he remained in the Army, serving in a variety of posts including Japan and Korea. He also spent a year at the Command and General Staff College at Ft. Leavenworth, Kansas. The last five years of his military career were spent in the Military Science Department at Cal Poly, from which he retired as Colonel to assume the job of Admissions Officer. His plans for retirement include a lot of golf and a minimum of travel.

**CAPS AND GOWNS RECEIVED AT EL CORRAL**

Mary Lee Green (Manager, El Corral) has announced that caps and gowns ordered by faculty and staff members for purchase and rental have been received and can be picked up at the customer service desk during regular hours (weekdays 7:45 am to 4:30 pm) and Saturday (June 14) from 7:45 am. Some late orders for caps and gowns have not yet been received.

There will be a repurchase program for old and used textbooks at the back door of El Corral June 9 through 13, 9 am to 4 pm. Graduation gifts including presentation items with Cal Poly insignia and gifts for Father's Day will be on special display inside. Copies of "The Hand of Man on America" by David Plowden have just been received. The book contains many of the photographs exhibited at the bicentennial show. The book is displayed in the new arrivals section of the General Book Department.
FINANCIAL AID TAPERS OFF

Financial aid for students at Cal Poly will show very little increase for the 1975-76 academic school year, according to the Financial Aid Office. Lawrence J. Wolf (Director of Financial Aid) said the Department of Health Education and Welfare has informed the university that a four percent increase is about all that can be expected on the College Work-Study Program, National Direct Student Loan Program, and Supplementary Education Opportunity Grants.

Some increased aid will be available through the Basic Educational Opportunity Grant Program, Wolf said, but the total amount available will not be known until Congress accepts or rejects an HEW request to carry over unused funds into the next fiscal year. Cal Poly's 1975-76 allocations will include $281,297 for the Supplementary Educational Opportunity Grant Program, $306,438 for the National Direct Student Loan Program, and $86,025 for the College Work-Study Program.

"There is a possibility," Wolf added, "that additional funds will be available for use on the Work-Study Program." Congress is considering an increase in funding for this program as part of the Emergency Employment Act. "If the bill survives through enactment, it will enable Cal Poly to expand its present program which deals with the employment of students on-campus as well as with off-campus nonprofit agencies," he concluded.

COMMENCEMENT/FATHER'S DAY AT VISTA GRANDE

In honor of the graduates of 1975, Vista Grande Restaurant will feature a Commencement/Father's Day special on Saturday and Sunday (June 14 and 15). The dinner specials are:

Roast top round of beef, baked potato, sour cream & chives .......... $3.95;
Roast turkey with dressing, whipped potatoes and gravy ............. $3.95;
Baked ham, candied yams ........................................ $3.75;

All dinners will include: relish dish, tossed green salad, Cal Poly french bread, butter, ice cream and chocolate sauce, coffee or tea. The special dinner will be available from 12 noon through 9 pm. Reservations are recommended by calling Ext 4784.

FAREWELL BAND CONCERT PLANNED

Friday evening (June 27) has been selected for a special "Auf Wiedersehen" concert to be given just prior to departure of the Cal Poly Symphonic Band for three weeks of concerts in Vienna and Western Europe. Planned as the climax of a week of intensive rehearsals, language study, and preparation for the 70-member tour band, the concert will take place at 8:15 pm in Chumash Auditorium.

Tickets priced at $1 for students and $2 for adults are being sold in advance at the University Union Ticket Office and by members of the band. William V. Johnson, conductor of the Symphonic Band and a member of the Cal Poly music faculty, said the June 27 concert will be very light in nature, but will include several major works from the band's classical repertoire.

The return of excess supplies of inter-campus mail envelopes is being requested by the Duplication Center. Offices and departments that have quantities of the envelopes in excess of their needs are asked to return them to the Duplication Center, Adm. 129.
Robert E. Burton (History) attended the Southwest Labor History Conference held at University of the Pacific on Apr. 24-25. The conference, hosted by the Pacific Center for Western Historical Studies, brought scholars and labor leaders together to discuss recent labor history. Dr. Burton has also just completed an article on Richard Lewis Neuberger, a leading popular authority on the Pacific Northwest, for the Dictionary of American Biography.

James T. Culbertson (Head, Philosophy) gave talks on "Spacetime Psychology, Minkowski Diagrams of Perception" at the Institute for the Study of Consciousness at Berkeley on May 29-30.

Herschel L. Apfelberg (Graphic Communications) was the guest speaker at the quarterly meeting of the Metal Decorators of Northern California. The Metal Decorators represent over 80 manufacturers and suppliers to the can packaging industry in Northern California. Apfelberg's remarks were geared to the new packaging option in the Graphic Communications Department and the implementation of an intern program which is presently funded under a Cal Poly mini-grant.

Steven H. Yoneda (Men's Physical Education) was guest speaker at the student-trainer section of the national convention of the National Athletic Trainers Association at the Disneyland Hotel in Anaheim on June 7-11.

Chester O. Bishop (Emeritus, Mechanical Engineering), who was instrumental in obtaining the nuclear reactor on campus, returned to campus during the Winter Quarter to help in loading and setting it up. Bishop served as a member of the Mechanical Engineering Department faculty from 1957 until he retired in 1973.

J. Lathrop Meriam (Mechanical Engineering) has been honored for outstanding professional service from the Southeastern Section of the American Society for Engineering Education. Specifically, Dr. Meriam was recognized for conducting a "very tersely outlined" faculty survey and analysis.

J. Barron Wiley (Education) has been notified that his research report titled, "Survey of Teacher Preparation and Usage of Media," has been published in the Spring 1975 issue of the Journal of Media and Technology.

Eugene F. Coleman (Graphic Communications) is listed in the current edition of Who's Who in Computer Education and Research.

The Computer Center at Cal Poly experienced a historic moment when the one millionth program to be run on its IBM 360/40 computer was completed on Monday (June 2). The computer, which has been running programs for Cal Poly students since September, 1969, processed the history-making program for a beginning computer science class at precisely 11 pm.

Raymond E. Boche (Director, Computer Center) said the IBM 360/40 processed over 50,000 programs during the Spring Quarter, with an average of approximately 5,000 jobs per week. During the nearly six years the computer has been in service, an average of 42,000 jobs have been run per quarter. It has regularly been among the highest of the computer centers on campuses of The California State University and Colleges System in the number of programs processed for instructional use.
Vacant support staff positions have been announced by Robert M. Negranti (Staff Personnel Officer). Descriptions of the positions and other vacancies are posted outside the Personnel Office, Adm. 110, ext. 2236. Contact the Personnel Office to obtain an application. This university is subject to the requirements of Executive Order 11246 and is an Affirmative Action Employer. All interested persons are encouraged to apply.

The positions are:

**Clerical Assistant II-A ($561-$682/month)**, Engineering Service Section, Business Affairs Division.
