Daytime beach use may be dime-a-dip

by JOHN TEVERS

California Department of Park and Recreation Director William Mott.

Mott has come out solidly against the admission charge for daytime beach use south of the Ocean Beach overpass, Mott, head of the department proposing the admission fee, favors a system that would result in more adequate beach use.

Mott is also at odds with Mott over the latter's proposal to allow overnight camping on the wet sand portion of the beach. Mott cited the inclusion of the mandatory two-toned required for every fifteen campers and the acoustic noise requirements on the beach property as his chief objection to this proposal.

The South County Supervisor has proposed instead, the construction of more inland camping areas for the vehicles. The overnight camping fee is not opposed by Mott. He said he believed the charge would be more than reasonable when compared to costs charged at private camping spots.

Mott has registered his objections with Mott in a letter, but plans to meet with Mott next week. Mott hopes to discuss the issue of daytime beach use charge and the wet sand camping before a final decision is made.

In his communication with Mott, Manklna maintained that the people of San Luis Obispo County would be opposed to the two proposals. Manklna urged all concerned citizens to register their opinions on the matter with his office, by mail. He hopes to present all comments to Mott at a meeting when he meets with him.

Manklna has been receiving approximately 80 letters a day in opposition to the Mott proposals. He has regularly been sending a copy of the letters to hla office in the County Courthouse in San Luis Obispo.

Folks may be having kids less and enjoying it more

by NORA SIMON

(UPI)—Governments may have to use force to control the world population growth, the president of the American Association of Planned Parenthood Physicians said Thursday.

If voluntary methods of birth control fail, governments may force mandatory sterilization or impose a tax system that controls fertility, the doctors described a new, simple compound company which bears one of the first slide-illustrated lectures. At least that is what Dr. Jamoa Boone showed his audience in Baltimore, described a new woman's clinic at Johns Hopkins University, as one who files his name; he may have produced one of the first slide-illustrated lectures.

The last day for students to withdraw from classes with no penalty is Monday at 8 p.m. Students may drop classes from the second through the seventh week, but are subject to a W or F grade. The grade is left to the determination of the instructor.

SAC clarifies campaign laws

by CATHERINE PHOENIX

SAC approved 99,990.99 to be spent 92,000 and only returned a portion of what was paid. DeJoyce said the committee would rather have people speak that don't take as much out of their budget, but they feel that an admission charge would be too much to ask of the students for a less known speaker.

The motion to have Speakers Forum go through Finance failed with a vote of 5-4. The motion to have the students be taken out of contingency fund and distributed among engineering and political students for the building of a Bahia Motor Company exhibit, from the second through the seventh week, but are subject to a W or F grade. The grade is left to the determination of the instructor.

In the Dorm Committee report, Steve Lager, representative from business and social science, moved that Dean Everett Chandler present by Friday the parents' opinion poll of dorm policy taken in 1971.

Lager felt that these polls should be of statistical validity. After this point was made clear by Chandler, Lager withdrew his motion.

Also in the Dorm Committee report, Pete Chamberlain, chief justice, said that judiciary can't do anything about damage representation of Inter-Hall Council (IHC) on SAC until something was put on the book concerning the issue.

It was decided that since STA withdrew its complaint against IHC that there was no more issue. Greg Williams, from agriculture and natural resources, moved to reinstate the flag salute in the SAC agenda "to show that we support the United States."

Price White, proxy for architecture and environmental design, said, "This is a board of directors, not a governmental body, and should not have the flag salute in the agenda."

The motion failed 8-4.

Sky domes and mushroom clouds will soon appear Saturday.

The motion failed 8-4.

Sky domes and mushroom clouds will soon be an addition to this campus as the School of Architecture and Environmental Design readies itself for Poly Royal with its theme "The Dawning of a New Environment."

The two conduit structures, designed by students of John Feldman's class, are ready to jump off paper and begin initial construction at 9 a.m. this Saturday.

The sky domes will rise to form an open air display in conjunction with the gallery outside Engineering West.

The mushroom clouds, to rise soon after the sky domes are completed, will serve as a reference point for Poly Royal activities and will be built adjacent to the library lawn.

"This third, fourth, and fifth year labs are endeavoring to communicate an expression by means of creative lab design. The designed expression shall further enforce our desire as one school of architecture and environmental design that recognises the need for change, and the need for a 'dawning of a new environment,'" said Scott Meurers, communications chairman for his school.

"Everyone is invited to come out and help put it together," he added.

Storm damage in the millions

Vancouver, Wash. (UPI) — Battered only 50 seconds, but the freak winds that out through Vancouver Wednesday killed six persons, injured more than 20, destroyed a school and damaged more than 100 other buildings.

Gov. Dan Evans Thursday declared the region a disaster area.

Col. Robert Kamm, county civil defense director, said the damage would run into millions of dollars.

**Flower frolic**

Three Ornamental Horticulture students from this college will test their skills at the National Intercollegiate Flower Judging Contest today at 1:30 p.m. in Chumash Hall Auditorium.

The campus judging team is comprised of Roberta Mountain, Randall Cooper and Noel Monteleone, with John Wood as the alternate. These students began preparing for the contest during Winter Quarter.

According to Ray Houston of the ornamental horticulture department faculty, teams representing eight colleges and universities will compete in the all-day event. Among those are Penn State University, Purdue University and Kansas State University. Each of the schools offers classes in floriculture.

The student teams will spend about two hours rating entries in 22 classes of flowers, including cut, potted and bedding plants. Some of the flowers have been grown here.

Experience gained by the judging teams will be valuable in their careers, said Houston.

Trophies for team winners and certificates for individual winners will be presented at a banquet following the contest.

The event is sponsored by Pi Alpha Xi Fraternity and the Society of American Florists.

**Coeds look forward to being 'loved,' 'spiked,' 'fenced,' 'netted'**

Female students will be 'loved,' 'spiked,' 'speared' and 'netted' this quarter in the various sports programs being offered by the Women's Physical Education Department. The programs are: tennis, track and field, fencing and basketball.

The women's intercollegiate basketball teams, under the direction of Mary Ballard, come to the end of their rigorous season next week. After competing against UCSB in Santa Barbara Wednesday, the dribblers return home for their final game against Fresno State at 4 and 8:30 p.m. Friday in Crandall Gym.

By qualifying through league play, the A team can compete in the Southern California Intercollegiate Athletic Conference Tournament April 13 through 16.

April 14 and 15 the female tennis team will travel to Rancho for its most significant contest, the Women's Westerns competition. Following this event, the fencers trained by (Continued on page 4)
Baseball faces big test

Coming off two big league wins over UC Riverside last weekend, the Mustang baseball team travels to Chapman College this weekend for a three-game series. The locals will be trying to improve their 9-4 road record as they have the number four-ranked team in the nation. The Mustangs have won their last five at home this season.

The Poly Nine will send Mike Kreider, who owns a 6-1 record, and Les Chapman, who also has a 6-1 record with a 1.71 earned run average and Doug Alderman, a local boy from San Luis Obispo with a 5-1 record, against Chapman.

After last weekend's series, Coach Augie Garrido reviewed some of the good aspects in the games. He said, "I was disappointed over the loss, but I was pleased with the pitch and determination we demonstrated in last Saturday's game. Our concentration was very good and we hit the ball well, but our hitting suffered because we were overconfident and defensively ineffective. We did receive some timely hitting in the games."

Garrido was also pleased with the play of freshman catcher Larry Silvera who is hitting .371 with two home runs and 10 runs batted in. Garrido said, "Larry is improving right along and has worked hard and competed well since taking over the starting job behind the plate. What I like is his willingness to work at all times." He added, "He needs time in the lineup to develop, and being only a freshman he has the time."

Second baseman Dave Oliver continues to lead the team in hitting with a .386 average. Oliver has three home runs and has 11 stolen bases. He also leads the club with 21 runs batted in and has not struck out in 196 times at bat. Third baseman Dave Hower is close behind with a .375 average. Hower leads in doubles with seven and is second to Oliver in hits with 52. Ted Bailey, who has taken over the right field duties, follows with a .351 average.

The shortstop-second base combination of Steve McFarland and Oliver has turned over 18 doubleplay and in many of these doubleplays they have helped the pitchers out of jams. The defense of the Mustangs continues to be one of the bright spots as they have an excellent .967 fielding percentage. An amazing fact is that the locals have outscored their opponents by 88 runs in 30 games.

Women's sports...

(Continued from page 3)

Motive, a music group that performs on our campus every Thursday night, will sponsor a concert to be held on May 6. Spring quarter finds Carol Tompkins's attitude at the center of their schedule. Track and Field competition commences April 8 at Hayward. To climax the season, three or four team members, depending on how they place in previous competition, will attend the Division of Girls in Women's Sports Nationals from May 13 to 15 in Tennessee. Coached by Nancy Pater­ naugh, new female teams in international competition will make their debut on campus this month.

The Women's Physical Education Department is occupied with two other interesting exhibitions: the annual swim show and dance concert. Supervised by Dr. Barbara Brany, the acclaimed aquatics display will take place during Poly Royal. Under Martha Drey, females may show off their talents in the annual dance concert on May 10th. Both presentations are entirely composed of student volunteers.
