Approximately 1,000 students—less than 10 percent of the student body—turned out for Tuesday's special election.

Exhibit viewed
by JULIE WIBOEK

A grand opening and reception of the Frank V. deAlessis Collection of Italian Fine Arts was held Sunday evening in the College Union 220.

Selected guests from the campus and community were given the first preview of Frank V. deAlessis Collection of Italian Fine Arts Sunday evening. The late Italian-American businessman's collection of Renaissance works spans a period of three thousand years (the 14th through 17th centuries).

The exhibit is sponsored by the College Union, sponsored by the department of history at the University of California at Berkeley; Friday, music from the School of the Communicative Arts and Humanities; Monday, a lecture by Thomas Speers for the campus and community; Tuesday, music from the art department; April 13, a lecture by Prof. Vann from the School of Architecture and Environmental Design; Monday, a lecture by Dr. Charles Russell, associate dean for the School of Engineering and Technology.

All events will be held at 8 p.m. except for the music on Thursday, April 11, which will be held until 11 p.m. during College Hour.

County awarded land

Former Camp San Luis Obispo land desired by the vibrant agriculture department at the College Union 220.

According to Administrative Vice- President Harold O. Wilson, the land was not allocated to this college because of a county ordinance dating back to 1861 when the government first announced that the land would be available.

A handful of students bought the Election Committee's complete package of revisions for general elections.

The all-day, special election on Monday attracted almost 1,000 students—a 10 percent of the student body.

The students favored a majority voting system, instead of a preferential method, for electing ASI officers. The proposal, passed with 978 yes votes and 157 negative votes.

"Major ASI elections will run a lot faster now," said Jim Smith, Elections Committee chairman. "We won't have to run through second and third choices to find a winner."

Smith foresees one problem that might result with the majority voting system for electing ASI officers. In cases where one student does not acquire a majority of the votes, run-off elections will have to be scheduled to pick a winner.

An official method—a plurality system—for selecting Student Affairs Council representatives was approved by 641 students.

Three hundred voters opposed the measure. Smith said he was pleased to see a "net guideline written in the ASI Bylaws" for electing SAC members.

The student-voters agreed to transfer the day-and-time special election for general elections from the ASI Bylaws to the SAC Operational Codas, where it was held.

"It will be a lot easier to change the times and dates for general elections," Smith said. "Before we would have to schedule a special Bylaws revision election. Now the changes can be made with a two-thirds majority vote from SAC.

Voters revise election policy

Special events scheduled around the exhibit are: Tuesday, a commodity lecture sponsored by the speech department; Wednesday, a commodity performance sponsored by the speech department; Thursday, music from the collection presented by the music department and a lecture by Prof. Gene A. Bruckner, chairman of the department of history at the University of California at Berkeley, Friday, music from the collection presented by the music department; Sunday, a lecture by Prof. Carlsten from the School of Architecture and Environmental Design; Monday, a lecture by Prof. Robert Hunt from the English department; April 18, a lecture by Prof. Bernice Dues from the art department; April 17, a lecture by Prof. Vann from the School of Architecture and Environmental Design and April 19, a lecture by Dr. Charles Russell, associate dean for the School of Engineering and Technology.

All events will be held at 8 p.m. except for the music on Thursday, April 11, which will be held until 11 p.m. during College Hour.

Student Rights Alliance

The student-voters agreed to transfer the day-and-time special election for general elections from the ASI Bylaws to the SAC Operational Codas. Of the 901 votes, 613 supported the transfer.

"We would have a lot easier to change the times and dates for general elections," Smith said. "Before we would have to schedule a special Bylaws revision election. Now the changes can be made with a two-thirds majority vote from SAC.

Final filing date approaches for ASI elections

Special events scheduled around the exhibit are: Tuesday, a commodity lecture sponsored by the speech department; Wednesday, a commodity performance sponsored by the speech department; Thursday, music from the collection presented by the music department and a lecture by Prof. Gene A. Bruckner, chairman of the department of history at the University of California at Berkeley, Friday, music from the collection presented by the music department; Sunday, a lecture by Prof. Carlsten from the School of Architecture and Environmental Design; Monday, a lecture by Prof. Robert Hunt from the English department; April 18, a lecture by Prof. Bernice Dues from the art department; April 17, a lecture by Prof. Vann from the School of Architecture and Environmental Design and April 19, a lecture by Dr. Charles Russell, associate dean for the School of Engineering and Technology.

All events will be held at 8 p.m. except for the music on Thursday, April 11, which will be held until 11 p.m. during College Hour.

Commodity del arte will be the topic of the deAlessis lecture scheduled at 8 p.m. tonight in CU 220.

music, drama, history, architecture, and science are featured. Most predominant in the exhibit, dating back as far as the 18th century, are books, manuscripts and drawings originating from that era.

The exhibit covers the works by such figures as Dante and Petrarch in literature, Vasari and Michelangelo in the plastic art department, and Galileo and Pisanl in science and mathematics, etc.

All events will be held at 8 p.m. except for the music on Thursday, April 11, which will be held until 11 p.m. during College Hour.

County awarded land

Former Camp San Luis Obispo land desired by the administration for the use as a youth correction camp in 1966, but the government would not allocate it for that purpose. Later the laws changed and the county officials reapplied for the land for recreational use.

College administrators applied for the land through a different agency, unaware of the county land for the land until a month before it went up for public sale late in March.

College administrators applied for the land through a different agency, unaware of the county land for the land until a month before it went up for public sale late in March.

Count finalists were held on specific issues for discussion and feedback.

Highlighting the convention will be nomination of candidates at 6 p.m.

According to SRA members Steve Leger and Dave Pollock, SRA was formed for two reasons.

"We will briefly discuss and adopt issues as presented by the caucuses to be the SRA election platform."

TRY A YAY, April 11. 1

T
t usually grows with tenure in the position, to involve more people in its operation than in running a student newspaper.

Often is, cheated. An ASI officer just elected Mustang Dally is asking students to take the vote for candidates who know what is going on. Students Inc. must have had previous experience in an editorial-level capacity, before they can aspire to the newspaper's top job. There will be some time collecting around. Half the time to research the backgrounds of all candidates and who can function efficiently from the get-go. Want good officers? Nurse your officers, the important! The first time over Out of the experience on, one quarter of work on Mojito. Dolly, on important! Rct to help me, I want over Out of the experience on, one quarter of work on Mojito. Dolly, on important! Rct to help me, I want.

There is one piper aimerence on this campus, from preceding years, and consequently, his missing qualification. You must decide upon persons who are already closely involved in the democratic process and know what it is all about. There is no reason the same shouldn't be required for a student government office. In this case, you, the voters, must provide for the missing qualification. You must vote for candidates who know what is going on and who can function efficiently from the start.

Convention emphasizes involvement

This convention is being set up expressly for you and those like you who want more change at Cal Poly, who want more in their own education and future and in the issues concerning the world around them. But that is not all. It is essential that the democratic process work for all members and have little or no access to student funds. It is the hope of the recently organized Student Right Alliance that the democracy process at Cal Poly will be enhanced at the SRA convention to be held Tuesday night in Chumash Auditorium. Issues to be discussed and clarified will be those that form the backbone of the Alliance platform. At the same time, All candidates will be nominated and endorsed. Are you one of those students who doesn't fit in any of the student power groups? Then you are probably aware that you get little representation in student government, and have little or no access to student funds. The whole point of this convention tonight is to give you who want more change at Cal Poly, who want more in their own education and future and in the issues concerning the world around them, what you want. Tri-group concert ahead

by MALCOLM STONE

Concert time comes to the Men's Gym tonight with the fourth concert this quarter with the sounds of Copperhead, Rhonemound and Big Brother and the Holding Company.

The event is set for Saturday night at 8 p.m. and is sponsored by Assemblies Committee. Tickets are $1.50 for students and $2.50 for general admission.

Tickets are on sale at the College Information Desk, Krauskopf and Krauskopf, Supermarket, Young and West and Music Store.

Copperhead is a relatively new group of veteran musicians. Although the group has only been together a few months, it has already received rave reviews in the Bay Area press.

The band is a quintet featuring John Cipollina as the lead guitarist and Pete Sears by the pianobass.

Cipollina was one of the original members of the Big Brother Band, and he spent five years as lead guitarist for the band before going off on his own in 1970.

Sears is from England, and he plays a variety of instruments including table and sitar. He has been a member of the Originals of the 60's, and he joined the Medicine Ball Caravan in 1965.

MECHA's dancers won the first award. Their performance included a sit-in with Jack and True Turner as a band.

Expert on outer space will lecture at Cuesta

Dr. Albert Hibbs, Cal Tech scientist and space exploration expert, will speak on the "possibility of life" on other planets in the Cuesta College Community Auditorium, at 8 p.m. on April 18.

Hibbs' discussion, entitled "Life on Other Planets," will include new observations and theories about astronomy, the exploration of planetary and biological objects by which we can use to guide our space exploration and the solution of transportation problems.

Hibbs has also appeared as the host on "Exploring," NBC's award winning educational television program.

Talent show presented

by BARTLETT

Over 18 nations were represented during the International Talent and Fashion Show Friday and Saturday night in the college theater.

The USA's dancer won the first place trophy while the poem and pantomime presentation by the Pakistani students captured the second award.

The talent show also featured such groups as the Poly Twirlers, the Ballet Society, the Poly Harmonics, Portuguese students, Thai students and the Iranian students.

MECHA won the competition with its colorful presentation of three dances—one of them being the ever-popular Mexican Hat Dance.

The south Pacific outifters, four men and women displayed a dance that the Mexican men court their women in Mexico.

The Pakistani Students Association presented an effective and symbolic poem and pantomime. The poem described the sun, moon, stars, death, love, evening, and life, with "love" being the one word that was repeated over and over. A separate chair was set in the center of each of these, and acted as the moderator while a taped presentation read the poem in music.

Three fashion shows broke the continuity of the talent show by giving the audience a chance to see the native costumes and dresses of many nations. Among the nations represented were Nigeria, Turkey, India, Soviet Union, Portugal, Spain, Mexico, Korea, China, Thailand, Germany, and Iran. A Hawaiian outfit was also presented.

Half million in hijack ransom is recovered

by DUTTON HARVEY (UPI)—Agents who searched the home of a Vietnam veteran charged with the nation's biggest ransom hijacking revealed Monday they found $469,970 hidden in a large cardboard box. Most of the money—all but $80 of the half million ransom paid by United Airlines to free 81 passengers last Friday—was still in bank wrappers when discovered by the FBI in the Prov home of Richard F. McCoy Jr.

McCoy, a Vietnam veteran majoring in law enforcement, whose hobbies included flying and parachuting, was arrested at the brown brick house Sunday. He was held without bail on air piracy charges in Salt Lake County jail.

Agenti said the money was uncovered in a large cardboard box which also contained a pistol, holster, black gloves and various items of clothing.

McCoy was accused of hijacking the United Air Lines Boeing 727 with 88 persons aboard over Colorado and forcing it to land in San Francisco. The hijacker, who was captured Sunday, admitted to a grenade and plastic explosives, allowed the 81 passengers to leave the plane with $600,000 ransom and four parachutes.

"The convention will then vote on the candidates. It feels most able to support and implement the SRA platform," Lager added. "One purpose of the convention is to be a starting point in supply grass-roots input in attaining realization of that platform." Lager added that the SRA is a man-action organization created by and for students who are fed up with the traditional problem solving channels and are frustrated with the administration's apparent lack of response to student needs and demands.

Pflock concluded, "Our alliance is the first student action group on campus. It has the potential of being the most powerful tool for radical change."
The Mustang baseball team traveled to Chapman College last weekend and could only manage to win one game against the fourth-ranked team in the nation. The locals took the first game, 6-3, but dropped the next two on Saturday by the scores of 11-0 and 9-3.

In the first game, right-hander Mike Krukow went the distance and Mike Mason provided support from shortstop Steve Bailey in the game.

In the first game, right-hander Mike Krukow went the distance and Mike Mason provided support from shortstop Steve Bailey in the game.

However, the Mustangs could not keep up the good pitching as the staff allowed 20 runs in the doubleheader on Saturday. Both starters, Les Oanh and Doug Aldersen, were touched for 10 runs in the two games.

Despite the losses, the locals, Coach Augie Alderman, were touched for 11 runs in the game. He cited sophomore Krukow as being an excellent pitching job on Friday. He was also pleased with the offensive performances of Mike Krukow and Bailey. "They were both efficient and consistent in the series," he said.

The Stereophonic Alumni Story
People often dwell on the "now" scene in our recruiting efforts for the Army ROTC program at the expense of failing to take the "then." What may be for those who finish their tours as Army officers in an effort to rectify this shortcoming this article is designed to provide information on the present status of two local Cal Poly graduates who completed the ROTC program and their tours of duty as Lieutenants in the Army.

Roger C. Borja (left) graduated from Cal Poly with a B.S. in Business Administration in June 1969. Upon being commissioned a 2nd Lieutenant in Field Artillery, he went on active duty the following March. Soon after his basic officer's course, Roger traveled to Germany during the REFORGER II Exercise and then on to Vietnam to serve. Upon being separated in November, 1971, from active duty, Roger returned to San Luis Obispo where, as one of the founders of SuperSonic Stereo, he had a business to return to. He later acquired an interest in Stereo West, Hipqua. In reflecting upon his military experiences, Roger commented about "the fantastic travel and opportunities as well as so many interesting and different types of people that I met and the experiences that I derived was the chance to observe merchandising techniques used in Europe and Asia.

Adrian N. Bola (right) also graduated from Cal Poly in 1969 with a B.S. in Industrial Technology. After spending a year completing his training, Adrian went on active duty as an Infantry 2nd Lieutenant. After completion of the Infantry Officers, Basic Course at Fort Benning, he was assigned to the Infantry Training Center, Fort Ord, California. Here he served as the executive officer of a Basic Training Company. Adrian advises: "I find you want responsibility early and also want to learn something about yourself—Join the Infantry!"

After his release from active duty, Adrian returned to San Luis Obispo and is now employed at Stereophonic.

Although Roger served as a Field Artilleryman and Adrian an infantryman, there are several Army branches in which ROTC Cadets can choose to serve such as: Medical Services Corps, Quartermaster Corps, Air Defense Artillery, Chemical Corps, Military Intelligence, Armor, Adjutant General Corps, Military Police, Ordinance, Signal Corps, Corps of Engineers, and many others. Seventy-five percent of this year's ROTC seniors received assignments to the Army Branch of their choice and over ninety-seven percent received a branch of their first four choices.

And now back to a bit of the "now scene. Since Roger and Adrian served as ROTC Cadets, the pay for Cadets, serving in their last two years of their program, has been raised to $100 a month. Further, all male students enrolled in the program can receive immediate draft exemptions. The Army ROTC program can now be completed in 4, 3, or 2 years and an aviation program is available for those who desire to fly.

If you have any questions about our program (or indeed about your draft status or about any Armed Forces program) please drop in to see our Deputy Professor of Military Science, Lieutenant Colonel Silva, in the Dexter Library Building, Room 115, or come to chat with Colonel Silve, before he retires. You may decide to "fly if you'll like it!" The pay of a 2nd Lieutenant is getting better all the time. Basic pay is now $307.70 a month plus a monthly housing allowance ($108.90 if single or $114.60 if married) and $4.88 a month for subsistence. Add $60.00 a month if you wish to start your training as an Army aviator.
