McGovern tells of peace plan

(LUTI) - McGovern made his promise in a 10-minute, nationally televised address in which he outlined his own plan to end all U.S. involvement in the Indochina war.

McGovern said that immediately after taking the oath of office as president he would take the following steps:

- Direct his secretary of defense to stop all bombing throughout Indochina, and all military aid for the war, and order the immediate withdrawal of all American forces from Vietnam, Laos and Cambodia.
- Instruct U.S. negotiators in Paris to notify North Vietnamese representatives of the steps he has taken to end all U.S. military hostilities and that "we now expect that they will accept our obligation to return all prisoners of war and account for all missing in action" within 60 days.
- And further, notify all parties in Southeast Asia that the United States "will no longer interfere in the internal politics of Vietnam in that we will let the Vietnamese people to work out their own settlement."
- Send the vice president to North Vietnam to speed the arrangements for the return of American prisoners and an accounting of the missing.
- Close all U.S. bases in Thailand and reassess elsewhere any American ship stationed off the coast of Indochina, once all POWs and missing in action have been accounted for.

McGovern said his final three steps upon ending U.S. involvement in Indochina would be to offer draft evaders an opportunity to return to their country, implement an extended program for returning veterans and join with other countries in "repairing the wreckage left by this war."

The South Dakota Democrat said he believed that further support for the regime of President Nguyen Van Thieu "actually denies the people of South Vietnam the right to choose their own government for the first time in 13 years."

"Mr. Nixon will continue the same misanthropic foreign policy," McGovern said. "I say General Thieu is not worth one more American prisoner, one more drop of American blood."

"We have called Thieu a corrupt military dictator, said the South Vietnamese president and Envoy-general opposed to his policies, closed their newspapers for the truth, and "presided over the execution of 1,000 people without trial on the mere assertion that they did not support" his regime. McGovern said that President Thieu for his part was fighting the war "to maintain the last vestiges of a government that for the first time in four years. And we have every indication that he cannot produce peace in eight years."

McGovern, who has long been an opponent of the war but never has spelled out in detail his plan for ending it, said: "Continued on page 4"

AS8 positions in finance open

Two of the eight vacancies on the University Advisory Finance Committee remain unfilled after the regular quarter meeting Monday, Oct. 9.

The six candidates chosen by the University Finance Committee and Bill Blandish from the School of Engineering and Technology, Jim Peavler from the School of Math and Science, Heather Tomlin from the School of Communicative Arts and Humanities, Barbara Hall from the School of Architecture and Environmental Design.

According to Robin Baggett, A81 president, those chosen by the Committee have already been given the word that they will be notified soon to accept the position. The other two candidates are still under consideration.

EATEN HOT DOG OR DE-CARBONATED SOFT DRINKS, THERMOS BOTTLES.

ALMOST 6,000 FANS ATTENDED, MOST OF THEM SNICKERING AND DRINKING DURING THE TWO AND A HALF HOUR GAME.

PLACING MORE GARBAGE CANS IN THE STADIUM IS THE BEGINNING OF THE SOLUTION. THE FANS HAVE TO COME FROM THE FANS WHO SIT THROUGH THE GAMES, SHEDDING ENOUGH REFUSE TO BUILD SEVERAL COMPOST HEAPS.

IF IT WAS EASY ENOUGH TO BRING A CAN OR BOTTLE INTO THE GAMES, IT SHOULD BE EASY ENOUGH TO HANG ON TO THAT NON-EMPTY CAN OR BOTTLE UNTIL YOU FIND A TRASH CAN.

IF IT WASN'T TOO LONG OF A WALK DOWN TO THE SNACK BAR DURING HALF-TIME TO BUY A HOT DOG, IT COULD BE A TRASH CAN.

IT WOULD BE NICE IF, AFTER THE NEXT HOME GAME, BLEACHERS DIDN'T LOOK LIKE A GATHERING OF THE CITY DUMP REJECTS.
Student seeks answers to ‘timeless questions’

An IBM blew his fuse

Editor: Cal Poly offers no philosophy minor, let alone major. A student who wishes to teach in a technical field and minor in philosophy is faced with the dilemma of either transferring to another school or giving up a study in which he is truly interested.

All that is asked then, is that school officials take a realistic approach to the predicament of the student who wishes a well-balanced education in both a technical field and in a field which gives purpose to his actions. Anyone who supports this view is encouraged to make their position known.

Kevin Hatam

Threat made

Hanoi (UPI) — The Viet Cong's clandestine Liberation Radio has issued a veiled threat against the life of President Nguyen Van Thieu of South Vietnam. The threat was carried in a weekend broadcast, a text of which became available Monday in Saigon.

Letters

The faculty, department heads and deans have long understood the need students have of being able to function with a computer upon graduation and they have, over the past few years, incorporated computer programs and computer time into almost every type of class yet the computer facilities have capabilities during this time has remained the same. Do you know we are the only University in the nineteen State College and University System that runs their computer on a twenty-four hour basis and even then the turnaround time can be a song as seventy or more hours.

Almost every student on this campus at one time or another has experienced this unbelievable delay caused by an over crowded computer and faulty existing equipment.

I can see no end to this problem unless we as students unite.

Dave Vaughan

Threat made

Editor: I think it's about time that the Administration at this University begin to realize that the caliber of graduates from this Institution continues to decline each year because of the lack of opportunity for our students to benefit from our campus computer facilities.

Cal Poly offers no philosophy minor, let alone major. A student who wishes to teach in a technical field and minor in philosophy is faced with the dilemma of either transferring to another school or giving up a study in which he is truly interested.

All that is asked then, is that school officials take a realistic approach to the predicament of the student who wishes a well-balanced education in both a technical field and in a field which gives purpose to his actions. Anyone who supports this view is encouraged to make their position known.

Cattle judges capture National Championship

Champions of the National Dairy Cattle Judging Contest, the school Dairy Judging Team returned to San Luis Obispo last night not exactly an overnight success story.

Having never finished below tenth in the forty years the school has been competing in the contest, when the team left Columbus, Ohio, Tuesday it was the first time they’d done so with the championship.

In recent years the team had placed fifth, fourth, third and second (missing first place by a slight two points). Richard Denier led the effort for first place in high individual honors with representatives from Fresno State and Ohio State Universities.

Lee Terpstra and Jim Lead finished sixth and eighth respectively, in the individual competitions which included approximately one hundred competitors.

The team victory formula was constructed on first place finishes in the Guernsey and Jersey judging categories, a third place finish in the Holstein division, and tenth places in both the Ayrshire and Brown Swiss categories.

It was the first time also that a west coast team had taken the championship. Fresno State’s second place finish gave further weight to western representation at the contest.

OSU finished third in the overall competition, giving Dr. Herman Rickard, who, along with Dr. Harry Markos, coaches the winning school’s team, his former mentor. A reception for the champions was scheduled for this morning in the Agriculture building.

McGovern ...

(Continued from page 1)

people: “Shall we break free at last from Gen. Thieu? Shall we forget about saving face and begin saving the soul of our nation?”

McGovern said that when the last American soldier in Vietnam has returned home “there will be a new birth of confidence and hope for all of us.”

McGovern said returning Vietnamese veterans “largely kept Alida alive for only a day, morally wrong.”

Lew ‘too easy’

New Orleans (UPI) – A top federal narcotics official said Monday judicial leniency was one of the most difficult obstacles to eradicating the nation’s drug problems.

Hopefuls debate issues

Candidates for the California State Assembly and Senate, and Congress will reveal their stands on vital issues during the second Speaker Forum of the year, on Thursday night at 7:10 in CU room 202.

Rick Sewell and Curtis Haymore will speak respectively for Don MacGillivray and Gary Hart, who are competing for the 30th Assembly, which represents the area extending from the South to Los Angeles County down to Santa Barbara.

William, Richard Nimmo, and Joe Woods are battling for election in the 53rd Assembly District, which includes all of San Luis Obispo County.

Julian Camacho will be the sole speaker from the large 23rd Congressional District, covering almost everything from San Luis Obispo to Monterey, except Paso Robles.

The Young Democrats are presenting Julian Camacho as a speaker also during College Hour in Thursday.

Career tests

A special, two evening program of occupational guidance for adult residents of San Luis Obispo County will be held Oct. 11 and 12 at Cuesta College 7:30 to 10:45 p.m. in building 2000-CD.

Orrville Hendrick, coordinator, says the testing program will be limited to 48 participants. A new profile, developed by the American College Testing Program of Iowa, and oriented to occupational and education interests will be used. Hendrick says it will offer information to those with developing careers, uncertain as to their career goals, and those seeking new directions.

Interested participants should register prior to the first meeting by contacting the Cuesta College Vocational Education Department, 944-6960. There is no fee for the testing program.

Heart tested

Madrid (UPI) – Three heart specialists at the Heart Institute, who have ended an experiment with a new type of artificial heart and put to death its recipient, a 160-pound calf named Alicea, reported Monday the implantation in Alicea Friday at an experiment at the end of a heart surgeon’s career in medicine. The implant was made by a team of 10 doctors.

In a joint statement, the team said it was originally planned to keep Alicea alive for only a day, but she was kept alive for two.

Dr. Salvador Lliria said before the implant of the heart that it was a new type and powered by platinum.

New models evolving from the type that was used in the Alicea experiment might be implanted in humans several years from now, he said.

Reporter jailed for withholding from grand jury

Someone’s profession “in no way frees that person of a responsible responsibility,” said Gray.

Gray told a news conference he feels anyone, regardless of professional ethics, should answer a grand jury inquiry.

Bridge, jailed last Wednesday, has refused to disclose information to an Essex County grand jury on an alleged bribery attempt of a Newark, N.J. housing official. He was a reporter for the now defunct Newark Evening News, which published the article.

Last July, the Supreme Court ruled 7-2 that the first amendment does not give newsmen the right to withhold information about confidential sources. Bridge is the first newsmen imprisoned for withholding information from public investigators.

Asked about the FBI investigation, Gray demurred, saying he was under court orders not to talk about it.

For his part, Gray told newsmen, he plans "to keep my window open with the shades up."

Gray appeared in New London as guest speaker for the southeastern Connecticut United Fund kick-off luncheon of the U.S. Coast Guard Academy.

McGovern...
Helping hand extended

The Self-Help Housing program was lent a helping hand Saturday by the campus chapter of Alpha Phi Omega, a national service fraternity.

The frat turned out in force to help Maxine Lewis and her two daughters, of 3369 Broad Street, and nine other low-income families build their own homes in Baywood Park under a special federal loan plan.

The APO members spent most of the day supplying "unskilled labor," said Ray Hansen, APO service project chairman. "We shoveled sand and dug trenches for patio and garage foundations, cleared brush out of backyards, and installed fiberglass showers and bathtubs."

Mrs. Lewis said she deeply appreciated the group's help. "I just can't say how much I want to thank them for all they did."

Hansen said APO plans to go back for another work party in the near future. "...after our blisters and cuts have healed."

The work party wasn't all toil, however. Gamma Sigma Sigma, a service sorority, stopped by with lunch for the frat brothers, which made the labor a bit more enjoyable.

Student Community Services worked jointly with APO in coordinating the project. Hansen said he hopes APO and SCS will be able to work together more often.

Among APO's other projects for this quarter there are plans for building maps of the campus for display around the college, and a possible weekend outing with boys in their county.

"You've got blisters, I've got blisters, and we all have dirty hands.

Warplanes hit
(UP)—Egyptian air defense forces Tuesday shot down one of a formation of Israeli warplanes which attempted to penetrate Egypt's airspace over the Suez Canal, a military spokesman said in Cairo. Israeli missiles were fired at its warplanes but missed.

A mid-afternoon announcemenet in Tel Aviv said a routine patrol of Israeli warplanes along the canal was fired on by Egyptian surface-to-air missiles SAMS. It said none of its planes were hit by the Soviet-supplied SAMS and did not even fire back before returning safely to their bases.

Records open
Washington (UPI)—The Supreme Court let stand Tuesday a ruling which narrowed the application of the Freedom of Information Act, designed to make federal records available to the public.

Tigers spoil As' sweep; Reds even NL series

The Detroit Tigers spoiled an Oakland sweep with a 7-1 win, and the Cincinnati Reds rolled over the Pittsburgh Pirates 7-1 as the American and National League baseball playoffs continued yesterday.

Detroit, down two games to none in the best-of-five series, were faced with a do or die situation. But right-hander Joe Coleman came through with a brilliant pitching effort, striking out 14 batters in the shutout win for a new American League playoff record.

Meanwhile in Cincinnati, the Reds piled up seven runs as winning pitcher Bob Gibson held Pittsburgh to just two hits.

The series is now even in the National League showdown, two games to two.

The Reds played aggressively throughout the contest and capitalized on several Pirate mistakes. The Cincinnati base-runners managed to steal three bases on catcher Manny Manguillen in a field day for Red base-runners.

The National League tie-breaker will be played today in Cincinnati and the winner will move on to the World Series.

Game Four of the American League Playoffs will be played today in Detroit, with the As of Oakland holding a decided edge. The Tigers need to win two to get the nod for the series, while Oakland needs only one more win.

ASI sponsors bus to Fresno

A bus chartered by the ASI officers has a limited number of seats available for the Fresno State football game Saturday... The bus will leave tomorrow at approximately 9:45 p.m. from the front entrance to the College Union. The seating is limited to 30 students and many seats have already been reserved.

Reservations may be made in the ASI Business Office with a $2.00 transportation charge. This cost only covers transportation. Tickets for the game will be available at the gate, for general admission seating. Reserved seats may be arranged through the ASI Business Office.

Johnny Bench steals the first of two bases in the series final of 7-1 win over the Pittsburgh Pirates. The National League Playoff series is now tied 2-2.

Soccer falls, 2-1

by STEVE GREENBERG

Injuries prevailed on Saturday, in the first half of the Long Beach goal in the second quarter. One of the three sustained a calf injury, the other two were untried.

In what was truly a defensive battle, the Mustangs kept the ball away from the Long Beach 49ers for three quarters to all alone in front of an empty goal and put the 49ers ahead to stay, 2-1.

The Mustangs escaped the reach of the 49ers through the second period on a free kick, Mel Berdele shooting the ball past goalie Craig Gallantine for the lone score. The home team missed a golden opportunity to tie the score when the Long Beach goalie vacated his position. The Mustangs' shot at the open goal flew by just wide of the goalpost.
