No more TGs in limits of city

There will be no more TG parties in Lassen and across Oso Bay. This was the ruling of the Inter-Fraternity Council (IFC) according to Jim Larson, representative from Delta Sigma Phi.

Legal suits are still pending from last spring's get togethers. Last spring residents and local law enforcement agencies began keeping very close tabs on the TG activities. Larson said it was at this time that the council was put on trial by the Human Neighbors informed police that the wild behavior was being displayed. Upon investigation of the TG police received shouts and threats from the crowd. Because of the complaints from residents and general lack of supervision, the IFC decided not to attempt any TG parties in the city itself.

However, IFC had collected 800 for the purpose of starting a TG center at Laguna Lake. This idea was ruled out when the Department of Parks and Recreation refused to grant the land.

But the battle isn't over yet, according to Larson. Ranches outside of town are being checked into as possible TG sites. Also, one member from IFC is currently working with the Community Activities Board to study the problems involved.

Prop. 18

The so-called Obscenity Initiative, Proposition 18, is an attempt to strengthen obscenity laws in California.

If passed, cities and counties would be allowed to regulate obscenity instead of only when specifically authorized by the state as is presently done. SAC looks to students

According to Findley, the ad hoc committee was appointed by Pres. Robert E. Kennedy to review evaluation programs and develop University-wide guidelines and procedures within which each school would operate its own faculty evaluation system. The guidelines and procedures were approved by Pres. Kennedy last month.

When questioned by several SAC members concerning the possibility of publication of the student evaluation, Findley outlined Title 5 of the California higher education code which states: "No provision shall be made for publication of the student evaluation of faculty used for purpose of publication.

New phones for KCPR

More on the spot broadcasts will be in the offing now that KCPR has received $171,000 to be used for installation of telephone lines. These student Affairs Council on Wednesday night.

Steve Hugentobler, KCPR engineer, said: "These are special broadcast type phone lines used for coverage of remote student activities that otherwise could not be aired. By remote, I mean anything originating outside the station."

Craig Hines, KCPR Manager and Hugentobler said they hope to accomplish a two-fold purpose by installing lines to the College Theater, Men's Gym, and the station's mobile receiver. The first is to enlighten the student body and community listeners with the broadcast of shows with cultural, educational, and informational values. The second is to provide the KCPR staff with more on-the-job experience.

As election day draws near...

Prop. 19

California voters will have an opportunity to determinize the use of marijuana by an adult with passage of Proposition 19, the Marijuana Initiative.

If Proposition 19 is passed, no adult would be denied the right to possess, cultivate, harvest, dry, process, transport, possess, or sell marijuana. However, it would still be illegal to sell marijuana, or to engage in conduct which endangers others while under the influence.

"While no drug," proponents say, "including aspirin, alcohol (Continued on page 3)
Students seek space

Editor:
Over the past year student organizations have been developed in many areas to assist the community in working out problems. In order to better serve the student, all of the organizations have arranged 1ST problem! In order to better serve the community in working out the allocation, and has never come to a permanent space in the college union.

Governors has repeatedly stated that the students are right now reaching a crisis. Students seek space. They need aid not to assist the students? The Student Union is not enough. I assume the purpose of the union is to allow the gays to assemble together. If this is unsuccessful, chances are they will look to another outlet to express their wants. I have already indicated in my letter that submission to God is one aspect of complete deliverance, although I am sure we can establish a walk-in center on campus to help the gay minority find a normal sex relationship. This is why I feel to support the GBU to foster the gay movement, where it should be repudiated.

John Forster

Letters

Dear Editor,
In reference to Rod Tucker's letter, I wish to comment. After reading through his article, I could only agree. Homosexuality is an unsatisfying sexual experience, due either to wrong indoctrination about sex, or isolation from the opposite sex. There is no evidence as yet to support the fact that homosexuality is an inherited tendency.

Homosexuality is not incurable. No matter how strong the urge, a homosexual can find relief from his bond. But a cure is only possible when he, the homosexual, desperately desires to change.

As Rod pointed out in the book of Romans, there is no doubt that God doesn't approve of homosexuality. As in the case of Bood and Gomorrah, God poured out his wrath on talk manner of evil. God has the power to heal the homosexual and change the unnatural desires to natural ones.

Being against the formation of the Gay Student Union is not enough. I assume the purpose of the union is to allow the gays to assemble together. If this is unsuccessful, chances are they will look to another outlet to express their wants. I have already indicated in my letter that submission to God is one aspect of complete deliverance, although I am sure we can establish a walk-in center on campus to help the gay minority find a normal sex relationship. This is why I feel to support the GBU to foster the gay movement, where it should be repudiated.

must be done on a voluntary basis, with the results not being applicable toward personnel actions," Findley explained.

According to Findley, the purpose of the program is twofold; to improve the quality and effectiveness of this university's instructional program through aiding the instructor in improving his performance, and partial substantiation for personnel recommendations.

In other business, SAC formally decided to drop further action concerning a request for public retraction and clarification of a letter sent to the editor of Mustang Daily by Dr. Jon Erickson, dean of the School of Communicative Arts and Humanities, concerning term paper advertisements.

ASI Vice Pres. Denny Johnson stressed the need for such a program and felt the expenditure of the money would be wisely spent.

"During the summer up to 50 students a day came into the ASC Office seeking help in finding housing. I feel strongly on this. It is important that this service be independent," Johnson explained.

As a final business item, SAC reconsidered its stand on Proposition 1 and voted to endorse the proposition by a roll call vote of 13-1 with six no votes.

Sending a message to...
Mustang runners go for 2nd place in conference meet here Saturday

by CHUCK RAMES

"Hit 'em," "lick 'em" and "rip 'em" is not going to be the

kind of talk heard in the men's locker room this weekend when

the Mustang cross country team prepares for its biggest test yet

this year.

The 1972 CCAA conference meet is going to start in front of

the Men's Gym Saturday at 11 a.m. and the Mustangs hope to do

well enough to entitle them to go

the Men's Oym Saturday at 11

this year.

Coach Larry Bridges feels that

if they get second in the

conference, behind defending

national champs Fullerton, they

should be able to represent this

university well in the nationals.

Bridges stated that the con-
nference is very tough and that if
every team went back East they

would all place in the top 20.

"Our biggest competition for a

second will come from Punana

and Northbridge," commented

Bridges.

There has also been some
talk that Northbridge is coming up

here just with beating this

school's team in mind.

Seven outstanding runners will

be in the meet for the Mustangs.

Terry Lamb, who is well and

ready to run, Russ and Rich

Walline, Jeff Nlland, Niels

Rahbek and John Burre.

Dale Horton, the Mustang team

leader will be unable to run due to

torn muscle in his lower leg.

"The team is really ready for

this meet," said Bridges. "In-
terested people are encouraged

to be in front of the Men's Gym

at 11 a.m. for what should prove
to be a great day for the

Mustangs.'"
