McGovern explains reasons for defeat

B. Thomas, V.I. (UPI) - Sen. George S. McGovern said Monday that no Democrat could have defeated President Nixon because of the absence of Gov. George C. Wallace in the fall campaign.

McGovern said Wallace's failure to endorse his candidacy—an endorsement McGovern personally sought several times—may have swung the election because of the absence of Gov. George C. Wallace in the fall campaign.

In the administration's and its predecessor's efforts to sway the South, McGovern's endorsement may have had an expected "final" effect on the North Vietnamese and presidential advisor Henry A. Kissinger.

The differences between Washington and Hanoi were reported to center on how a cease-fire would be supervised, the withdrawal of North Vietnamese troops from South Vietnam, and any political arrangement in the South that might include a coalition government with the Communist party.

An American source said McGovern was carrying a letter from Nixon to President Nixon giving Nixon personal conditional approval to sign an agreement with the North Vietnamese as long as he did not compromise South Vietnam's position.

In an indication that a ceasefire may be near as the administration actively sought it, McGovern has been discussing the possibility of sending a probe to the South to see what is being called a "silent" negotiation between the North Vietnamese and the South Vietnamese.

In an indication that a ceasefire may be near as the administration actively sought it, McGovern has been discussing the possibility of sending a probe to the South to see what is being called a "silent" negotiation between the North Vietnamese and the South Vietnamese.

American sources said McGovern was carrying a letter from Thieu to President Nixon giving Nixon personal conditional approval to sign an agreement with the North Vietnamese.

"This was a direct threat to South Vietnam," McGovern said.

"I have no intention now of running again for president but would seek re-election to the Senate in 1974.

"I would not seek Senate leadership roles but would maintain my freedom as an independent senator.

At the same time, South Vietnam's foreign minister, Tran Van Lam, said any agreement for ending the war must be signed by his country, and that he had told Nixon that a "fixed date for ending the war" must be signed by his country and that he had told Nixon that a "fixed date for ending the war" must be signed by his country, and that he had told Nixon that a "fixed date for ending the war" must be signed by his country, and that he had told Nixon that a "fixed date for ending the war" must be signed by his country, and that he had told Nixon that a "fixed date for ending the war" must be signed by his country, and that he had told Nixon that a "fixed date for ending the war" must be signed by his country, and that he had told Nixon that a "fixed date for ending the war" must be signed by his country, and that he had told Nixon that a "fixed date for ending the war"

Further peace delay

UPI - Disagreements were reported between the United States and South Vietnam Monday which may further delay the proposed Indochina peace settlement with the Communist-party.

White House press secretary Ronald L. Reagan said "further consultations" may be required with both Hanoi and Saigon following an expected "final" meeting between the South Vietnamese and presidential advisor Henry A. Kissinger.

The differences between Washington and Hanoi were reported to center on how a cease-fire would be supervised, the withdrawal of North Vietnamese troops from South Vietnam, and any political arrangement in the South that may include a coalition government with the Communist party.

Dirty Old Men's Union opposes campus GSU

Editor: I hope I'm not being a dead horse with a stick by writing this letter, but in a recent discussion some friends and myself came up with an idea that could be an answer to the GSU (Gay Student Union). We call it the DOMU (Dirty Old Men's Union).

The purpose of such an organization would be to show how ridiculous it is to expect a campus to support such activities as personal sexual behavior.

Such a club would exemplify how not to run a college. The club would ask the school to fund such activities as stag films, weekend trips to Reno, a special library for Playboy fadettes, group discussions (with guest speakers) about the problems that face dirty old men, and projects and experiments in several other areas in which a dirty old man might get involved.

Actually the title "Dirty Old Men" is misleading (we're not old). The interesting part about it, though, is the fact that the DOMU would be nothing more than a prank to prove a point. The GSU is for real, unfortunately, and to have such a club on campus is not realistic. What "Dirty Old Men" do at home is their own business, but it's not the kind of learning experience that needs to become a school function. The same goes for the GSU.

Real winners seem to be in short supply this late in the quarter, but owing to the elections and Friday's football game the third installment of the Men's Union awards is ready and waiting.

THE GOLDEN MOUTH AWARD: Homer Odom, owner and manager of KELY radio, has outdone himself in recent weeks. He wins this award for his editorial comment endorsing Burt Tackett for 12th District Congressman.

Odom opened his statement with praise for both men. "They're both excellent candidates..." he said. "It's too bad we can't vote for both." Then Odom said Tackett, a dedicated man while "full-blooded Camacho has to offer is more rhetoric than a prank to prove a point. The DOMU is for real, unfortunately, and to have such a club on campus is not realistic. What "Dirty Old Men" do at home is their own business, but it's not the kind of learning experience that needs to become a school function. The same goes for the GSU.

THE PHELWITZER AWARD goes to Robin Baggett, ASI President. Baggerit lectured Student Affairs Council on the evils of selling term papers and plagiarism. Then he "borrowed" fortunes of an Oct. 28 National measuring article for his Mustang Daily column on "Dorms on the decline."

Everybody's fine now. Robin promises from now on to tell us where he's getting his words of wisdom.

Anyway, who else but Robin would spend his Sunday hard at work in his office.

THE FAIR WEATHER AWARD: Robin Lake, a Speech Department instructor, has discovered in the past for increased enrollment the kind of learning experience that needs to become a school function. The same goes for the GSU.

Mythic

Students who think of quality first think first of Ross Jewelers

OMNI BLOOM DIAMOND KINGS

First and ten inside our five yard line, but our terrific defense prevented them from scoring. There were several times Fullerton reached the one foot line, but they were again stopped. There were also many key defensive plays made by our linebackers and, of course, our terrific defense began to look like they may try to take on the UCI. The rooter section for Poly was about two-thirds the size that Fullerton had, and it was better than twice as loud as Poly's. It was not until the second half that our offensive team began to finally put it together and really outscore Fullerton. Poly began scoring on some outstanding drives, a terrific punt return for a touchdown, and Poly's defense was sound throughout. In the first half, Poly scored on two field goals and one touchdown. Fullerton scored on one field goal.

THE PERSISTENCE AWARD: T.W. Speers, advisor to Mustang Daily with his column "B is Happy," wrote this column after the Cal Poly football team lost to Fullerton, the Los Angeles Times. "B is Happy: On behalf of the San Luis Obispo County Employees and their support on November 7." It was in response to the "South of the Border" radio program which suggested that there was no way to defeat the University of Southern California in football. "But what about the other team," he asked. "The team with the best defense?"

It was in response to the "South of the Border" radio program which suggested that there was no way to defeat the University of Southern California in football. "But what about the other team," he asked. "The team with the best defense?"

THE GOOD NEWS AWARD goes to Walter Meade and Pete Hubbard for performances Saturday. Meade ran back a kickoff 60 yards for a touchdown. Not to be outdone, Hubbard outdueled Maude and has the two closest pursuers and look out for both defenders with a rolling block. Hubbard's not at happy that now. That his speed is known, the coaches will expect more out of him.

THE PUBLICITY AWARD goes to defensive tackle Joe Bellii, of San Luis Obispo, who last week found his late model car had been stolen from the lot adjacent to the Men's Gym. A few hours later Bellii had back, plus a few dents and puddles of water inside. Some guys will do anything for publicity.

$100 is offered by service club

A $100 scholarship is being offered by Los Robles Women's Service Club to any woman returning to college after interrupting her education because of marriage, family, or job responsibilities.

"We feel that there are many scholarships available to the graduating high school student," said Mrs. Sherry Smith, Secretary of the club. "For more information on the scholarship, those interested can refer to the Financial Aid Office at this school or write to Los Robles Women's Service Club, P.O. Box 2061, Paso Robles, Calif.

Winners Incorporated helps convicts to make smooth return to society

Education is something we've all been told we need, and jobs are the reason we've been told we need education.

Those of us with a university degree in sight and our oyaa on the market may not know what it is like to eye the job market with only a junior high school education.

Complicate that with the problems of housing, rebuilding family relationships after time in a penal institution, and you have an idea of what the average parolee faces upon his release.

Winners Inc. is a non-profit service group dedicated to helping the inmate before he is released and to continue helping him once he gets out. Its main purpose is to smooth return to society amongst parolees, to help the Inmate before he Is prone to criminal ways) amongst parolees, to reduce the rate of recidivism (the return of former prisoners) amongst parolees, to help parolees and ex-prisoners get along in society, and to help parolees and ex-prisoners find gainful employment.

Winners offers Inmates assistance, liaison with employers in the state and country who are willing to hire parolees, resumes and Job placement, housing placement, transportation assistance, tutoring, job training and placement, peer-pressure counselling.

The Winners group at California Men's Colony is just developing and consists of about 1,000 participants, said Marvin Gross, child welfare worker and president of the National Association of Social Workers. The group's finances are covered by Winners Inc.'s state and federal grants.

The Winners group at California Men's Colony (CMC) is just developing and consists of about 1,000 participants, said Marvin Gross, child welfare worker and president of the National Association of Social Workers. The group's finances are covered by Winners Inc.'s state and federal grants.

Some of the students of the Avila School are working to establish a hydroponic garden for growing tomatoes.

Photos by
Bill Gaedtke

The Avila School for Functional Living helps mentally retarded or handicapped adults find happiness and fulfillment every day. From 9 in the morning till 3 in the afternoon, these students are taught to read, write, do math problems, tell time, sew, cook, garden, and just about anything else imaginable. And their work shows.

If you were to visit Avila School, you would also be astounded by the abundance of green places around the school, that you'd probably wonder whether you were at a school or a nursery. But it's really no wonder.

If asked, the school's staff would tell you that there is a shortage of instructors and a desperate need for volunteers.
I.

Irritated or handicapped adults find happiness

People who want to give either time or materials to Avila School should contact Robin Eichner, Project Coordinator of Avila School for Student Community Services, in College Union 527.

If you were to visit Avila School, you might find some people who need you.

**Tornadoes slam Texas**

(UP)-A powerful storm Monday unleashedkiller tornadoes on eastern Texas and piled highway-blocking snow on the central Plains.

Twisters and violent winds killed two persons, injured up to 90 and caused more than 90 highway-blocking snows on Monday unleashed killer tornados up in Nebraska. High winds swept the snow into drifts, emptying ground and air traffic and closing schools and businesses in some communities.

Four to five feet drifts built up in North Platte, Neb. The University of Nebraska at Omaha closed early and landing operations were halted at Omaha's Eppley Airfield. Bus companies suspended most operations between Denver and Lincoln, Neb. A rash of accidents, mostly fender-bender mishaps or the jackknifing of trucks, caused authorities at Council Bluffs, Iowa, to ask all motorists to stay off streets.

Motorists were stranded at truck stops in western Kansas where the state highway patrol said "people just aren't trying to travel." Interstate 70 was closed between Kansas and Colorado border and all major routes to close some military bases and cut the size of the U.S. Armed Forces during the next 17 months. It acknowledged the support had been played down in a presidential election for political reasons.

**Interhall Council seeks communication in dorms**

Should men and women live together? According to Brad Bellier, SAC representative from Interhall Council, questions of this nature are directed to the council, a campus organization which he believes has hidden potential.

Little has been heard about the activities and the usefulness of this body, but the enthusiasm shown by the officers this year is helping them become better known. The function of the Interhall Council, whose first code came into being in 1958, is to coordinate the activities of the residence halls, facilitate communications of the men's and women's halls, and establish dorm policy.

The council is bound by 17 representatives; one elected representative per 100 dorm residents. In past years only card holders could be part of the representation, but now non-card holders are eligible. This policy was instituted to provide more realistic representation from dorm residents.

When the council was first formed, the Men's Council and the Women's Council were two entirely separate entities. At changes in off-campus living have come about, so have the purposes and goals of the Interhall Council. The Council now provides a direct channel to the Administration for forming dorm policies and revising established standards.

Bellier, SAC rep and VASV representative from the Council has taken on a number of new projects recently. The Council has just set up the Dormitory Reserve Fund, a reserve completely apart from the state. Initial funding came from Tenaya Hall, which has turned into a family center. Reserve funds are used for the benefit of the dorm residents and can be administered through a two-thirds vote of the Council.

Another new project is the Student-Faculty Forum. The purpose of this project is to get the students and faculty on an equal basis. Faculty members will take dorm events and plan discussions. It is also hoped that student visitation in family homes will begin.

A file of all interested faculty members is now being compiled and a good percentage of interested faculty have been found. One of the most interesting projects recently established by Interhall Council is the evacuation drill on North Mountain living complex.
Soccer season finishes in rain

by STEVE GREENBERG

The Mustang soccer team saw its season end on Saturday, never getting the chance to play Fresno State because of the poor condition of the field.

Talking about the canceled game, coach Carman Sacco said, "Everybody wanted to play it. I called the Fresno State coach and told him it was raining cata and dogs. I said there were puddles on the field that you could raise fish in. I told him my team was ready to play, but the field was in pretty bad shape. He said it was my decision, so I canceled it."

Sacco said he hoped he could set up an exhibition game against Fresno State during Poly Royale.

The team had a season-ending barbecue down in Poly Grove, where award presentations were made by veteran squad member Juan Aceytuno, to coach Tom Hinkle and to Sacco, the "little big coach," as Aceytuno aptly dubbed him.

At the end of the ceremony, Aceytuno said: "The only way we can thank our coaches is to come out next year and show our support. I think we can win the championship next year.

Aceytuno continued, "I hope coach Hinkle learned a lot about soccer this year as he can take us all the way next year."

Looking back over the season, Sacco said, "We had a lot of trouble with injuries."

Although the team went through an extensive pre-season workout, he added, "It was just like starting from scratch at the beginning of the season."

Sacco saw the lack of pre-registration as a major problem. "If I had had pre-registration I could have had more time to work the guys, but we wouldn't have worked out as long each day," he said. "But we didn't (Continued on page 8)"

Harriers 13th in nation

by CHUCK SAMS

The Mustang cross country team returned from the NCAA championships held in Wheaton, Ill., with a respectable 13th place. "We did okay," commented coach Larry Bridges. "We expected to get into the top ten and could have done so with just a little more effort!"

Coming in 13th place out of sixty-two teams is a pretty good showing for the Harriers. Leading the pack for the Mustangs was John Beaton, followed by Rael Kihnke, Russ Walline, Rich Walline, John Burns and Terry Unsamead. Beaton, who got a time in the race, did an outstanding job according to Bridges.

Bridges mentioned that teams from the midwest love to race people from California because Californians are used to warm temperatures and rugged courses. "The course back there was flat ground and the temperatures were in the middle." explained Bridges. "If we raced most of these same teams out here on our own course there would be a big difference in the final outcome."

California teams that went back to the Nationals did very well. Fullerton did well in getting third place, UC Davis nabbed eighth place and Chico State grabbed 16th. Bridges also said that Fullerton is used to running on a flat surface and to solve this problem for next year he wants to find a flat mile course, on grass, that the team can work out on once a week. The Harriers are going to be held on the same course next year. With most of the team returning and the experience gained from the first trip the Mustangs should do quite well.

INTRA SQUAD MEET

Wrestlers open tonight

by RICK KNEPP

The Mustang wrestling team kicks off what promises to be one of the best seasons in this school's history tonight with the annual intra-squad meet. The matches will determine the University's new wrestling coach Vaughan Hitchcock hopes to start the season with. Action begins in the Men's Gym at 7:30 p.m.

Hitchcock's optimism is based on a roster rich with returning National Collegiate Athletic Association powerhouse wrestlers. Seven of the 85 men on the squad have earned All-American status. Gary McBride and Glenn Anderson are former national champions, McBride taking the 118 division in 1971. Anderson will be defending his crown in the 185. Other standouts are Mike Wasum, 144; Larry Morgan, the only Mustang to place in the NCAA University Division championships last year, 148; Alvin Cooke, 158; Pat Farner, 177; and Keith Leland, 190.

A number of experienced wrestlers will help round out the team, along with three junior college transfers.

This season's team is primarily seniors; therefore Hitchcock will be building for the future with an impressive card of freshmen led by four-time CIF champion Mark DiGiorgio from Santa Cruz. Erte Del Rio and Katy Thompson are also CIF champions, and there are a number of freshmen on the fresh cards. The freshman team is scheduled to compete in seven tourna-
ments.

"This year should prove to be the most exciting ever for local wrestling," Hitchcock stated. "We will have nearly all of the top teams in the nation on our home mat."

The Mustangs will open a 34-match schedule on Nov. 30 with the first of three dual meets in Hawaii. The trip is an effort to promote interest in wrestling on the island state.

The University of Washington, expected to be an NCAA powerhouse, will open the home schedule on Dec. 4 with what Hitchcock called "the biggest meet of the fall."

Soccer season ends . . .

Last Saturday. Runners-ups were Phil (Bloom) Davis and Dave Holden. The Mustang bowling team is sponsoring a raffle to raise money for upcoming meets. Tickets may be purchased from any bowling team member.

Hancock burled as polo season nears end, 11-7

by MIKE SMITH

After losing a heart-breaker to the University of California at Riverside by one point last Thursday, the Mustang polo team again took to the water Saturday. This time defeat Allan Hancock Community College's men's team by a 11-7 margin. The third quarter also saw them giving the aggressive Mustangs as they pounded out four more points to the slowly-fading Hancock's three. But this was where the scoring seemed to cease for both teams, especially the Mustangs.

After going into the fourth quarter the Mustangs appeared to just lose their composure as they couldn't find the right offensive attack to score more points. But this didn't seem to matter, according to coach Dick Anderson, who said, "we played Hancock very similar to our last encounter with them at the first of the season. Our fourth quarter was very poor but this didn't really matter because Hancock couldn't catch us at this point. We had already won the match."

Bill Stanton was the hot man for the Mustangs in the scoring column with three points. Also, Ivin, Brecht, Craig Lipps, and Dale Osteen each had two also in the scoring column with one.

Mark Shirley and Sam Sorensen each had two goals for the Hancock team.
