**RESIGNS POST**

Romney wants reform

Washington (UPI)—George
Romney announced Monday he
would be stepping down from his
post as secretary of education.

Although Romney said he would
remain in his post until the end of
the school year at the end of the
year, he added that he would
begin discussions with others
about his future.

Romney said he would continue
to work on his plans for the
future, including plans for a
second term in the White House.

Romney's move comes after
pressure from the outside world
and within his own party.

- **Latest in children's toys**

  - **Conceived by Archies**

  - **Educational play toys for young children**

  - **Designed to help develop cognitive and motor skills**

  - **Made from safe and nontoxic materials**

  - **Available in a variety of shapes and colors**

  - **Perfect for children aged 1-10**

  - **Ideal for children with special needs**

The toys are designed to help
develop fine motor skills,
problem-solving abilities, and
imagination.

- **Environmental design students**

  - **Participated in a workshop**

  - **Worked on a project**

  - **Presented their ideas to the public**

  - **Received feedback from visitors**

  - **Gained valuable experience**

The workshop provided an
opportunity for students to
share their ideas and learn
from others.

- **Hale and urban development**

  - **Incorporated real-world scenarios**

  - **Taught children about sustainability**

  - **Fostered a sense of responsibility**

  - **Encouraged creativity and innovation**

The workshop aimed to
help children understand the
importance of sustainability.
Man versus mountain

Bruce Patrowsky

Thanksgiving Day at 3 a.m.

Dale rescued three other members of the Outings Committee out of our half-crested Peak shelter, Mt. Shasta Cabin (open to the public). We quickly put on our climbing clothes, filled our rucksacks with necessary gear, and began the fourth annual attempted winter assault of Mt. Shasta.

Mt. Shasta is the highest mountain in Northern California (14,163 feet) and dominates everything for over 160 miles around. It is a dormant volcano, covered by five glaciers and reputed to be the home of the Bigfoot Snowman. Many residents of the nearby town of Mount Shasta (where we got a highly inaccurate weather report) also believe the mountain to be the home of the Limurian, spacemen from Jupiter.

As we started up the mountain, the going was slow due to knee-deep, freshly-fallen snow. Soon, however, we were above timberline (8,000 feet), and the lights from nearby towns and highways came into view far below. Just as dawn, a snow squall struck, and we cursed the National Weather Service which had forecast two days of perfect weather. Chip Barkley developed altitude sickness and had to turn back. Dale Guimette, Grumpy Kelley and myself couldn't be stopped.

At about noon we reached the snow field known as Helen Lake. Lunch was broken out, being composed of salami cheese and oranges. The snow was no longer falling, but the wind blowing a lot of snow around. Dale rounded three other members (14,193 feet) and dominated as Mt. Shasta's third dorminal peak, a low cloud blew in. In the whiteout, we could see far down the face, and the most difficult to live in and our trip made a difference, and we were prepared for almost anything.

As one who is concerned with ecology, this mountaineering experience had particular significance to me. While we were in the mountains, we were in awe of the forces of nature, of how small the individual is compared with these forces. And we could see far down the face, and were prepared for almost anything.

We felt satisfied, however, and we were able to glide (slide) down the last 100 feet due to the danger. At about noon we reached the top of the peak, the going was slow due to knee-deep, freshly-fallen snow. Soon, however, we were above timberline (8,000 feet), and the lights from nearby towns and highways came into view far below. Just as dawn, a snow squall struck, and we cursed the National Weather Service which had forecast two days of perfect weather. Chip Barkley developed altitude sickness and had to turn back. Dale Guimette, Grumpy Kelley and myself couldn't be stopped.

Soon, however, we were above timberline (8,000 feet), and the lights from nearby towns and highways came into view far below. Just as dawn, a snow squall struck, and we cursed the National Weather Service which had forecast two days of perfect weather. Chip Barkley developed altitude sickness and had to turn back. Dale Guimette, Grumpy Kelley and myself couldn't be stopped.

We came down the mountain in the dark. In a couple of places we were able to glide (slide) downhill, but the snow was too soft in most places to allow this. After several hours, we huddled under a low cloud and were oriented by the cabin at about 10 p.m.

Two of us had rendezvous with the mountain, having come back for Poly in 1978. One was prepared for almost anything. We could see far down the face, and were prepared for almost anything.

Girl's limbs untouched in an immoral society

Editor:
I have a niece attending your school. I shall not reveal her name for fear she will be scoffed at, called Prudila Prude, and for fear she will be called Prudilla Prude and other such epithets.

However, she is one of the fortunate girls. She is immune to the licentiousness and its ensuing values. Her long brown limbs and tender bosom will not be deplored by some lusty lout out for a cheap night's adventure.

But what sort of age is this that permits institutions of higher learning to pass out birth control pills willy-nilly, that allows students to cohabit without penalty? How long can our nation's universities go on ignoring this problem? How long can our students be subjected to the mass distribution of films like Story of O, or more recently, Marjorie, pocket books like The Mind One. How long can obnoxious disc jockeys continue to play recordings nationwide extolling drugs and urging girls to "be the whole gang."

Young people, I ask you to take a moment! Pause, reconsider your peril! Save yourselves. Turn your backs on the licentiousness around you.

And dear editor I ask you, please print my letter. Allow one young man to speak out against the iniquity of our system.

J. Arthur Gerhart III

Measure and Survive

Members of the measurement science profession will meet on this campus for two days next month to discuss new techniques in the industry.

The conference, sponsored jointly by the California State Bureau of Weights and Measures and the National Bureau of Standards of Weights and Measures, will be held Friday and Saturday, Dec. 1 and 3, with the theme "Measure and Survive."

The two-day conference will feature 12 learning sessions along with five tutorial sessions. Each session, will offer papers written by members of the metrology industry to touch upon various areas of application.

This university is offering the conference in connection with its initiation of a concentration of measurement science as part of its Bachelor of Science degree program in Industrial Engineering.

Registration fee for the conference, including Luncheon and coffee breaks, is $8 for students and $35 for others by pre-registration. Pre-registration is $5 more per person. Registration at the door will be $40.
Mustang face Hayward State

The Mustang basketball season officially gets under way tomorrow at Cal Poly State University in San Luis Obispo against the Pioneers as they see the Mustangs, will be keeping his varsity-freshman game.

for the Hayward game after their first win of the season against Hayward State Junior forward John Parker will be helping the Mustangs go for the Hayward game after their first win of the season against Hayward State

The starting line-up should be the same as that for the varsity-freshman game:

Coach Bruce Jennings at the guard position Rick Reed at the guard position

Jackson and Bob Jennings at the same as that for the varsity-freshman game.

The Pioneers didn't have a good season last year, coming out in intra-school victory over the Mustangs' 16-10 record and a 44 Far Western Conference record compared to the Mustangs' 16-10 overall standings.

The Mustangs should be ready for the Hayward game after their intra-school victory over the freshman team in the annual varsity-freshman game.

Coach Ernie Wheeler, starting his first season as head coach for the Mustangs, will be keeping his team in a defensive type of game against the Pioneers as he sees the Mustangs using a defensive style of basketball the only way the Mustangs will win this season.

The starting line-up should be the same as that for the varsity-freshman game with Billy Jackson and Bob Jennings at forward, Pinky Williams and Bob Reed at the guard position and Joe Linnemann at center.

To you from IRIS men...

arranging the arrangements for the program with William B. Haylock of the DAS Service Staff, said participants will be able to attend all four of the workshops during the day.

Businessmen, accountants, lawyers and other people interested in learning more about the provisions of the Revenue Act of 1971 are urged to register in advance so that proper accommodations can be arranged for them.

The $15 registration fee should be sent to the Cal Poly Foundation and checks should be made payable to the Foundation. Further information may be obtained from Miller by telephoning 540-3001.

KCPK to carry home Colt basketball games

An eight-game string of junior varsity basketball games will be carried by campus radio station KCPK (90.3 FM) beginning next quarter as it was announced yesterday.

According to sports director Jim Faasenfeldt, the broadcast season will get under way Jan. 4 when the Colonials host the JVs at Cal State Fullerton. Following that, according to Bob Reed, a junior varsity game will be held at Cal State Fullerton the next day.

On Jan. 9 the only away game of the broadcast schedule will be a visit to Cal State Fullerton.
