Police continue search for second sniper; 7 die

New Orleans (UPI) - Police stormed a sniper stronghold Monday on a hotel rooftop riddled by 37 hours of violent gunbattles in which seven persons died and 11 were wounded. They found the corpse of a terrorist slain 17 hours before but not a second sniper. The man believed to be also holed up there.

Finally, some of them said they were not even sure he existed.
The official position of the police, however, was that the search would continue even if it takes from now till doomsday."

"It is as a possibility there was only one sniper but it is not a probability," said a policeman. "We are working on the assumption there was more than one." New Orleans Police Superintendent Clarence Garrueso said firmly earlier that another gunman had been spotted in the air conditioning system and that "he's moving and capable of shooting.

A check of the vents turned up nothing and police then began a room-by-room search of the Howard Johnson Motor Lodge for another sniper.

The "probability-probability"

The statement was issued by police department spokesman Carol Gammon. She also said the "gunmen" officers spotted in the air conditioning system actually may have been "some insulation and wiring that could have been blowing in the wind."

Firing automatic weapons, officers stormed atop the hotel shortly before 3 p.m. In full view of a national television audience they detonated two huge rounds at the hotel after a three-week holiday recess.

The two persons in the room were the permanent tenants in the Collet Arena.

Collet seating goes to SAC

An abbreviated agenda is slated tonight when Student Affairs Council (SAC) reconvenes after a four-week holiday recess. The busy business item is the construction of permanent bleachers in Collet Arena.

Discussion items include SAC election guidelines, a day care resolution concerning use of campus facilities, and the Women's track club. Weekly reports are scheduled from Finance Committee and the Bylaws Committee.

Washington (UPI) — Defense Secretary Robert McNamara estimated Monday that no more than 1,500 men will be drafted this year — a record low for any year in which there has been a draft and only one-fourth as many as were inducted last year.

Selective service officials said, however, they may not draft anyone entering the draft pool this year. They hope and expect to fill the Army's needs entirely from men who met their inductions last year.

The draft ends June 10. Laird recently said there would be no calls in January or February, and Monday he told the House Armed Services Committee fewer than 3,000 would be called in March and "no more than an average of 1,000 men per month will be needed" in April, May and June — the last three months of the draft.

During all the years in which there has been a draft — during the Civil War, the two World Wars and continuously since 1946 — the fewest men ever called were the 14,088 drafted in 1946 during the Berlin Airlift.

Selective service officials said Monday there is a good chance no one will be drafted in 1965 — who faces the draft for the first time this year — will ever be drafted. They received their lottery numbers in the drawing last February.

The officials explained that last year 15,801 men with lottery numbers up through 98 were drafted. But about 6,000 other men with numbers up to 98 were not inducted before Dec. 31.

The laws allow selective service to induct these men in the first three months of this following year. About half of them will not go in March. But selective service officials believe the number of men in that pool without illnesses or other legitimate reasons for delaying their inductions past May 30 may be high enough to fill the remaining draft slots.

The officials said they do not want to draft anyone born in 1946. They feel it would be unfair because the college group would be untouched until their draft numbers are called, thus protecting the ones about to graduate. Therefore, only those who were unable to go to college would be subject to the draft.

In the 18 years since the Korean War began, draft calls have swung widely, from a World War II high of 646,700 in 1948, to a between-years low of 78,300 in 1962, and to a Vietnam War high of 384,800 in 1969. World power to be subject of visitor talk

Dr. Yuen-Li Wu, Professor of Economics at the University of San Francisco, will speak on U.S.-China Relations and the Balance of World Power.

The Military Science Department is sponsoring Dr. Wu who is scheduled to speak at 11 a.m. today in the Chumash Auditorium. It is free to the public.

Dr. Wu was born in China in 1939 and educated at the University of Shanghai and the National University of China. He has written extensively on China and the recent SALT talks.

While a consultant to the UN Chinese delegation in 1964, he took part in discussions which established the UN policy toward economic matters in several parts of the world.

But the Foundation and All have been ineligible for the statewide hookup since July, Gersten said. Only state agency offices are allowed to use the direct dialing under a bill passed last year.

The Foundation and All now pay for each individual long distance call, which they did not have to do under the old system.

Numbers that have been changed include: Student Housing 544-4651, All Business Office 544-4741, CU Information Desk 544-4640, and CU Recreation Area 544-4740.

Others are: CU Craft Center 544-4110, CU Burger Bar 544-4770, CU Ice Cream Parlor 544-4880, Mustang Daily Editor 544-6841, Mustang Daily Editorials 544-4653, and Mustang Daily Advertising 544-4880.

Potential phone numbers changes and Foundation phone numbers were changed during the Christmas vacation.

The change came, according to Roy Gersten, All Business Affairs Director, because there was a shortage of the 3000 series numbers on campus. Both numbers are cut into the statewide direct dialing system for long distance calls.

Some ASI telephones get number changes

Mustang Daily and other ASI and Foundation phone numbers were changed during the Christmas vacation.

The change came, according to Roy Gersten, All Business Affairs Director, because there was a shortage of the 3000 series numbers on campus. Both numbers are cut into the statewide direct dialing system for long distance calls.

The change came, according to Roy Gersten, All Business Affairs Director, because there was a shortage of the 3000 series numbers on campus. Both numbers are cut into the statewide direct dialing system for long distance calls.

Sweating out their lottery number assignments last February are three men who may now be least to worry about due to the government's announcement that the 1972 draft call may not exceed 6,500 inductees.

The change came, according to Roy Gersten, All Business Affairs Director, because there was a shortage of the 3000 series numbers on campus. Both numbers are cut into the statewide direct dialing system for long distance calls.

Dirty Old Men's Union founder was just 'having a little fun'

Editor:
Last November I sent a letter to the Mustang Daily about the Gay Student Union, which, frankly, I was having a little fun while trying to make a point. Since then, the letter has come under attack as if it were bigoted and malicious toward gay people. I did not mean this to be... but then again, I don’t mean this letter to be a public retraction of the other.

I said nothing malicious in the letter. I only expressed my opinion that the GSU not be supported by the college. I felt, and still feel, that the GSU is fine and probably necessary, but not as a campus organization. Again this is just my opinion.

My only mistake was to take the issue too lightly. I jokingly submitted, to prove a point, that a Dirty Old Men’s Union would form a union because they are gay. Any problems that arise there are just results of that fact.

It is my belief that any kind of sex life is a private thing, and if a union of people forms because of a common behavior, then it should be a private group of individuals, not a school supported organization.

I ridiculed no one in my letter last November and expressed only my feelings about a certain issue. I still feel that being gay is no sin but neither is it a blessing which deserves the time, money, effort and support of a learning institution. The gay students should support themselves, not ask for the school’s support.

If saying this is backward and bigoted, then, I guess, freedom of speech is backward and bigoted, and anyone who expressed himself, as he has the right to do in this country, is a bigot. Meet number one.

Mike Romkevich

Classical vibes to flow from theatre Thursday

Combining their talents, Dr. Charles Heiden, renowned concert violinist, and Ronald Ratcliffs of the music faculty at CSU, will play five pieces, including Mozart’s Sonata No. 6 BMV 1011, G-Major, along with Bach’s Cantata No. 186, valued at $10 million per shot. Hanot claims thousands of civilians have been killed, although the Pentagon denies the reports. Four deceased U.S. soldiers were returned to their families in a news briefing by Defense Secretary James Schuster, announced Sunday morning.

The concert, which is part of the Music Department’s Colgate Concert series, is scheduled for 8 p.m. in the Cal Poly Theatre. Dr. Heiden with harpist Linda Goudsmit, who created the Portland Chamber Orchestra, will play five pieces, including Mozart’s Sonata K.255 in G-Major and Sonata No. 6 BMV 1015 in G-Major, and Johann Schobert’s Sinfonie, Op. 1 in F-Major. Dr. Heiden, who left Jan. 1, will perform with harpist Linda Goudsmit, who created the Portland Chamber Orchestra, will play five pieces, including Mozart’s Sonata K.255 in G-Major and Sonata No. 6 BMV 1015 in G-Major, and Johann Schobert’s Sinfonie, Op. 1 in F-Major.

Timone takes leave to study for doctorate

Draft counselor Robert Timone has taken a leave of absence from this college to pursue a doctoral program for a student personnel administration degree at Michigan State University. Timone, who left Jan. 1, is expected back for Fall Quarter 1970.

Ramon Trus, who created the draft education center in San Luis Obispo and helped Timone with counseling part time, has taken over his duties.

Daddy Dixon's

Daddy Dixon's has the lowest prices in Central California on RCA TV's and Stereos.

Also, RCA 18" color $398.88 w/stand

'No comment'

The supposed mandate given President Nixon in his sweeping victory last November may yet be the key that brings together this country if the performance regarding the Vietnam conflict is any indication.

Since he declared Big! George McGovern, Nixon has, as a local. Discussion commented last week, returned quietly to the sanctuary of the White House and his other levies, making dire decisions while consulting no one.

What we, the public, can see through the picture is cloudy—in a record number of bombs strikes over the states of a tiny Asian country. For over a week U.S. jets pounced away at Hanoi, Haiphong and the rest of North Vietnam.

The news from our government has been secrecy and we are forced to rely upon foreign empresses and foreign news services to obtain news of the attacks and resulting damage. Our own media has been somewhat reluctant to report the news in full either before or after administration harassment.

In 10 days of escalating North Vietnam, 8,000 bombing strikes were flown, according to military sources. The U.S. lost just to G-B's, valued at $10 million per shot. Hanot claims thousands of civilians have been killed, although the Pentagon denies the reports. Four deceased U.S. soldiers were returned to their families in a news briefing by Defense Secretary James Schuster, announced Sunday morning.

**Unseen Beauty**

**NEW YORK (UPI)—** "Save Pianos," a new campaign or agony depending on how your mind is bent, or war-ped before Monday, but the results of one of the many new seeds sown noted the week before Wednesday.

A drunk encountered that day at the bar of a local shopping mall and announced that the customers and announced that the uncluttered martini he had before him was a "Charles Dickens." Nobody challenged him. Nobody challenged him. Half an hour later, he holstered an explanation: "No olives or twist.

Another customer caught the spirit of the season by observing that he knew a golfer who had hit a ball into the rough, causing a bird to fly up. "This is the first time," the golfer said, "that I ever saw a parabola in a par three."

It was not until the 19th century that Robert Benchley emerged from a Hollywood pool and remarked: "The only way to get out of this wet suit and into a dry martini." In the same decade, George R. Kaufman made his ethics observation: "One man's Mede is another man's Persia."

And in the 1980s, a parasitic pollen parasite called American Plenty began the creep. One of these concerns an African king who gave a party in his thatched dwelling. To make room, he put his big chair up in a makeshift stage.

The dancing at the party grew so intense that the chair was shaken loose and tumbled down, revealing two couriers and narrowly missing the king. The pinch goes to prove that people who live in grass house shouldn't throw thrones. At its ranks, parasomnia gets into things like this: in olden days some cavalier captured a new-swept animal known as a Raney. They decided to dispose of it by dragging it on a plant platform to a cliff.

"We're going to lift up one end and slide you right over," they told the beast, who looked down and mumbled: "It's a long way to the top for a Raney." That ends today's lesson. And sorry about everything.

**Campus transit study to begin**

A newly-formed Campus Transportation Study committee led by Ken Silver will investigate the possibility of a mass transit system for the campus. Silver is seeking students to fill committee positions.

Business administration majors with concentrations in marketing economics and accounting, architecture majors and engineering majors specializing in transportation and operations research are needed for the committees.

Edward H. Barker, Dean of Business and Social Sciences Schools, has announced that business majors may do their senior projects relating to the committee's work. The other two schools will be contacted regarding similar arrangements.

The committee will work in conjunction with the City Council's Ad Hoc Mass Transportation Committee to see if there is a need for a busing system between this campus and the city. Silver, chairman of the committee, is also a member of the city transportation committee.

**Block P stalls the blood drive**

The blood drive sponsored by the Block P Society has been cancelled according to Vic Ruppert, faculty advisor. The blood drive, which had been scheduled for Thursday in Ohlson Hall was cancelled due to a large number of flu cases reported by Dr. Billy Mount of the Health Center.

The need to replenish the blood bank is still great and the blood drive has been rescheduled for the Spring Quarter with sign ups during registration.

**Evelyn Wood Reading Dynamics**

HERE'S A GREAT OPPORTUNITY! Evelyn Wood Reading Dynamics offers you a free glimpse of what it is like to be able to read and study much faster. At our free introductory lesson you will actually participate in techniques that will improve your reading and study speed on-the-spot. See what is holding back your reading rate and see how you can easily read much faster.

WHAT YOU'LL LEARN: At our introductory lesson you will see that Reading Dynamics is a comprehensive reading improvement program. You'll learn that our students not only read faster but also comprehend more, and remember better. You'll learn how our study method can cut study time in half. In short you will have an opportunity to see what we teach and how we teach it.

OTHERS HAVE DONE IT—SO CAN YOU: Seeing the instant results of your progress at the introductory lesson will help you understand why our average graduate increases his reading speed 4.7 times with improved comprehension. You'll see why over 500,000 people have improved their reading skills through the Reading Dynamics techniques. You'll understand why Reading Dynamics has been taught at the White House to staff members of Presidents Kennedy and Nixon.

COME SEE FOR YOURSELF: We want you to decide for yourself the value of becoming a rapid reader through the use of the Evelyn Wood Reading Dynamics techniques. Plan now to attend a free introductory lesson. They are informal and last about an hour. Come as you are, even bring a friend.

**Students who think of quality first think first of Ross Jewelers**

**Fast speed reading lesson.**

You will increase your reading speed on the spot!

**Come to your free lesson.**

Colts smash opponents

Posed by forward Chris Simmens, the Colt basketball squad breezed to easy victories over freshmen squads from Cal State Northridge, 83-86, and Cal State Fullerton, 83-86.

Northridge provided little of a road block as the Colts seemed to a 14-point halftime lead, 58-44. A stingy defense and a hot shooting offense lead the game away from the Viets. Simmens tallied 17 against the Matadors while Dan Takaza added 12 while pulling down 11 rebounds.

Fullerton made life a little tougher for the Colts as the Titans took a six-point halftime lead over the cold shooting colts, 48-54. But coach Steve Humann's squad controlled in holding Fullerton to only 36 points in the second stanzas while scoring 47. Simmens hit for 19 points in the game and Dave Bush scored 14.

Inconsolable play prevented Ernie Wheeler's basketball squad from sweeping its two opening league games at home this weekend as the Mustangs split the two, topping Cal State Northridge, 89-86, while being humiliated by Cal State Fullerton, 89-85, the following evening.

It was a frustrating weekend for the Mustang coach as two of his key players show signs of brilliance one evening and turn around and play high school basketball the next night.

Fullerton tore apart the locals as the Titans moved the ball well on offense to make easy shots under the basket. The Mustangs were literally blown out of the game watching a potent Fullerton attack increase its lead in the first half's final four minutes from two points to 11, 50-39.

In that stretch Ed Gibbons hit for a pair of buckets and Norm Maggard hit for three points in addition to baskets by Rick Barnes and Bob Smith. The Mustang "attack" countered only with Pinky Williams solo basket in the final three minutes. Being down by 11 proved to be too much as Fullerton played an even tougher game in stretching its lead over the final 10 minutes. The locales forced shots and did not play up to potential, and at times appeared to give up.

Fullerton's defense also played well in forcing the Wheelermen to take long outside shots and not allowing the inside shot. Statistics bear out Fullerton's brilliance, as the Mustangs hit for only 28 per cent of their shots while the Titans collected on 89 per cent of theirs. The Mustangs also picked off leas 81-43.

Fullerton's Gigibbons with 16 points followed by teammate Oris McMamore's 15. Williams was high with 12 for the Mustangs while Bob Jennings added 11.

What makes the Fullerton loss so frustrating is the Mustang performance the previous night in outdueling Northridge.

The cagers played as well as anyone might expect any team to play. Led by Williams' hot shooting hand and excellent team play by Jennings, the Mustangs hit the basket by hitting for 86 per cent of their shots in the first half while cooling off to 36 per cent for the game.

Still it was not an easy victory as the Matadors fought until they had erased a nine-point half-time deficit to regain the lead late in the second half. But a Williams steal and layup gave Wheeler's quintet the lead for good as the Mustangs moved off to a seven-point lead that increased to the game-ending 11 points.

Williams led all scorers in the contest with a career high of 15 points followed by Jennings with 11. The Matadors Louis Hamm tallied 15 with George Robinson hitting for 13.

The split gives the Mustangs a 1-1 over-all won-lost record and a 1-1 mark in league play. The cagers presently stand tied with Fullerton for third place in conference standings behind Cal State Bakersfield, which has two wins, and UC Riverside, which has one victory and no losses. Northridge and Cal Poly Pomona trail in the standings.

Next act for the Mustangs comes this weekend with games at UC Riverside and Cal Poly Pomona.
