Lasting peace in 'nam shakey

PARIS (UPI) - The world's great powers sat down with the warring parties of Vietnam Monday to try to achieve a lasting peace in Indochina. The Viet Cong immediately charged the U.S. and South Vietnam with sabotaging the cease-fire, and Canada threatened to withdraw as one of the peace-keeping nations.

The 13-party International Conference on Vietnam, provided for in the Vietnam peace settlement to give international guarantees, to the agreement, held its first meeting in the ornate Hotel Majestic, where the accords were signed a month earlier.

The meeting, which lasted for two hours and 30 minutes, generally was marked by restraint on the part of the major powers. Diplomats said this was partly because none wanted to commit itself to direct action should the Vietnam cease-fire completely break down.

Secretary of State William P. Rogers set forth the hopes of the United States, telling the delegates "our common goals and aspirations motivate us to concentrate on a single objective-pause."

But Rogers said the conference can guarantee peace in Vietnam without "elaborate machinery," possibly by establishing apparatus for reconvening the 13-parties in the event at least six cease-fire has failed.

Rogers and China's foreign minister, Chi Peng-Pei, met for the second time this week at a reception given by French Foreign Minister Maurice Schuman at the foreign ministry on the banks of the Seine River.

Rogers and Chi smiled and chatted under crystal chandeliers in a salon rich with gilt, red brocade draperies and 16th-century tapestries.

Rogers said later he was satisfied with the conference and that he anticipated no problems. "I think it all can be worked out by the end of the week," he said.

Bands give variety show

by JOAN CAMPBELL

March will be launched with a drum roll this year when the campus band gets together for a little concerting in a big way.

As part of the University's College Hour Concert series, the Music College and Band will give a free, hour-long concert Thursday at 11 a.m. in the campus Theater.

Cecil Hammaker's "Overture in B-Dot," Vincent Persichetti's "Paganini Concerto" and John Philip Sousa's "El Capitan" will be among the numbers featured.

The program will also include performances from the university's Studio Band, the Percussion Ensemble, the Saxophone Ensemble, and the Clarinet Quartet.

The following evening will highlight the Ten-piece Symphonic Band in its seventh annual Winter Concert. The Percussion Ensemble, the Clarinet Quartet, and the Studio Band will also perform. The concert is scheduled to begin at 8:15 in Chaminau Auditorium.

The wide variety of music will be offered at the Winter Concert ranging from Alfred Reed's "The Music Makers" to the "Toe Soul" of Richard Fari. Admission prices are 75 cents for students and $1.50 for adults.

Tickets for the March 1 concert are available at Brown's Music Store, Premier Music Company, Ogden Stationers, and the Union Information desk. They will also be sold by band members and at the door on performance night.

According to Conductor William V. Johnson, members of both the Symphonic and Concert Bands are selected from the larger Marching Band after football season to concentrate on the walls of enemy fortresses.

As a scientist and engineer, da Vinci was always concerned with accuracy and measurement. As part of the exhibit, models of his designs for a hydrometer for measuring humidity, an anemometer for measuring wind velocity and an inclinometer for determining the degree of slope.

As a scientist and engineer, da Vinci was always concerned with accuracy and measurement. As part of the exhibit, models of his designs for a hydrometer for measuring humidity, an anemometer for measuring wind velocity and an inclinometer for determining the degree of slope.

The first set of models of da Vinci's work built in contemporary times was constructed in 1936 for an exhibition on the banka of the Seine River.

The exhibit, which lasted for two hours and 30 minutes, generally was marked by restraint on the part of the major powers. Diplomats said this was partly because none wanted to commit itself to direct action should the Vietnam cease-fire completely break down.

Art highlights festival

An exhibit illustrating the inventive genius and foresight of that magnificent man who out of the flying machine will be part of a 36-day festival at this university next month.

The festival entitled "Leonardo and His World," will commemorate the works and contributions of Leonardo da Vinci. It will open March 1 and run to April 30 under the sponsorship of the School of Communication, Arts and Humanities.

According to Dr. Jon Ericson, dean of Communication Arts and Humanities, the festival will include lectures, motion pictures and presentations relating the importance of the famed 16th-century artist-scientist's work to the 20th Century.

The exhibit of da Vinci models, on loan from the Department of Arts and Sciences of International Business Machines Corporation, includes 21 models built from his scientific and technical drawings.

Among the models are a paddle-wheel ship, an idea revived only recently developed until the advent of steam power in the 19th Century, a theoretical gear train that produced three speeds of rotation, and a device for the tensile strength of wire.

Models in the show will include an armored tank, not extensively used until World War I, and a scaling ladder that resembles the modern fire-fighting apparatus, but was designed to storm the walls of enemy fortresses.

As a scientist and engineer, da Vinci was always concerned with accuracy and measurement. As part of the exhibit, models of his designs for a hydrometer for measuring humidity, an anemometer for measuring wind velocity and an inclinometer for determining the degree of slope.

The first set of models of da Vinci's work built in contemporary times was constructed in 1936 for an exhibition in Milan, Italy. The exhibit traveled briefly and during World War II was completely destroyed during the bombing of Tokyo.

Another group of models, built in the United States after the war, was acquired by IBM in 1961 and incorporated into the company's touring exhibition program.

Recently, the exhibition has been completely redesigned. The models, painted red, yellow, blue and green are displayed with panels of explanatory material and sketches from da Vinci's notebooks. Other panels bear the engineering drawings in such fields as mathematics, optics, astronomy, botany and city planning.
If someone had come along and offered a plan to build a new stadium for the ASI at the low, low price of $900, everyone would have said it was a great idea but not really feasible. If someone had offered to design and institute by next week a bus system that would clear the campus of snarled traffic, everyone would have smiled at a dream that could hardly come true. But when Skip Kelley came along early last year, offering to create a computerized index of all the regulations affecting student government and at a reasonable cost—well, nobody talked about whether it was feasible or just a nice dream. Everyone smiled, said it was a great idea, and kept on smiling right through quarter after quarter of delay.

A complex maze of documents, letters, memoranda, and directives claiming jurisdiction over ASI is difficult to pin down. Changes in regulations will (and even Kelley admits this) put his index, Catch 22, out of date daily, requiring constant revisions.

If someone had come along and offered a price to pay for the long overdue rights of dorm residents.

Kelley says bitterly people to talk to him—Baggett has cancelled two meetings with him and Kennedy will not talk to him on the phone. Baggett says, in fact, Kelley cancelled a meeting with him and he has his secretary's note to prove it.

Whatever the answer is, Student Affairs Council better be prepared with perceptive questions the next time Catch 22 comes up for debate. Even without an index to the do's and don'ts of student government, it is obvious that SAC is commissioned with the task of spending ASI dollars wisely—and a computer system that may never work is far from a wise investment.

Almost any amount of money would be pretty reasonable for a system that would tell what is and is not possible in student government—but the system is not working. Promised deadlines after promised deadlines has passed—the latest estimate by Kelley is that the project should be finished by the end of Spring Quarter. But we've heard that story before.

Mustang Daily has tried to ascertain why Catch 22 isn't complete after a year and a half of work. But after producing two stories and closely following accusations and counter-accusations, we seem no closer to the truth.

Kelley says he doesn't view the delays as part of an administrative plot to sink his ship. But he must blame the administration, at least in part, for he has composed a list of 10 documents that he needs and has not been able to obtain from the university.

Enter ASI Pres. Robin Baggett. He says that all the documents are available, even one that Kelley claims does not exist—an index of serial letters from the Student Affairs section of the Chancellor’s Office.

Kay C. Kelley claims that he does not get people to talk to him—Baggett has cancelled two meetings with him and Kennedy will not talk to him on the phone. Baggett says, in fact, Kelley cancelled a meeting with him and he has his secretary's note to prove it.

If all this sounds uninteresting, it isn't. And it is just the sort of petty detail one suspects that has kept Catch 22 from completion. Or perhaps Catch 22 is an impossible task of unmanageable dimensions.

VIETNAM (UPI) -- Negotiations between Communist and government officials to set up a coalition government failed to start on schedule Monday and fighting continued throughout the country on the fifth day of an official ceasefire.

In Washington, the United States threatened that U.S. air attacks would be resumed if the Communist Pathet Lao continued to make violations of the ceasefire.

Government sources reported that the Pathet Lao delegation began haggling about the places the meetings of the Joint Commission should be held. They said they did not want the meetings to be held away from the Laos capital. The government delegation turned up at their scheduled meeting time, but the Pathet Lao delegation did not appear. Government source charged that the Pathet Lao delegation was trying to use delaying tactics.

Laotian military sources reported the government had resumed its attacks after the Communist Pathet Lao broke the ceasefire agreement.

Laotian military sources reported that the government had taken back a village lost to the Communists Friday after the ceasefire went into effect. They identified the village as Ban Fokheh, 33 miles west-northwest of Vientiane.

Government sources reported that the Communist Pathet Lao continued to violate the ceasefire. They reported a total of 88 violations to date.

Laotian government sources said the reason the meeting on the joint government and military commission was not held was that Pathet Lao officials were away from Vientiane.

Health Center offers photo contest

The university’s Health Center is sponsoring their second annual photo contest following the successful contest of last year. This year’s contest will expand to include two categories of entries: black and white prints and color slides.

The theme of the contest is "Health and Health Education" in its broad ramifications as related to the Health Center and or campus.

Winners will be announced during Poly Royal and all entries will be on display during that time. All prizes will be retained as property of the Health Center to be used in displays of Health Education.

The university’s Health Center is sponsoring their second annual photo contest following the successful contest of last year. The theme of the contest and of all entries will be "Health and Health Education" in its broad ramifications as related to the Health Center and or campus.

There will be three prizes given in each category: first, $25; second, $10; third, $5. The judges’ choices will be final.

**Jog-in planned**

If you are an early riser, you are invited to join in the third "jog-in" of the quarter set for Wednesday at 7 a.m. Starting location for the two and one-half mile run is at the old track. Participants are asked to meet at the old track at 6:45 a.m. for sign up.

The run is a stress-reliever for participants only, not for competition. All who do run will receive a certificate verifying participation. Awards, however, will be given to the first three men and the first three women finishers.

At least 100 students will be running according to Blue Kathy Warner, who is assisting with the "jog-in." She added that the public is invited to join students since many do jog early in the morning.

**FRENSO NEXT UP**

Mustangs belt another

by TONY DIAZ

The Mustang baseball team, now becoming known as the "Big Green Machine," continued its high run scoring pace as it defeated Cal State Bakersfield last Friday.

Coach Berdy Harr's Mustangs now have a perfect 6-0 record and will have their five-game winning streak tested today as they face Cal State Fresno for a noon doubleheader on the campus diamond. Wet grounds forced Harr to shift the games from San Luis Obispo Stadium.

Starting on the mound in the first game will be Rick Simpson and slated to start the second game is Doug Alderman. Today's doubleheader was to mark the first of 13 home games to be played at the San Luis Obispo Stadium.

Ace pitcher Mike Krakow, who recorded his third win without a loss against the Coyotes, was superb for eight innings as he gave up only two hits. Krakow struck out 14 batters and has not given up an earned run this season.

The diamondmats started off fast as they scored two runs in the first inning. Dave Oliver singled, stole second and third and then scored on a passed ball. Oliver then scored on a passed ball.

The Mustangs added three more runs in the third inning to stretch their lead to 6-0. Joe Zagarlno started the rally with a walk, Pete Phillips singled, and Larry Silveira also singled to drive in Zagarlno. Gary Knuckles then delivered the big hit in the inning as he doubled.
