...names to be in contention for the 1973 Poly Royal Queen was noon Monday. A queen and her court will be selected from those eligible Thursday night at 8 p.m. in Memorial Auditorium.

This year particular stress will be put on the "availability" of each contestant to participate in Poly Royal activities' beginning a month before the event. Previous Poly Royal queens have had conflicting schedules and were unable to adequately promote the event. The girls also will be judged on their past participation in Poly related activities as well as their personality.

Instead of the large beauty pageant and dinner, as in the past each candidate will be asked to step before the judges to answer a series of questions. Their responses will help determine a winner. Final eliminations will not be necessary.

The judges consist of the Poly Royal General Board and one representative from each club and chapter. After the election, the new queen and her court will be announced after all votes have been tabulated sometime

Arab guerrillas to be executed

Khartoum (UPI) — Sudanese officials said the United States Monday that the eight Palestinian guerrillas who killed two Americans and kidnapped the Belgian charge d'affaires would be executed.

The assurance was given at Khartoum airport where diplomats had gathered as members of the two American, U.S. Ambassador Clo A. Noel, 44, and Deputy Chief of Mission George Curtis Moore, 47, placed aboard a plane for the United States.

The two diplomats will be buried Wednesday in Arlington National Cemetery.

The wives of the slain American diplomats and the entire diplomatic corps of Khartoum were on the runway, many of them weeping openly, when the two flag-draped coffins were placed aboard the plane with "Auld Lang Syne" playing in the background.

A government statement issued later Monday said: "There will be a trial and murder charges" placed against the eight members of the Black September terrorist organization.

In Washington, Secretary of State William Rogers called for the death penalty for the eight guerrillas. "I don't know of any other way to deal with them," Rogers said, "I don't know what else can be done.

"Rogers said "very serious measures" would be taken shortly to provide protection for U.S. diplomats overseas, but he did not specify what.

U.S. sources said Sudanese officials who accompanied U.S. Undersecretary of State William Macomber to the Khartoum airport had approached other American diplomats and told them: "They will be executed."

...
Royal planning moves ahead...

Continued from page 1 before Poly Royal conference. She will be crowned at the opening ceremony.

Applications for the Poly Royal Friday night carnival, concessions and exhibits, can be picked up in the ASI office but must be returned this week.

The carnival booths applications are due Wednesday in the ASI Box no. 18. The application is not a contract and any received after Wednesday will not be accepted. Any club or organization is invited to apply. Those who return their applications first will have priority. A carnival meeting will be scheduled soon as all applications are returned.

Concession applications should be in by this Thursday to properly reserve a location on campus.

Editor: To the self-appointed world sealer, Bruce Patrovicky:
A concern for our environment is admirable, but are you typical of many in that you either do not take the time to investigate all the facts, or you deliberately manipulate issues to make them appear more convincing? Are you afraid your arguments won't stand on the truth?

I am referring to your article in the March 8 Mustang Daily concerning the alleged slaughter of several thousand eagles by Wyoming ranchers. Where do you research your information, or do you? It seems highly doubtful that you do.

Let me refer you to the Sierra Club Bulletin October-November 1971, and an article titled "Eagles Vanishing Americans".

First, the article cites a poisoning incident, not shooting, as the issue to first gain attention. Second, the only mention of thousands of eagles killed was the estimate of 10,000 eagles killed in the past 15 years in the South-west, and Wyoming is not commonly included in that territory.

Rather, the Sierra Club's version of the incident you are apparently referring to states that 11 eagles were found poisoned, 14 eagle deaths were attributed to power lines, and 51 eagles were allegedly shot from a helicopter. Consequent reports indicate eagles numbering in the thousands were shot from a helicopter, but this total doesn't even make one thousand.

It is unfortunate that a very few ranchers have practiced such indiscriminate killings and given the industry as a whole a bad name, but these are a minute minority compared to the large numbers who have practiced much more time protecting the environment than destroying it. Do you believe all the public research funds come from the sheep industry?—Cain Report 1991.

I invite you any time, to demonstrate to me your expertise in this field and show me where your information comes from.

You are typical of the ignorant sensation-seeking "ecologists" that not only present a totally distorted and inaccurate picture of certain issues, but also prevent discussion, knowledge from conscientious individuals and organisations from true communication, due to the images caused by the lies you broadcast.

Concert band to travel north in mid-March

The campus Symphony Band is scheduled to perform in nine locations in Northern California for the HIS concert tour March 15 through March 30.

Conducted by music faculty member William J. Johnson, the 78 musicians will offer classical, contemporary, and jazz-rock, music to audiences at high schools in San Jose, Forestville, and Santa Rosa. Public evening concerts are planned in Menlo Park, Livermore, Healdsburg, and Concord.

Performing along with the Symphony Band will be seven smaller groups comprised of the Percussion Ensemble, brass quintet, the Saxophone Ensemble, the Trombone Choir, the Clarinet Choir, the Clarinet Quartet, and the Studio Band.

The tour will be sponsored by the university's Associated Students Department and Associated Students, Inc.

Alaskan oil is meeting topic

The American Society of Mechanical Engineers at Cal Poly will feature guest speaker Carl Rowden, from Union Oil of California at their next meeting on Wednesday at 7:15 p.m. Everyone is invited to attend the meeting which will be held in the Science building in room B46. It is of special interest to those interested in the oil industry with relation to Alaska. Admission is free and refreshments will be served.

Roundhouse

We'll meet with college seniors and graduate students on some of our campuses this spring. College seniors and what new engineers and computer science graduates have to say. About their goals. About their professional responsibility to spaceship Earth.

We're also talking, about the opportunities at Boeing this year. And the years that follow.

Frankly, we want the brightest graduates in the country to be interested in the Boeing environment. To feel a compatibility. And to rank Boeing as No. 1 job choice.

Before we get together, you should know a little about us. Naturally, much of our business is related to the airline industry.

Jetliner orders have come faster than we ever predicted. Orders from the 727-200 have passed the 100 mark. The 747 continues to be queen of the sky. And we're looking into a brand new jetliner now labeled the 7X7.

Boeing is involved in a number of defense programs, space projects, development of a short takeoff and landing (STOL) aircraft, and missile and helicopter production.

Boeing Computer Services, Inc., is concerned with general business and industrial systems, automated manufacturing techniques, inventory management, scientific and engineering problem solving techniques and computer operating systems.

We have also started programs on: 1) people movers to help unloading traffic problems in cities; 2) hydrofoils for people and freight over water faster; 3) reduction of aircraft noise; and 4) pollution control processes that have application in desalinization and disposal of industrial waste. We are also at work on programs that can lead to better understanding of this planet's natural resources.

If this sounds like the kind of equal opportunity employer you're looking for, let's get together at the Placement Office.

Our interviewer will be on campus next week interviewing AE, EE, ME, CS and IE graduates.

Come rap with Boeing
Two thimble clads impressed on Gauchos’ oval

Mustang trackmen turned in two outstanding performances against UC Santa Barbara last Saturday in a non-scoring dual meet on the Gauchos’ den.

Freshman pole vaulter Ken Haagm vaulted a 13-8 1/2 to win his specialty. Coach Steve Simms considered Haagm’s mark outstanding since the condition of the runway was not in good shape.

Hallie Haile Kane ran a quick 1:48.8 for the 800-meter run in placing second, second. Kane was pleased also with Kahl’s performance for the early season.

The Mustang 400-meter relay team of Russ Grimes, Tony Harris, and John Bailey was victorious by disqualification of the Gauchos’ team. The Mustang quartet ran a 4:31.7 while the Gauchos had a 4:32.7.

Jim Ovens and John Beaton gave the Mustangs a one-two finish in the 1600-meter run. Ovens won with a 4:42.8 while Beaton finished in 4:43.8.

Freshman hurdler Walter Mangan ran a 1:09.0 in the 110-meter high hurdles in 1:09.0, just a tenth of a second ahead of the second-place finisher.

Three Mustangs earned placings in the triple jump, led by Kent Thompson’s 46-4 1/4. Dave Bush was just two inches behind Taylor with a 46-0 3/4 and Richard Harper finished fourth at 45-1 1/4. Mike Edsall and John Wall finished second and third in the 1000-meter intermediate hurdles with times of 2:53.8 and 2:58.9, respectively.

Twain play

The Alpha-Omega Players, the most active group of touring players in the United States, will present Mark Twain’s “The Diary of Adam and Eve” on this campus Friday, March 6.

The program, sponsored by the Fine Arts Committee of the AII, will be presented at 7:30 at the Chumash Auditorium. The play is adapted from Twain’s short story humorously depicting the everlasting struggle between sexes. Admission is $1 for students and $1.50 for others.
