Campus Counseling Center to offer rap session on everyday hassles

by JOHN PRESS

Grant Miller of the University's Counseling Center's now areaa and phyaical Illneaa In the Counseling Center la offering Alberti at the Center, "In- everal other groupa.

According to Dr. Robert Alberti, a 21-year-old Student at the Counseling Center, "Interpersonal Relationships" is a relatively unstructured group in which students learn to meet and relate to others. "Assertive Training" will teach the members of the group to develop their personalities and stand up for their rights in social situations. "Relaxation Training" is for those who want to learn to control that pre-exam or pre-date tension. "Problems of Divorced Students" will cover the emotional stages encountered in divorce such as loneliness, sex, and children.

For those students who are married or living together, "Couple's Relationship" might help you learn and understand more about your mate. "Ethnic Identity", led by Christina Camacho, will examine the Chinese culture and attempt to bring out problems concerning Chinese on this campus.

Finally, for those who don't really know what they want to do with their lives, "Career Development" may help you decide what jobs they would like after graduating. This could offer help for those who know they want to change majors, but don't know what they want to study.

There are usually eight to ten students in a group session lead by a staff member of the Counseling Center. The groups meet once or twice a week, and Dr. Alberti said they try working the sessions around students' schedules.

Interested students should sign up at the Counseling Center with Mrs. Crane. One may enroll for all other groups at the Counseling Center. The sessions will start next week, but students may join through April 8.

Anyone with a question or problem may call the Counseling Center at 660-5441 on weekdays from 9 a.m. to 5 p.m. A-4-hour service, which would offer after- hours, is in Roundhouse or Hotline to an on-duty counselor's number, is a current project.

All contacts are confidential.

GSU decision to be appealed

by BILL PELRICE

Student Affairs Council decided to continue the fight to give the Gay Students Union campus recognition. The representative voted Wednesday night to inform the City attorney and request Supreme Court decision upholding administration policy.

The condition first arose when members of the Gay Students Union rejected the idea of being recognized as a recognized campus club. The idea won BAC approval, but was vetoed by the administration.

In June Caroli filed a petition for a vote requiring the administration to recognize the GSU as a regular student organization. If the petition is defeated, then and only then do you have the guts to do it yourself.

The representative voted in favor of continuing the battle by a vote of 3-2, against, with one abstention.

In other action, BAC members voted to approve a new set of rules for future campus elections. Questions were raised about one rule that allows a candidate to be disqualified for breaking any of the other rules or regulations. The proposed regulation calls for disqualification by recommendation of the Election Committee, subject to a second vote of approval by BAC.

Robert Christensen, spoke to the council. He said that if BAC doesn't appeal the decision, the ACLU will, and the GSU will stand behind them. He added that the gay student's organization feels very strongly about the subject. Christensen noted that the ACLU supports the BAC's efforts, and said it is frightening to have people vote on it when you don't have the guts to do it yourself.

Young Generation fills 'I am needed' void

Editor: Every Monday night from 7 to 9 p.m. every student can not only do something to really help his fellow man but can fill up a little p.m. every student can not only talk with them, playing sports and working with them in arts, and crafts.

For some patients, this once a week activity is their only contact with the outside world. They are happy to see the volunteers and often comment how they look forward all week to the visit.

Students are invited to set a few hours aside on Monday night to help others and themselves as well. For further information call Laura at 544-7870 or myself at 544-1240

Carol Frost

Well, the Beach Boys came to campus, and as usual the quality of the performance was marred by the quality of the surroundings. Why is it that our concerts have to be held in a setting where the ventilation is nonexistent and the seating is non-existent so that we can tinker with the outside world. They are happy to see the volunteers and often comment how they look forward all week to the visit.

It's great to go to a good concert. Leaving out any debate on the merits of the Beach Boys, a good concert has a few essential elements which are lacking at this last one. Many of us are considered old-fashioned in that we don't believe in smoking anything. When we go to a concert both kinds of smoke bother us since we aren't used to them.

Another problem with smoking is that the floor can get damaged, and since the gym floor was just redone at a cost of $7,500, it isn't hard to see why people get upset. Either issue is enough to make the power-to-be how gaudy and talk about eliminating any concerts.

It's also hard to get into a show when somebody's knobby knees are stabbing into your backside. Even more exciting are the sounds of bottles shattering under your seat or splinters of glass flying through the air.

Randy Donati, spokesman for the Activities Planning Council, said that he was glad that the behavior of the crowd was "pretty good." However, many people dropped bottles down through the bleachers, and this raises the possibility that the mechanism which retracts the bleachers to the wall could get jammed. Donati warned that future incidents like this could help cancel all concerts on campus.

Fascinating isn't it? In defense of regulations designed to let everyone enjoy concerts, many people were observed lighting up or boosing it up at the Beach Boys Concert. Obviously the administration couldn't cope with the problem. Equally obvious is the realization that the people who brought their stuff in the above couldn't care less about anybody else as long as they're happy.

There are several options available to take care of this. We would like to come out in favor of the solution worked out at UCIB. There all concerts which require extensive seating are scheduled when the climate is pretty good. That way, the concert can be held in the stadium.

The advantages of this system are obvious. Even if we couldn't set people to stop bringing their particular brand of dope to a program we could minimise their effects on other people. The fresh air would carry away any smoke.

As at UCIB, a large tarp covering the field would protect the grass and make it simple to clean up any broken glass.

There is a little more room between bleachers, so that the knees-up-your-spine condition, while not solved, would at least be helped.

It is so hoped that the concert committee and responsible officials from the administration will work together in the remaining part of this year to eliminate the problems which diminish the enjoyment of concerts held on campus.

It is equally to be hoped that the students who find it impossible to enjoy a concert without using some sort of drug, be it pot, hooch or plain old cigarette, will feed their addictions before they come to the concert, or stay home, so as not to risk cancellation of all concerts for all of us by leading up during a performance.

Cold-blooded murder or tragic error made?

Editor: Is this world in such a sad state that people can't tell the difference between a tragic error and cold-blooded murder?

I am referring to Hany Khoury's letter in the March 20 Mustang Daily. Only for uncivilized people does the eyewash of revenge substitute for justice. The Israeli offer of $20,000 to the family of each victim in the downing of the Libyan airliner is misconstrued by Khoury as a payment for the taking of a life rather than a gesture of repentance.

I find it hard to imagine anyone so ignorant and negligent as to reason this way.

Dee Nordness

T.V. lamont

Editor: I happened, by mistake, to watch a bit of television last night and found KSBY signing off as usual. Flash a talking head, people shooting rifles at each other, soldiers seen marching, prisoners crying, dying in war and KSBY is highlighting these features with our national anthem. Can it be real? I got the connection, but I missed the message. Pretty weird.

A bumper brought on by owning a capitalist T.V. set.

Crops Club sprouts tour of campus for children

The Crops Club at School is sponsoring a Campus Tour at 10 a.m. Saturday for 35 children of low-income families.

Don Scott, student chairman for the event said, "An equal number of members of the club, which serves the 100 majors in crop science here, will join the children. The objective is to broaden the experiences of both the university students and the children."

Corwin Johnson, Crop Science Department Head and chairman of this project, said, "The children will be treated to a lunch along with a tour of the campus, especially the farm areas."

People club wants people

Cultures of countries throughout the world are examined with the use of slides, music and a speaker every Friday when the People-to-People Club, a section of the International Council, meets.

All students are invited to attend the meetings from 3 p.m. to 4 p.m. in Union 120. President Judy Bray urges students "not to stay away if you can't spare the full three hours, just drop by for awhile."

For further information contact Judy at 543-0733.

WOW training

A training session for Welcome Week counselors will be held April 3 at 7:30 p.m. in Union 220. Counselors will be instructed on how to answer questions ranging from financial aid for students to registration and counseling, according to Mike Lambda, general chairman of Welcome Week.

Speed Reading Course Set To Begin In San Luis Obispo

Arrangements have been made to conduct a 21-hour course in Speed-Reading under the auspices of the American Reading Foundation of Columbus, Ohio, which has recently opened their California processing center in Riverside. The course is open to anyone above the age of 13 and guarantees every graduate a minimum improvement of three times his initial reading speed with better comprehension. The average graduate attains 1500 plus words per minute.

After the 7-week program, a person can read any average length book in less than an hour and understand it better. In addition to Speed Reading, the course also emphasizes improved study techniques, better test-taking skills, and increased concentration and retention abilities.

The course requires a person to attend one class per week on the evening of their choice. For those who would like more information without obligation to enroll, a series of FREE one hour orientation lectures have been scheduled. These meetings are free to the public and the course will be explained in complete detail, including entrance requirements, procedures, tuition, class schedule and location. You need to attend only one of the meetings, whichever is most convenient to you. These FREE one hour orientations will be held as follows: Tuesday, March 30, at 7:30 p.m. at the Sands Motel; Sunday, April 1, 1:30 p.m. at the Sands Motel; Monday, April 2, 7:30 p.m., at the Sands Motel. This course is also available to industry and other groups upon request.

The Mustang baseball team travels to Pomona this weekend for a vital conference baseball series with league-leading Cal Poly Pomona.

The Mustangs will play a single game on Friday starting at 5:30 p.m. and a noon doubleheader on Saturday.

Unbeaten Mike Krukow (8-0) will open on the mound Friday while Rick Kempson (5-1) and Doug Alderman (4-1) are scheduled to hurl on Saturday.

The Mustangs, who are a game behind the league leaders, must win two games to remain in contention in the tough league race. Coach Berdy Harr asserted, "If we want to keep the heat off our backs later in the year, we will have to do well in this series. We need to win at least two of the three games this weekend."

The Broncos, under Coach John Bulion, have eight returning starters including three top hitters in Mitchell Page, Wayne Gross, and Don Highstreet. While the Mustangs are away, the Colts will make their final home appearance of the season Saturday as they face the Fresno State University Freshman for a noon doubleheader at Poly Field.
