SEC stumbles on aggie board

by ROBERT TERRILL

Controversy concerning the establishment of a Western Programming Board erupted at the Student Executive Cabinet meeting Monday night.

Clay Bowling, AIE Program Board chairman, moved for SEC to reject the concept of a Western Programming Board and notify the Student Affairs Council of the rejection. The motion failed.

"Adding a new board to compete with the existing Program Board does not make sense. We already have the mechanism for arranging concerts and speakers. We have established relations with agents, and if another board is formed which will deal with these same relations, those relations will be damaged." "We have no objection to forming a committee for rodeo and agricultural judging teams; there would be no purpose in conducting these activities. I think that these areas can successfully organize under the committee concept," said AIE Vice President Danny Johnson supported the new concept.

"The Western Programming Board could tap new sources of income and perhaps in four or five years greatly reduce the AIE subsidy in the four agriculture elections currently budgeted." "The committee concept would not be as effective as a board, and the Aggies don't want to be lumped under some other board, as they would in that concept," said Johnson.

Lee Pitts is heading a committee which will submit the Western Programming Board codes to the Codes and Bylaws committee for a week, according to Johnson.

In other business, SEC cut the Mustang Daily's Poly Royal advertising rates for the Educational Opportunity Program and Ethnic Program, to be given out at 12:30 p.m. and 2 p.m., respectively.

In defending the two programs, Fred Johnson, Ethnic Programming Board chairman, said that causations on campus were met with a "pitiful" amount of effort and BOP.

"We are here to get an education for the people, and get to know others."

KCPR adds listener power to Poly Royal

Campus radio station KCPR has extended its broadcast day to 24 hours during this week for complete coverage of Poly Royal activities.

KCPR coverage on Thursday and Friday will feature a remote broadcasting station located next to the Union Information Desk. At various times during the day, listeners may also tune in to remote coverage of selected activities on the Poly Royal campus, including the Poly Royal Rodeo.

The staff of KCPR will also be hosting tours and playing throughout the main control room and KCPR, located in Graphic Arts Bldg.

Daily goofs

To correct an article in Mustang Daily's Poly Royal Edition, the Cen­tral Dance will be moved to the "D.C.F. Club," not Poly Phase, and will be held from 8 p.m. to 12 a.m. Friday in the Men's Gym.
by KEVIN O'CONNOR

(The Fantasticks will be presented in the campus theater at 8 p.m. Wednesday through Saturday, April 25-28.)

The Fantasticks, we have been told, is one of off-Broadway's longest running musicals. After rehearsal, I wondered what it was running from.

The plot is a combination of classic poses. A boy and a girl fall in love over a high brick wall which their fathers have built between their adjoining gardens during a feud. It develops that the feud is a fake designed to cause the children to fall in love.

Reverse psychology lovers, this is your kind of play.

The fathers decide to hire a villain (who also is the narrator) to stage a rape in which the boy is the hero rescuing the girl and giving the fathers an excuse to patch things up. The morning after the rescue, the fathers get the bill from the villain and tear up the boy and girl get upset and fall out of love. Entirely predictable? It gets worse.

The boy goes off to see what the real world is like. The villain moves in and steals the girl's heart (as well as her necklace). They plan to run away together to see the world. The boy comes back singing of the despair of the world (during the love scene, no less) and the villain takes off. The heroes are reunited and live happily after.

The acting is not bad. All the fight scenes are dandles. Negative emotions appear very familiar to the actors, who seem to show just how they would respond in the situation.

Not so for the love scenes. Here the cast has substituted how they think love ought to be played for (Continued on Page 8)

There has been hell-raising the last few weeks because the old Ag. Ed. building is scheduled to be destroyed this June to clear the site for the new architecture building. Many interesting proposals have been put forward that deserve our discussion.

Changing realities

There is no question that the qualities of old Ag. Ed. are many. The building is well used and used by its current arch inhabitants and food patrons, with an increasing respect for beautiful historical buildings that remind us of the character and value of yesteryears, many people see Ag. Ed. as a refreshing perspective on our heritage.

However, a new building would accommodate many more architectural students who could, if quality education is maintained, learn to construct buildings much less damaging to the environment than those perhaps including the new architectural building) now being built. Permanently sealed windows, eternally running air conditioners and heaters — often at the same time, too high level of illumination, etc., are characteristics unneeded in tomorrow's buildings.

I feel that the architecture department should be in the forefront of good environmental design and education by setting a good example for its students. The new building should best exemplify the standards asked of others. Remember, P. O. E. tells us that power shortages will shortly be upon us with attendant brownouts, blackouts, etc. So why are we designing new buildings that are excessively power-hungry?

Students from every department must encourage an integration of the new building to coexist with the old. Also, in a university where you have a school of construction engineering, a school of architecture, a school of agriculture—outfitted with many types of heavy equipment, and large supplies of cheap labor, certainly the building must exist to bring up old Ag. Ed. to the Field Act earthquake requirements.

A thorough consideration of alternative proposals is needed now. A cost-benefit analysis is being made to estimate the cost of bringing the old building to earthquake standards using the full resources of the school in this educational endeavor.

The crux of the problem deals with who should make the decisions that affect the interest and welfare of the students and community. Should we rely on "wisdom" that was incorporated into a "master plan" eight, 10, 15 years ago? I don't think so. Or should we incorporate changing realities?
Cows get dressed up
A Dairy Halter Dressing Contest is one of the activities planned by the Los Leches Dairy Club for Poly Royal. The contest will be held Saturday in the Dairy Judging Pavilion at 11 a.m.

According to Dr. Harry Martin, Los Leches advisor, the contest is open to any student, and clubs are encouraged to enter as a team. The number of entries available for the contest is limited, so interested persons are urged to enter as soon as possible. Entries are available in Agriculture 154 or the Activities Planning Center.

For further information contact Dennis Edlund, Dairy Halter Dressing Contest Chairman, 544-7189.

Open House at Stenner Glen
Poly Royal Weekend

Refreshments served noon-2 on Saturday tours available all weekend

Stenner Glen

Track runs at Mt. SAC next

Competing against a host of top-flight competitors, the Mustang track team will be celebrating Poly Royal by taking part in the Mt. SAC Invitational Relays Friday and Saturday. Overall college division competition takes place on Friday with the highlight of the Relays coming on Saturday when individual competition gets underway.

Running on Friday will be the mile relay quartet of Kerry Gold, Art Markham, Dave Johnson, and Walter Meade; the 440 relay quartet of Jim Davis, John Haley, Russ Grimes, and Meade; and the 880 relay squad of Gold, Haley, Davis, and Meade.

Diamond team to host Chico

Ranked 13th in the Associated Press college division polls, the Mustang baseball team will try to improve its overall record of 23-19 today as it hosts California State University, Chico, for a noon doubleheader at Poly Field. Right-handers Doug Alderman and Dave Brunell are slated to start on the mound.

With first place on the line for the California Collegiate Athletic Association crown, the Mustangs will host Cal Poly Pomona in a do-or-die series this weekend. The Mustangs must win at least two of three games from the Broncos or they will finish in second place for the third year in a row.

If the Mustangs win two games this weekend, they must take two games from California State University, Northridge, and hope California State University Fullerton can win one game from the Broncos the following weekend. All three games this weekend have been changed to San Luis Obispo due to Poly Royal. Friday's opener will start at 8:30 p.m. and the doubleheader on Saturday will begin at noon.

Farmer's Hardware & Equipment Co.

“One of the few TRUE hardware stores still left in America.” From beer bottle openers to many gadgets, you name it, we've got it.

DATE: April 19, 1973

SUBJECT: Job-Opening-for-Resident Assistants

THIS MEMO SENT TO YOU FOR ACTION

Overview:

A Resident Assistant's primary responsibility will be to assist his assigned building. He assists residents in meeting their physical, social, interpersonal and educational needs relative to their living situation. The Resident Assistant will be responsible for keeping his building in good operating condition by making the housekeeping and maintenance staffs aware of areas that need attention. He will be responsible for carrying out administrative tasks relative to the residents of his building (i.e., inventories, rosters etc.) as is assigned and required by the Director's office. He will put in his assigned on-duty hours during weekdays, evenings, and weekends. He will participate in a continuous on-going training program throughout the year. Part of the initial and on-going training program for Resident Assistants will be direct cross-training in all areas of residence hall management. The design will be that all Resident Assistants fully understand all staff functions. In conclusion, the Resident Assistant will have significant responsibility to participate in operating a physical environment which is highly conducive to comfortable living and which creates a climate which encourages involving and responsible contact among the residents.

Minimum Personal Qualifications:

1. Completion of at least 30 units of accredited college work with an overall G.P.A. of 2.5.
2. Presently enrolled at Cal Poly.
3. One year of living experience in a student residence hall.
4. Must not need to hold an outside job.
5. Willingness to give of yourself to both residents and staff.
6. Willingness to reside in the unit.

Compensation:

1. Full room and board for the academic year.
2. Telephone connection charge plus monthly service charge.

For Further Information:
