Tuition fees a possibility

By Mike Hacking

Tuition for State University and College students will become a strong possibility if a tax initiative proposed by Gov. Ronald Reagan is approved by voters on Nov. 8.

The initiative, which seeks to limit state income taxes by 11 years, "is probably going to mean tuition in our system if it passes," according to Assembly President John Holley.

Although Holley and the state Sen. John Rodda (D-Casco), who have studied the plan, can only speculate on its effects, Rodda expects "an increase in tuition for the state university and college system." Senator Rodda has organized a voter registration drive to reach as many Cal Poly students as possible before the Oct. 5 deadline.

Holley hopes to educate the student body about the possibility of a tax increase before the polls open on Nov. 8. "After they're registered, we hope to educate them through knowledgeable speakers, literature, and talking about the initiative."

The initiative will also be brought up before the Student Affairs Council (SAC) this Wednesday, Oct. 4, 6:00 p.m., in Cuesta College Auditorium. This lecture was originally announced for October 9, but was rescheduled for the 4th.

Sorrentino is a young man who accomplished a dramatic turn from a boyhood as a rebellious gang leader and jail bird to graduation at the top of his class from Harvard Law School.

Now a practicing attorney and law professor in Los Angeles, Sorrentino talks about his own experiences, and the inability to measure human potential or spirit by conventional means. "I read the Bible as my friend's head was pulled off, I think by the Masons," says Sorrentino, "but it was a resolution within their own life style."

Sorrentino has spoken throughout the nation, teaching solutions to the profound upheaval in law and society caused by deindustrialization and technological change. He has been proclaimed a dynamic speaker and extraordinary young man wherever he has appeared.

"The Cuesta College lecture is open to the public. Admission is $2.00 for adults and 80 cents for students. Tickets will be available at the door the evening of the lecture, or in advance at the Cuesta College Community Services Office."

Guess the number of staples in the jar.

The jar is approximately 8½" high and 10" in circumference. It's filled with Swingline Tot staples. (Look for the info about Tot capacity in the coupon.)

The Tot 50° staple is unconditionally guaranteed. It staples, tacks, mends. Only $4.50 with 1,000 staples at your stationary, variety or college bookstore.

Cub® Desk and Hand staplers are only $1.65. And the Super Cub® stapler with no-slip, no-scratch base, only $2.97. Fill in coupon or send postcard. No purchase required. Entries must be postmarked by Nov. 30, 1973 and received by Dec. 8, 1973. Final decision by an independent judging organization. Prizes awarded to entries nearest actual count. In case of tie, a drawing determines winners. Offer subject to all federal, state and local laws. Void in Fla. and Wash. and wherever prohibited or restricted.

Editor:

In this first week of school I have made several trips to the reserves room in the library to try and get by without having to buy all my textbooks. As of present I haven't found a single textbook on reserve.

My teachers tell me that they asked the library to put them on reserve but that the book store raised a fuss about this because they wanted to sell more books. This is pretty capricious for a supposedly non-profit store. It's getting to the point where I have to feed your mind you have to store your stomach. What's the problem, President Kennedy?

Mark Bestrell
P.S. Please don't give us any books about profits going to the student union. It's mighty hard to eat concrete and steel.

Beat the numbers...

The world's first calculators that challenge computers and fit into your pocket.

Are you spending too much time solving problems the old-fashioned way—with slide rules, ordinary calculators or pencil and paper?

Solve problems in seconds with one of the same calculators used by professionals in your field—the HP-38 Scientific Pocket Calculator, the HP-46 Advanced Scientific Pocket Calculator, or the HP-45 Business Pocket Calculator. Hewlett-Packard calculators give you more power, more accuracy, more storage registers and more features than ordinary calculators. For example, the HP-38 gives you up to 10 digit accuracy, a floating decimal point, and a range of 800 decades (10^8 to 10^9). The HP-46 also gives you automatic conversions, offers you a choice of fixed or scientific notation, and performs register and vector arithmetic. And the HP-45 is pre-programmed with 3 dozen financial functions.

Right now, an HP calculator can help you get better grades—because it...

- SAVES TIME in solving problems—just press the keys.
- GUARANTEES ACCURACY for lower mistakes.
- OFFERS COMPUTER-LIKE POWER (no waiting for school machine).
- REPLACES TABLES AND PAPER-AND-PENCIL CALCULATIONS.
- OPERATES BRIEFLY for use in classroom, library or dorm.
- DOES ANYWHERE (fits in pocket or purse, weighs but 8 ounces).

Interceptions, the Mustangs overcome UCR 26-17

On the evening kick-off, Raymond Parks raced 86 yards to score and with the point after good, the Highlanders trailed only 14-17 with a full 14 minutes left in the game.

The turning point in the game came with seven minutes left to play. The Highlanders were on the Mustang 10-yard line and elected to go for a first down on fourth down and six to go. They were held by the defense and the offensive controller the ball for nearly six minutes as the Mustangs utilized the running talents of fullback John Homan. With 1:46 to play, John Loam connected on a 6-yard field goal.

Judo training starts Tues.

Training in the art of judo will be held for all interested beginners, starting Tuesday at 7 p.m. in room 311 of the main gym. Under the sponsorship of the campus judo club, the training will be on Tuesdays and Thursdays, from 7:45 p.m. on a weekly basis. The instruction is open to all students, staff and faculty and no previous experience is required. Both men and women are invited to attend and dues for new members will be $10.

In the game, the Mustangs were not up to standards but the Highlanders weren't. On the Highlanders first offensive series of the half, they drove 77 yards in nine plays with Derrick Williams going the final two yards for the score.

Then strange things began to happen to the Mustang runners, who had already lost two fumbles in the first half. First, Mike Foley fumbled and UCR recovered but was held on downs. But the minute the Mustangs touched the ball again Dick Gillick fumbled and UCR took advantage of this error with a touchdown. They now only trailed 14-17 in the third quarter.

In the fourth quarter the Mustangs took advantage of a 10-yard Highlanders punt as quarterback Mike Coulson immediately hit flanker Walter Mead on a 35-yard scoring strike.
