GEORGE G. CLUCAS APPOINTED DIRECTOR OF RESEARCH AND DEVELOPMENT

Appointment of George G. Clucas to the newly created position of director of research and development has been announced by President Robert E. Kennedy. He had been dean of finance and development at Cal Poly, 1956-62, serving as financial advisor to the president and directing the master planning and building program.

As director of research and development he will carry out a continuous inventory of college research capability (resources of personnel and facilities) and school and departmental interest in research possibilities. He will investigate and explore the possibility of research projects, experimental instructional projects, and developmental programs. His duties will include establishing contacts with sources of funds to enable the financing of projects, and aiding in the preparation of proposals for such activities for consideration by agencies which would provide funds. In addition, he will aid in the general business and fiscal management of such projects.

From 1962-66 Clucas was chief of budget planning and administration in the Chancellor's Office of the California State Colleges, having responsibility for the development and operation of the annual budgets for this system. Since 1966 he has been a doctoral candidate in public administration at the University of Southern California on a two-year leave of absence from the Chancellor's Office. During this time he has engaged also in part-time teaching at California State College at Long Beach and the University of Southern California.

Clucas is working on his doctoral thesis, "Revenue and Expenditure Patterns of California Cities in 1966-67," which he may complete before September 1, the effective date of his appointment at Cal Poly.

Prior to coming to Cal Poly in 1956, Clucas was senior administrative analyst in the office of the legislative analyst in Sacramento, a position in which he reviewed annual budget requests of the University of California, the California State Colleges, and other agencies.

He is a member of the American Society for Public Administration, American Political Science Association, American Academy of Political and Social Science, Western Governmental Research Association, and the California Association for Public Administration Education.

NON-RESIDENT TUITION INCREASED

The California State Colleges have increased non-resident tuition fees for students from other states to $297 a quarter, effective with the Fall Quarter term of 1968 in September. The previous tuition for such students was $240 a quarter.

The annual fee for students from other states who wish to be in attendance all four quarters will be $1187. The non-resident fee for residents of foreign countries remains at $85 a quarter and $340 for the four-quarter annual fee. The increase was voted by the Board of Trustees of the California State Colleges.
DR. CRANDALL DIES AT 94

Dr. Benjamin R. Crandall, president of Cal Poly for nine years from 1924-33, died July 11 in North Hornell, New York. He was 94. Dr. Crandall had been in declining health for only a few weeks.

Dr. Crandall came to Cal Poly from a position as supervisor of agricultural teacher training at the University of California. Under his administration enrollment reached 407 students, 1,200 acres were added to the campus, and six new buildings were erected. When the college's budget was cut by 60 percent in 1933 he resigned.

The project system in agriculture was instituted during his presidency, and a junior college was started, first classes being conducted in 1927.

He returned to his native New York State in 1939 and for many years was a member of the staff of Alfred University there.

FEDERAL WITHHOLDING TAX FORMULA EFFECTIVE 7/13/68

Monthly. For employees paid once a month, multiply the number of tax exemptions by $58.30. Subtract this from the monthly gross wages. Compute tax on the remainder (taxable gross) as follows:

(a) Single Person - Including Head of Household

If the amount of taxable gross is: The amount of income tax to be withheld shall be:

Not over $17. ........................................... 0
Over $17 but not over $58 .......................... 14% of excess over $17
Over $58 but not over $100. ......................... $5.74 plus 15% of excess over $58
Over $100 but not over $367 ....................... $12.04 plus 19% of excess over $100
Over $367 but not over $733 ....................... $62.77 plus 22% of excess over $367
Over $733 but not over $917 ....................... $143.29 plus 28% of excess over $733
Over $917 ............................................. $194.81 plus 33% of excess over $917

(b) Married Person

If the amount of taxable gross is: The amount of income tax to be withheld shall be:

Not over $17. ........................................... 0
Over $17 but not over $100. ....................... 14% of excess over $17
Over $100 but not over $250 ...................... $11.62 plus 15% of excess over $100
Over $250 but not over $733 ..................... $34.12 plus 19% of excess over $250
Over $733 but not over $1475 ................... $125.89 plus 22% of excess over $733
Over $1475 but not over $1833 ................. $289.13 plus 28% of excess over $1475
Over $1833 .......................................... $389.37 plus 33% of excess over $1833

GRAIN AND FEED COMMITTEE TO MEET

The Workshop Committee of the California Grain and Feed Association will meet on campus Friday afternoon, July 26. Emmett Bloom has charge of arrangements.
MESSAGE FROM MYRTLE GOODELL

The college has received a message from Myrtle (Mrs. Robert) Goodell addressed to "Bob's many friends at Cal Poly" expressing appreciation for the flowers sent by the college at the time of her husband's funeral. Bob died following a heart attack which occurred July 2 while he was engaged in his favorite pastime, playing tennis, in Sacramento. A strong friend of Cal Poly, he was editor of the San Luis Obispo Telegram-Tribune for many years.

Mrs. Goodell's message was as follows:

'Thank you for your kind sympathy and the lovely flowers. All of his wonderful friends at Cal Poly made his life and work so very pleasant. He always wished the best to all of you and Cal Poly."

SALARIES HIGHER FOR JUNE, 1968, ENGINEERING GRADS

Starting monthly salaries offered to June, 1968, graduates of California State Polytechnic College were higher for every kind of engineering than they were a year ago. The average offers received by electronic engineers in the class were $92 a month more than in 1967. The statistics are from the annual report on campus recruitment activities by employers for 1967-68, released by Eugene A. Rittenhouse, placement director.

The average offers to graduating seniors in the various engineering categories were as follows: electronic, $787; metallurgical, $776; mechanical, $752; environmental, $759; industrial, $755; electrical, $773; aeronautical, $748; industrial technology, $737.

Graduates of the School of Architecture were offered $756, a $60 monthly increase compared with offers in 1967. Business administration graduates received average offers of $689 and mathematics graduates, $746.

Campus recruiting activities by employers reached an all-time high in 1967-68 at the college, states the placement director's report. Four hundred sixty-six employers sent 713 representatives to the college, who made 6,661 student contacts. Most interviewed students were business administration seniors and mechanical engineers.

Campus employment of students, which is administered by the Placement Office, reached a dollar total of $872,518 for the year. In addition to on-campus employment opportunities, over 1,400 requests from the community for students to take part-time employment or to work at odd jobs were received during the year.

LEAD GROUNDSMAN POSITION OPEN

The Personnel Office announces a position opening for a lead groundsman in the Plant Operations area.

The primary duty of the lead groundsman will be to train, instruct, and oversee groundsman and student assistants engaged in various gardening, plumbing, and landscaping activities. Individuals applying for this position should have a thorough knowledge of automatic sprinkler systems and grounds maintenance equipment, such as tractors and mowers, and the ability to develop spraying and feeding programs for plants, trees and lawns. The monthly salary range for this position is $530-$644.

Anyone interested in the lead groundsman position should contact the Personnel Office, Room 111, Administration Building, Extension 2236.
COMPUTER CENTER POSITIONS AVAILABLE

The Personnel Office announces the opening of several positions in the Computer Center. These are: manager of the computer center, computer operator, Computer Programmer II, and a key punch operator position.

The manager of the Computer Center is responsible for the planning, organization, and direction of the digital computer and unit record staff, equipment, and facilities to process a large volume of student programming problems, student and faculty research problems, and many administrative applications particularly in the area of student records. The manager is responsible for the staffing, scheduling, development of procedures, maintenance of records, assistance in the preparation of budgets, new equipment studies, and consults with students, faculty and administrative officers regarding programming and/or conversion of jobs to data processing systems.

Candidates must possess a bachelor's degree, preferably a master's degree, in fields such as mathematics, engineering, and science; and at least four years experience in either a combination of managing or supervising an electronic data processing operation, or equivalent experience involving computer programming and/or data processing systems analysis.

Salary is contingent upon educational background and actual experience with the monthly range from $1137 to $1384. Applications are welcome and may be made at the Personnel Office, 110 Administration Building, or by contacting L. H. Dunigan, director of institutional studies, at 114 in the Library.

The computer operator must be able to operate electronic computer systems and perform related duties. One year experience is required. Two years of college are desired or the equivalent. The monthly salary range for the computer operator is from $556 to $676.

The Computer Programmer II is at the fully qualified journeyman level. This programmer must participate in initial planning, write difficult and complex major programs for electronic data processing and must be able to complete programs. Candidate must have two years experience as a scientific programmer (Fortran required). A college degree is desired or the equivalency thereof may be considered. The monthly salary range is from $801 to $973.

Key punch operator applicants should be able to operate a key punch machine and verifier, and assist in the sorting and tabulation operation. Six months experience and completion of high school are required. Additional key punch experience may be substituted for educational requirements. The monthly salary range is from $425 to $517.

Additional information and specifications concerning any of these positions are available in the Personnel Office, 110 Administration Building. Inquiries are welcome. Applicants may call the Personnel Office, Extension 2236.
