Riles to talk at Cuesta

Dr. Wilson Riles, state superintendent of public instruction, will speak at the Cuesta College auditorium tonight at 7 p.m. in cooperation with the state board of education.

Riles, who succeeded former Superintendent Max Rafferty in 1974, has been working on priorities and campaign promises since he took office.

A registered Democrat, he told Gov. Reagan he wanted to keep his office and department important to avoid controversy and gain cooperation of the state board, the legislature, and Reagan.

Another priority and promise according to Riles, was to present ideas and programs on educational basis.

The public is invited. No admission will be charged.

SAC parking resolution

by BLAISE KELLING

The perennial problem of parking on campus in a safe and organized manner has been brought to light during-what administrators call an "unprecedented" SAC discussion of the matter.

SAC representatives voted to support a two-month, per-hour basis parking zone along Mountain Avenue, which runs adjacent to the Music Building. The zone will be designated as "short-term University Union parking," designed for those who have brief business to take care of in the U.U. or surrounding areas. Both students and city residents will be able to use the special zone.

Although a completion date has not been set, the proposal has received support from the campus administration and security forces, and measures should be installed within a few months.

The parking lot adjacent to the Health Center, which caused much controversy this year, was changed to staff and family parking during the summer, rubbish attacks taking place on Wednesday night.

Dr. George Douglas, representing the campus administration, emphasized that he had to call in his head planner Peter Phillips had changed the lot's designation of the summer in anticipation of a loss of employee Staff parking spaces near the site of the Old Ag Ed building.

Bicycles parking facilities, which have also become free and available, will be augmented in the near future as new bike racks in the areas of the Math and Science buildings and the Sierra Madre dormitory.

The new parking system will provide for a special designation sticker for each parking area, a sticker which will only be able to park in his respective area, a sticker which will hopefully ease the traffic problem on campus.

Campus flower shop operated by students

The Ornamental Horticulture Flower Shop operates various floral jobs for students and faculty. The students who operate the shop are called upon for weddings, banquets, and other campus-related decoration arrangements.

The unit is run by student manager Chris Bogad, Miss Bogad has made a few innovations this quarter.

"Each customer who buys a flower arrangement is allowed to initiate programs and redesign the flower shop. My project for the quarter is to present the different services around campus, like the bookstores, security, and the fire department," she explained.

Miss Bogad is one of the other participating students in the flower shop. The student's club has an additional member voted to the student chapter of the American Institute of Floral Designers (AIFD), to follow the AIFD rules. Each student in the club must work a month or on special occasion each month.

As the shop is a student chapter of the AIFD foundation, any profit goes to the foundation, while the shop is entitled to the remainder portion. Some of these profits will be put to work when the flower shop presents its annual Christmas open house, November 30.

The Ornamental Horticulture Flower Shop is open for business on weekdays from 1 p.m. to 9 p.m. and Saturdays from 8 a.m. to 1 p.m. This student facility does not have a service to order flowers out of town. Also, flowers must be picked up at the shop.

SAC looking for students to fill vacancies

Vacancies now exist in the AIFD Finance Committee, according to John Ridley, SAC president.

Two representatives from the school of Engineering and Technology are needed in the SAC Finance Committee.

A representative from the school of Engineering and Technology and the school of Business and Management, in addition to the Education, are needed for the SAC Finance Committee.

Students interested in filling these vacancies are urged to contact the AIFD Finance Committee, or call 487-2524.

Overgrown tykes challenge trikes

Ed Baldwin's highly-modified bicycle collided with Circle K's pit crew in the Trans Am Triple Crown yesterday, displaying the tauntaun the same place in the year before.

Circle K relief driver, Steve Parks, denied that his crew intentionally obstructed the course, but race officials stood firm in their ruling. The collision sent Baldwin, his bike, and the

Mustang reprise

Don't look for the Mustang Daily on Tuesday. Real men are just the rest of the campus in a day off Monday, so the next issue will be distributed Wednesday, October 31.
Sexist activity on campus

Let us look at the reasons behind your vote. First, looks: who is more attractive, who would be better in bed; and second, popularity. I would anticipate that the majority of voters will be making their decision for that simple reason. Females don't especially like to vote for the best looking female.

The five finalists were narrowed down out of a group of ten. What were the criteria behind the judge's vote? I would venture to say looks and body. Who are they judging? What does that give the power to choose the "most appropriate girl" for queen? Why isn't there a Homecoming King? Don't you think that the females would like to have their own seat object like the males on this campus do? I suggest that the title of a Homecoming King be initiated for next year along with the queen. Also let there be some criteria, other than looks, that governs your vote.

As for me, I did not vote in the year's election and I counsel those who did the same for the same. As for you others, think twice before voting and ask yourself: Is this really fair?

Jeff Sunday

Butz speech cancelled

The scheduled appearance of Mustafa of Agriculture B.S. Butz, here on October 31 at 4 p.m. has been cancelled.

Butz had been scheduled to speak on "Our future is in innovative farming" as the first speaker in the University Cooperative Extension Series for the current academic year.

Queen is also funny
by Rick Goulart

Ollanda Jackson, the academy award-winning actress and two
time Emmy winner, can play
something else besides historical
queens and straight dramas. She
can be a very droll comedienne, as
she is delightfully proving in the
Joseph Papp's Second Stage
production of "A Touch of Class"
(Chicago).

Ollanda stars as Vicki
Alleasol, a dress designer
divorced with two children and a
mutty sense of humor. She is very
successful in her London based
"rag trade," stealing designs
from the masters to make less
expensive copies.

In Hyde Park, she meets a
young, naive insurance salesman
played nicely by George Reprint, at
a softball game. They meet
several times later with Ollanda
Jackson finally giving in to
Reprint's advances because he is
married with an engaging attitude.

Beginning with a wildly funny film
through the streets of London and
some great scenic locales on the
Mediterranean.

Ollanda Jackson's performance
reminded me of Katherine
Hepburn, not only because she
was great at both drama and
comedy but because her vocal
inflection and style brought to
mind Katharine Hepburn at her
best. Her delivery is very effective
in a characterization that is sheer
delight to watch closely.

Both teams will be sluging it out enthusiastically Saturday afternoon when they tangle for the California State University at Fullerton Titans in a game that will probably decide the conference championship. Sub-all will be 111 for the Homespun contest.

If the team statistics are any indication, Saturday's game will be a wide open offensive battle. The Titans are averaging 442 yards offensively per game while the Mustangs are averaging 481 yards, and are ranked fourth in the nation in scoring. Defensively, the Titans have limited the opposition to 110 passing, while the Mustangs have 471 yards and Ms passes. Both teams have won 11 times this year. The Titans have presented high powered offense over the nation in scoring. Defense will be a key factor in Saturday's game. The Titans are a balanced team, averaging 471 yards and 111 in the nation in rushing and 110 in passing.

Both teams will be looking for musical instruments?
