EXECUTIVES FROM 22 CORPORATIONS SCHEDULED FOR CAMPUS SEMINAR

Twenty-two prominent national business and industrial corporations will be represented by top-level executives at the 3rd annual Cal Poly Business Seminar Thursday and Friday (Feb. 20-21). The seminar, which will be divided into three interests -- management, industrial relations and marketing -- is described as "the greatest collection of executive talent ever assembled on this campus" by William M. Boyce (Business Administration Department), faculty advisor for the event.

The three student groups sponsoring and wholly coordinating the seminar are the Society for the Advancement of Management, Industrial Technology Club, and Farm Management Club.

According to Boyce, the purpose of the seminar is to reduce the isolation factor that confronts Cal Poly students interested in business and corporate management. "Since Cal Poly is geographically remote from large business complexes," he said, "our students need exposure with practical and successful executives to stimulate their careers in private enterprise."

The two-day seminar will be divided into three simultaneous seminar sessions each with conferences in management, industrial relations, and marketing. Visiting executives will sit in three panels for discussions with Cal Poly students and faculty.

Conference topics for the first session, which is scheduled for 1:30 - 3:30 p.m., Thursday, will include "Modern Management Techniques," "Worker Motivation," and "Sales Promotion." During the second session, slated from 9:30 - 11:30 a.m., Friday, "Executive Development," "Labor Relations," and "Market Research" will be discussed. The third session, planned for 1:30 - 3:30 p.m., that afternoon, will deal with "Business Ethics," "The Role of the Corporation in Society," and "Public Relations."

"Considering the subjects of the conferences and the caliber of the executives, we are expecting a good student and faculty turnout for all three sessions," Boyce said. Participating corporations are paying the panel executives' expenses, but the three Cal Poly sponsoring student groups are extending the utmost cordiality to the visitors, providing student escorts to guide them around campus and downtown San Luis Obispo.

Among the business and industrial concerns represented during the seminar will be Bank of America, 3M Company, Lockheed Aircraft Corporation, New York Life Insurance Company, FMC Corporation, Safeway Stores, Inc.; Matson Navigation Company; Kaiser Steel Corporation; Carnation Company; General Motors Corporation; Pacific Gas and Electric Company; United Air Lines, Inc.; Union Oil Company of California; Reynolds Metals Company; Del Monte Corporation; General Electric Company; and McDonnel-Douglas; and General Mills, Inc.
Intimidation, student activism, and constructive involvement were among topics discussed by President Robert E. Kennedy yesterday (Monday, Feb. 17) when he addressed the San Luis Obispo Rotary Club at the Madonna Inn on the topic 'What Are We Doing at Cal Poly?'.

Dr. Kennedy noted that "hours, pages and books are being written to describe in gory detail the latest antics of the evil-doers of the world -- whether on campuses, in courtrooms, or on city streets." He added that the avowed purposes of some campus' militants is to destroy society, and that they have declared they will use whatever means are necessary to achieve their ends. He praised Cal Poly students, noting that they are "being subjected continuously to the accusation by students at other colleges that they are slackers to the cause of youth. But, said Kennedy, "I'm confident that most of our students are not so naive as to be led into destructive or violent actions by visiting student militants."

The president cited several examples of Cal Poly students' involvement of a constructive nature, which are described in the current issue of Cal Poly Today.

President Kennedy described the "Operation Handclasp" project, which, in December, raised $1,200 in cash and some two tons of clothing, toys and candy for children in South Viet Nam. He also described "Operation San Luis Obispo," in which student volunteers devoted thousands of man-hours to help clear up flood debris. Other student projects included: housing surveys, working with little children to provide educational advantages, conservation and clean-up projects, and similar efforts.

"Students can be motivated to use constructive action appropriate to a political democracy. The major force which inspires students is dedicated faculty members who can and do provide daily examples of rational, democratic approaches to social and personal problems," Kennedy said.

With regard to the college's uniqueness, the president noted, "We are trying to remain different -- and by that I don't mean 'bizarre,' 'strange,' or 'queer.' I'm perfectly willing to let other colleges capture those honors."

He continued, "We are trying to provide a learning experience for the student who aspires to achieve competency in one of a variety of technical fields. And, we are striving to help the student broaden his horizons and relate effectively and constructively to other people. These two purposes are not incompatible."

Cal Poly strives to "help the student broaden his horizons so that he will be both concerned and qualified to help harness technology to serve human needs and desires," Dr. Kennedy concluded.

**BEATIE HOSPITALIZED, HENSEL ASSUMES SUMMER PROGRAM DUTIES**

George Beatie (Associate Dean, Special Programs) has been hospitalized due to a heart condition detected in a medical check-up this past weekend, according to word received by the college. During his convalescence, his duties with regard to the Summer Quarter and Summer Session, 1969, have been assigned to Donald Hensel (Associate Dean, Academic Planning) whose office is Adm-413, 546-2187. Inquiries concerning special programs, including arrangements for hosting off-campus groups, should continue to be referred to Mrs. Linda Price, Special Programs Office, Adm-309, 546-2158.
NEW GIFT VALUED AT $75,000 RECEIVED BY PRINTING DEPARTMENT

Two more of the most advanced automatic typesetting machines available in the world today have been added to the instructional equipment of the Printing Technology and Management Department. Valued at $75,000, the gift of the machines and related components was received from the Merganthaler Linotype Company, which last year made a similar donation to the college.

One of the new machines is the standard Linotype Elektron typecaster which, at a rate of 15 newspaper lines a minute, is the fastest linecasting machine available today. The other is a specialized version of the Elektron capable of automatically setting type in four different styles, with two combinations of each style.

"This means that in setting type for a classified advertisement, or similar work where three or four type styles plus combinations of bold face type and regular face are used, the new Linotype can set, without interruption, the entire column in one automatic step," says Rod Carruthers, head of the department.

The new typesetting machines will join the two other Elektrons donated last year by Mergenthaler and 24 other linecasting machines, plus a wide complement of letter, offset, and flexographic presses; binding, folding, composition, and other printing equipment in the printing technology department's laboratories. They will be used by students learning techniques of setting type with the perforated tape process. Initial use of the machines will be in the Printing Technology and Management Department's automated typesetting course lectures and laboratory sessions.

POLY ROYAL QUEEN ELECTION SCHEDULED TO END THIS AFTERNOON

Polls for voting by members of the college student body on the five finalists for the title "Miss Cal Poly, Queen of Poly Royal" will close late this (Tuesday, Feb. 18) afternoon and, when counting of ballots is finished this evening, selection of the queen and court of four princesses for Cal Poly's 37th annual Poly Royal will be complete.

Finalists for the honor are Jeanne Sue Finlayson of Palo Alto, Lisa Ann Dawson of Lafayette, Jeanne McCoy of Napa, Taunita Lee Stock of Palo Alto, and Diane Scherbach of Mill Valley. All five are seniors.

The Poly Royal queen and her court will reign over the varied programs and activities scheduled for the traditional open house, April 25-26. In addition, the queen will represent the student-sponsored "Country Fair on a College Campus" in appearances and contacts with newspapers and radio and television stations, and at public events.

DISCUSSION OF TEACHING EVALUATION SCHEDULED FEB. 25

An unusual opportunity to participate in an analysis and discussion of the difficult task of evaluating the quality of teaching has been announced for next Tuesday (Feb. 25) by the Education Department. Speaker for the presentation, which is planned for AC-110, beginning at 10 a.m., will be John McNeil, head of supervised education at University of California at Los Angeles. Dr. McNeil is receiving responses from throughout the nation on his proposal that teaching evaluation be done as "supervision by objectives." Members of the college faculty and staff are invited to hear his remarks.
SABBATIC LEAVES APPROVED FOR 28

Twenty-eight faculty members have been granted sabbatical leaves for one or more quarters during the 1969-70 college year, according to Dale W. Andrews (Academic Vice President). The leaves are subject to legislative approval of funding in the college budget for 1969-70. Faculty members scheduled for leaves next year, with department of assignment and term of leave indicated, are:

FINAL UFOE "SMALL GRANTS" PANEL SCHEDULED FOR MARCH

The next review panel for the U.S. Office of Education's Regional Research Program for the West Coast will meet in San Francisco, March 7, according to program director Walter P. Hirsch. Dr. Hirsch said that about "99% of my Fiscal Year 1969 money" will be gone after this panel meets. He does not anticipate scheduling any later review meetings.

As a result, any individuals hoping to secure "small grant" awards in Fiscal Year 1969 must submit their material prior to the March 7 meeting. This means that applications must actually reach Dr. Hirsch before March 1 so that he can distribute these for reader review. Dr. Hirsch indicated that the competition during this final round of awards will be "tremendous." He noted that several proposals approved by earlier review panels (but not yet funded) would be "re-ranked" along with proposals approved during the March 7 meeting.

* "F" indicates Fall Quarter, "W" indicates Winter Quarter; and "S" indicates Spring Quarter.
COMING EVENTS

Engineering Week -- Continuing through Friday, Feb. 17-22, see individual events for times and locations. Sponsored by student Engineering Council.

Books at High Noon Luncheon -- Tuesday, Feb. 18, 12 noon, Staff Dining Room. Review of Gordon Taylor’s The Biological Time Bomb by Ronald L. Ritschard. Public invited.

Engineering Symposium -- Tuesday, Feb. 18, 7:30 p.m., Staff Dining Room. Discussion of metropolitan rapid transit; sponsored as part of Engineering Week program by student Engineering Council. Public invited.

Varsity Wrestling -- Tuesday, Feb. 18, 7:30 p.m., Men's Gymnasium. Cal Poly vs. California State College at Long Beach. Tickets, $1.50 adults, $.50 students and children.

Women's Club Foreign Student Section -- Tuesday, Feb. 18, 8 p.m., International Lounge. Regular meeting of section. Members invited.

Cal Poly Women's Club Home and Garden Section -- Wednesday, Feb. 19, 9:30 a.m., 289 Westmont, San Luis Obispo. Tour of new Ornamental Horticulture Unit facilities. Members invited.

Cal Poly CSEA Luncheon -- Wednesday, Feb. 19, 12 noon, Staff Dining Room. Hal Stroube of Marr Development Co., Avila Beach, will present slides and discussion on developments in that area. Faculty and staff invited.

Business Seminar -- Thursday and Friday, Feb. 20-21; morning, afternoon, and evening sessions; various campus locations. Discussions and talks by executives of many of the nation's largest business and industrial firms; jointly sponsored by campus chapter of Society for Advancement of Management, Industrial Technology Club, and Farm Management Club. Students, faculty, and staff invited.

Industrial Displays -- Thursday, Feb. 20, 11 a.m. to 4 p.m., and Thursday, Feb. 21, 9 a.m. to 4 p.m.; Mechanical Engineering Laboratory, Dexter Memorial Library, and Agriculture Engineering Building; sponsored as part of Engineering Week activities by student Engineering Council. Public invited.

Cal Poly Staff Club Luncheon -- Thursday, Feb. 20, 12 noon, Staff Dining Room. J. Murray Smith will preview campus production of the play, The Doctor In Spite of Himself. Faculty and staff invited.

Architecture Speaker -- Thursday, Feb. 20, 8 p.m., Air Conditioning Auditorium. Talk by architect Robert Ingle Hoyt; co-sponsored by School of Architecture and student chapter of the American Institute of Architects. Public invited.

Varsity Basketball -- Thursday, Feb. 20, 8 p.m., Men's Gymnasium. Cal Poly vs. Stanislaus State College. Tickets, $1.50 adults, $.50 students and children.

Education Speaker -- Thursday, Feb. 20, 8 p.m., Science Building Room E-27. Donald McNassor of Claremont Graduate School will discuss "The Temper and Values of the New Youth," co-sponsored by Education Department and Cal Poly Graduate Club. Public invited.

(Continued on Page 6)
COMING EVENTS (Continued from Page 5)

Farm Management Alumni Meeting -- Friday, Feb. 21, 12 noon, Staff Dining Room. Luncheon for alumni who graduated in farm management. Alumni, faculty and staff invited.

Varsity Baseball -- Friday, Feb. 21, 2:30 p.m., Baseball Diamond. Cal Poly vs. Westmont College. Public invited.

English Department Play -- Friday and Saturday, Feb. 21-22, 8:30 p.m., Cal Poly Theater. Production of The Doctor In Spite of Himself, sponsored by Cal Poly's English Department. Tickets, $1.50 adults, $1 students, good for remainder of campus drama season.

Children's Drama Matinee -- Saturday, Feb. 22, 2 p.m., Cal Poly Theater. Special children's adaptation of The Doctor In Spite of Himself performed by members of campus chapter of Alpha Psi Omega honorary drama society. Tickets, $.25 children.

Varsity Wrestling -- Saturday, Feb. 22, 8 p.m., Men's Gymnasium. Cal Poly vs. University of California at Los Angeles. Tickets, $1.50 adults, $.50 students and children.

Cal Poly Women's Club Walking Section -- Tuesday, Feb. 25, 9 a.m., Williams Brothers Super Market, San Luis Obispo. Meat for drive to Oceano area for walking tour of that area. Members invited.

Varsity Wrestling -- Tuesday, Feb. 25, 7:30 p.m., Men's Gymnasium. Cal Poly vs. Cal Poly at Pomona. Tickets, $1.50 adults, $.50 students and children.

Cal Poly Women's Club Newcomers Section -- Wednesday, Feb. 26, 8 p.m., San Luis Obispo Art Center. Tour of Art Center with Mrs. Edward Jorgensen. Members invited.

College Hour Concert -- Thursday, Feb. 27, 11 a.m., Cal Poly Theater. Concert by Cal Poly Symphonic Band under direction of William V. Johnson; sponsored by Music Department. Public invited.
RADIATION SAFETY OFFICER, COMMITTEE NAMED BY PRESIDENT

Appointment of Arthur Z. Rosen (Physics Department) as college radiation safety officer has been announced by Robert E. Kennedy (President). Also announced by Dr. Kennedy were the names of seven members of the campus faculty and staff who have been appointed to the newly-established college Radiation Safety Committee.

Dr. Rosen, a member of the Cal Poly faculty since 1953 who will continue his duties as a member of the Physics Department faculty, will represent President Kennedy in working with the various college departments and employees who use radioactive material to assure their understanding and use of safety regulations and to coordinate response to various reports. He will also serve as an ex officio member of the Radiation Safety Committee.

Other members of the campus-wide committee are Hans L. Mager (School of Architecture), Chester O. Bishop (Mechanical Engineering), James Bermann (Agricultural Engineering Department), Fred L. Clogston (Biological Sciences Department), Mrs. Patricia Saam (Home Economics Department), James Neelands (Supervising Science Technician, School of Applied Sciences), and Dr. Lloyd Hall (Campus Health Center). Dr. Hall will serve as medical consultant to the committee.

The appointments, based on the recommendations of appropriate school deans as provided in Administrative Bulletin 68-13, which established both the committee and the radiation safety officer post.

SPEAKER PROGRAM, EXHIBITS, AND SYMPOSIUM WILL CONCLUDE "ENGINEERING WEEK" PROGRAM

A program featuring engineer-designer Jack Ryan, exhibits from various industrial firms, and a symposium on metropolitan rapid transit problems will wind up the schedule of events for the campus observance of "Engineering Week" being sponsored by the School of Engineering's student council. The week-long observance opened yesterday (Monday, Feb. 17) with the annual Engineering Banquet and will close Friday (Feb. 21). Panelists for the symposium, which is scheduled for 7:30 p.m., this (Tuesday, Feb. 18) evening in the Staff Dining Room are Benjamin Polk (School of Architecture), John Crane of Stanford Research Institute, and Richard Gallagher of the Southern California Rapid Transit District.

Ryan will be the guest speaker for the program being planned for 7:30 p.m., Thursday (Feb. 20), also in the Staff Dining Room. Reportedly a millionaire, he is credited with participation in design of the Hawk and Sparrow anti-aircraft missiles and has patented more than 100 inventions. Ryan is presently a leading toy designer for Mattel, Incorporated.

The industrial displays, featuring exhibits from a number of industrial firms and military organizations are scheduled for Thursday and Friday (Feb. 20-21) in the foyer of Dexter Memorial Library, the Mechanical Engineering Laboratory, and the Agricultural Engineering Building. Hours will be 10 a.m. to 4 p.m., Thursday, and 9 a.m. to 4 p.m., Friday.

Cal Poly Report is produced by the Office of Information Services, Administration 210. Material should be submitted in writing prior to noon on Friday.
CSEA LIFE INSURANCE - OPEN ENROLLMENT PERIOD WILL END MARCH 10

An "open enrollment" period is currently being conducted for the California Western/Occidental group term and group ordinary life insurance plans and the Occidental Life Insurance supplemental plans, according to the California State Employees' Association. The "open enrollment" period is limited solely to active employees, and the life insurance plans are available to CSEA members only.

The open enrollment period extends to March 10, 1969; but it is recommended that applications be returned to CSEA by March 1, 1969, to obtain coverage effective April 1, 1969. Individuals desiring additional information concerning the life insurance plans, and/or desiring to enroll, should contact the Personnel Office, Adm 111, 546-2236.

MATINEE PERFORMANCE PLANNED FOR DRAMA PRODUCTION

A matinee performance of The Doctor In Spite of Himself for high school, junior high school, and elementary school students will be given on campus Saturday (Feb. 22) afternoon. The special production of Moliere's light play is scheduled for 2 p.m. in the Cal Poly Theater. Admission will be 25 cents for students under 16 years of age and those holding high school student body cards. Only adults accompanying students or children will be admitted.

Made possible by the Cal Poly chapter of Alpha Psi Omega honorary drama society, the afternoon staging is in addition to evening performances of the play slated for 8:30 p.m., Feb. 22 and 23, also in the Cal Poly Theater. Tickets for the evening performances are priced at $1.50 for adults and $1 for students.

J. Murray Smith (Speech Department) credits cooperation of the college's music, drama, and dance talents with making the production possible. A prologue written by Smith in the style of Moliere introduces the accompaniment of music and dance for the play and establishes the Comedia del Arte style, which continues throughout.

"This is not uncommon," Smith explains, "since many of Moliere's plays had music, as well as musical troupe, accompaniment. The play is a high level slapstick farce, extremely funny, without overriding social implications. I am sure it will delight the younger audience for the matinee."

WHO ... WHAT ... WHEN ... WHERE ???

John Healey (Head of Journalism Department) and Brent Keetch and Vincent Gates (both Journalism Department) attended the annual convention of the California Newspapers Publishers Association, which took place in San Francisco, Feb. 6-8. Newspaper publishers and other concerned with newspaper management throughout the state took part in the meetings.

Peter Rabe (Education) is co-author with Rahe Corlis of a new text on psychotherapeutic technique titled Psychotherapy from the Center. The theoretical part of the book, which is being published by International Textbook Company, Scranton, Pa., is a nontechnical survey of the existential point of view in psychology and the practicum section offers detailed procedures of actual therapeutic steps.
TWO CHANGES IN PRESIDENTIAL ASSIGNMENTS ANNOUNCED BY CHANCELLOR DUMKE

Two changes in the assignment of presidents for individual California state colleges were announced in Los Angeles last week by Chancellor of the California State Colleges Glenn S. Dumke. The first found Carl W. McIntosh resigning his post after nearly 10 years as president of California State College at Long Beach, to be effective as soon as a replacement can be found. The other found Malcolm O. Sillars being appointed acting president of San Fernando Valley State College following the resignation of Paul Blomgren, acting president of that college for the past several months.

Dr. McIntosh, who asked for reassignment within the college system, pointed to the need to leave the campus for what he called "the intellectual replenishment that is so necessary to preserve the needed detachment and perspective... I do not wish to exercise continued responsibility for an institution which I love, under conditions which preclude the necessary perspective," he said.

Dr. Sillars' appointment as chief executive of San Fernando Valley State was effective Friday (Feb. 14). Pointing out that it was an interim appointment pending selection of a permanent president, Dr. Dumke said his appointment of Dr. Sillars was "not only recognizing his professional abilities as a leading member of the faculty and an experienced administrative officers, but also his significant role in working with administration, student organizations and community groups toward resolution of the difficult problems which the campus has experienced over the past few months."

The new acting president, 41, has been a member of the Valley State faculty since 1956. He has served as chairman of the college's Department of Speech, acting chairman of the Division of Languages and Literature, and as associate dean of the School of Letters and Science, and was named a "distinguished professor" in 1967-68. Dr. Sillars is a well-known public speaker and a graduate of University of Iowa from which he received his doctoral degree in 1955.

Dr. Blomgren, who had been acting president of San Fernando Valley State since Sept. 1, 1969, said his resignation was based on his physician's orders. He had been ill and away from his desk on occasion in recent weeks.

SYMPHONIC BAND STATES CENTRAL VALLEY TOUR

California's Central Valley will be the principal scene of the 1969 tour of the Cal Poly Symphonic Band March 24-29. The 66-piece ensemble will offer a potpourri of classical, popular, and show tunes to high school and community audiences in Santa Maria, Lemoore, Turlock, Lodi, Napa, Sacramento, and San Jose. Evening concerts will be given at Righetti High School in Santa Maria, Merced College, Lodi High School, and Sacramento's Johnson High School.

One of several performing groups of the Music Department which make concert tours each spring, the Symphonic Band offers a unique selection of music. Among the numbers in this year's program are Baroque composer Antonio Vivaldi's "Concerto Grosso," John Philip Sousa's "Washington Post," and selections from West Side Story by Leonard Bernstein.

Small ensembles made up of band members appear with the larger group during its tour. Specialty groups participating in the 1969 tour will be a six-piece Dixieland band, a seven-piece percussion ensemble, a five-piece woodwind ensemble, and a nine-piece brass choir.
NEWSMEN'S "HALL OF FAME" DEVELOPED BY JOURNALISM DEPARTMENT

A California newspaperman's "Wall of Fame" is currently being established by Cal Poly's Journalism Department through the efforts of a senior journalism student. The exhibit is an outgrowth of the California Press Association Hall of Fame and was prepared as a senior project by John Shaw of Redondo Beach.

"Shaw was seeking a project that would provide a creative outlet for his artistic, as well as journalistic, talents and this seemed to fit his needs," said John Healey, head of the Cal Poly department. Shaw collected pictures and biographical information on 12 of more than 20 persons in the Hall of Fame. "With the help of its students, the Journalism Department will complete the collection and add honorees each year as they are named," Healey stated.

Among those who have been named to the Hall of Fame are William S. Green, Colusa Sun; M. H. de Young, San Francisco Chronicle; Charles de Young, San Francisco Chronicle; Sam Brannan, California Star; Loren Upson, Sacramento Union; James McClatchy, the Bee Papers; John Nugent, San Francisco Herald; W. P. Bartlett, Livermore Herald; Henry Kuchel, Anaheim Gazette; and Duncan McPherson, Santa Cruz Sentinel.

The "Wall of Fame" will be exhibited as part of Cal Poly's Shakespeare Press Museum, reportedly the most extensive collection of antique newspaper and printing equipment and machinery in the Western United States. The museum, which is now open for regular guided tours, is located in the Graphic Arts Building.

CUESTA COLLEGE BELONGS WITH SPONSORS FOR HOMICIDE INVESTIGATION INSTITUTE

Cuesta College should have been included among those agencies named as sponsoring the Homicide Investigation Institute which will take place on campus March 20-21. The community college is joining with Cal Poly, the County of San Luis Obispo, and the San Luis Obispo County Civil Service Commission as a co-sponsor of the workshop.

DEADLINES AND DATELINES

Washington's Birthday holiday, which falls on Saturday (Feb. 22) this year, does not result in either a holiday or in compensating time off for state employees.

Saturday (Feb. 22) is the final day of the seventh week of Winter Quarter classes. Withdrawals from classes are not allowed after that date except in college-recognized emergencies.

Cal Poly Report is produced by the Office of Information Services, Administration 210. Material should be submitted in writing prior to noon on Friday.
RATES FOR HEALTH INSURANCE PLANS LISTED BY PERSONNEL OFFICE

The Personnel Office has prepared a schedule of insurance rates for various health insurance plans available to assist Cal Poly faculty and staff members in deciding to enroll or to change their enrollment during the "open enrollment" period. The following tables reflect the changes in rates, which will be effective April 1, 1969. The rates listed include the $8.00 state contribution for Basic Health and Supplement to Medicare Health Plans (i.e., individuals not receiving the state contribution should add $8.00 to the amounts listed in the tables). The numbers preceding each plan listed below designate the payroll deduction code for that plan.

BASIC HEALTH PLANS:

CAMPUS TEAM WINS STATEWIDE COMPETITION

A team from the Cal Poly Chapter of the California Young Farmers earned first place in statewide parliamentary procedure competition held during the annual convention of the California Young Farmers in Stockton, March 8. Twelve teams representing chapters at colleges and junior colleges from throughout the state competed.

The Cal Poly team members were Paul Banke, a sophomore agricultural business management major; Robert Brocchini, a senior farm management major; Joe M. Alves, Jr., a junior dairy major; Richard Hadsell, a senior mechanized agriculture major; and Loren Thompson, a junior agricultural business management major.
USOE SETS PRIORITY AREAS FOR 1970 EPDA TRAINING PROJECTS

The U.S. Office of Education has listed 11 priority areas for the training projects for elementary and secondary school personnel it will support in 1970. The projects include both fellowships under Part C of the Education Professions Development Act and institutes and other training programs under Part D of that act.

The USOE Bureau of Education Personnel Development plans to issue new guidelines for the programs next April, with applications due on July 1, 1969. Applications submitted on this schedule will be for projects starting in the summer or fall of 1970.

Priority areas include projects to: train teacher trainers; attract and prepare newcomers for teaching; prepare talented people for leadership roles in teaching, educational planning, and curriculum development; provide training in basic subject areas; train personnel for pre-school, kindergarten and early elementary teaching; train regular teachers and aides to aid handicapped children; train secondary and post-secondary vocational instructors; involve teachers in the development of curricula; provide training for school administrators; train supporting personnel such as media specialists and counselors; and develop ways to make more effective utilization of school personnel.

WRESTLING, BASEBALL CONTESTS TOP SPORTS SCHEDULE FOR WEEK

Wrestling and baseball action matching Cal Poly varsity teams against top opponents is on tap this week. Highlights of the campus events are wrestling matches between the Mustangs and California State College at Long Beach tonight (Tuesday, Feb. 18) and University of California at Los Angeles, Saturday (Feb. 22) night, both in the Men's Gymnasium, and baseball games between Cal Poly and Westmont College, and Cal Poly and San Francisco State College, Friday and Saturday afternoons, respectively.

Other home action finds the basketball varsity meeting Stanislaus State College, Thursday (Feb. 20) evening; and the swimming team hosting Monterey Peninsula College and California State College at Fullerton in meets slated for Friday and Saturday afternoons, respectively. Starting times and locations for the various events are listed in the "Coming Events" calendar.

Last week's sports action was one of mixed success for Cal Poly teams. Coach Vaughan Hitchcock's wrestlers upped their 1968-69 won-lost mark to 12-2 with a 27-6 victory over Portland State College's number three ranked team, while the Mustang basketball varsity was losing hard-fought contests to San Diego State College and California State College at Long Beach. Other results found Coach Bill Hicks' baseball varsity losing its 1969 opener to University of California at Santa Barbara 9-3, and the golf varsity winning its first match of the spring over UCSB's team. The Mustang swimming team was defeated by Fresno State 70-43.
