Legislature will decide on fees

by MARY ANNE LAPONTE

Students who are California residents registering for the 1974-75 academic year may not have to pay the $2.75 increase in the material and services fee. According to state Sen. Landresh, business affairs director for Cal Poly, the legislature appropriated $86,000 for the school and Myron Angel had finally beaten the coyotes.

Frustrated, but not beaten, Gov. Ronald Reagan spoke May 27, 1974 at the 68th annual Commencement at Cal Poly. The busiest people were those graduating seniors who attended the 46th annual Commencement. It was the first time in several years that the first-time tickets were required for commencement. It was the first time a governor gave the commencement speech at Cal Poly.

Editorial comment

Mustang Daily changes its pace

Summer time in San Luis is typically rather quiet and the campus slows its pace with the reduced enrollment of summer quarter. Mustang Daily also changes gears and becomes a weekly — Summer Mustang.

The usual crowd of journalists typing, phoning and moaning is no longer to be seen in the newsroom. Instead, a skeletal staff of photographers, reporters and advertising staff keeps the paper going along in a more or less smooth fashion.

It is a big job for student journalists to handle the task of gathering, sorting and finally publishing news and information about the campus, even during the regular academic year. Summer quarter presents even more of a problem with the reduced staff and the reduced activities on campus. Summer Mustang's goal is to inform and entertain summer students. We are working on it at this end, but urge students to bring forward any complaints, comments or ideas.

Publication of a paper by the journalism department members serves as a valuable learning tool to polish skills and get a feel for the atmosphere to be found at professional publications. Input from areas outside this department helps to point out blind spots in the paper. Membership serves as a valuable learning tool to polish skills and get a feel for the atmosphere to be found at professional publications. Input from areas outside the department helps to point out blind spots in the paper.

For this reason silence from the student body is not looked upon as an asset but a hindrance to our efforts.

Many students are not aware of how the paper is organized. Summer Mustang is, like Mustang Daily, not supported by student funds. Salaries, printing costs, photography costs and all the other expenses of the paper are paid for by advertising solicited by the advertising staff. This frees us from the authority of any body or organization. It also means that we must break even on our budgeting, a big task for a small group of students.

As editor I prefer the freedom we enjoy as a totally self-supporting student publication; in fact, Mustang is the only self-supporting student publication in the state. Summer Mustang cannot be all things to all people, yet with interaction between our staff and the students of Cal Poly we can try to cover untouched areas of student concern and improve the flow of communication.

Martha Roush

Students living in residence halls are paying five percent more this summer than in the quarters that last summer. The increase will also affect students coming back to Cal Poly in the fall.

According to Robert M. Bostrom, director of housing at Cal Poly, the five percent increase was approved in the spring by the Office of the Chancellor of the California State University and Colleges. The increase from $1600 to $1650 for double occupancy rooms in campus residence halls took effect June 1. The $1650 rate will also apply during the Fall, Winter, and Spring Quarters of 1974-75. The new room rate of the single occupancy rooms for the Summer Quarter is $1100, 50% higher than last summer. The single-quarter rate is only available during the Summer, said Bostrom.

Bostrom said the reason for the rate increase is because operations costs have increased in recent months. "The greatest increases have been in the costs of supplies, paper, maintenance and labor," Bostrom said.

Poly extension offers classes for community

Cal Poly is offering ten extension classes during the Summer Quarter. The program is designed to provide continuing education opportunities for people in the community. The extension classes include both credit and non-credit courses, institutes, workshops, conferences, and work study tours. Extension courses begin this week with registration taking place in the first class session. Details and subjects can be obtained at the Continuing Education Office in Administration 317.

The Texas Instruments electronic calculator:

it lets you add, subtract, multiply, divide and graduate.

Conquers every problem in your daily arithmetic. Instantly. Accurately. Electronically. And, above all, Texas Instruments — by Texas Instruments — and it adds new precision and confidence to all your personal calculations.

In its own carrying case it fits in purse, briefcase—or just pocket it. And it's completely rechargeable.

The Datamath electronic calculator from Texas Instruments. It always proves you right.
Relaxation found in the University Union

by JUAN KAYANA

Are you sitting at your study desk, writhing in pain and wondering how to fill in these moments before you delve into that tough reading assignment? Why not head over to the University Union and discover what's happening this Summer Quarter.

To get rid of your aggressions towards the instructor who assigned 10 pages of reading, why not throw a few balls down the Union's bowling alley. According to Gene Legari, games area manager, the bowling alley will be open Monday thru Friday 9 a.m. to 11 p.m. Saturday noon to 11 p.m. and Sunday 9 to 10 p.m. Students can bowl for 10 cents per game and the shoes can be rented for 15 cents. A special price of three games is offered all day Sunday and Monday until 6 p.m. Though they are filling fast, openings are still available on the various bowling leagues, claims Legari. The leagues run Monday through Thursday at 7 p.m. The cost is 85.30 per week. For further information see the sign-up sheets in the games area.

If you are in the mood for a rip roaring game of football or want to try your pinball wizardry skills, the bowling alley light effects during this contest. Also available in the games area are pool and billiards tables renting for 81.30 per hour. Tuesday night offers a straight pool "call shot" tournament which starts at 7 p.m. This pool league costs 81.30 per week.

Also available in the games area are pool and billiards tables renting for 81.30 per hour. Tuesday night offers a straight pool "call shot" tournament which starts at 7 p.m. This pool league costs 81.30 per week.

One way to beat the high cost of living is to take in one of the A.I.L. summer films. The cost is 75. All remaining films show Friday nights at 8 p.m. in the University Union. Tomorrow night "Lovers and Other Strangers" plus part three of the 13 part serial "The Phantom Creeps" will be shown. Future films include "John Goldfarb, Please Come Home", "How the West Was Won", "They Shoot Horses, Don't They", "The Sterile Cuckold", "Kotch", and "Kelly's Heroes". Various parts of the above mentioned serial will be shown with each film.

As an answer to those mid-summer run down blues, why not catch the "Concert Under the Stars" at 8 p.m. on July 15 in the amphitheater. If you're moved by classical music, you might want to attend the Mozart Festival running from July 11 to August 4. The Cal Poly Symphony Orchestra will also appear on August 33 in the theater. Two tentative concerts are also in the spring this summer.

In order to keep your little fingers moving constructively, you might want to sign up for black and white or color photography, ceramics, glass, silk, batik, leather, weaving and macrame or lapidary. Leslie Griffin, crafts advisor, notes enrollment is on a first come first serve basis, with a few openings left.

Enrollment fees range from 86.00 to 81.60 which includes the instructor time and a variable amount of supplies. The classes will run from 7:45 p.m. to 11:30 p.m. and 8:30 to 11:30 p.m. The crafts center is open Monday through Saturday from noon to 10 p.m. and on Sundays from 8 to 10 p.m. Tools can be checked out for free but a student will need his I.D. card. A student must be certified for use of the photo, lapidary and jewelry equipment. Lockers are also available for a quarterly fee. The center offers a small, reference library which contains magazines and craft periodicals. A special note should be made on who can patronize the craft area. The center is open to the following groups in this order: students, faculty and staff, student spouses, faculty and staff spouses. The area is not open to the public. A student may bring a guest to a workshop if the guest remains in the room at all times with the students.

Mary Lee Green, El Corral manager, announced that the bookstore will be open today and tomorrow from 7 a.m. to 11:30 p.m. The bookstore will be closed July 1 to July 7 for inventory, resuming regular hours July 8 thru July 14. From July 15 through September 15 the bookstore will be open from 7:45 a.m. to 1:45 p.m. The bookshop will be closed on weekends.

Everyone has his own style when it comes to bowling. Some bowlers end up with a kick, some with a little push, and some end up frustrated. All techniques are acceptable at the university bowling alley.

The necessities of life need not take place behind static stucco walls. An architecture student's creativity led to the textured rocky walls and a built-in view of the hills from this unique structure.

A summertime look at Poly Canyon

Photos by Mark Katayama

A walk through the soon-to-be-remodeled botanical gardens reveals a bridge of unusual design and structure. It is made of wood, concrete and steel cable.

A bug on a stick. What more can be said?

A bug on a stick gazes at the camera with long-lashed eyes, as she munches on a mouthful of the weeds and grasses that grow rampantly in Poly Canyon.

Women's lib struck Poly early

by ANDY TANNER

The Cal Poly campus in summertime: basking in the warmth of brilliant sunshine while the soothing ocean breezes waft with the sweet scent of honeysuckle. And along each campus thoroughfare—an endless procession of the loveliest of California's lovelies. As the days grow warmer, the coed's costume becomes more revealing and the male students find a renewed interest in attending their classes.

With conditions such as these it is no wonder that Cal Poly has acquired the reputation along the entire west coast as a paradise for the studious girl-watcher.

Coming from a climate which made a girl's bare ankle seem provocative, I too was lured by the siren's song of a summer much like this summer. It seems like a hundred years ago. But it hasn't always been like this. There are still a few old-timers stuffing around who may remember a time when a female of any age or description was a rare sight at old Cal Poly.

The original Polytechnic College was considered coeducational during its infant years from the turn of the century through the twenties. Although the door was open to them, the women of those days were more or less content to leave the higher education to the menfolk.

As the popularity of Cal Poly began to grow and administrators began to think about expanding and building dormitories and such, women students were eliminated as an unnecessary extra expense. This was in the golden year of 1929 and although the legislature reopened Cal Poly to women just eight years later it remained, in fact, an all-male school for many years afterwards.

There was agitation to change this deplorable situation. It came not only from education-starved women but from Poly's male students, who certainly shared the girls' sense of frustration. An issue of the Mustang Daily in 1964 contained a warning from the perennial Dean of Students Everett Chandler regarding the illegality of Cal Poly students loitering on or about the San Luis Obispo High School campus.

In that same year the San Luis Obispo area women teachers presented their state senator with a petition demanding the college admit female students. Anyone who was here during those tense days knew something had to give.

The first step was the creation of a Coed Planning Committee during the 1953-54 school year. This board developed the original Home Economics curriculum and laid plans for the dorms and other facilities needed to handle the girls. Every precaution was taken to protect those first Poly Dollies from the evils that lurked in the depths of the minds of college administrators. There are prison wardens today that are less concerned with the activities of their residents than the major domo overseeing those first women's dormitories.

A further step toward coeducation at Cal Poly in 1964 was the hiring of a third female instructor. The completion of a physical education facility for women and the appointment of a teacher made open enrollment of coeds possible in the Fall of 1965.

Progress has brought great changes to this institution. A small polytechnic college has evolved into a nationally prominent university. Only a few buildings remain that are more than 90 years old. But on a beautiful, easy-going summer afternoon, the most welcome addition to Cal Poly are those coeds in their summer clothes. It sure beats loitering around the high school.

New officers for SCARAB to take office

The new president of SCARAB, the national honorary society for architecture on campus, is Bruce Steingraber.

Steingraber is a junior architecture major and is the son of Mr. and Mrs. Leroy Steingraber of El Cajon. He graduated from Granite Hills High School in El Cajon in 1968. Before attending Cal Poly in 1971, Steingraber attended Grossmont College in El Cajon.

Others elected to serve SCARAB during the upcoming school year are James Adams of Whittier, vice president; Jmelda Jebian Golik of Fresno, secretary; Peter Posniak of Saratoga, treasurer; Bob Rossi of San Luis Obispo, historian; and Brad Henderson of Bakersfield, pledge master.

All of the SCARAB officers are architecture majors.
Crops club's yearly choice is Bradshaw

Bradshaw's accomplishments in the agricultural industry and his services to the university's Crop Science department were cited by the Crops Club as reasons for their selection. Bradshaw spent 17 years designing and building custom harvesting and hauling equipment for western vegetable growers. In 1961 he joined the Earle Myers Co., a Salinas celery grower, as vice president and general manager. In 1988 United Brands acquired Earle Myers Co., and combined it into the newly-formed Interharvest, Inc., a major producer of celery and lettuce in California and Arizona.

Bradshaw is currently serving as president of the Grower-Shipper Vegetable Association of Central California as a member of the board of directors of the Western Growers Association and as a member of the Iceberg Lettuce Advisory Board.

New academic affairs VP

For the first time in over forty years, a woman will be filling the position of vice president at Cal Poly.

Dr. Hasal Jones was appointed as vice president for academic affairs by Dr. Robert E. Kennedy, president of Cal Poly. Dr. Jones has served as the dean of the School of Letters, Arts and Sciences for the past four years at California State University, Fullerton. Her appointment will be effective July 31, 1974.

The academic vice president reports to the president and directly supervises the academic instructional program through the seven school deans and the academic staff.

Dr. Kennedy noted that a six-month consultative selection process was involved in the appointment of Dr. Jones. She will fill the position left vacant by Dr. Dale Andrews. Andrews was named executive vice president in December, 1973. Dr. Clyde P. Plater, former dean of the School of Science and Mathematics, has acted as academic vice president in the interim.

Dr. Jones has an extensive background in university administration and teaching at the secondary and college level. She was assistant professor of education at California State University, Los Angeles and Fullerton. After the appointment to the Department of Education, she became associate dean of the School of Letters, Arts, and Sciences in 1977.

Margaret Hawthorne Chase was the last woman vice president at Cal Poly. She served for 10 years until the early 1930's, including six months as acting president.

Summer hours in the library

Need a nice quiet place to finish that philosophy paper, or need to pick up some reading material for your next beach outing? The summer library hours run as follows, Monday thru Thursday from 7:46 a.m. to 9 p.m., Friday from 7:46 a.m. to 6 p.m., open Saturday from 9 a.m. and closed Sunday.

The reserve room will remain open for study use only Monday thru Thursday from 9 to 11 p.m. and will observe regular hours Friday and Saturday.

and two manual typewriters for student use. The room is open from 8 a.m. to 9 p.m. and is located in Rm. 114.

Pacific Sierra spokesman, Mark Fagerburg, announced the store's record prices have been lowered. The shop is now open daily from 10 a.m. to 9 p.m., Saturday from 10 a.m. to 8 p.m. and closed on Sundays. Fagerburg said store hours will change shortly. He said they will probably be closed on Saturdays so the staff can soak up a few of those sun rays.

Back pay due to ex-sailors

According to Powell, ex-navy personnel who are not now affiliated with the Navy Reserve and who were on active duty during the period of October 1 to December 31, 1973 should contact the Navy Recruiting Office, 360 Pacific St., San Luis Obispo for further information regarding the back pay issue.

Back pay due to ex-sailors; according to Gary L. Powell, of the Navy Recruiting Station in San Luis Obispo.
Sports

Honors presented to top track stars

The "most valuable athlete" honors of the 1974 Mustang Track team were shared by a freshman and a senior.

The freshman, sprinter Clancy Edwards of Santa Ana, and the senior, Dave Hamer of Santa Barbara, had both won individual titles in the NCAA Division II championships almost a month ago.

Edwards was first in the 110 yard dash there with a wind aided 6.0. He was third in the 100 yard dash and participated on the Cal Poly 440 relay team which placed third. He received three All-American certificates for this.

Hamer, selected as Cal Poly's most valuable four-year track athlete, established an NCAA Division II Championship record with a 18 feet 9 and one fourth inches vault while taking the championship this year, breaking his record set in 1973. Earlier this season Hamer vaulted 17 feet 1 and one fourth inches setting a Cal Poly record.

Edwards also received honors for the "most outstanding single meet performance" for his participation in the San Jose Invitational. He had an unaided time of 45.8 in the 110 and an 8.4 in the 100 and anchored the Cal Poly 440 relay team to a 45.8 clocking, Cal Poly's 9th fastest time.

Hamer received the "outstanding single meet performance by a field event man". This was for his vault of 16 feet 10 inches and a 14.5 time in the high hurdles at the Mt. San Antonio Relays.

Summer fun can be found in Poly pool

Pool hours for this summer quarter have been announced by Dr. Robert Mott, men's physical education department head.

According to Dr. Mott, the men's pool will be open on Saturdays, Sundays and holidays from noon to 4 p.m. Hours Monday through Friday are from 3 to 6 p.m. and 7 to 8:30 p.m. This pool is for the use of the students, faculty and staff of Cal Poly for recreational swimming and since the pool's shallowest point is six feet deep, no children will be admitted. The women's pool in Crandall Gym will also be open this quarter during two periods. The first period runs to July 36 on Mondays, Wednesdays, and Fridays from 5:46 to 6:45 p.m. The second period opens on August 13 and will go to August 33 on Mondays, Wednesdays, and Fridays from 4 to 5 p.m. and 7 to 9 p.m. The use of this pool is for recreational swimming for Cal Poly faculty, staff, and their dependents.

Steve Simmons goes to Africa

Steve Simmons, head track coach here at Cal Poly, has been honored with the task of two special coaching assignments this summer.

Simmons, who has been head coach here for four years, will first spend six weeks in Africa, and then come back to the United States to work a week at the University of Tennessee.

The Africa trip which is sponsored by both the U.S. State Department and the U.S. Track and Field Federation started this June 13, when Simmons left from Washington D.C. He will spend two weeks in Montserrat and Nairn in Kenya, two weeks in Lagos, Nigeria and the final two weeks in Abijah, Ivory Coast. His coaching will be concerned with jumping, throwing, and hurdle events.

Simmons will be at the University of Tennessee in Knoxville from July 36 through August 1. This is to be a training camp for American coaches and athletes sponsored by the Olympic Committee. Simmons' tasks at this camp are to instruct in the straddle jumping technique.

Table tennis to be offered in intramural

Intramural sports for the Spring quarter begin this week for any students interested in participating, according to Larry Gay of the men's athletic department.

Students interested in joining a volleyball, basketball or softball team should do so at the Intramural Office in the Men's Gymnasium, Gay said.

Co-educational volleyball is slated for Tuesday and Thursday nights in the Men's Gym from 7 to 9 p.m. Basketball games will be held in the gym on Monday and Wednesday nights at 7 and 9 p.m.

Softball will take place on the athletic field next to the Men's Gym on weekdays at 4 p.m. The days which games are played will be decided when teams form up. In August, all-comers meets in track, swimming, golf, badminton and table tennis are scheduled.

The Men's Gym will be open for general use on Sundays from 1 to 6 p.m. throughout the summer. The weight room in the gym will be available during July, Monday nights from 7 to 9 p.m.
