Legislature will decide on fees

by MARY ANNE LAPIONTE

Students who are California residents registering for the 1974-75 academic year may not have to pay the $27 increase in the material and services fee. According to James Landreth, business affairs director for Cal Poly, the conference committee in Sacramento voted to decrease the MS fees from $8.1 to $2.0 for the academic year. Since the income for the University would be reduced, the committee suggested $2.1 million be provided for the University from the general fund in the state budget. The assembly must now vote on the bill.

If the new fee schedule which was originally approved in December goes into effect, students will pay $34 per quarter for 0 to 3.9 units of study, $38 for 4.0 to 5.9 units, $42 for 6.0 to 11.1, and $46 for 12 or more units. Students presently pay $38.50 per quarter for up to 3 units, $42.50 for 4 to 7.5 units and $53.50 for 8.0 to 11.9 units, and $64 for 12 or more units.

Students presenty pay $38.50 per quarter for up to 3 units, $42.50 for 4 to 7.5 units and $53.50 for 8.0 to 11.9 units, and $64 for 12 or more units.

Increased monies mark new GI bill

by RICHARD McMILLEN

Good news for veterans in the form of increased and extended GI benefits may be delivered by Congress next week. A joint House and Senate committee is working to reach a compromise between the 13 per cent increase in G.I. benefits voted by the House and the 18 per cent increase proposed by the Senate.

The committee is working under a 30-day extension granted by President Nixon to Congress last month after it failed to meet Nixon's May 15 deadline for the enactment of legislation raising G.I. benefits.

The House bill would raise payments for a single veteran from $220 to $255 per month. Married veterans would receive $257 in place of the current $209 per month. The Senate bill would raise single veteran payments to $380 per month and married veteran payments to $370. Both bills are aimed at veterans of the Vietnam era.

The Senate bill would also extend benefits to the parents of a veteran who served in Vietnam. The benefits of the bill would be increased to $215 for the first two years and then to $240 for the next three years for veterans who served in Vietnam and $190 for those who served elsewhere.

The committee is not yet ready to vote on the final version of the bill, but it is expected to pass it by next week.
Editorial comment

Mustang Daily changes its pace

Summertime in San Luis is typically rather quiet and the campus slows its pace with the reduced enrollment of summer quarter. Mustang Daily also changes gears and becomes a weekly — Summer Mustang.

The usual crowd of journalists typing, phoning and moaning is no longer to be seen in the newsroom. Instead, a skeletal staff of photographers, reporters and advertising staff keeps the paper going along in a more or less smooth fashion.

It is a big job for student journalists to handle the task of gathering, sorting and finally publishing news and information about the campus, even during the regular academic year. Summer quarter presents even more of a problem with the reduced staff and the reduced activities on campus.

Summer Mustang's goal is to inform and entertain summer students. We are working on it at this end, but urge students to bring forward any complaints, comments or ideas.

Publication of a paper by the journalism department members serves as a valuable learning tool to polish skills and get a feel for the atmosphere to be found at professional publications. Input from areas outside this department helps to point out blind spots in the paper.

For this reason silence from the student body is not looked upon as an asset but a hindrance to our efforts.

Many students are not aware of how the paper is organized. Summer Mustang is, like Mustang Daily, not supported by student funds. Salaries, printing costs, photography costs and all the other expenses of the paper are paid for by advertising solicited by the advertising staff. This frees us from the authority of any body or organization. It also means that we must break even on our budgeting, a big task for a small group of students.

Summer Mustang's goal is to inform and entertain summer students. We are working on it at this end, but urge students to bring forward any complaints, comments or ideas.

Publication of a paper by the journalism department members serves as a valuable learning tool to polish skills and get a feel for the atmosphere to be found at professional publications. Input from areas outside this department helps to point out blind spots in the paper.

Dorm costs increased 5 percent for summer

Students living in residence halls are paying five per cent more this summer than during the quarter before last summer. The increase will also affect students coming back to Cal Poly in the fall.

According to Robert M. Bostrom, director of housing at Cal Poly, the five per cent increase was approved in the spring by the Office of the Chancellor of the California State University and Colleges.

The increase from $160 to $80 for double occupancy rooms in campus residence halls took effect June 30. The $800 rate will also apply during the Fall, Winter, and Spring Quarters of 1974-75. The new room rate of the single occupancy rooms for the Summer Quarter is $220, 50 per cent higher than last summer.

The single-quarter rate is only available during the Summer, said Bostrom.

Bostrom said the reason for the rate increase is because operations costs have increased in recent months. "The greatest increases have been in the cost of supplies, paper, maintenance and labor," Bostrom said.

Poly extension offers classes for community

Cal Poly is offering ten extension classes during the Summer Quarter. The program is designed to provide continuing education opportunities for people in the community.

The extension classes include both credit and non-credit courses in institutes, workshops, conferences, and a work study tour. Extension courses begin this week with registration taking place in the first class session. Further information and subjects can be obtained at the Continuing Education Office in Administration 317.

The Texas Instruments electronic calculator: it lets you add, subtract, multiply, divide and graduate.

Conquers every problem in your daily arithmetic. Instantly. Accurately. Electronically. And, above all, easily. And, above all, easily. Created by Texas Instruments — and it adds new precision and confidence to all your personal calculations.

In its own carrying case it fits in purse, briefcase — or just pocket it. And it's completely rechargeable. The Datamath electronic calculator from Texas Instruments. It always proves you right.
Relaxation found in the University Union

by JUAN NAVARRO

Are you sitting at your study desk, riveting a pencil and wondering how to fill in those moments before you delve into tough reading assignments? Why not head over to the University Union and discover what's happening this Summer Quarter?

To get rid of your aggressions towards the instructor who assigned too many pages to read, why not throw a few balls down the bowling alley area manager, the University Union's bowling alley. According to Gene Legari, the bowling alley area will be open Monday through Friday 8 a.m. to 11 p.m., Saturday noon to 11 p.m. and Sunday 5 to 10 p.m. Students can bowl for 10 cents per game and the shoes can be rented for 15 cents. A special price of three games for $1 is offered all day Sunday and Monday until 6 p.m.

"Though they are filling fast, openings are still available on the various bowling leagues," claims Legari. The leagues run Monday through Thursday at 7 p.m. The cost is $1.50 per week. For further information see the sign-up sheet or the games area. If you have nothing going on on Saturday nights between 6:30 and 10:30 p.m. you might want to participate in the "Moonlight Thrill and Win" tournaments. A strike when the special blue head pin appears you will win a free game. Also take note of the weird alley light effects during this contest.

Also available in the games area for pinball machine skills is the pinball machine. The machines are located in the same area where the bowling lane is located. A special note should be made to those with the "Concert Under the Stars" at 6 p.m. on July 13 in the amphitheater. If you're moved by classical music, you might want to attend the Mozart Festival running from July 31 to August 4. The Cal Poly Symphony Orchestra will also appear on August 3 in the theater. Two tentative concerts are also in the works this summer.

If you are in the mood for a rip roaring game of football or want to try your pool ball wizardry, the pool league costs 15 cents. All remaining films show Friday nights at 8 p.m. in the University Union. Tomorrow night: "Lovers and Other Strangers" plus part three of the 12-part serial "The Phantom Creeps" will be shown. Future films include "John Goldfarb, Please Come Home," "How the West Was Won," "They Shoot Horses, Don't They," "The Sterile Cuckoon," "Kotch," and "Kelly's Heroes." Various parts of the above mentioned serial will be shown with each film.

As an answer to those mid-summer run down blues, why not catch the "Concert Under the Stars" at 8 p.m. on July 11 in the amphitheater. If you're moved by classical music, you might want to attend the Mozart Festival running from July 31 to August 4.

Also available in the bowling alley area are pocket billiards tables and Sunday 3 to 10 p.m. Students can bowl for 50 cents per game and the shoes can be rented for 15 cents. The leagues run Monday through Thursday at 7 p.m. The cost is $1.50 per week. For further information see the sign-up sheet or the games area.

Tuesday night offers a "straight pool "cal shot" tournament" which starts at 7 p.m.

Also available in the games area are pool tables and billiards. Renting for $1.50 per hour per table. Sunday night offers a straight pool "cai shot" tournament which starts at 7 p.m.

Monday thru Friday 8 a.m. to 11 p.m., Saturday noon to 11 p.m. and Sunday 5 to 10 p.m. The bowling alley area will be open Monday through Saturday from noon to 10 p.m. and on Sundays from 3 to 10 p.m. Tools can be checked out for free but a student will need his I.D. card. A student must be certified for use of the photo, lapidary and jewelry equipment. Lockers are also available for a quarterly fee. The center offers a small reference library which contains magazines and craft periodicals.

A special note should be made on who can patronize the craft area. The center is open to the following groups in this order: students, faculty and staff, student spouses, faculty and staff spouses. The area is not open to the public. A student may bring a guest to a workshop if the guest remains in the class at all times with the students.

In order to keep your little fingers moving constructively, you might want to sign up for black and white or color photography. Leslie Griffin, crafts advisor, notes enrollment is on a first come first serve basis, with a few openings left.

Enrollment fees range from $1.00 to $1.50 which includes the instructor time and a variable amount of supplies. The classes will run from 1:30 p.m. to 5:30 and 6:30 to 9:30 p.m.

The crafts center is open Monday through Saturday from noon to 10 p.m. and on Sundays from 3 to 10 p.m. Tools can be checked out for free but a student will need his I.D. card. A student must be certified for use of the photo, lapidary and jewelry equipment. Lockers are also available for a quarterly fee. The center offers a small reference library which contains magazines and craft periodicals.

A special note should be made on who can patronize the craft area. The center is open to the following groups in this order: students, faculty and staff, student spouses, faculty and staff spouses. The area is not open to the public. A student may bring a guest to a workshop if the guest remains in the class at all times with the students.

Mary Lee Green, El Corral manager, announced that the bookstore will be open today and tomorrow from 7:45 to 11:30 a.m. The bookstore will be closed July 1 to July 7 for inventory, resuming regular hours July 8 thru July 14. From July 15 through September 15 the bookstore will be open from 7:45 to 11:30 a.m. and 1:45 p.m. The bookstore will be closed on weekends.

For further information see the sign-up sheet or the games area.

Everyone has his own style when it comes to bowling. Some bowlers end up with a kick, some with a little push, and some end up frustrated. All techniques are acceptable at the University bowling alley.

MID STATE
Electronic Supply Inc.

At Mid-State Electronics our main business is parts. We have all the parts to repair your radio or TV. Mis-State has all the parts to build anything—electronics—plus tools and test meters.

We also have fresh batteries, fresh because we order frequently and in small quantities. For all your electronic needs come to Mid-State Electronic Supply.

A summertime look at Poly Canyon

Photos by Mark Katayama

The necessities of life need not take place behind static stucco walls. An architecture student's creativity led to the textured rocky walls and a built-in view of the hills from this unique structure.

A walk through the soon-to-be remodeled botanical gardens reveals a bridge of unusual design and structure. It is made of wood, concrete and steel cable.

A bug on a stick. What more can be said?

A wasp hovers gazes at the camera with long-lashed eyes, as she munches on a mouthfull of the weeds and grasses that grow rampantly in Poly Canyon.

Paid for by Pacific Stereo
Women's lib struck Poly early

by ANDY TANNER

The Cal Poly campus in summertime: basking in the warmth of brilliant sunshine while the soothing ocean breezes stir the sweet scent of honeysuckle. And along each campus thoroughfare, an endless procession of the loveliest of California's lovelies. As the days grow warmer, the coed's costume becomes more revealing and the male students find a renewed interest in attending their classes.

With conditions such as these, it is no wonder that Cal Poly has acquired the reputation along the entire west coast as a paradise for the studious girl-watcher. Coming from a climate which made a girl's bare ankle seem provocative, I too was lured by the siren's song of a summer much like this summer. It seems like a hundred years ago.

But it hasn't always been like this. There are still a few old-timers shuffling around who may remember a time when a female of any age or description was a rare sight at old Cal Poly. The original Polytechnic College was considered coeducational during its infant years from the turn of the century through the twenties. Although the door was open to them, the women of those days were more or less content to leave the higher education to the menfolk.

As the popularity of Cal Poly began to grow and administrators began to think about expanding and building dormitories and such, women students were eliminated as an unnecessary extra expense. This was in the golden year of 1929 and although the legislature reopened Cal Poly to women just eight years later, it remained, in fact, an all-male school for many years afterwards.

There was agitation to change this deplorable situation. It came not only from education-starved women but from Poly's male students, who certainly shared the girls' sense of frustration. An issue of the Mustang Daily in 1964 contained a warning from the perennial Dean of Students Everett Chandler regarding the illegality of Cal Poly students loitering on or about the San Luis Obispo High School campus. In that same year, San Luis Obispo area women teachers presented their state senator with a petition demanding the college admit female students. Anyone who was here during those tense days knew something had to give.

The first step was the creation of a Coed Planning Committee during the 1953-54 school year. This board developed the original Home Economics curriculum and laid plans for the dorms and other facilities needed to handle the girls. Every precaution was taken to protect those first Poly Dollies from the evils that lurked in the depths of the minds of college administrators. There are prison wardens today that are less concerned with the activities of their residents than the major domo overseeing those first women's dormitories.

A further step toward coeducation at Cal Poly in 1964 was the hiring of a third female instructor. The completion of a physical education facility for women and the appointment of a teacher made open enrollment of coeds possible in the fall of 1965.

Progress has brought great changes to this institution. A small polytechnic college has evolved into a nationally prominent university. Only a few buildings remain that are more than 90 years old. But on a beautiful, easy-going summer afternoon, the most welcome addition to Cal Poly are those coeds in their summer clothes. It sure beats loitering around the high school.

New officers for SCARAB to take office

The new president of SCARAB, the national honorary society for architecture on campus, is Bruce Steingraber. Steingraber is a junior architecture major and is the son of Mr. and Mrs. Leroy Steingraber of El Cajon. He graduated from Granite Hills High School in El Cajon in 1966. Before attending Cal Poly in 1971, Steingraber attended Grossmont College in El Cajon.

Others elected to serve SCARAB during the upcoming school year are James Adams of Whittier, vice president; Imelda Jebian Golik of Fresno, secretary; Peter Posniak of Saratoga, treasurer; Bob Rossi of San Luis Obispo, historian; and Brad Henderson of Bakersfield, pledgemaster.

All of the SCARAB officers are architecture majors.
Crops club's yearly choice is Bradshaw

Bradshaw's accomplishments in the agricultural industries and his services to the university's Crop Science department were cited by the Crops Club as reasons for their selection.

Bradshaw spent 17 years designing and building custom harvesting and hauling equipment for western vegetable growers. In 1961 he joined the Earle Myers Co., a Salinas celery grower, as vice president and general manager.

In 1968 United Brands acquired Earle Myers Co., and combined it with the newly-formed Interharvest, Inc., a major producer of celery and lettuce in California and Arizona.

Bradshaw is currently serving as president of the Grower-Shippers Vegetable Association of Central California as a member of the board of directors of the Western Growers Association and as a member of the iceberg lettuce advisory board.

Summer hours in the library

Need a nice quiet place to finish that philosophy paper, or need to pick up some reading material for your beach outing? The summer library hours run as follows, Monday thru Thursday from 7:45 a.m. to 9 p.m., Friday from 7:45 a.m. to 5 p.m., open Saturday from 9 a.m. and closed Sunday.

The reserve room will remain open for study use only Monday thru Thursday 9 to 11 p.m. and will observe regular hours Friday and Saturday.

New academic affairs VP

For the first time in over forty years, a woman will be filling the position of vice president at Cal Poly.

Dr. Hazel Jones was appointed as vice president for academic affairs by Dr. Robert E. Kennedy, president of Cal Poly. Dr. Jones has served as the dean of the School of Letters, Arts and Sciences for the past four years at California State University, Fullerton. Her appointment will be effective July 31, 1974.

The academic vice president reports to the president and directly supervises the academic instructional program through the seven school deans and the academic staff.

Dr. Kennedy noted that a six-month consultative selection process was involved in the appointment of Dr. Jones. She will fill the position left vacant by Dr. Dale Andrews. Andrews was named executive vice president in December, 1973.

Dr. Clyde F. Plater, former dean of the School of Science and Mathematics, has acted as academic vice president in the interim.

Dr. Jones has an extensive background in both university administration and teaching at the secondary and college level. She was assistant professor of education at California State University, Los Angeles and Fullerton. After the appointment to the English Department at Fullerton, she became associate dean of the school of Letters Arts, and Sciences in 1967.

Margaret Hawthorne Chase was the last woman vice president at Cal Poly. She served for 10 years until the early 1930's, including six months as acting president.

and two manual typewriters for student use. The room is open from 9 a.m. to 5 p.m. and is located in Rm. 114.

Pacific States spokesman, Mark Fagerburg, announced the store's record prices have been lowered. The shop is now open daily from 10 a.m. to 6 p.m., Saturday from 10 a.m. to 9 p.m. and closed on Sundays. Fagerburg said store hours will change shortly. He said they will probably be closed on Saturdays so the staff can soak up a few of those sun rays.

Back pay due to ex-sailors

According to Powell, ex-navy personnel who are not now affiliated with the Navy Reserves and who were on active duty during the period of October 1 to December 31, 1973 should contact the Navy Recruiting Office, 335 Pacific St., San Luis Obispo for further information regarding the back pay issue.

Summer fun can be found in Poly pool

Pool hours for this summer quarter have been announced by Dr. Robert Mott, men's physical education department head.

According to Dr. Mott, the men's pool will be open on Saturdays, Sundays and holidays from noon to 4 p.m. Hours Monday through Friday are from 3 to 6 p.m. and 7 to 8:30 p.m. This pool is for the use of the students, faculty and staff of Cal Poly for recreational swimming and since the pool's shallowest point is six feet deep, no children will be admitted.

The women's pool in Crandall Gym will also be open this quarter during two periods. The first period runs to July 30 on Mondays, Wednesdays and Fridays from 5:45 to 6:45 p.m. The second period opens on August 13 and will go to August 31 on Mondays, Wednesdays and Fridays from 4 to 6 p.m. and 7 to 9 p.m. The use of this pool is for recreational swimming for Cal Poly faculty, staff, and their dependents.

Steve Simmons goes to Africa

Steve Simmons, head track coach here at Cal Poly, has been honored with the task of two special coaching assignments this summer.

Simmons, who has been head coach here for four years, will first spend six weeks in Africa, and then come back to the United States to work a week at the University of Tennessee.

The Africa trip which is sponsored by both the U.S. State Department and the U.S. Track and Field Federation started this June 13, when Simmons left from Washington D.C. He will spend two weeks in Montserrat and Nairobi in Kenya, two weeks in Lagos, Nigeria and the final two weeks in Abijhan, Ivory Coast. His coaching will be concerned with Jumping, throwing, and hurdle events.

Simmons will be at the University of Tennessee in Knoxville from July 31 through August 1. This is to be a training camp for American coaches and athletes sponsored by the Olympic Committee. Simmons' tasks at this camp are to instruct in the straddle jumping technique.

Table tennis to be offered in intramural

Intramural sports for the summer quarter begin this week for any students interested in participating, according to Larry Gay of the men's athletic department.

Students interested in joining a volleyball, basketball or softball team should do so at the Intramural Office in the Men's Gymnasium, Gay said.

Co-educational volleyball is slated for Tuesday and Thursday nights in the Men's Gym from 7 to 9 p.m. Basketball games will be held in the gym on Monday and Wednesday nights at 7 and 9 p.m. Softball will take place on the athletic field next to the Men's Gym on weekdays at 4 p.m.

In August all-comers meets in track, swimming, golf, badminton and table tennis are scheduled.

The Men's Gym will be open for general use on Sundays from 1 to 5 p.m. throughout the summer. The weight room in the gym will be available during July, Monday nights from 1 to 8 p.m.
