SAC to discuss budget mistake

The Student Affairs Council meeting will hold a brief, "constructive" discussion on how to accommodate the cuts in contingency funds. The main goal is to focus on the administration of the programs and their budgetary constraints.

The only business item for the meeting will be consideration for approval of appointments made by the ASI officers. Hurtado and ASI President Roy Oersten will ask the council to adhere to their budgets because they haven't been followed for a long time.

Views differ on marijuana legislation

Political hopefuls respond to pot proposals

According to a new release from the National Organization for the Reform of Marijuana (NORML), the issue of decriminalizing marijuana is one of the most pressing concerns for statewide offices in California.

In a survey recently completed by NORML, both Republican and Democratic candidates for Governor, Lieutenant Governor, Attorney General, and U.S. Senate, it was found that attitudes concerning the issue of marijuana varied widely among the candidates.

Democrats are more likely to support legislation to implement the recommendations of the National Commission of Marijuana and Drug Abuse, while Republicans are more likely to maintain the status quo.

The law enforcement agencies in the Losaltos area will provide the window stickers. They will also lend engraving tools which will each on almost any material.
Christian considers editorial in bad taste

This is in response to your editorial of the Sept. 30 New
fest Prayer Breakfast: Kennedy a la
Prayer.
As a Christian for three years and having come to cherish the gift of prayer, I found your editorial in very poor taste. Surely your editorial writers can find other issues to vent their criticism of President Kennedy, which I am sure is well founded at times. Prayer is a very serious and important means of coming close to God so that He can meet our needs and we can establish a living, growing relationship with Him. I can only pray that the Presidential Prayer Breakfast is a sincere attempt to do these things. Why don't you wait for the results before condemning it? Don't take my word for it. Ask Jesus Christ into your life and I promise that your prayers won't go unanswered. "And all things, whatsoever ye shall ask in prayer, believing, ye shall receive." (Mat. 21:22) It may be late, but now is the time for this university to look to God for answers instead of the ununderstanding of man. Bob Colegrove

Inflation takes bite out of Joe Taxpayer

In 1964 Joe went to work for wages of $10,000 a year. That year his income tax was $1,300. His Social Security tax was $74. His take-home pay was $8,626. His income tax and Social Security tax were 17.4 percent of his gross earnings.

Now, 10 years later, with a long string of cost-of-living pay increases added to his paycheck, Joe earns $91,400 a year. That is more than the $8,626 he took home 10 years ago. Joe no longer takes home 17.4 percent of his gross earnings.

His take-home will be $12,756. His taxes will take 17.9 percent of his gross earnings.

The $11,710 Joe will take home in 1974 really is worth $852 less than the $8,626 he took home 10 years ago. So a rise from Joe is in 8.5 years if inflation keeps rising at the last 10 percent rate, Joe will need to earn $13,000 a year to keep pace.

And his take-home pay of $87,500 will really be worth only $98,626 of today's dollars.

Joe is a 30-year-old man. In 10 years his take-home pay will decrease by the 10 percent rate, Joe will need to earn $17,900 a year to keep pace.

On grid cheers is a bottle

by PETE KING

Vomit creates a funny sensation when it runs down the back of your shirt, broken bones hurt, especially when it's your arm. And slow sickly beer breath in someone's face and he'll probably not follow you anywhere.

According to Herb Hails in a letter to the Massag Daily editor, all these annoyances could be found at the Fresno State football game. All could be attributed to alcohol, Hails said.

"You mean all that obscenity shown at football contests is not proof? And all this time I thought it were the cheerleaders who got the face to get it up.

Nope, even back in the time when pom-poms were made from buffalo skins, football fane were passing the flask.

But if you do start to hear your Baccardi rumble or your Vodka go down the back of your neck. Or you discover that your friends are spending the rest of the day on the phone in your dorm room talking about it, then you can start now and earn existences compliments for your alcohol abuse.

We used to write letters to the editor, but in retrospect, perhaps we were acting as partisans. Pauline, Thursday 1/5 Box 166 E/O.

It has been found that in states where alcohol is strictly controlled, Drug use is not that great and beauty. As we run past 30 lukewarmers of our own, we remember our fighting men who were left to fight our wars, and we wonder why.

In our world, personally, we are not that far removed from the times of 1963. Our heroes are not those with the good looks and the beautiful minds, but those who are of great concern for the tape. In those days, those of us who were trying to make a living were in the middle of the war.

We would like to convey to you the importance of these men and women, and we would like to tell you about the right to their own opinions, and not be bothered by their presence.

In those days, our idols were those who were fighting for our country, and we were not concerned with the rights of others.

But if you do start to hear your Baccardi rumble or your Vodka, just a little, about the Arrow and the forces all spectators to strip down to the loincloth. This would make it impossible to sneak booze into the game. It would also add to our lives and make the half-time show obsolete, no doubt.

And all this time I thought it were the cheerleaders who got the face to get it up....
