Wounded Knee participant begins convocation series

Dennis Banks, the co-founder and executive director of the American Indian Movement (AIM), will speak tonight, Nov. 18, in Chumash Auditorium.

Banks, Russell Means and other leaders of the Indian movement occupied Wounded Knee, South Dakota, last year, and held a sit in protest that a force of federal officers for 71 days.

Banks and Means held their first speech at the 1973-74 University Convocation series, and his 7 p.m. presentation is open to the public free of charge. Banks will be sponsored by Cal-Poly and the campus American Indian Student Organization.

The Wounded Knee occupiers were charged with ten felony violations including conspiracy, assaulting federal officers and theft. The charges were dismissed by federal Judge Fred J. Nichols when one of the jurors became ill and the Department of Justice attorneys refused to let the remaining 11 jurors decide the case.

Banks announced his resignation as executive director of AIM during a June speech, but now he is expressing the Indian Movement asked him to take it back.

Banks was born on the Leech Lake Indian Reservation in Minnesota, and formed AIM while serving a prison sentence more than ten years ago.

‘Looking Glass’: new children’s magazine

The theme of the contest, ‘Looking Glass,” is being conceived at Cal Poly.

The amazing computer is being introduced into every facet of our lives and continues to amaze us with its entry into the world of art.

An exhibition of computer- assisted art, sponsored by the Computer Science and Statistics Dept., is on display at three campus locations: El Corral Rock Store Mini Art Gallery, Thursday through Friday, Nov. 10; the library and Recreation Center denim Tuesday through Friday, Nov. 12.

The computer projects were produced by students at California State University, Chico. They are a class in computer art, under the direction of Professor Herbert Mandel, a computer artist.

Several computer art projects are included in the exhibit at Cal Poly.

All cash prizes will be matched by Warner Bros., with equal grants to the winners’ school.

Winners to get cash in photo competition

Cash prizes will be awarded in a student photography contest sponsored by Warner Bros. and Bell. Entries must be made in conjunction with Peterson’s Photographic Magazine.

Peterson’s is exhibiting its wide variety of winning pictures will be published in upcoming issues.

Full-time graduate and undergraduate students are eligible to enter, but they are to submit no more than two prints, unless multiples are required to obtain an alarming rate.

The theme is based on the concept of “Prisoners,” is the concept of “Prisoners,” is the case of a Colorado college teacher who was fired in a situation that is becoming more commonplace in schools and colleges across the nation—declining enrollment.

The teacher, Lyle V. Bremna, has gone to federal court to challenge the school’s decision on who gets reduced.

Bremna, with the support of the National Education Association and the school’s Education Association, is seeking reinstatement to the Colorado State College as a full-time teacher.

The NEA said the case is of special interest because thousands of teachers in the nation are in schools and colleges where enrollments are dropping and where boards are complaining of financial difficulties.

Elementary school enrollments have been decreasing for about four years. A study by the Carnegie Commission of Higher Education stated that in 1973 there has been a 15 percent drop in the fourth and fifth grade enrollments.

Although national enrollment in high schools is not expected to begin the downturn until Fall 1981, the state of growth has slowed appreciably and many institutions already are experiencing declines. Public higher education enrollment, which rose a whopping 8 percent from 1968 to 1973, was projected to increase less than seven percent more by 1980.

Despite these facts, Cal Poly’s enrollment is on the upswing. The only other university in California increasing in size is University of California at San Diego.

Cal Poly’s enrollment has increased this quarter alone by 4,489 new students and transfer students. Bremna felt there are several reasons for Cal Poly’s increase.

“Cal Poly has a remarkable reputation in architecture, engineering and agriculture. We have a reputation for producing students with a well-rounded education. Cal Poly does not stress one subject,” he said. “We concentrate on career-oriented fields. Also it is one of the most beautiful campuses in California.”

The presente enrollment at Cal Poly is 13,888 with a projected increase in Fall of 1,814 students by the fall of 1980. The present time however, Poly is not equipped to handle this many students.

“The campus is behind in its facilities as far as classroom space and offices for all the teachers,” said Bremna. In order to accommodate the need for space, the Science North building will be added onto, to extend near the street, and the Engineering South building will be constructed and a new faculty office building will be built between the Nash and Henze Economics buildings.

Tenaya Hall will be used as a student rest room hall again next year in keeping with the teachers without off set. A majority of professors are used for offices for these staff members.

Kevan Frucht, student assistant, said, “No one has been fired for lack of money. The only reason an instructor would be relieved would be because of inadequacy.”

Computer art is exhibited at Cal Poly

A new literary magazine is being conceived at Cal Poly.

The magazine is Looking Glass and will contain reading material for children ages nine through twelve.

According to editor Ann Martin, the magazine is the brainchild of Ms. Elizabeth Anderson, English Instructor.

Ms. Frucht said, “A group of English majors got together with Ms. Anderson to start the magazine because we feel there is a need for a good children’s magazine for the nine to twelve age group.”

Planes are to distribute the magazine through the San Luis Obispo school system as well as an campus. According to the editor, there will be no charge for the magazine, which is being funded through the English Department.

According to Ms. Frucht, the magazine staff is also working on distribution through the school’s and junior high school age children.

This magazine includes the author’s name, phone number and address and should be submitted with a self-addressed, stamped envelope for further information. Ms. Frucht at 805-554-1064 or I. Haiton at 562-7644.

Volunteers for rec youth program

The Youth Enrichment and Recreation program, part of the Student Community Services, needs volunteers.

The program provides recreational projects for elementary and high school age children. Some of these projects include “Little 500” mini bike race, a well-organized, swimming and track races.

Anyone interested in working with children should contact Karen at U.M. 817 on Mondays from 9 a.m. to 1 p.m. and Tuesdays and Thursdays from 11 a.m. until noon. Karen can also be reached by calling the Student Community Services at 562-764-1004.
Campus Security has 'no comment' to theft

Editor
Nov. 10, from approximately 9:00 p.m. to 10 p.m., I witnessed the attempted towing of an illegally parked vehicle in the Architecture Patio area. The vehicle was lovingly rescued by its owner at the last possible moment. The towing of an illegally parked vehicle does not bother me. What does bother me is the fact that it took 3 Cal Poly Security Police cars, along with their operators, to perform this seemingly simple task of writing one ticket and supervising the tow truck operator—if that is, in fact, what they were doing. In addition to the obvious waste of manpower, the thing that really upset me is the fact that both of the police vehicles were completely blocked off from the only accessible road into the area.

If by some chance, there was a situation of higher priority on the campus and what isn't higher priority than writing a parking ticket and possibly filling out some forms—these two vehicles would have been in a very bad position to respond.

Were there more than 3 patrols available that night? A check with Campus Security turned up a "No Comment." Several nights ago several individuals in the Architecture lab were "ripped off" to the tune of approximately $600 worth of drafting equipment. I wonder whose car was being towed that night? Paul C. Woltse

Free enterprise issue at stake

Letter

The public hearing of the San Luis Obispo City Council dealt with the issue to amend the zoning ordinance which prohibits non-residents dining in a residential zone. In past Mustang Daily issues, the story has appeared that the need for the ordinance was because of the traffic and parking problem. At the meeting, a representative from the local restaurants announced the concern of competition. Well, whatever happened to "Free Enterprise?"

Letters

After the discussion period was over, only the fifth condition remained to be in question. In Mustang Daily Wednesday, Nov. 4, the article titled "Student Meals Off Campus Still Possible," stated the fifth condition to read, "Offering the service only to those groups who have a true need for such a service." The wording on the Council Agenda, Item 4 of Sept. 16, 1984, is a bit strange. It states, "Groups must be a non-profit corporation in the social or poverty areas.

Unless I misread this it is clearly discriminating against the majority of students who wish to purchase tickets. I ask, "how does a college student prove to be a non-profit corporation?"

In closing, I remind those students wishing to eat at Bimmer Glen or Tropicana, the final hearing will be Nov. 18, at 7 p.m., in the Council Chambers, at the corner of Palm and Done. Joe Madison

News briefs

Holography as a means of measuring deviations in engineering problems will be the topic of a discussion at the meeting of the Cal Poly chapter of the American Society of Mechanical Engineers on Tuesday, Nov. 18. (continued on page 3)

Powderpuff grid bowl in Mustang Stadium Tuesday

The 10th annual Mustang Powderpuff Football Bowl will take place at Cal Poly State on Tuesday, Nov. 10.

The powderpuff football game, sponsored by the Women's Recreation Association, will be held at 7 p.m. in Mustang Stadium.

General admission tickets are $1, and children under 11 years of age will be admitted free. They will be sold at the ticket office in the University Union, and will also be available at the Mustang ticket office during the game.

Eighty singers from the Cal Poly University Singers and other singing groups throughout the county have begun rehearsals for the presentation.

7:30 p.m. in Rm. 315 of Science North.

There will be a club meeting of the American Society of Certified Engineering Technicians Tuesday at 4 p.m.

Handal's "Maoziah" will be performed for the 7th consecutive year on Dec. 8 at 7:30 p.m. at the First Baptist Church on Johnson Ave. in San Luis Obispo.

Eighty singers from the Cal Poly University Singers and singing groups throughout the county have begun rehearsals for the presentation.

A couple of weeks ago, California voters elected a new governor — Democrat Jerry Brown. In the euphoria that followed his victory, two per cent margins of victory, Mustang Daily obtained an exclusive interview with the new governor. The following is a part of that interview:

"Well Jerry, you've been elected as governor of the largest state in the Union. What part do you think your father's name played in the final election outcome?"

"It's hard to say, Skip. Being an affluent white has its good points and when your father is a former governor of the state, it's kind of hard to lose."

"But let me say this, Brown is one of the most common names around and I really think the voters thought they were voting for you because of your name.

Despite six fumbles

Idaho nips Poly

By FRED YULIN

POCATTEL0, IDA- The door opened six times Saturday night for the Mustangs and on each occasion the Poly 11 refused to enter. The result was a 12-7 victory for Idaho State University.

The Bengals from ISU stumbled into Bengal Stadium on a recovery of their own fumble. With 39 seconds left in the first half, tailback Gary Davis ran the ball into Bengal endzone—only to fumble. Fortunately for coach Joe Harper’s crew, end Dana Nafziger was there to recover the ball and score Poly’s only touchdown of the game. John Leane was successful on the point after, but that marked the end of the Mustangs’ scoring.

Late in the fourth quarter, with the Bengals holding on to a slim 12-7 lead, it did appear the Mustangs were in the clear. However, ISU quarterback Pat Sartorl was successful on the point after, but that marked the end of the Mustangs’ scoring.
