Conversing would be difficult for some people if they sat on their hands, but for others, gesture is their sole means of communication.

W.H.A.T., We Have Auditory Troubles, is an organization whose purpose is to teach the youthful and elderly, partially or completely deaf, how to speak with their hands.

The bi-monthly class is instructed by Dorothy Miller, who herself has a partial hearing loss. The coordinator of the program is Ray Hansen, a Cal Poly graduate, who is hard of hearing.

The referendum cometh: the state taketh away.

Students beware. Next quarter you will be asked to participate in an election that will mean everything and nothing in terms of financing ASI activities in the future.

In the third week of February, Poly (and almost every other university in the system) must hold a referendum “for the purpose of advising the trustees as to the level of the student body association fee.”

The referendum is in compliance with AB 3116—which will go into effect in January and provide for state financing (part or full) of “instructionally related activities.”

That's what the Student Cycle Performance Center

Sawtell lost 2-1 (score is determined in expository speaking. Carl Sawtell reached the Junior combination of Rodney Reynolds and competition in Chicago Nov. 13. Two soil science students have won a finalist plaque. The Cal Poly debate team took part in two events on the weekends of Nov. 9, 10, 16 and 17.

Turkey dinner for those who stay

Students who won't be going home for Thanksgiving can get Thanksgiving dinner at Grange Hall on Broad Street, Nov. 27.

The Cal Poly debate team won second place in two events at the Pacific Coast Invitational Debate tournament said speech squad advisor Jim Conroy.

Students should be told their student fees will be continued at its current level of $20? When you see that question you're probably going to ask yourself a question, "Would it be lowered or raised if I voted 'no' on the referendum question?"

Well, just about the same time you eyes will catch something that will appear to be some of the best news of the year: another question asking you how much you want your fee reduced—if you voted 'no' on the above question.

At first, the selection might look tempting. You'll have a choice of voting to have your fee reduced anywhere from 10 to 50 per cent.

Sounds good, right? Wrong. Under AB 3116, Poly is guaranteed a base allotment of $25,000 plus at least two-thirds of $153,720. Now a second, you're probably screaming to yourself, that's only another reason why we should reduce our fees.

But that's not the case. Let's say we voted overwhelmingly to reduce our fees by 50 per cent.

Let's also suppose either the Legislature or Governor Brown decides to cut the $2.6 million from the budget (that's the total amount supported to the 19 campuses of the California State University and College System).

That would leave Poly with absolutely no state funds AND half of the regular amount of student fees. If that were to happen, there is an excellent chance student government and student activities will come to a screeching halt.

That is only half of it. As quoted above, the referendum is only "advisory." This means University President Robert E. Kennedy has the option of either recommending to the trustees a specific reduction (reflecting student opinion) or recommending a proposal that may be accepted or rejected by the trustees.

The total amount of student backgrounds and interests and, according to this information, what programs students are matched to their tutors.

The tutors also consult with the student to work out the material covered in class and at tutoring sessions. Tutoring is conducted at the students school.

There are about 40 to 50 Cal Poly undergraduates in the program. Chida encourages anyone wanting to help the kids of our community to drop by the Activities Planning Center, U.U. 217, for the details.

Dear Students:

We at Poly see you as a partner in Poly's decision-making process in student services.

You are invited to participate in an advisory referendum which will be held on campus on November 19.

The referendum is for the purpose of advising the trustees as to the level of the student body association fee.

We believe that this referendum is an opportunity for you to have a meaningful impact on the way student services are delivered at Poly.

We would like to hear from you about your opinions and ideas on how the student body association fee should be used.

Please take the time to attend the referendum meeting and to vote. Your participation is important.

Thank you for your consideration.

Sincerely,

Student Services

Chico State University
Plant champs grow seedlings

Okay, line them up. There, nice and straight," instructed Dr. Pendae, biology instructor.

"And now for the judging. This one looks good. Oh, too bad, this one looks a little anemic. There was a lot of love involved here. A beautiful plant," commented Dr. Babos of the biology department as he carefully inspected the entries.

Poly Royal Queen Contest. Not quite.

Student-grown plants being judged to name the Champion Plant Biologist for Fall '74. Students in Dr. Pendae's Biology 109 class began growing plants at the beginning of the quarter and nurtured them until the contest on Nov. 11. Champion Plant Biologist was Alida Bergseld, a senior science major.

How did she win? Ms. Bergseld said, "I gave my plant lots of sun and tender loving care. The plants we had to grow from seeds were the hardest. I really enjoyed it."

Gardens project

The Community Gardens project meets tonight at 7 p.m. in Chumash Auditorium, Room 317. This meeting is open to anyone interested in helping the group.

Projects meetings tonight develop a volunteer program for community-run gardens. All types of volunteers are needed to help expand this program. Further information contact Don Beatty, Room 317 in the University Union or phone 464-9769.

Cuesta displays Indian baskets

Two basketry exhibits are being sponsored by Cuesta College. Native American weaving is on display now at the Hollister Adobe Museum, and the Off Limits Gallery will exhibit the forms, art and function of basketry beginning Nov. 11.

The present exhibit is taken from the Fred Harvey Fine Arts Collection and the Heard Museum of Phoenix, Arizona. The exhibits are on display now at the Western Association of Art Museums, which will show 100 baskets and 90 photo panels revealing the basketry expertise of the Western American Indian.

Student volunteers are hard at work in the community gardens. More volunteers are needed for the project.

New reflector requirements for bicycles

Bicycle reflector requirements will be upgraded by a new law which takes effect Jan. 1, 1979, according to Captain Ernest Triple, Commander of the California Highway Patrol's San Luis Obispo Area.

After Jan. 1, any bicycle ridden on the street must be equipped at all times with: a white reflector on the front, a red or yellow reflector on each side, forward of the center of the bicycle; a white or red reflector on each side to the rear of the center and a red reflector to the rear. If the bicycle is ridden at night, it must also be equipped with a white light on the front, visible for 300 feet.

The side reflectors may be omitted if the bicycle is equipped with reflectorized turn signals and brakes. The law also specifies that reflectorized turn signals or 90 reflectorized turn signals must be visible from 300 feet, and must be of a type approved by the Highway Patrol.

It was a bull market for Cal Poly football

Mustangs top Hayward with 42-10 victory

by PETE KING

For the Mustangs it was a bull market. For Cal State Hayward it just had to be a bear.

It seemed that everything went right for Cal Poly in the game on Saturday night. The Mustangs had a firm monopoly on breaks in the game and reaped a 43-point profit from the countess opportunities.

Hayward, however, closed out the night with only 10 points.

"We were fortunate," Coach Joe Harper said. "Things just didn't go right for us. It seems it is better to be fortunate than good."

With the 40-10 win, Cal Poly's stock has soared. Not only are its bench warmers a chance to gain more gametime, it was a chance to go.

With the 49-10 win, Cal Poly's Mustang record is now 4-5-1 with one more game to go.
