Editor:
The letter concerns the debate regarding political endorsements. For starters, it burns me up that the members of SAC (Social Acceptance Club) could rule, especially by soiedade a vote, to prohibit freedom of the press in our school paper. They must all have their heads up their asses.

Why can't America, and that includes Cal Poly, still be a place where anyone can say or print anything they want, short of inciting violence, no matter who they are or what they believe? More than anything, this shows SAC for what it must be—a force that threatens freedom of speech.

Farmworker

Editor:
Many students at Cal Poly are unaware of the human tragedy behind the fruits and vegetables on their tables—the average farmworker only lives to be 49 years old (the average American lives to be 70).

In the United States, about 70,000 farmworkers suffer from acute poisoning each year from pesticides that are often not protected from the spraying of the fields while they're working. In more than 96 percent of the migrant dwellings there are no toilets or showers. In 90 percent there aren't even any sinks. The farmworkers only make up 7 percent of the nation's work force, but they suffer 22 percent of America's job fatalities. These people are living in a nightmare incomprehensible to many of us.

Cesar Chavez, President of the United Farm Workers of America, asks us if it is too much to ask that the people who feed America be given the same protection enjoyed by other workers. And they continue to organize non-violently, despite the fact that they have been condemned and ridiculed, jeered at, beaten, poisoned, and murdered.

I believe the least any person can do to help the UFW is to: support their boycott of non-UFW lettuce and grapes—the only non-violent way they have to change the conditions in which they live. An assembly of UFW supporters will be peacefully demonstrating on Thursday at 11:00 a.m. in the UU when Pit-simon's of the Teamsters will be speaking in Chumash Auditorium.

It is important for people to support the non-violent movement of today, to show that such methods can succeed—to hope that violence isn't always necessary.

VOTE YES ON AB 3116

3116 is HERE

3116 is a state mandated election. It gives you the student a chance to voice your opinion on a matter which directly affects you—the ABI fee. The Associated Students, Inc. urges you to vote on this vital issue.

Possible results of the referendum:

If the fee is maintained at the present rate of 820 per academic year:

1) All programs can be broadened and expanded.
2) Instructionally related programs can receive funding from both AB11 and ABI to complete their funding.
3) Nothing will happen to the state 3116 money during the first year.

If the fee is reduced:

1) ABI programs will continue to operate at low, sub-quality level.
2) I.R. programs will be underfunded without support from ABI.
3) May be totally wiped out if the 3116 money is not renewed.
4) No new programs can be initiated.
5) ABI reserves will not be adequately established.

To insure a broad and expanded future in services and activities that are vitally needed at Cal Poly.

Bicentennial classes given

The "Spirit of '76" will invade the School of Communicative Arts and Humanities at Cal Poly during the Spring Quarter in the form of three courses that are being given to commemorate the Bicentennial of the American Revolution. Revolutionary Projects, a two unit class which will meet on Fridays at 9 a.m., is an interdisciplinary course which will permit students of all majors to participate in individual or group projects which will explore the continuing meaning of the American Revolution. Revolutionary Projects for the course might include radio and T.V. scripts, slide shows, cartoons, designing and printing posters, editorial and feature articles, poetry, short stories, producing exhibits, and conducting local history research. Students will be encouraged to propose projects of their own choice.

The class will be taught by Dr. Martin Luchel.

The Revolutionary Experience is a three unit class which will meet Tuesdays from 7 to 10 p.m. in this class three historians, Drs. Barton Olsen, Daniel Krieger and James Martin, will compare and contrast the American, French, and English revolutions. Revolutionary America is a three unit class which will meet Mondays and Wednesdays from 8:30 to 11:30 a.m. The course will investigate the dynamics of the American Revolution and its continuing meaning. There will be a different lecturer for each class meeting.
The IEEE finally approached James Landrath, the Director of student affairs, and asked him if they could use the warehouse space in the maintenance yard or possibly Hillcrest house.

The IEEE had asked "How do I know that CBS is a reputable organization?"

When the IEEE called Pacific Stereo again, continued Osborne, they heard that Vert had called and said that the Kluge wasn’t going to be held in their building.

Staring at the contract on his desk, Vert said that they have called Pacific Stereo only once since I last discussed the possibility of the contract with them Oct. 11, 1974, and it wasn’t in discussion the Kluge sale.
