Looking Back
Poly Royal, 1976
About This Issue

Simply, there aren't that many story ideas dealing with looking ahead 200 years...to what? And those that we could drum up were too bleak to be acceptable in the happy atmosphere of academic orgy created by this annual hoopla. So we set off to the beat of our different drummer, so to speak, and came up with what we hope will be a precedent setting Poly Royal issue.

Instead of pages on pages of features about Poly Canyon and the history of the Poly P, we decided to take a task as filling a bit of the gap left with the demise of a Cal Poly yearbook, El Rodeo, about one decade ago.

Included in this issue is a condensed version of what has happened since the last time you were here which, if you are in the majority, was last Poly Royal. And that's a lot. Construction bulldozers have left very few stones unturned around here. Buildings—and men—have fallen. And new ones—both building and budding young educators—have arisen. Issues that were important to students for various reasons—the Fred Smith and the Gay Student Union, for just two examples—have been decided on for better or worse.

Great people have visited the campus and shared a touch of the knowledge, insight, skill or whatever that makes them great: Tom Hayden, Dale Breenbaugh, Max Lerner, Christine Jorgensen, Stephen Buhl, Alphonso Bell and Alvin Jacobsen (Alvin who? The Rabbi who wants to be President, that's who).

Suffice it to say, a lot has happened since you've been gone and we hope this issue can answer some of the questions you must be asking. (No, Cal Poly hasn't entered into the trailer park business.)

Finally, looking ahead a bit, we hope next year's Mustang Daily Poly Royal crew will follow the format of this issue and fill you in on all the neat things bound to happen next year.

Some may accuse us of being obstinate after reading—we hope devouring—this special Poly Royal issue to The Mustang Daily. It soon will become obvious that we have taken a look backward rather than forward, as the Poly Royal theme dictates. But, please, let us explain.

"Looking ahead...Building On Our Heritage" may be one nifty theme indeed if your task is to sell teriyaki sticks of tend kids down an ice slide. For putting together an entire issue—and a quite large issue by usual 8-page standards—it just doesn't work.

As you make the move to college many things are going through your mind; one of the most important of which is somewhere to call home. That's where Stenner Glen comes in. We run Stenner Glen for you, the Cal Poly student. To us the people are important.

Stenner Glen offers you a well rounded home life. Start with facilities including a swimming pool, basketball/volleyball court, dry heat saunas, color T.V. lounges, community kitchen, study rooms, academic building, library, student-run coffee house and a craft center featuring photography, pottery, leather crafts, batik and much more.

We believe we have the best food service program available featuring 19 meals per week with 3 entrees at each meal and unlimited seconds. We have monthly special dinners and steak nights as well as mini-specials along the way to cut down the boredom of eating in a cafeteria day in and day out.

We have recreation programs that include, but are not limited to, ski trips, dances, picnics, guest lectures, dance classes, concert outings, parties, and backpacking trips.

The suite arrangement at Stenner Glen is designed to give you privacy while providing a well furnished living room for comfortable get-togethers. All accommodations are fully furnished, draped, carpeted and air-conditioned. All you have to bring is a pillow and a blanket. You can decorate the room to fit your taste—even move in a waterbed if you like.

Most importantly we have concerned management who think you are important and treat you as an adult. We run the residence hall for you and constantly solicit your inputs into the running of the hall. We have faith in the people who live here and they have faith in us.

Stenner Glen is the kind of place that will make you feel right at home.
Flo Kennedy, Max Lerner, Tom Hayden. Alphonso Bell. Was the 1975-76 school year just one of bicentennial blather and political pandering?

Obviously it was both an election and bicentennial year. Therefore the speakers who came to Cal Poly focused on these issues. Even so, there was much to be learned from hearing these people.

Flo Kennedy, founder of National Organisation for Women and leader in the movement to prevent discrimination, spoke in November on "The Problems of Oppression."

She told a full house the most effective way to change government was "through electoral politics."

"You don't have to have power," she continued, "but you do have to have commitment."

She charged the media with being a "con game."

"It is a government plot," she said, "to say to the media what can be printed and what can't."

She suggested that Barbara Walters and Walter Cronkite were paid hush money to suppress certain issues.

Certainly Tom Hayden, Democrat, U. S. Senate candidate from California and member of the Chicago Seven, was not hushed on any of the political issues when he spoke in January.

To a crowd of 1,000 he outlined his Economic Bill of Rights.

"We have to talk about new ways where workers and consumers have power," he said, "An Economic Bill of Rights."

The economic crunch is falling on those who thought they had it made. America's idols are turning out to have clay feet.

"People can not afford to get sick," Hayden said.

"They can't afford to send their children to college. Or, if they can, they are not sure they will get a job when they get out. They realize they can't afford to buy a house. And the food we are eating is not nutritious but the prices keep rising anyway."

In addition to outlining his Economic Bill of Rights, Hayden talked about the need for taxing multinational corporations and cutting back on military spending.

He said, "Any politician who is talking about cutting government spending and not cutting Pentagon spending is a hypocrite."

Alphonso Bell, Republican, also vying for the U. S. Senatorial seat from California, said in April that business is America's hope for economic recovery.

Bell denounced expansion of governmental services at the expense of personal freedoms.

"Little by little, step by step," he said, "Congress has changed the nation. We have an almost unbelievable array of services, but this has been done through the loss of personal freedom, freedom of choice, privacy and control over our lives."

Bell responded to Hayden's statement that cutting government spending and not cutting Pentagon spending is a hypocrisy.

"That statement is entirely wrong," he said. "We have to talk about the Soviet Union. From 10-15 per cent of their (sic) GNP is for defense. In the U.S. it's only 5 per cent."

He added, "The $10 billion we spend is only keeping us at equilibrium. We have to look at our bargaining power. We have to put our chips on the table."

In March another renowned speaker spoke on America's salvation. Social historian and syndicated columnist Max Lerner said that America's hope lay in its ability to be flexible.

In his speech "Is America a Dying Civilization, Where Do We Go From Here?"

Lerner said, "Looking over history, the civilizations that have been able to adapt, the ones that have changed, have been the ones that have continued.

Lerner said that he felt a sense of disillusionment was lacking in American lives. "We are a pleasure loving people," he said. "But we are not a happy society."

Lerner said he would recast all these insights about the nature of America into the key word -- "sense."

Lerner concluded, "Poverty is absurd in America. Inequality is absurd. Government is absurd." If Americans understood tragedy better, according to Lerner, they would quit turning to charismatic leaders and, instead, would turn to leaders who cared and were "tough-minded."

For SAC, the year began with the explosive ASI elections last spring. It took three elections that were filled with bitter charges of "Watergate tactic" on the tide of both Mike Hurtado and Bob Chappell before Hurtado earned the right to the title of ASI President by receiving a majority of the student votes.

In the race for ASI vice-president, overshadowed by the emotionalized campaign for president, Phil Bishop defeated Roland Hilla in the first runoff election.

Cathy Carlson, unchallenged for the position of ASI secretary, was elected to office in the first election. SAC had just begun their duties in the fall of ’79 when the Santa Maria Times reported that the citizenship of Hurtado was under investigation by the immigration service regarding birth records and naturalization. Hurtado said he was born in Mexico but that his mother is an American citizen. The Times reported that in 1979 Hurtado signed a voter registration which said he was born in California. Although authorities say the matter is still under investigation it was dropped by the wayside as a controversial topic and SAC moved on to business.

In October of 1979 SAC aborted the Housing and Rent Control Bill, which would have resulted in an investigation of the housing problems for San Luis Obispo.

The bill, if passed, would have also looked at the feasibility of putting a rent control referendum on the June 6th primary election ballot. Although SAC ChairmanPhil Bishop agreed with the fundamentals of the bill, he cited ASI bylaws and procedural provisions in SAC’s code in his argument. By mid-October SAC decided the issue of ASI president and vice-president by $73 a month. Hurtado and Bishop received $170 and $150 subsidy.

With the month of November came an endorsement by SAC on an enrollment ceiling limiting the number of full-time students to 18,800. Following this endorsement, it was a proposal that the University Board of Governors (UBO) limit the University Union fees to $20 to $85 by the 1979-80 school year. The UBO proposal provided for a gradual increase of an additional $9 in 1978, another increase of $8 in 1979 and in 1978 the final proposed increase of four dollars.

SAC rejected the two later increases and adopted only the part of the proposal increasing student union fees to $85 for this year.

Bruce Orr, SAC representative from the School of Business and Social Sciences, led several SAC members in charging that the UBO didn’t consult the students before proposing the increase.

The UBO responded saying that 10 students sit on the board and took an active part in the vote which passed the proposal.

Christmas must have left some of the SAC representatives somewhat wishing, because in January SAC got burnt, however in vain, on a campaign to buy Cuesta Park from the County for use by the ASI. The purchase was found to be more complicated than they had anticipated and the matter was dropped.

The realization that groups and organizations were using the student directory file to recruit membership, and other bothersome peddling, resulted in a resolution passed by SAC prohibiting illegal use of the directory. A sign was placed above the file notifying all personnel: "This card file shall not be used by any organization or individual for commercial, soliciting, or surveying activities. THE INTENT OF THE FILE IS FOR PRIVATE USE ONLY.

Last February SAC approved a letter of protest against the automatic arming of state campus security against a university proposal. Alas, the letter was not sent to Glenn Dumke who is the chancellor of the California State Universities and College Systems.

"Each campus should be able to decide how they want their security armed," Hurtado said.

Another item on SAC’s agenda of business for the month of February was the appropriation of funds for the hobby garage. SAC allocated $1,736 to pour a cement slab which would enable students to host their own car and work on them, and to pay someone to run the garage.

SAC also allocated $5,712.41 from the campus improvement fund to build a brick walkway and three new benches at the south-west corner of the math building.

Mr. James McGrath, an architecture head and service sociologist, proposed the project and provided the lab.

March was the month for discontentment among many of SAC’s student representatives. With comments such as "led up," "Too much time wasted during meetings," and "Frustated with the way SAC is being run," 10 representatives bowed out of their commitments.

With a faculty numbering 958 full and part-time instructors, Cal Poly experiences a normal turnover of positions annually from new additions to the faculty, to retirements and vacations.

Dr. Clyde P. Fisher, dean of the School of Science and Mathematics died October 25, 1975, after a heart attack on September 30. Fisher had been at Poly since 1947. He was succeeded temporarily by Dr. Charles Hanks, previously head of the Mathematics Department.

J. Condon Gibson, dean of the School of Agriculture and Natural Resources has announced his retirement at the end of the 1978 school year. Gibson has been at Poly since 1949.

In the past year, Poly has received new department heads in several departments.

Dr. David Adorno, a former dean at UCSC College in New York, took over duties as head of Business Administration in July 1975. The acting head, Mr. Winston McGregor, returned in full-time teaching.

L. Col. Robert McKee came to Poly from Germany, as head of the Military Science Department in August 1975. Former head Col. William C. Black retired from service.

Dr. Harry J. Busselen, Jr., took over in September as the head of the Home Economics Department. Busselen came to Poly from Wisconsin to replace acting head Mrs. Patricia Nunn.

John Healey, head of the Journalism Department since 1967, returned to full-time teaching, and was succeeded in September by Dr. Robert Hudson from East Lansing, Mich.

Dr. Robert E. Burton, a member of the faculty since 1968, took over as acting head of the History Department, in January 1978. Dr. Herman Vore, returned to full-time teaching.

James McGrath, head of the Department of Engineering Technology retired in January. He was at Poly since 1966. Frederick Bergfeldt is serving as interim department head until the position is filled next fall.

Dr. Richard E. Nelson, head of the Biological Sciences Department for the last five years, retired on a full-time teaching. A replacement has not yet been named.

Dr. Malcolm Wilson, a faculty member at Poly since 1968, was appointed associate dean of Graduate Studies.

William Pederson succeeded Dr. Robert McDonnell as head of the English Department.

Dr. Thomas Johnson, head of the Architecture and Insuritute in Architecture, was appointed head of the Art Department.

John D. Nicolaides was appointed head of the Automotive Engineering.

Harry L. Strauss, director of the university library, has announced he will retire this summer. He has been at Poly since 1955.

Track coach Dave Simmons left Poly in January after five years in the position. He became head track coach at Oregon State University. A new coach has not been appointed yet.

Track coach Dave Simmons left Poly in January after five years in the position. He became head track coach at Oregon State University. A new coach has not been appointed yet.
VISTA GRANDE RESTAURANT

Relaxed Fine Dining
Dinner Reservations Recommended
Open Friday, April 23 11 a.m. to 9 p.m., Saturday and Sunday, April 24 and 25 9 a.m. to 9 p.m.
Located on-campus near the Grand Avenue entrance and close to the residence halls.

Relax and let Cal Poly students serve you in this delightful restaurant with a breathtaking view of the city. Breakfasts, Luncheons and Dinners all prepared to perfection. Reasonable prices, grand view and outstanding food.

French Toast $8.96
...Coffee or Tea Included...

VISTA GRANDE CAFETERIA

Open Friday, April 23 for breakfast 7 a.m. to 8 a.m. and Lunch 11 a.m. to 1 p.m. The cafeteria dining room is located adjacent to Vista Grande Restaurant. Enjoy a selection of a la carte dishes attractively displayed for your choosing. Eat in a modern colorful dining area with soft music and a lovely view.

STUDENT DINING ROOMS

Open for breakfast 9:30 a.m. to 1 p.m. Lunch 11:30 to 1 p.m. and dinner 4:30 p.m. to 7 p.m. Located southwest of the El Corral Bookstore. Stop by and enjoy a complete meal served cafeteria style in the active atmosphere of campus life.

BURGER BAR

Open Friday, April 23 8 a.m. to 12 midnight and Saturday, April 24, 8 a.m. through 1 a.m. Sunday, April 25. Will reopen Sunday, 12 noon through 11 p.m. Located next to the recreation room on the first floor of the MphEe University Union Building. The Burger Bar offers a variety of hot and cold sandwiches, salads and desserts. For quick service and excellent food, build a burger and much, much more.

THE SNACK BAR

Open Friday and Saturday, April 23 and 24, 8 a.m. to 8 p.m. Located in the heart of campus across from the Physical Education Building. Your order sets into motion quick hands that prepare your meal within minutes. You will enjoy your food in the lively dining room where breakfast is served until 11 a.m. and lunch through 6 p.m. The widest variety of foods on campus.

ICE CREAM PARLOUR

Open Friday, April 23 8 a.m. to 10 p.m. and Saturday, April 24 8 a.m. to 4 p.m. Also located in the MphEe University Union Building across from the Burger Bar and recreation room. Come in, leave you troubles behind and travel back to the 'good old days' of the roaring 20's. Ice cream sundaes, malts, shakes and cones filled with famous Cal Poly ice cream - nostalgically delicious and different.

THE SANDWICH PLANT

Open Friday and Saturday, April 23 and 24 from 6 a.m. to 2 p.m. Located across from the northeast corner of the El Corral Bookstore. A truly unique food service experience. Select from a wide variety of hot and cold deli sandwiches, as well as salads and hearty stews as you dine in an outdoor atmosphere of trees and hanging plants.

yearly & quarterly MEAL PLANS

mean good regular meals and a good deal more!
From A Gorilla To A Surf Shop:
Business And Social Sciences

by SANDY NAS
Daily Staff Writer

Since 1975's Poly Royal, the School of Business and Social Sciences has been home base for some of the most unique and controversial people on campus. Like Scott Potter, GORILLA-AT-LARGE. For a fee the business major will climb into his gorilla suit and parade around promoting special events.

Or Rabbi Alvin Jacobson, a 1965 Poly business grad who is striving to become president of the United States in 1984. Before he is elected president though, Jacobson hopes to become governor of Pennsylvania in 1978. He finished second in Pennsylvania's Republican gubernatorial primary.

Jacobson's campaign promises include abolition of sales tax, automated sidewalks and no grades except for students wanting to be engineers or lawyers. He also believes any town over 50 years old should be torn down and rebuilt.

And Brad Smith. The former Cal Poly Sociology professor who obtained his doctorate and dismissal the same month.

Last June, after months of sparring with the administration, Smith was hired from his teaching position at Poly because he claimed the right to select his own textbooks and keep a lenient grading system. He surfaced again this year as a Teacher's Aid to first graders at Teach Elementary School in San Luis Obispo. He is working three hours a day for no pay.

Meanwhile he and his wife are living off food stamps and unemployment checks.

Carrol McKibbon, dean of the School of Business, spent his summer vacation pedaling his bicycle in the Great Bicycle Ride Across Iowa. About 4,000 people strung across 20 miles pedaled bicycles in the seven day trip. It was a 450 mile trek that threaded its way between the Missouri and Mississippi rivers.

According to McKibbon, his bike is a $90 special "weighting a ton."

Three courageous and enterprising business undergraduates invested $250 apiece in the formation of the Central Coast Surf Shop in San Luis Obispo. Jim Hall, Don Dunbar and Mike Chaney opened their shop on December 1, hoping to capitalize on the central coast surfing population. Thus far they have been breaking even.

There's the first full-service shop on the central coast catering specifically to the surfer.

The business department has also held educational and informational programs.

Brad Smith, the former Cal Poly Sociology teacher who received his doctorate and dismissal the same month, is now a non-paid Teacher's Aid to first graders at Teach Elementary School in San Luis Obispo.

Top businessmen from all over the country gathered for the two-day seminar. These businessmen spoke on subjects related to their actual occupations, gave recommendations to students on how to find jobs in business, and offered just a general overview of their work.

The Master of Business Administration (MBA) program at Poly is in its sixth year. Over 90 people have graduated from it and all have found well-paying jobs. The median salary of 1970-71 graduates is $17,000. 1973-74 grads have a starting median salary of $18,000. The program is geared towards non-business majors. It prepares them for a career in management and administration.

The School of Business and Social Sciences with participation of the Graduate School of Management at UCLA presented a seminar last May 9-10 at San Luis Bay Inn. Business persons from across California gathered to talk about the availability of oil and raw materials, managerial strategy, labor issues and the economic outlook for the next five years.

The business department's club, Society for Advancement of Management (S.A.M.) now has more members than any other S.A.M. chapter in the world, according to Allen Vincent, 1975 Gal Poly SAM Vice President. According to Vincent, S.A.M has 86 university chapters around the world. Poly's chapter has over 320 members, an increase of 125 since last year. S.A.M sponsored the tenth annual "Future Application of Business Fundamentals" seminar held here Feb. 26-27.

The Master of Business Administration (MBA) program at Poly is in its sixth year. Over 90 people have graduated from it and all have found well-paying jobs. The median salary of 1970-71 graduates is $17,000. 1973-74 grads have a starting median salary of $18,000. The program is geared towards non-business majors. CONGRATULATIONS ON POLY ROYAL

895 Monterey San Luis Obispo
Phone 543-8250
Whatever the allegation, the restaurant of this town presents a tantalizing tempting array of dining, entertainment and socializing atmosphere. Each has a little something of its own.

Some quick finger-walking through a few yellow Pages reveals an abundance of intriguing restaurant names. Chocolate Soup, The Cigar Factory, Tortilla Flats and many others. Even as the titles are nearly always indicative of the atmosphere, the true nature of any single restaurant cannot be fully experienced until one slips inside.

Carol Browning, co-proprietor of Chocolate Soup with her husband Bud, explained, "We serve very nutritional food, not junk food. All of our breads, desserts and so forth are homemade from scratch." The small, cafe-like restaurant nestled among large downtown buildings, operates with a buffet style. The customer chooses items while a waitress prepares and serves them on a glass plate. Trays are used to take the meal to a table.

"We really do serve chocolate soup," Browning affirms, "but I've found that most of our new specials like the streaming hot 'Broccoli Pocket' and the 'Gorilla Pocket,' the latter being made of peanut butter and banana in a doughy envelope." Both managers are former Cal Poly students. The parents built and painted nearly everything on the shop's outside and inside.

"We even silk-screened the 85 yards of seat covers ourselves," she said, beamng.

"We have a very friendly, homey, kitchen-like atmosphere around here," she said, wiping her hands on her apron. "Whoever comes to Chocolate Soup receives a piece of our personality."

Joe Silvaggio, manager of La Dolce Vita, "The Sweet Life," happily paused from muling with patrons to talk about his popular Italian restaurant.

"La Dolce Vita has a unique European atmosphere which is 'very charming and exciting, the restaurant's atmosphere is very charming and exciting," he said with pride.

Silvaggio held that his restaurant's cannelloni and homemade desserts are especially good while boasting of maintaining "the finest chocolate soups in the county." "We've been open just about a year," he explained. "But we've only had live entertainment occasionally. I hope to get something going shortly." (Look for live entertainment at La Dolce Vita during the week following Poly Royal.)

Rudi Binkele, proprietor of Sebastian's, claimed that "we're not only the cleanest restaurant in town, but we're the nicest people also." Rudi's entertainment schedule for the Poly Royal weekend is "Centennial and Elisa" as booked to perform at 9:30 p.m. on Friday and Saturday.

"We serve food every night until 12:30 a.m. Any person, no matter what age, can stay in the house until then," said Rudi, "but, of course, you can't drink if you're under 21."

Sebastian's, which has a sister restaurant in San Jose, serves a champagne brunch on Sundays from 9:30 a.m.

was the first such business in the world, having been con­structed in 1925. (Most, in this case, should not be confused with hotel, saloon, or other early boarding establishments.)

Most into live entertainment for the Poly Royal weekend will consist of 'Dev and the Twins,' who will perform the entire week from 9:30 p.m. until 2 a.m.

Geneviss pointed out that the restaurant's atmosphere is "very charming and extremely historical." Rudi Binkele, proprietor of 1865 Restaurant, feels his building's architecture con­

pictures the most enjoyable difference between it and other dining houses. "The building was four­

buildings, was very firm in stating that the restaurant was "the best steak in California."

"They're cooked over oak charcoal instead of gas. That gives the meat a completely different flavor," she said. The rustic old Spanish look of the building owes itself to the fact that the most
For those planning to enjoy Cal Poly's site of spring—Cal Poly Royale, one might notice a change. Since last year, this campus has grown with buildings being built and others being refurbished.

A new architecture building, not much more than a hole in the ground at this time last year, is on schedule for its projected fall quarter completion date. According to Douglas Gallinger, executive dean, the structure is already 60 percent complete. The building, at a cost of $4.5 million, will occupy a site on the northwest portion of the campus near the Dexter Library and the Business Administration and Education Building.

Included in the 78,000 square foot structure will be four lecture rooms; 20 faculty offices; two conference rooms; 18 lab rooms; a photography lab; storage rooms; and secretarial areas.

A $3.5 million Life Science building will hopefully begin construction in mid-June, Gerard said. Bids were received April 16, and Gerard is optimistic the building will be completed for fall quarter 1972. The same financing for this facility was passed by the California Senate and Assembly and approved by Gov. Brown last July.

Continuing 10 laboratories for biological sciences, three lecture classrooms and 41 faculty office spaces, with room for a department head and a school dean office, the new building, providing over 76,000 square feet, said Gerard. It will be located in the temporary science building on the northwest portion of the Cal Poly campus.

The building was recently named the Clyde P. Fisher Science Hall, after the late Dean of Science and Mathematics.

An on-campus project, completed last summer, provides an outdoor lighting system in the area of the men's gym. The project, used exclusively by students, includes meter-operated (card keys) lights for Intramurals courts and switch-operated timer lights for the basketball courts.

Indoor remodelling includes a $250,000 job on four rooms in the Being of the main science building.

Gerard said the four rooms—two history labs and two preparatory rooms—were converted into two chemistry labs and two new preparatory rooms. Construction to the tune of $800,000 has begun in Engineering West to build two labs, one structural and one soil.

Gerard said. Completion date will be "in about a year," he said.

Faculty members have done some moving about this year. Faculty offices were relocated in Chase Hall after its interior was refurbished and repainted. Other faculty moved from Tenaya Hall, now student housing, to trailers located on campus.

Cal Poly has gone green with a greenhouse. Ornamental Horticulture students constructed a 40 bins by 160 foot greenhouse, the largest ever built on campus, in October.

Construction included a new entrance road into the north end of campus from Highway 1. The road was completed over summer.

Proposed building in the near future includes a new football stadium. Unfortunately, that idea has hit upon some red tape with one reason being, as an administrator said, student capacity.

Gerard said the new building will not support the building of facilities concerned with athletics. "To build it, we'd have to do it with non-mass money," he said, explaining the total cost could be $10 to $12 million.

A student body fee would be one way to finance the stadium, said Gerard. said, but students would have to express some interest in it being built.

### Restaurants: Intrigue

became a cigar factory in 1897 and was transformed into an 1890's-style saloon. In 1902, the original restaurant was John Leaf, founder of theatrical comedy personality Allen Sues.

On Saturday and was transformed into an electronic games it located at cocktail lounge. A room with the nostalgic atmosphere of one's fingers, or perhaps, at the tip of one's tongue.

The Cigar Factory's five-year entertainment schedule for the Poly Royal weekend bonus a "fantastic" rock portion of the San Luis Obispo Jazz Festival. The group will perform Friday and Saturday from 6 p.m. until 1 a.m.

Also the restaurant is sporting a new menu. "One should have no difficulty finding a unique and memorable dining spot.

The Cigar Factory's five-year entertainment was to "be explained. "For what we do have is the 'Tortilla Flats Annual Tiki Tenion Spot.' The group will perform Friday and Saturday from 6 p.m. until 1 a.m.

McLachlan said an electronic ping pong tournament will begin soon.

The Changing Of The Guard

by CHERYL WINDREY
Daily Staff Writer

This was a year of change within the School of Communicative Arts and Humanities. Five of its nine department heads have recently assumed their positions.

Dr. Verlan H. Stahl, formerly the acting head, was appointed head of the Foreign Languages Department in May. A Cal Poly faculty member since 1956, Stahl was involved in planning that led to the establishment of the Foreign Languages Department in 1950. Stahl is a graduate of the University of the Pacific, Florida State University and the University of Madrid. Stahl will serve in that capacity through September while the search is being conducted for his successor.

Johnston is a noted sculptor with international recognition and has received two national fellowships for his work. A native of New Zealand, Johnston received his diplomas of teaching in that country in 1948. He received a visual arts certificate from London University for his work.

The founding act further marked the school's history. The purpose of the school is to furnish to young people of both sexes mental and manual training in the arts and sciences, including engineering, business methods, domestic economy, and other such branches as will fit the students for professional work.

Among his accomplishments, Stahl cites the editing of five books. Thomas V. Johnston went from architect to art where he accepted the position of head of the Art Department last September.

Dr. Verlan H. Stahl, formerly the acting head, was appointed head of the Foreign Languages Department in May, 1975. A Cal Poly faculty member since 1956, Stahl was involved in planning that led to the establishment of the Foreign Languages Department in 1950. Stahl is a graduate of the University of the Pacific, Florida State University and the University of Madrid. Stahl will serve in that capacity through September while the search is being conducted for his successor.

Hey Mom & Dad —

Did you know that your son or daughter could be sent to Cal Poly at a minimum of expense to you? Yes they can! With the purchase of a condominium unit you can have tax deductions for interest & depreciation, build equity instead of paying non-returning rents and then have capital gains upon resale of the unit.

95, 90, & 80 percent financing available

You're right on man, I've searched the streets from Piccadilly Square to SLO and never seen the like.
In mid-October of this year, Mustang Daily took a long look at University President Robert K. Kennedy. In a week-long series about the president and of those who surround him—both friend and foe—the Daily asked Kennedy what he knew about everything anybody ever wanted to know about Kennedy.

The legal part of the series was a copyrighted interview of the President by Mustang Daily co-editor Pete King. Following are excerpts from that interview.

This is the second portion of the interview between University President Robert Kennedy and Mustang Daily Co-editor Pete King which occurred on Oct. 14.

1973 Mustang Daily. All rights reserved.

What are the salary and extra benefits that go along with the job of being president of Cal Poly?

I do not have the final say in many instances. It is true that in the GNSS the final say will be that of the Academic General or a Court of Law. In the Real Smith situation, as I explained earlier, the issue went through complete personnel with the president merely consulting with the recommendation of the departmental faculty, department head, and dean not to reemploy Mr. Smith. Mr. Smith availed himself of the grievance machinery and the case then went to an outside hearing officer (an option chosen by Mr. Smith) and the hearing officer’s finding were then reviewed by a grievance committee of faculty members who had been selected by lot in accordance with university rules. The grievance committee made a recommendation, based on the hearing officer’s findings, which I carried out by not reemploying Mr. Smith. There would be no change in the decision not to reemploy him. In this instance, the Board of Trustees could have established rules for or against, but they took an action which put the decision into the hands of each president.

The Student Affairs Group is not advisory to me. It is the legislative body which governs the operation of all Associated Students, Inc. It derives its authority in the first place from the president of the university, who is delegated authority by the Board of Trustees to establish a student council and discipline.

Stenner Glen...
A Good Reason
To Leave Home

As you make the move to college many things are going through your mind; one of the most important of which is somewhere to call home. That's where Stenner Glen comes in.
Stenner Glen is a privately owned residence community that offers you, the Cal Poly student, an alternative to traditional residence halls. In addition, Stenner Glen's convenient location is close to shopping centers, other community facilities, and is only a short walk from campus.
Stenner Glen offers you a well rounded home life. Start with facilities like a swimming pool, dry heat sauna, color TV lounge, weight room, laundries and weekly housekeeping.
Stenner Glen provides private study rooms and guest lecturers, as well as, ski and beach trips, concerts, creative workshops, and poolside bar-b-ques.
The suite arrangement at Stenner Glen is designed to give you privacy while providing a well furnished living room for comfortable get-togethers. All accommodations are fully furnished, draped, carpeted and air-conditioned. All you have to bring is a pillow and a blanket. You can decorate the room to fit you taste - even move in a washer if you like.
A great convenience for you is the dining facilities which serves 19 meals a week with brunch on Saturdays and Sundays. There's a delicious variety of entrees, salads and desserts at each meal.
Stenner Glen is the kind of place that will make you feel right at home.

Another Bumper For Ag and Natural Resources

Another year of feeding, breeding and raising has taken place on the slopes of Cal Poly due to the endeavors of the School of Agriculture and Natural Resources.

Members of Cal Poly's Animal Science Department are constructing a beef cattle evaluation center to determine the genetic potential of bulls.

Animal Science Instructor Ken Scotio said the evaluation center will be important in three ways: "It will provide a service to the cattle industry, offer educational opportunities for students and will give Cal Poly valuable contact with the beef cattle industry."

Caislemen will be able to determine the potential of their young bulls and decide accordingly if the bulls would be an asset to their herd program. Students will be able to learn firsthand about genetic and feed efficiency differences of beef cattle by running feed tests on the cattle.

The beef cattle evaluation center, located on the north end of campus near the old Morro Bay exit to Highway 1, is expected to be completed this summer.

A burial took place this past summer in the School of Agriculture and Natural Resources.

Another Bumper For Ag and Natural Resources

GSU ProBidont Ron Pursley (Photo courtesy of T-T.)

GSU President Ron Pursley was voted president of the Cal Poly Gay Student Union.

Architects Expand Program Into New Building

In one of his most controversial decisions during his tenure as University President, Robert Kennedy last January approved the bylaws of the Gay Student Union. It had been an intense five-year struggle: Kennedy's time and again saying he opposed the group for legal, rather than moral, reasons.

It finally took an opinion from the state Attorney General in an investigation which the University had requested—no reverse Kennedy's stand against the proposed gay group. When the attorney general ruled in favor of the group—which had lost two legal battles with the university already—Kennedy said he was left with little recourse but to approve the group, allowing for its official university recognition as a Cal Poly organization.

"The legal opinion makes it quite clear," he said, "that as a result of recent changes made in the below subgroups to the Superior Court case in March, 1979, the Aggie Court in June, 1979, I no longer have any legally-sustainable basis for non-recognition."

The Beef cattle evaluation center, located on the north end of campus near the old Morro Bay exit to Highway 1, is expected to be completed this summer.

Concert Horn Of Plenty: Feast To Famine

by STEVE CHURM
Daily Associate Editor

After several years of famine, the Cal Poly concert drought appeared over this year.

The 1975-76 Associated Students Inc. Concert Committee under chairman Ken Gordon served the malnourished Poly concert goers what they wanted—a steady diet of gourmet rock and roll.

The main dishes—who were—Stephen Stills, Climax Blues Band, Tower of Power and Elvin Bishop—built up their repertoires of hits to near sell-out crowds in Chumash Auditorium and the Men's Gym.

Rumors of still more big-name bands, just a cord or two away from contract confirmation this spring, seemed to lay to rest the fear that this year's hit parade of stars at Cal Poly was not a one-time hit only.

That was until Montrose, an American rock band specializing in heavy electric sounds, rolled into Cal Poly for a March show.

The smooth running concert machinery—that under Gordon's dictatorial hand had pulled off five near-perfect shows—suddenly broke down under the strain of Montrose's high powered music.

Charges following the concert of mismanagement by Gordon, uncontrolled drinking and smoking inside the gym and alleged damage totalling $1,100 committed by under-age concert goers brought the concert momentum to a screeching halt.

Shell-shocked by the Montrose debacle, the administration withdrew the committee's advisor rendering it indefinitely inactive.

Although an ASI Ad-Hoc concert committee recently pulled off a "must" Loggins and Messina concert minus the problems that plagued the Montrose concert, the future of concerts remains in limbo.

At present a committee is working to revamp the present structure of the concert committee.

Key structural changes will focus on the role of the concert chairman in booking and coordinating concerts and the overall representation on the committee. The latter is being done so that a greater variety of concerts are scheduled at Cal Poly—a major complaint of this year's concert goers.

But until these changes are adopted, Poly concert goers will have to pile into their cars and drive either north or south to get their fill of rock and roll.

Nuclear Forum

For residents of the Central Coast, there’s at least one subject that everybody has an opinion on thanks to Diablo Canyon—nuclear power.

Some think nuclear energy will be the answer to this country’s fuel crisis. Others believe more nuclear power would open up a Pandora’s box of problems.

In mid-October, county residents were able to hear opinions from both sides when a Nuclear Forum (sponsored by a majority of the country’s physicians) was held on the 17th and 18th of that month.

Speaking before one of the largest audiences ever to pack the Men’s Gym, nuclear giants Dr. John Gofman and Edward Teller opened the forum on October 17.

Gofman attacked nuclear power while Teller voiced the positive points of the controversial subject.

Teller said to pass the Nuclear Safeguards Initiative in June would be to smuggle nuclear power in the state. Gofman countered with the belief that nuclear energy is being pushed too fast by the government and citizens need a period to reevaluate the energy question and develop stringent safety rules.

On the following day, leaders in the nuclear energy field discussed the delicate issues of waste disposal, energy alternatives, security aspects and economic considerations.

On the topic of safety aspects, Dr. L. Douglas DeNike and Dr. Lawrence Grossman squared off and matched facts and figures.

DeNike, an opponent, said there was too much of a possibility of human error in nuclear plants and cited the $50 million fine at the Brown’s Ferry Nuclear facilities as an example.

Grossman, like Teller, said it would be foolish to place a value on nuclear power and added the only way of insuring total safety with nuclear power was to abandon it—which he thought was a ridiculous proposition.

Participants in October’s Nuclear Forum included Dr. John Gofman (right), Lawrence Grossman, L. Douglas DeNike and moderator Art Sidenbaum from the Los Angeles Times.

Wrestlers Take Sixth
In Division I Finals

by BETTIE LOVELAND
Daily Staff Writer

The Mustang wrestling team had one of its best seasons ever in 1975-76, finishing the regular season with a 14-2-2 dual meet record. The team's only losses were to second and third place NCAA champions Iowa State and Oklahoma State.

Mustang coach Vaughn Hitchcock also extended his undefeated streak against California schools to 159-0-4 during the season.

The wrestlers were transferred to NCAA Division I for the first time in the 1975 season, and is only the Cal Poly team to be in this division.

The Mustangs showed their strength in pre-season tournaments, dumping powerful Arizona State, 101-79, at the Western Tournament in December.

Six Cal Poly teams took first place at the tournament: heavyweight Ben Williams in the 194-pound division; seconder Ron McKies, 142; senior Dennis Bardy, 156; senior Sydbell Thompson, 177; junior Chris Araya, 190; and junior Charles Harmon in the heavyweight division.

In one of the toughest pre-season tournaments in Arizona, Cal Poly captured second place behind top-ranked Oklahoma.

Cal Poly scored seven team points to Cal Poly's 56, with Arizona following with 67, and Oregon and Oregon State with 41 and 43, respectively.

Wassick finished first in the 187 division, while Thompson nabbed first in 177.

The Mustangs made up for their runner-up finish in Arizona by taking first in the Beehive Invitational Tournament in Ogden, Utah.

Cal Poly had four individual champions in the tournament, and seven out of the nine Cal Poly wrestlers made it to the finals. The Mustangs were out in front with 80 points to second place BYU's 56. In a home meet, Cal Poly swept seven of the matches against Drake University to post a 26-9 victory.

And even though it had been produced on the second toughest dual meet of the season, Cal Poly had no problem disposing of Drake University, 67-0.

Junior 118-pounder Mark DiGhilamo, in his first match after a quarter of eligibility, led the way with the last of 10 straight Mustang wins against Drake.

During a January road trip the Mustangs were defeated by sixth ranked Oklahoma State and brought back to the nest season Oklahoma University and third-ranked Louisiana State University, bringing the Mustangs to the seventh spot in the nation. In two easy matches the Mustangs unveiled the Stanford Cardinals 86-10 UC Santa Barbara 56-0.

In a four-match road trip in February, Cal Poly defeated three schools and one another. The Mustangs defeated Washington, Portland State and Oregon State draw with Oregon State in the last match of the trip.

The conference meet with Oregon State ended 26-20, with two matches being awarded by default. Mark DiGhilamo suffered an injured neck after being slammed on the mat by his opponent.

At the nationals in Providence, New Jersey, the Mustang finished sixth by winning 13 out of 20 matches and totaling 58 team points.

The Mustangs looked much better in Greely, Colorado, where they consistently won the NCAA Western Regionals and qualified fourth out of win wrestlers for the national finals.

Cal Poly picked up 50 out of 50 competition points to easily out-point second place Portland State's 50 and third place.

The Mustangs who did qualify were Craig Arnold, who was a reference point away from being a Western Regional Champion. DiGhilamo, McKies, Hitchcock, Bardy, Wassick, Thompson, and Junior 187-pounder Rich Thompson.

This was the second year in a row that DiGhilamo, Hitchcock, and Thompson qualified the tournament. The Mustangs finished sixth in the NCAA finals with DiGhilamo becoming the first individual Cal Poly champion since 1969. The Mustangs also tied for second place in the Division II dual meet competition, Cal Poly totaled 58 points in the championships. Toppling 100 eighties the Mustangs and won the team title with 120 and one-bout Thompson, 177 pounds, and Wask, 187 pounds, finished fourth and fifth respectively, as the only other Mustang place in the tournament.

The defense was particularly sharp, as linebackers Tony Ramos, Dan Nathanski, and Dan Brennan each managed to snare return passes.

The contest was marked by a slight alteration between some of the participants toward the end of the game.

Throughout the season the Mustangs experienced how low to go along with the many highs. Losing double digit games, 168 and Riverside, 162; particularly heartbreaking, was the Mustangs' second place finish of the season's end. Coach Hitchcock was quoted, "This was a great group of people, as well as football players.

In many ways it was the best football team I have ever coached."

Cagers Start Like Rabbits, But Pull Up Lame At End

by DENNIS HALLADAY
Daily Staff Writer

A season that began half afoot of enthusiasm and success seemed set to receive another boost when the Mustangs were set to meet Cal Poly in basketball. The Mustangs got off to the best start in the school's history by posting a 10-4 record, but Poly didn't entirely let them off the hook.

The team opened its season with a convincing win in the Aggie Invitational Tournament. The Mustangs were up to their old tricks the next night against Riverside, however, and in a game they had won 82-63 to open the season. In the final second of the game, Poly scored a basket to even things at 81-81. The Mustangs then went on a 7-2 run to win the game.

The Mustangs got the chance to be the heavy favorites against UC Irvine, and the team wasn't handling the Mustangs' first loss at home in 11 games. Mills was ejected from that game in the first half, but Poly still managed to take a 58-54 over.

The team opened its season with a convincing win in the Aggie Invitational Tournament. The Mustangs were up to their old tricks the next night against Riverside, however, and in a game they had won 82-63 to open the season. In the final second of the game, Poly scored a basket to even things at 81-81. The Mustangs then went on a 7-2 run to win the game.

The coach noted that "We played very well for our first game, but we are going to run into some losses that are better than San Francisco." Little did he know how much the Mustangs would carry later in the season.

In November and December the Mustangs were winning frequently. They followed up their win over San Francisco with a 68-64 victory over a highly acclaimed UC Davis squad, and won the championship of their own Aggie Invitational Tournament.

The team opened its season with a convincing win in the Aggie Invitational Tournament. The Mustangs were up to their old tricks the next night against Riverside, however, and in a game they had won 82-63 to open the season. In the final second of the game, Poly scored a basket to even things at 81-81. The Mustangs then went on a 7-2 run to win the game.

The coach noted that "We played very well for our first game, but we are going to run into some losses that are better than San Francisco." Little did he know how much the Mustangs would carry later in the season.

Women's intercollegiate athletics has entered into the world of high finance. A new policy allows the Women's Recreational Association to charge admission for the athletic events of the Women's Physical Education Department.

"We had been discussing the idea for a long time, but we had no way of knowing what the cost would be in labor, talent, and materials. So we decided the best way to do it would be to experiment, attempt it at a few games, and watch the results," said Dr. Evelyn Pellaton, WRA advisor from the P.K. department.

Before admission could be charged the Students Executive Cauheds had to approve the change in policy.

"We asked it to be set up so that the additional revenue would be put back into women's athletics, so it would benefit us. I believe that is the standard procedure," Dr. Pellaton said.

The WRA is responsible for the funding and budgeting of all Women's Intercollegiate Athletics. As a result of charging at the UCLA and Long Beach State games the WRA took in $208 net gate receipts. The attendance count was 268 paying audience and 96 complimentary tickets at the UCLA game, and 96 paying audience and 36 complimentary tickets at the Long Beach game.

"The UCLA game was scheduled against a men's basketball game, but from all I can gather there was no regret. People who will go watch the men and then as people who will go watch the women, regardless. So if women will pull away from the men's crowd or vice versa," Dr. Pellaton said.

The local teams—from as far away as Canada and Belgium—took part in the annual event that has come to be the requirement of a non-existent NCAA Championship of rugby.

The Mustangs won both the "Blue" and "Gold" divisions at the 1980 National Rugby Tournaments at UCSC. The tournament was held in two sections: the "Blue" and the "Gold" division. Cal Poly, along with schools such as UCLA and Loyola University, were in the "Gold" group, while time rugby powerhouse teams such as the Los Angeles Rugby Club were in the "Blue" section.

The Mustangs, seeded fifth in their division, won their opening round game 15-0 over the Del Mar Rugby Club from San Diego.

The University of California, Berkeley narrowly lost 5-0 so Cal Poly in the second round when Mustang scrum-half Andy Wilson booted a 50-yard dropkick in the game's final two minutes of play.

Cal Poly played Loma Linda in the first round and managed to pull out a tough 9-5 win. Magic Fuller scored the game's only try (four points), and Wilson converted on a two-point PAT for the Mustang points. Semifinal action pitted Poly against the third-seeded San Fernando Rugby Club. The locals were hard pressed in the contest, but took a 6-4 win when Clarke Jarrett scored a try and Wilson added the PAT.

All four of these games were played on Saturday, a misfortune made necessary so that the tournament could be completed in two days.

Compensation was made, however, with teams playing two 20-minute halves instead of the regulation 60-minute halves. Sunday's championship game matched Cal Poly against the Newport Harbor Sharks Rugby Club. Much to the Mustangs' chagrin, they discovered that they were playing in effect a tournament all-star team in their 25-0 loss to the Sharks.

They were picking up one or two of the best players from teams that had lost in the earlier rounds, and did not want to play in the consolation bracket. Poly won against Doug Smith, "It was just like an all-star team.

The Mustangs' second place finish might have surprised some of the more than 6,000 fans in attendance, but not Smith.

"We always knew we could make it, but doing it is always something else," he said. "Finally being able to play four straight games with continuous play is what got us into the finals.

"But we never would have gotten this far without Coach (Phil) Northcutt," he continued. "It would have been really hard for us without him, especially with all our younger players who have never played rugby before this season.

Steve Simmons

Goes To Oregon

Cal Poly lost one of its most talented coaches in early January, when head track coach Steve Simmons resigned to take the head job at Oregon State University. Simons came to Cal Poly in 1970 and in his first year established a winning tradition that has propelled Mustang track teams ever since. Cal Poly most recently finished fifth in the 1975 NCAA Division II Track Championships.

Simmons received his Bachelor of Arts degree in Physical Education from Chapman College in 1964. He went on to get his Master's in P.E. from Poly in 1975.

Before coming to Poly, the former coach was an assistant at Chapman and also served as the triple jump coach for the U.S. Olympic Track Camps. Simons said he regretted leaving San Luis Obispo but much.

"I thought I'd enjoy five years at Poly and it's tough decision for me to make," he said. "It's tough, but we have a job and it's a great opportunity for me to continue my career.

Simmons received his Bachelor of Arts degree in Physical Education from Chapman College in 1964. He went on to get his Master's in P.E. from Poly in 1975.

Before coming to Poly, the former coach was an assistant at Chapman and also served as the triple jump coach for the U.S. Olympic Track Camps. Simons said he regretted leaving San Luis Obispo but much.
