Incumbent Talcott:

by STEVEN CHURM
Daily Co-Editor

Charging misrepresentation, the incumbent stumps the district in defense of record

Burt Talcott, (R-California), congressman for the 16th district, encompassing the Central Coast of California, is such a politician over two years.

A seven-year congressional pro-Talcott is placing his reputation hard fought legislative victories and political career on the election polls. He began the month with all the characteristic of an achievement story.

Talcott, who has never lost an election, is one of the most significant leaders within the Republican party. He is a leader in the House Appropriations Committee and has served on the Committee for 14 years. He is a member of the Appropriations Committee and has served the district in a constructive manner.

Talcott is stumping the district with his reputation, placing his record on the line for the electorate.

Challenger Panetta:

A new voice is calling for change, that Demo-say is long over due in the 16th district

by JAMES E. SWEEENEY
Daily Co-Editor

Obviously campaign weary, Leon Panetta placed the call to the bench, where he would be interviewed for the last time.

Panetta, a former attorney, the mild-mannered Democrat, has been in the House of Representatives for 14 years. He is a member of the House Appropriations Committee.

Panetta is stumping the district with his reputation, placing his record on the line for the electorate.

Panetta: It is a ridiculous charge to begin with and I am really surprised that a guy who has been in Congress for 14 years can't run on his record and has to spend time running down kind of a political career. This is a case where he recognizes that to operate a campaign in a district that big, it is necessary to carry political favor at the expense of minority children, in desegregation efforts in the South.

Panetta: I think the answer here is to try to gain both local and national support from corporations and from political action groups. It is whether you are willing to sell out your principles for any price and I'm not willing to do that.

Panetta: I want to be fair and say that the incumbent has a lot of organizational and financial support from corporations, but the question is whether you are willing to sell out your principles for any price and I'm not willing to do that.

Panetta: It is ridiculous that a guy who has been in Congress for 14 years can't run on his record and has to spend time running down kind of a political career. This is a case where he recognizes that to operate a campaign in a district that big, it is necessary to carry political favor at the expense of minority children.
Propositions and candidates on the ballot

The following is a brief listing of the issues and candidates as they appear on the San Luis Obispo County ballot. For more detailed information, voters can refer to the surveys conducted by the League of Women Voters or other societies based in the California ballot. They represent political philosophies ranging from the conservative—the American Conservative Party to the liberal—the Peace and Freedom Party.

For the voter who doesn't like the two major parties, there are five other

Propositions 1 through 14: Constitutional amendments—authorizes ap-

Proposition 14: Agricultural labor relations. Initiative statutes—re-enacts Agricultural Labor Relations Act of 1975 with amendments and requires state legislative prohibitions to implement.

For the voter who wants to vote in all city races, there are five other

Proposition 13: Housing Finance Bond Law of 1975—

Proposition 12: State, Urban and Coastal Park Bond Act of 1975—provides $100 million for park development and congestion.

Proposition 13: Residential Energy Conservation Bond Law—provides $100 million for residential energy conservation and related facilities and costs of construction.

Proposition 14: University of California—authorizes $1 billion for expenditures for the university system.

Proposition 15: Tax rate on unusual property—requires the additional amount to be used solely to maintain equity between secured and unsecured property.

Proposition 16: State laws and residential energy conservation improvements—authorizes a new state loan for residential loafing and solar heating of existing buildings.

Proposition 17: Groundhog day race—establishes a state commission to license and regulate the conduct of and wagering on groundhog day races.

Candidates for the office of the Board of Education, the Board of Supervisors, the City Council, etc. are running for the state senate in the 24th district. This district includes part of Santa Cruz County, San Luis Obispo and part of northern San Benito County. Running for the office of the Board of Education, the Board of Supervisors, the City Council, etc. are running for the state senate in the 24th district. This district includes part of Santa Cruz County, San Luis Obispo and part of northern San Benito County. Running for the state assembly from the 19th district on Martin Dodd, Democrat party, and Carol Neil, Republican party.

Panetta: Challenging the incumbent

(continued from page 1)

MD: What do you think about nuclear power as a source of energy?

Panetta: I have some concerns about pushing full nuclear development until we have developed adequate safeguards with regard to the waste disposal and the spent fuel reprocessing system. If they do develop a new technology for that, I think nuclear power can be a responsible source of energy in the future.

MD: Have you taken a position on the equal rights amendment?

Panetta: Yes, I support the equal rights amendment.

MD: What is your position on Senate Bill 1?

Panetta: I'm opposed to Senate Bill 1 because, although it sought to revise the federal prison justice code, which I think needs revision, what happened was that it gave the Mitchell-Nixon administration and there were provisions contained in SB 1 that would have undermined freedom of speech, freedom of press, freedom of assembly and I was opposed to those provisions.

MD: Let's talk about Barry Carter. You called him a "better alternative." What did you mean by that?

Panetta: I think that what Carter is proposing is a new process where the need for change from the status quo. He has proposed, first of all, a need to restructure the federal government which I feel we have to take place. Secondly, he has indicated a need to work in areas of health care, housing. And, thirdly, he has indicated a willingness to work with Congress on foreign policy as well as domestic programs. Now Ford does claim to be a campaign against Congress, he campaigns against programs, he campaigns against everything and I don't know that Carter has all the answers and they may be in many instances old answers at least he recognizes the need to try to deal with some of the problems.

MD: You called him a "better alternative." Who do you think would have been the best alternative?

Panetta: Between Ford and Carter, there's no question he is the better alternative. I had some candidates I preferred more. I liked Jerry Brown, I liked Mike Udall and I think they might have represented more effective and never become president.

MD: Senate Bill 138 was recently signed into law by Gov. Reagan, endorsing the state's proposition. Can you really feel it is a incompleteness in the whole or possibly creating even more like that I have not seen that sense.

Panetta: I think the issue is going to be that the problems that have gone on in the past ten years have been so severe that the issue is going to have to be reformed somewhat because we might participate in what is that fundamental issue plus in addition to other positions they lose their lost their interest. They lose their ability to stay on top of their subject. Their focus and their lost their dynamics approach to education I think that's necessary. I think you would have to remove some security of a job, but that shouldn't be a blank check. I would like to see it where every few years, teachers on tenure can be evaluated in some way so that we just don't have systems constantly things for the rest of their lives without regard to how good they are.

MD: What is your position on the federal food stamp program for the purchase of fresh food stamps under the current regulations?

Panetta: I firmly believe that the federal government should provide food stamps for people who are poor and willing to buy those fresh food stamps; I think that should be the emphasis of law enforcement should be on heroin where it really's where the bulk of our crime today places.

MD: What do you think about the department of agriculture in California, the need for it in the future?

Panetta: Well, we're moving in that direction and I should move toward the decentralization of many areas of small amounts of million dollar, hence, emphasis of law enforcement should be on heroin where it really's where the bulk of our crime today places.

MD: I don't know if you are aware, but Cal Poly has not two, now has the ON DEATH system which has been adopted on campus. What do you think about that campus college?

Panetta: I would think that would feel we should trust our students to allow them to drink alcohol by campus. Obviously there should be some ways in which it is possible to deal with it.

MD: You continue by hammer on bureaucratic barker that is in Washington. You as a practical politician and known as a non-conformist, you want to help join with those who agree with him and slowly try to turn that present structure around.

Panetta: If I'm a young congressman who has seen those things that are not reform and I'm not going to permit bureaucracy. One of the first things I would do is to try to determine how effectively they are performing, where is, what are the new laws, new legislation, it is going to fund new legislation, but it has look at old programs once they are in operation.

Talcott: Defending his record

(continued from page 1)

MD: Are your critics and your opponents reasonable when they sometimes say that you are too liberal or too conservative, that that's low-grade politics.

Panetta: I have in my campaign, I ran on my record. My wife and I have become character candidates supported by visible families, rather than by the rich.

Talcott: I have in my campaign, I ran on my record. My wife and I have become character candidates supported by visible families, rather than by the rich.

MD: You made the congress the was to go to, endemic of the Congressman is to introduce bills and get them passed. The best things he is saying about the public and when they accuse you of authoring only one bill in the last 14 years? Can you defend yourself?

Panetta: Under 14 years? Can you defend yourself?

MD: You have repeatedly accused Leon Panetta of subservience to Eastern labor bosses. Are you mistaken?

Talcott: I have been accused of being a friend and collaborator of "big business." You know, it used to be owned by the federal government and you know, it used to be owned by the federal government.

MD: You made the congress the programs as a subcommittee, then amended, honed and printed in the back door and it just makes much more sense to have the program on campus.

Panetta: Frankly, the food stamp program was my husband's idea.

MD: What do you think about passage of the Senate Bill 1?

Panetta: Frankly, the food stamp program was my husband's idea.

MD: What is your position on the Equal Rights Amendment?

MD: What about the Department of Agriculture in California, the need for it in the future?

Talcott: I have been accused of being a friend and collaborator of "big business." You know, it used to be owned by the federal government and you know, it used to be owned by the federal government.

MD: What do you think about the department of agriculture in California, the need for it in the future?

Panetta: I have been accused of being a friend and collaborator of "big business." You know, it used to be owned by the federal government and you know, it used to be owned by the federal government.

MD: What is your position on the Equal Rights Amendment?

Panetta: I have been accused of being a friend and collaborator of "big business." You know, it used to be owned by the federal government and you know, it used to be owned by the federal government.

MD: What about the Department of Agriculture in California, the need for it in the future?

Panetta: I have been accused of being a friend and collaborator of "big business." You know, it used to be owned by the federal government and you know, it used to be owned by the federal government.

MD: What do you think about the department of agriculture in California, the need for it in the future?

Panetta: I have been accused of being a friend and collaborator of "big business." You know, it used to be owned by the federal government and you know, it used to be owned by the federal government.
Steve Ford urges vote

"I spent the past one and a half months campaigning for my dad. This is my 12th step and things look good for us."

That statement of confidence came from Steve Ford, son of Governor, who addressed himself to a Cal Poly student audience during college-hour yesterdays.

He shared the platform with the campus Young Democrats who had an hour-long debate scheduled before the Ford appearance was known.

Ford praised and defended his father's policies as president for the past two years.

"We will have to decide between two very different men in this election. My father has put claims on a Congress that has not worked very well with him. With his strength, leadership and courage the United States has been saved to billions in taxes through votes of legislation," Ford told the crowd.

That's why Bank of America has Student Representatives close by all offices near major college campuses in California. They're always students or recent graduates themselves. So they know all about student banking problems. And how to solve them.

They know all the ways our College Plan can help you too. So why not stop by and talk things over. Our Student Reps can make your banking easier. Depend on us. More California college students do.

Student banking problems are different.
Their bankers should be, too.

BANK OF AMERICA

Read what Governor Brown says about Phil Harry:

Edmund G. Brown Jr.

Dear Friend:

I believe Phil Harry is well qualified to represent the people of the 11th Senatorial District in the State Legislature.

I really need a legislator who will help keep your taxes down and bring common sense to government. There is too much hocus pocus and double talk in the Capitol. Phil Harry is a person whom you can trust. He will get things done and will work with me to have taxes down.

Please vote for Phil Harry on November 2.

Edmund G. Brown Jr.
Governor

VOTE NOVEMBER 2

PHIL HARRY, STATE SENATE
Prop. 2: Cash for the coast

The $10 million is to be spent before they decide how to use that money.

The League of Women Voters wholeheartedly support the Coastal Bank Act.

According to Prop 2, the League of Women Voters had passed the legislature in August that called for state acquisition of "fragile" land.

They stated in the same lands, property would have to be sold before the difference from the land purchased with federal funds

Both agree that any federal government land such as national forests and desert lands in California and Oregon, can be turned into public lands.

In recent years, the cost of operation has increased, so these lands have become less and less valuable. The cost of ownership has increased so much that only a few landowners have purchased land.
