In February, he submitted a written proposal to Student Affairs Council suggesting student fees be raised $2 for a year to provide money to guarantee loans for renovation of the 40-year-old stadium. The proposal was made with the intent of gathering student reaction and input, said Chandler.

But student fees here are at the maximum level allowable by law and before they could be raised, the legislature would have to pass a bill allowing student bodies throughout the California State University and Colleges system to raise fees for specifically defined projects.
Get fridges out of closet

(Eden's note: The following is an open letter to Pres. Robert Kennedy regarding the legalization of refrigerators in the dormitories by Ted J. Hannig, member of the Associated Students Cal Poly, Inc. Publishers Board.)

The 1977 refrigerator proposal seems destined for the same mediocrity that previous proposals have faced—death by old age.

Time and time again, the facts have been presented concerning the legalization of refrigerators for the dorm residents. This question has been dealt with sufficiently, in regard to these facts, while the moral considerations have been largely overlooked.

A recent survey disclosed that there is at least one refrigerator for every other room on campus. Many students estimate an even higher rate. It seems obvious that the question should not be whether refrigerators should be allowed, but whether they should be brought out of the closet.

The proposal, sponsored by Interhall Council, the Administrative Committee and the Student Affairs Council, outlines the specific problems of campus refrigerators. Each point is covered to an exhaustive level and it would seem likely that most reasonable people or groups would concur with the majority of its findings.

To me, the true and legal foundation for the legalization of refrigerators would be a comparative murrain to the outrage over the moral considerations, If at the least you know that the Cal Poly has a tradition of "learning-by-doing," which means to the president of the university, strongly moderated.

Unfortunately, the refrigerators are an example of "learning-by-doing." The students are learning to lie, cheat, misrepresent themselves and lower their self esteem by "seeing a clean shirt and pressing our buttons."

The implications were that we did not need advice as being inappropriate to the situation. This advice was given to us to prevent us from getting a fresh shirt, shaking our shoes, and partaking our soaks.

When a woman in the class challenged this advice as being inappropriate to the needs of more than half the class, the placement office said the (jokingly?) all of us women were just going to be having babies, anyway.

The implications were that we did not need advice as being inappropriate to the males in the class did.

That kind of attitude is responsible for discrimination against women in the job market, and is irrefutable coming from the placement office, which is supposed to serve ALL Cal Poly students and graduates.

Fortunately, sex discrimination is also illegal for firms or institutions that receive federal funds, such as Cal Poly. I respect fully suggest that the placement office clean up its act.

I am making an appeal to you Dr. Kennedy, because I know you are a very intelligent and morally concerned man. The ultimate decision is in your hands. The words of another man who was concerned with human rights and moral issues would be helpful—his name was also Kennedy. I feel that the things as they are and ask "why?" I see things as they should be and ask "why not?"

Why not legal refrigerators? Isn't that the way it should be?

Ted J. Hannig

The invisible man

Dorm refrigerators

The students are waiting again. This time they will hear Pres. Robert Kennedy's decision regarding the allowance of refrigerators in dorm rooms. It has been two months since the Administration Committee, a Student Affairs Council subcommittee, sent a proposition to Kennedy. It included information on the type of maintenance necessary in dorm rooms had refrigerators.

Frank C. Jurien is a senior journalism major and a member of the Mustang Daily Staff.

It seems that the arguments for and against have all been hashed over. It's like a broken record.

"There is the problem of waste of electric power," says the administration.

"We got you there," students answer. 

"The invisible man is a moral issue," says the administration.

We are waiting again. This time we will hear Dr. Kennedy's decision regarding the allowance of refrigerators in dorm rooms.
Chronic parking solutions stuck in neutral

The results of a recent survey of parking solutions at Cal Poly Mustangs have been presented at the meeting of the Campus Facilities Planning Committee, which was attended by representatives from the Facilities Planning Board, the Physical Education Department, and the Administration. The survey, conducted by Executive Dean Doug Gerard, showed that approximately 500 spaces on campus are available at any hour of the day, but only approximately 200 spaces are used. The survey also revealed that the majority of parking problems are caused by the lack of parking facilities on campus, and that the present parking policy is not adequate to meet the needs of the campus population.

The committee recommended the following solutions to the current parking problems:

1. The construction of a new parking lot adjacent to the Administration Building.
2. The development of a new parking lot near the Physical Education Field.
3. The implementation of a new parking permit system.
4. The construction of a new parking garage.
5. The installation of new lighting and signage.

The committee also recommended the following solutions to the long-term parking problems:

1. The construction of a new parking lot near the Physical Education Field.
2. The implementation of a new parking permit system.
3. The construction of a new parking garage.
4. The installation of new lighting and signage.

The committee also recommended the following solutions to the long-term parking problems:

Israel band trip: Hopes now dashed

by STEVE THORN
Daily Staff Writer

Cal Poly's Symphonic Band has ended any attempts to raise funds for a summer trip to Israel, according to William V. Johnson director of University Bands. The band, invited to play by the Israel Band Federation, fell short in its goal to raise $50,000 in funds needed to travel with its members.

Johnson said he was the one who made the "final decision" in ceasing the fund raising drive. Earlier this month, Johnson wrote a memo to University President Robert E. Kennedy.

In the memo, Johnson said, "The invitation to visit that country (Israel) was truly an honor for the University and I am sincerely say that I am proud of the effort that was put forth to raise the funds."

Johnson does not think there was any heavy campaigning for raising funds was unusual in that there was no heavy campaigning for donations at the University or in the community.

"It's not something that would allow us to do," said Johnson. We bailed out of this area for money for the Israel trip. The band performed at the International Youth and Music Festival of Venice, Austria in July. We hit the City Council and Associated Students, Inc. very hard for funds, but received no response.

One of the band's major money makers was a charity performance last month at the Scottish Rite Auditorium in Los Angeles. Executive Vice President Dale Andrews, one of the chief administration supporters of the band, is now the driving force, said that the concert was arranged through a prospective donor. "The band played at the University or in the community." The Washington Post (Continued on page 4)

perfect, somewhere between 75 to 90 per cent.

Boaters in the water, beach goers in the sun, have deflated enthusiasm for the band for the rest of the year, but its members are still hopeful. "The student body and still potential," said Johnson. "We are still hoping we can get the band back underway and still feel positive about trying to get the band back underway."
Brown gets the feel of small farm living

BERKELEY (AP) — Allan Champlin steps on the floor of a barn in a special house he has in San Francisco. He is a 17-year-old high school student who spends a lot of time at his 17-acre ranch in Benicia.

Champlin is taking a course in small farms and agriculture at a public school in San Francisco. He is one of several students who have been studying small farms in the city.

Champlin says he enjoys the quiet and the solitude of the small farm. He says he also likes the hands-on experience of working on a farm.

He says he hopes to own a farm someday and that he would like to start his own business in the future.

When asked about his plans after high school, Champlin says he is not sure yet, but he is considering studying agriculture or business administration.

Champlin says he enjoys working with the animals and that he is learning a lot about farming.

He says he has been interested in agriculture since he was a child and has always wanted to work on a farm.

Champlin says he plans to take a course in animal science at community college after high school.

He says he hopes to eventually own a farm of his own and that he is learning a lot from his experiences working on other farms.

Champlin says he is looking forward to the future and is eager to continue his education.

Poly spikers take two, look to league tourney

by S.V. CRAVEN
Daily Sports Editor

Nothing can stand between the Cal Poly volleyball squad and a California Collegiate Volleyball Conference championship. That is, according to Coach Preston.

"We're going to win it," said Preston of the April 30 CCVC League Tournament. Right now Poly is deadlocked with Northridge State for first place in the conference, but Preston figures that won't last for long.

"There's no way our guys are going to let anybody beat us," said Preston. "There may be a letdown because the tournament is at Northridge, but everything is clicking now and I think we'll do it."

Preston had every right to be optimistic as his team took two league matches over the weekend. Cal State Dominguei Hills turned out to be no match for the Mustangs as they fell in straight games 15-3, 15-6, 15-12. The win was turned out to be no match for the Mustangs as they fell in straight games 15-6, 15-6, 15-6.

Poly took UC Riverside the next night in three games 15-6, 15-8, 15-7. The win was enough so as the Mustangs for first place with Northridge to set up the April 30 showdown.

Lindon Crow put away 10 kills against Dominguei Hills to lead the Mustangs in that department. Andy Schonbriib had nine kills as Poly's setter. Rick House put his shots. Toros were led by John Costa, kills 12. Vente Kainer showed the way with Riverside his nine kills. Mountains. There of his high school, staggered for second, each killing 12 times. Paul Draper, the Mountain's Gabriel combined for 15 kills.

Poly will now have a week going into the league matches.

"We're going to take the week off, Our guys are going to be with their families," said Preston. "We'll have a week."

Humboldt State beat Santa Barbara and then we'll start playing big tournaments.

"Our team is really starting to jell. We're playing well. I'm happy with some of our performances. We have as good a chance at the (conference) championship as anybody and we'll come away with it."

Poly's season does not end with league championships. The Mustangs Regional tournament. There are yet another chance at another come away with it."

Women take league softball win

by COREY BRUTTON
Daily Staff Writer

Winning is an ecstatic experience, and winning the first league game is even more of a thrill. The women's softball team at Cal Poly found out what it is like to win their first game.

The Mustangs have now started the season with a 4-1 record, and in SCAA play, they are off to an impressive start to the season. Her record now stands at 2-3.

Jeannette Cardinal got tired of playing in the ninth inning. For the first time in two days as she walked off the field, scoring Down and giving the Mustangs a 1-0 edge.

Eddo recorded her second win in two days as she walked off the field, scoring Down and giving the Mustangs a 1-0 edge. Eddo allowed one hit in the seven innings. She held her opponents scoreless in the eighth and ninth innings.

Lorie Eddo had another fine performance on the mound for Cal Poly as she tossed a two-hitter in the second game against UCLA. She allowed one hit in the first game and one in the second. Eddo walked a batter and struck out five on route to her first win of the season. Her record now stands at 2-3.

The split raised the Mustang record to 8-1 overall and 1-1 in SCAA play.

In the first game, the Bruins had the game won in the first inning as they scored one run and one in the second and finally two in the sixth to outscore the Mustangs 6-1.

Cal Poly scored their only run of the game in the fifth inning as Rene Poirer led off the inning with a walk. Sherry Fernet then reached on an error, sending Poirer to third. After a passed ball by the Bruin catcher, Poirer scored on a sacrifice fly by Linda Eddo.

Working toward 40 wins this season, the Cal Poly baseball team regrouped in early April as it won two out of three games over the weekend against Saint Mary's.

The Mustangs now have a record of 23-16, surprising that of last year's final mark of 29-23.

Head coach Rudy Hart indicated in an interview earlier this season he was not going to try and win 40, just "have one more than last year."

Cal Poly edged the Mustangs 6-2 in Friday's non-league game and won the first game of a doubleheader Saturday. It followed with a win. The Mustangs lost the nightcap 6-2.

First baseman in Friday's game, Tom Laspinas, compiled an error that snatched a string of errorless games this season. The number of games was set as nine before Friday.

One run was scored in the fifth inning by the Mustangs. Laspinas singled, went on second base on a wild pitch and Joe Rudielich singled to third. Matt Mullins then hit a fly ball, laspinas had a hard time getting to third base after the catch was made.

Saturday's first game was tied in the bottom of the ninth by Sacramento State; they scored three times to send the game into extra innings.

Each team added one run in the 10th inning before Cal Poly busted things open in the 11th with five runs.

Dennis Finnares walked, followed by a single by Tom Manish. Rudielich then followed with a two-run single. Smith then smashed a triple, scoring Rachi Zuvella, who had gone in for run for Rudielich.

Erik Peterson singles, scoring Smith. Paul Dreisigke singled, and Danny Gans, followed with a double, scoring Peterson to end the scoring.

Smith collected three hits in six trips to the plate, and Peronick, Mike Cona and Gans each caught out two hits apiece in the first game.

Track

Unable to come up with a first place all day, the Cal Poly women tracksters finished fourth out of five teams in the California Athletic Association track meet Friday at Cal Poly.

The Mustangs' 34 points were scored only one team, the Cal Poly Pomona Broncos, who posted 28 Cal State Northridge was on top with 294 points while Los Angeles State was the Mastodons' only serious challenger with 178 points. UC Santa Barbara was a distant third with 71 points.

Miller Maggie Keys turned in the best performance for the Mustangs on the second place finish in the 1500 meters. Her time of 4:54 was nine seconds behind the winner Julie Brown of Northridge.

Anchors of the Mustangs' third place in the 4x400 relay were Susan Hales, Maggie Keys, Susan Duval and Mary Tupin, who ran 3:56.96 to lead the non-champion, the Mastodons, with 3:58.9.

SACRAMENTO STATE added one run in the sixth inning with a single, an error and a sacrifice fly.

Cal Poly struck again in the seventh for two runs. The bears were quickly loaded in the sixth inning. Mike Peeling hit a sacrifice fly to score Laspinas. Mike Freig followed with another sacrifice fly to score Rudielich.

The Hornees came back in their half of the inning with two singles and another error. Smith reached first base on a single in the top of the ninth. After scaring second, he went to third on a fly ball. During an argument between Hornet coaches and the umpires that Smith left second before the ball was caught, he stole home to score the final Mustang run.

Smith reached first base on a single in the top of the ninth. After scaring second, he went to third on a fly ball. Sacramento coaches appealed to the umpires that the Mustang runner left second base too soon. Smith took advantage of the discussion and slugged home to score the Mustangs' final run.

Doug D'Orsio recorded his sixth win of the season against two losses. Mike D'Art, who was called in to relief in the ninth, earned his first save.

most valuable back honors. Fadden scored eight tries, which is the rugby equivalent of a touchdown, but only worth four points. "Everyone really played well," said Smith. "We were entered in the same tournament last year and placed second so we know what to expect. We really practiced hard for this tournament last week. Everybody came out knowing we had a better team than last year and had a good chance at first place."

Polo also entered a second team composed of those who did not play rugby on the weekend. Smith said, "The second team did very well considering that most of them never played rugby before joining the team."

The Mustangs lost 55-2 to UCLA, 28-10 to Arizona State, and 5-1 to Southern Oregon in the three-game weekend series.

Saturday 10-5 in 11 innings.

Sacramento State added one run in the sixth inning with a single, an error and a sacrifice fly. Cal Poly struck again in the seventh for two runs. The bears were quickly loaded in the sixth inning. Mike Peeling hit a sacrifice fly to score Laspinas. Mike Freig followed with another sacrifice fly to score Rudielich.

The villain behind this destruction is friction. If a diamond cuts through steel, you can imagine what a diamond styli does to vinyl records. Fortunately, from outer space has come a solution to record degradation. It's called Sound Guard®.

A by-product of research into dry lubricants for aerospace applications, Sound Guard record-preservative puts a microscopically-thin (less than 0.000003') dry film on records to protect the grooves from damage. Yet, remarkably, it does not degrade fidelity. Independent tests show that Sound Guard Pre-preservative maintains full amplitude at all audible frequencies, while at the same time significantly reducing increases in surface noise and harmonic distortion.

In other words, when applied according to instructions, a new record treated with Sound Guard® preservative and played 100 times sounds the same as one in "mint" condition played the first time.

Sound Guard preservation comes in a kit complete with non-aerosol pump, sprayer and velvet brush pad. It is completely safe and effective for all discs, from precious old 78's to the newest LP's including CD-4's.

Recently introduced to audiophiles, Sound Guard® preservative is now available in audio and record outlets.

For complete test results write: Sound Guard Box 5001, Munster, Indiana 46321.

The band (Continued from page four)

the money. "Next time we'll try to get a bigger and better crowd," said Johnson.

There is still a possibility that the band will perform in Israel someday. The nation has a chance of receiving financial support through the American Embassy in Mexico, the majority of them on drug-related charges.

National

CLEVELAND (AP) — The only U.S. producer of saccharin says allowing sale of the artificial sweetener only as sweetener and not a preservative will probably result in higher prices.

The company, Sherwin-Williams of Cleveland, said Friday that 90 percent of the saccharin it produces is for uses other than as a preservative.

WASHINGTON (AP) — Mail deliveries should be cut back to five days a week and taxpayer subsidies of the Postal Service increased, but even those actions will not keep postal rates from soaring, a federal study commission said today.

The Commission on Postal Service said mailing a first-class letter would cost about 28 cents by 1985 if mail service continues on its present course.

State

LOS ANGELES (AP) — Patricia Hearst, speaking in a whisper, pleaded no contest today to charges of armed robbery and assault with a deadly weapon.

The judge declared that she was guilty.

Miss Hearst's attorney asked that she be sentenced at the state prison where she is serving a sentence of 16 years to life.
