Fridges, forced food and freshmen first

New policies for dorms announced

by ELENA-MARIE KOSTER
Daily Associate Editor

Lags refrigerators, a mandatory food plan and freshman priority are the new changes in campus residence hall policies announced Friday by Everett Chandler, dean of students.

The new policies are a spin-off of student input from the Hall Council, Student Affairs Council and an April 28 campus forum where Pres. Robert Kennedy heard questions and complaints from dorm residents.

Current students are not affected by the policies which will take effect until fall of 1977. Students with roommates in their rooms are still in violation of campus policy, according to Chandler.

The refrigerators will have stipulations placed on them, according to Chandler. They will not exceed a three cubic feet capacity. Their stipulations varied from dorm to dorm. Refrigerators in the dorms will not be plugged in. This is due to the high electrical usage.

Students will be able to change to or from the two options. According to Chandler, there will be no exceptions to this rule.

Even with the increases in residence hall rents and the mandatory meal plan cost, living in the campus residence halls will still be cheaper than Tropicana Village or Senter Glen, according to Chandler. Annual living costs will be $1,959 for room and board on a 15 meal plan and $1,990 for the 14 meal plan of this year. The Food Foundation offers a total of 21 meals per week to choose from with four locations accepting meal tickets.

A policy requiring students over 90 years old to get special permission to stay in the dorm is still in effect. Permission is to be obtained from the dean of students.

Associate Director of Housing, Barbara Andre, said the implementation on the new policies have not been decided yet. Resident hall advisors and hall residents will be discussing how these policies can be enforced.

The housing license being sent out to new students places the down payment deadline at June 15 in hopes that the renting students can be notified by June 25 on whether they have a space in the dorms. Andre said 25 percent of the residents usually return for a second year in the residence halls. A minimum of 2,000 new students are expected to apply for dorm space in 1977, according to Chandler.

The representatives from the Housing and Race Relations, Lynne Hinkelman, expressed an opinion for the present students in the dorms.

Students who haven’t been looking for new places reside the fact that they haven’t been given much warning that they will need a new place to live. They have been looking since January, but many students will just start looking now. Many wish they had at least one quarter’s notice. I feel they should have waited until next year to implement that part of the program,” Hinkelman said.

The memo sent to the dorm residents from Chandler said: "It is recognized that not everyone will be pleased by this action. However, you can be assured that your concerns were heard by the staff and were significant in modifying the final proposals."
The elections of Paul Curtis to the office of ASI President on May 11 and 12 will provide much insight into the students of the class in the coming year. The election of Paul Curtis to the office of ASI President is now near. Paul's ability in this area is evident. Curtis should be a most valuable asset in the office of ASI President next year.

Dean Martin, President, Chi Alpha

Elections: The past election has been marked by a lack of enthusiasm among the students of the school. Paul has established his leadership and has been a valuable asset to the students of the class in the coming year. The elections of Paul Curtis to the office of ASI President is now near. Paul's ability in this area is evident. Curtis should be a most valuable asset in the office of ASI President next year.

John has been: Toastmaster at Society for the Advancement of Management. Election Chairman for Board, Publisher's Advisory Cabinet, and Business and Social Services School Council. Paul is presently Internal Affairs Assistant to the ASI President, Chairman of the Hobbs Gymnasium, Secretary and a member of the Board of Directors of the Children's Center, and a member of the President's Advisory Cabinet. Since Paul has worked closely with Student Affairs Committee, the ASI President has given him the opportunity to be involved in the working of the ASI. We feel that Paul has the potential to make an impact in this direction with his leadership capabilities. Paul is a person who is very important to us and who can be a valuable asset to the students of this school. The elections of Paul Curtis to the office of ASI President is now near. Paul's ability in this area is evident. Curtis should be a most valuable asset in the office of ASI President next year.

Kennedy had taken over a month to respond, either at all or not at all. Larry and Interhall Council felt that action was needed. Though the Poly Royal publication has been a great forum for a fruitful discussion with Dr. Kennedy, the fact still remains that Larry was not satisfied with just presenting a proposal or answer to the results. Finally, Larry is active and enthusiastic about the Poly student government. This I believe to be the most important characteristic. If your Vice-President isn't enthusiastic, the student government will suffer, in the long run.

I strongly recommend to all of the Poly students that they seriously consider casting their vote for a candidate who will make use of it. Vote May 11 or 12 for a real Vice-President: Larry Robinson.

Ted J. Hanelin

Editor: When students vote, many will be voting for a candidate without looking into their past record and really finding out if they are sincere in their convictions. One candidate for ASI President, Larry Robinson, has shown consistency in his fight for what Larry calls, "the Poly student Rights." I know Larry while he was on SAC, and while many SAC representatives seem to be anti-policy, the budget survey as a viable student response to how the money should be distributed, Larry voted in favor of it. I've known Larry for over two years, and I can tell that action was needed, believes in progress, and enthusiastic about Cal Poly student government, he is the most qualified candidate. Serving on the Board of Athletic Control, the Student Affairs Council, and this year as the internal affairs assistant, Larry has shown his leadership ability to serve us well.

Larry brings with him the experience, concern and leadership ability that he has shown in the year ahead. I sincerely recommend to all Poly students, and the campus community, to vote for Larry Robinson, the best candidate for ASI President.

Jim Roberts

Editor: Doesn't he deserve our vote? Vote May 11 or 12 for a real Vice-President: Larry Robinson.
Candidates' statements

Aguilar

It is my goal to be the personal bridge building the office of Associated Students, Inc. (ASI) and the students. With your help, I will enable the students to get involved in their campus. This will help students; it would sound good, but we know that have worked hard on student. That is why you need to make this you the personal bridge building the office of ASI and the students. As a student, we need to make that the ASI office be the personal bridge between the students and the university. I will work hard on this and make that the ASI office be the personal bridge between the students and the university.

Kramer

For the past 1 and 1/2 years I've served on ASI board at Cal Poly and I've learned a lot. I've learned that ASI can be much more than just a group of students who want to have fun. ASI is a group of students who want to make a difference. I've learned that ASI can be a group of students who want to make a difference.

We have been working on several projects, and I've learned that ASI can be much more than just a group of students who want to have fun. ASI is a group of students who want to make a difference. I've learned that ASI can be a group of students who want to make a difference.

Let's look at what one candidate has done. Motion has been made to make the group more accountable for the group's actions.

Motions have been made to make the group more accountable for the group's actions.

Let's talk about a group that has been working hard on student. That is why you need to make this you the personal bridge building the office of ASI and the students. As a student, we need to make that the ASI office be the personal bridge between the students and the university. I will work hard on this and make that the ASI office be the personal bridge between the students and the university.

Probandt

I'm the only person who has worked on both sides of the fence. I'm the only person who has worked on both sides of the fence. I've worked on both sides of the fence. I've worked on both sides of the fence.

I've worked on both sides of the fence. I've worked on both sides of the fence. I've worked on both sides of the fence.

Curtis

In order to achieve the goals as a student body, we must have a strong, organized and dedicated group of students involved in the school district.

In this time, there are a few issues that we must address as a student body.

Rushing

If you see a truck in the main campus of the Cal Poly, you should know that they are making a change in the student body. The student body is making a change in the student body.

The student body is making a change in the student body.

The student body is making a change in the student body.

ASI elections

May 11 and 12

any say they should have got involved here for he may have taken the assumption the other 80 per cent are happy. It's hard to take a student if there is no water, just like it's hard to get things done without backing. What if you have backing on paper, such as voter turnout, you won't get pushed around and your power won't be illusory. From this little example comes the reason I'm running. I'm here to lead the deadbeats in Student Affairs Council living in their own little world pushing off things like voter turnout and student involvement as trivial. None of our past Presidents have summed so well how important this issue really is. Yet until we get student involvement up, student powers for the issue you think are important will be down. Finally let me say if it's your vote you want for your vampire for an outsider, me, for I'll get you involved.

The ranking problem as it stands is a situation which can't be forgotten or ignored. Just ask anyone who has driven to school last year. My time impression was so bad that there is no time for the others view.

The survey should be made public so that you are dealing with the others view. This is the best way to increase the level of financial backing which are so wanted.

Random apothecary is an area this too. But if you have the time impression, it's not the time impression that affects you. The others view is not the time impression that affects you. The others view is not the time impression that affects you.

The budget survey was a good one. The trouble with the survey was not the collected too, but a survey for all positions. What the survey shows is that there is no day for the others view to where their money is going. You won't know what you are paying for, but they won't have to spend all money on the others view.

The survey shows that the others view is needed in order to make the work of financial backing which are so wanted.

The candidates’ questions?

1. Devan Curtis

1. What do you feel your relationship should be with Kennedy as ASI President?

2. Why am I running? It seems that every candidate who would work for the students, but how many have already worked for the students? I have been very interested in how many have done so. I have worked with student problems on these issues. The following are the names of the students. In past years these issues were never dealt with, I give my input so that the best students will be reflected in your opinion. I will work for your opinion. I will work for the students. I am running because I plan to run for three years ago.

MONICA AGUILAR

1. Why am I running? I see that many students have already worked for the students. I have been very interested in how many students have worked with student problems on these issues. The names of the students. In past years these issues were never dealt with, I give my input so that the best students will be reflected in your opinion. I will work for your opinion. I will work for the students. I am running because I plan to run for three years ago.

2. Parking to make a long story short, there is the feasibility to have fewer cars on campus. The possibility of having free bus rides off campus and adding more buses to and from campus. It is only has to be approved by the Board of Trustees. The solution—money, the cash—to Cal Poly assembled into the City of San Luis Obispo, creating 800 new residents and deep upon surviving money to be used by Cal Poly and the city. But this solution too, must be very organised, in order to have it work to the advantage of the students.

3. The causes of apathy are two-fold. First is the inability of the ASI to act in the present. There are many students who are not interested in the committee. Second is the lack of communications between the ASI and students. Positive action on students concerns now and will be next year.

MONICA AGUILAR

SHANE KRAMER

1. The problem also carries a lot of emotional, emotional, emotional, physical demand and requires a great deal of time and dedication. I am running in order to fill a need the ASI has for leadership, efficiency and responsibility. It is true that President Kennedy has two power over many areas of ASI endeavors, however. President Kennedy does not have the authority to tamper with most internal operations of the ASI. In areas of budgeting, for instance, he has two power over the total ASI budget but cannot change the amounts allocated to any one area.

2. The solution to the parking problem is clever. People living within walking distance yet drive every day do not have a real problem—they can leave their cars at home. They do, however, create a problem for those people who live in the outlying areas and “must” drive to Cal Poly. In order to encourage people to leave their cars at home, I plan to push for free bus service for Cal Poly students. Since the city now subsidises the bus service to the tune of $100,000, a windfall in the city of about $80,000 to offset student use of the system could result in free service to Cal Poly students. My proposal is for the city to annex Cal Poly. This would result in $100,000 in new revenues which would be plugged into bus service. There would be no cost to the students, city or University. The move would simply transfer funds from County to City revenues.

3. Our relationship should be one of mutual respect. No politician can expect President Kennedy should make impossible demands on each other’s office. I don’t plan to quarrel with President Kennedy over trivial matters but rather approach him on major issues and move ahead on those matters on which we agree. Where conflict arises the ASI needs to back its position with facts and a realistic perspective. The ASI must conduct itself in a very business-like and professional manner in its dealings with the administration.

4. The budget survey is a tool that should be considered heavily in finance decisions. Last year at Sac Reps, several of us proposed to use the survey in making major policy and priority decisions such as giving additional support to Program Board, Women’s Athletics, Incentives, Tutoring, Children’s Center, Student Community Services, Disabled Students and other student services. At that time our efforts were largely rebuffed. This year our efforts have been proposed and accepted by people who were the survey’s most vocal defenders. The

5. Student apathy is a problem which can never be totally eliminated, we can only minimize its impact. One of the producers of apathy is the ASI’s refusal to admit the existence of the problem. As part of the “ruling clique” People often think that they are a part of the decision process. This is seldom the case. The ASI administration depends on its ability to control the student groups in the decision making process.
ASl Vice-presidential statements

George Morello

This past year I have concerned myself with the needs of the student body. I have
been a part of the Student Affairs Council and have been active in the student government. I
have been involved in the SAC candidate activities and have been a part of the
Student Affairs Council. I am running because I believe that I can make a positive difference
in the lives of the students.

Jim Roberts

As an ASI election committee, I have a reputation of
being fair and impartial. I believe that I can
provide a fresh perspective to the student government
and help make it more efficient. I am running
because I want to make a difference in the lives
of the students.

Larry Robinson

As a member of the Student Affairs Council, I have
been working to improve the living conditions for
students. I am running because I believe that I can
make a positive difference in the lives of the
students.

SAC Candidate statements

Science

Dale Balough

The mission of the student body is to provide a
quality education for all students. I am running
for the Science position because I believe that
I can make a positive difference in the lives
of the students.

Mathematics

Paul Pick

I am a mathematics major and I believe that I
have the skills and knowledge to be an
effective member of the student government.
I am running for the Mathematics position
because I want to make a difference in the lives
of the students.

Architecture and Environmental Design

Tom Ashland

I am a member of the Architecture and Environmental
Design program and I believe that I have the
necessary skills and knowledge to be an effective
member of the student government. I am running
for the Architecture and Environmental Design
position because I want to make a difference in the
lives of the students.

Agriculture and Natural Resources

Fred Moore

I am a member of the Agriculture and Natural Resources
program and I believe that I have the necessary
skills and knowledge to be an effective member of
the student government. I am running for the
Agriculture and Natural Resources position
because I want to make a difference in the lives
of the students.

Business and Social Science

Jojo Miller

I am a member of the Business and Social Science
program and I believe that I have the necessary
skills and knowledge to be an effective member
of the student government. I am running for the
Business and Social Science position because I
want to make a difference in the lives of the
students.

SAC Representative for the School of Agriculture and Natural Resources

Frank Wray

I am a member of the School of Agriculture and Natural Resources
and I believe that I have the necessary skills and
knowledge to be an effective member of the
student government. I am running for the
SAC Representative position because I want to
make a difference in the lives of the students.

Advice for future ASI officers

In 1970, Housing was one of the major issues facing ASI. With the increase in tuition and the need for better housing for students, the ASI Housing Advisory Committee was formed. Ray Davit, who was elected as Vice-President of ASI in 1970, expressed his concerns about the state of housing at Cal Poly and his plans for improvement.

Davit believed that the ASI Housing Advisory Committee was not doing enough to address the housing shortage. He argued that the committee needed to be more proactive and focus on finding solutions instead of just responding to problems. Davit suggested that the committee could work with the administration to find new ways to house students, such as expanding existing dormitories or building new ones.

Davit also expressed his support for a proposal to limit enrollment to 12,500 students. He believed that this would help to alleviate the housing shortage.

Davit's aspirations for the future of ASI included improving the organization's decision-making processes and increasing its expertise in various areas such as academic, administrative, and athletic programs. He believed that the Student Advisory Committee should be more involved in the decision-making process and that it was important to have representatives from different groups, such as housing, athletics, and student life.

Davit ended his advice by saying that he enjoyed his time as Vice-President and that he would continue to work towards improving the student experience at Cal Poly.
The Cal Poly volleyball team proved it is the best Division II college squad in California as it took over the state championship at UC Berkeley.

The Mustangs went into the tournament seeded number two, and like the Western Regional for on third, a ground ball was Women drop two as California as it took over the deciding call at first base by Berkeley.

stale championship at UC the stick, and, like several of which put them out of 2-1 to U.C. Santa Barbara, NCAA Division II schools.

To Huntington Beach last Valerie Filice took her team number two, and like the the tournament seeded the title.

Unfortunately, the girls The Mustangs placed their three All-Conference players on the All-State team. Peter Stert Barrett, who was also named California Collegiate Volleyball Confer­ ence Most Valuable Player, joined Hauser and Kaine on the prestigious team.

The spikers now join the winners and hopegars with nationwide championships as they have already taken western regional cham­ pionships in their respective sports.

The volleyball team ended the season with a 13-7 dual match record and a 26-10 overall mark including tour­ naments.

Spikers’ turn to be champions

Tracksters finish sixth

The Cal Poly tracksters turned in another superb performance over the weekend in the West Coast Meet. Coach Dave Miller’s squad took eight straight teams that competed.

What’s more impressive is the fact that Poly won behind only one other Division II team and finished on top of the California Collegiate Athletic Conference competition.

Cal State Long Beach won the two-day event with a and a half points while Fresno State took second with a points. Cal State Hayward, the only Division II who had to finish ahead of Poly, racked up 84 points.

Idaho State right behind at 53 points. San Diego was the other team to finish ahead of the Mustangs.

The 440 intermediate hurdles turned out to be Mustangs’ best event. Mike Bartlett and Ron Williams captured second and third places respectively. Bartlett crossed the line in 50.68 seconds, one hundredth of a second off the winning time turned in by F. Scheffield. Williams ran a 50.71 for his third place.

The championships start this Thursday in Northridge. LA State is figured to take the crown as the Mustangs coming in as serious challenges.

If you can’t fly Continental...
