Jane Fonda to speak about Hollywood days
Morro Bay fight is for the birds

There is a fight going on that not many people are aware of—but should be. It is a fight over hunting on Morro Bay.

Residents of Morro Bay have launched a ban to prevent hunting on the bay, but should be. It is a small bay, but it is a part of the larger ecosystem that includes the Morro Bay Estuary and the San Luis Obispo Bay.

Part of the bay is owned by the state and part is owned by the county, which makes it difficult to coordinate efforts to protect the bay from hunting.

Residents of the bay have been aware of the danger the hunters posed, and they have called for a ban. In fact, the bay was listed as a striped bass nursery by the Department of Fish and Game.

Hunting is not appropriate any more, said Joan Orbison. “It’s noisy and dangerous.”

Many people are moving into the South Bay area and it is not safe to hunt anymore.

For them tame reasons, Ban Bemadino Ig Big Bear and Irwin Park to hunting recently. The area is several hundred yards to be trapped in some areas.

There has been vandalism and threatening phone calls to try to stop the committee. Orbison said, but the committee is beginning to get some support from organizations in the bay area.

The Feathers and Game is not that committee, Orbison said. She said the Fish and Game is supposed to be policing the bay but the wardens are hard to get in touch with.

Run! Don’t walk

By VANDA BANDALL

"Don’t run!" The words, like a rope, went around my neck, cut me off. "Don’t walk!" I heard Uncle Jimmy say, "No wonder I caught me like a kite: along the wind rush, flight-of-feet, devil-dare, pell-mell down hill, and down, do your best, don’t let it go, it’s for the birds." He mod me Peter. And I liked that sound, that sharp, that fast, that fast— the words, like a rope, went around my neck, cut me off.

I sympathised with her tone, for the words evoked a memory, and I was in another place, hearing them, feeling the wind rush, flight-of-feet, don’t let it go, it’s for the birds.

Josh will finish lectures on religion tonight

Christian activist Josh McDowell will conclude his three-day lecture series in San Luis Obispo tonight in Mustang Stadium with a talk entitled "Maximum Man." The lectures have been sponsored by Christian Coalition and All Speakers.

Ellsberg to talk on nuclear arms race

A Teach-in and Community Forum on nuclear weapons will be held Tuesday in the University Union. The event is part of a nationwide series. It will begin in UU 204 at 4 p.m. with a panel discussion. Between 1 and 2 p.m., an indepth workshop will be held.

The panel will be made up of Daniel Ellsberg, Natalie Shane and Diane Thomas.

Ellsberg will speak on the arms race and the relationship between proliferation of nuclear power plants and nuclear warheads. Shane, from the Mid PENinsula Cooperation Project, will speak on ways in which resources can be redirected away from nuclear arms. Thomas, from the Peace and Peace Project in the United Nations Committee on Nuclear Weapons Convention Project, will speak on the university's involvement with nuclear weapons development.

A Community Forum will be held at 6 p.m. in the SimiValleym School Multipurpose Room. The panel discussion will be repeated at that time.

The San Luis Obispo talks are being co-sponsored by the Mothers For Peace and Cal Poly's Ecology Action Club.

Rain dampens fund-raising Jog-A-Thon

Damp weather turned the Jog-A-Thon into a test for many who intended to run, perhaps as many as 300. "It was not because of the weather, according to director of athletics Vic Donald.

For those who did not participate, there will be a make-up run on Sat. Nov. 19 in the lower track. Only those who intended to run and did not may participate. Saturday, more than 500 people turned out to run for money that has been earmarked for the Mustang Stadium Renovation Fund.

Despite last week, donors estimated the event would bring in between $30,000 and $40,000 and as high as $50,000 although only $22,000 has been gathered so far. He also estimated between 400 and 700 participants, and as high as 1,000.

Dean of Students Everett Chandler brought in the most amount of money, as far totaling $3,900. Each of his 26 laps was worth $150 in pledges. Chandler may still attempt to gather pledges, and before all of the money is in, Bradt estimated he may bring in more than $4,000.

Bradt himself brought in $2,400 by going 31 laps. Joggers of all ages came to participate. Georgia Miller, 75, was the oldest participant. Donald Curtis was the oldest male at 64-years-old. Miller tallied five laps, while Curtis went around the track 29 times.

On the younger side, Jason Moore and Ryen Layne, were the youngest participants. They are both 3-years-old and they both went around one time.

Because of the rain, the make-up Jog-A-Thon date was set. Bradt estimated $10,000 will be brought in on that day.

“We have had several organizations and groups contact us about running on the 19th. There should be approximately 200 runners participating,” Bradt said.

The athletic director said the ROTC participants were perhaps most colorful to watch. The 30 runners, came with umbrellas and flags ran in a double time estimate for 30 laps.

Livestock honored

StudentsSHOWS cattle from Cal Poly were major honorees at the 31st annual Grand National Livestock Show and Livestock Exposition at the Cow Palace in San Francisco.

Kim Curley of SLO, a junior majoring in animal science, was named Grand Champion of the show.

Jeff Broner of Long Beach, a senior agriculture management major, was designated Reserve Grand Champion and the Cal Poly Livestock team was runner-up in the show.

Judging competition was held at the Cow Palace. The Cal Poly team finished first in sheep and goats and second in beef.

Cal Poly team leaders were Kim Gardner, ag manager; Jim O'Brion, ag technician; Randy Craven, ag student; Mike Trevino, animal science; and Greg Sheffield, ag management.

President's removal asked at SJ State

By Laura Cavender

San Jose State University's Student Council has requested that Dr. John H. Burnett, president of the university, resign from office.

The resignation request came in the form of a resolution the student council adopted by a two-thirds vote on Oct. 19 and referred Oct. 26 by a vote of 12-0 (one abstention).

According to Jake Campbell, chairperson of the SJU Student Council, Burnett has said he will step down from office only if forced to do so by the Board of Trustees of the California State University system.

Since the Board of Trustees has the power to remove a president of a state university, Campbell said the next step for the student council is to convince the board to initiate a review of what Burnett has done in office.

"The review would take a long time and there is a possibility that they would find no problem and say everything is fine," Campbell said. "But, there has been a lot of dissatisfaction here.

The request for resignation states that the president of each state college is responsible for "the educational effectiveness, academic excellence and general welfare of the college over which he presides" and that Burnett has not met those responsibilities.

Campbell said the basic problem with Burnett's leadership has been a lack of communication and an unresponsive attitude toward the needs of the campus.

"Only in a crisis situation will he do things." Campbell said. "He won't act until he gets pressure from parents or outside groups for the college."

He does not get involved with the parking problems, campus security problems or student housing, Campbell said. She said the SJU student government is active and would like to be working with Burnett against him.

"For years people have been screaming about the parking problem here, but the administration hasn't done anything," she said. "The parking problem here has been here and because of a lack of parking facilities many students park in residential areas and the administration is not doing anything about it."

Eventually the community acted by initiating a student parking ban for a 16-block area north of the campus. When the administration didn't do anything, the students lost out on a lot of parking spaces, she said.

"Students literally drive around for about 40 minutes looking for parking spaces and then end up parking 10 blocks away," Campbell said.

"The parking problem is just one example of Burnett's lack of concern," she said.

The student council resignation resolution states that Burnett has "contributed to a low faculty and student morale at San Jose State University by his disregard for departmental autonomy, lack of initiative in meeting student needs for recreation, health and safety, inadequate response to student protests and a lack of respect for student rights and freedom of expression."

The resignation has been a missed opportunity to the administration, she said.

The student council is currently working on a survey of faculty and staff to get a sense of how they feel about Burnett, Campbell said.

Whatever the outcome of the situation, Paul Curtis, Cal Poly's ASI president, said he doesn't believe it will affect Cal Poly.

"I don't see anything like that happening on this campus," Curtis said. "We have a different kind of council, so students have a lot of input on the final say of what goes on here."

He said if the student council at San Jose is concerned about the way their president is running and directing the campus, then they have the right to call for action.

"If what he is doing is wrong, then they must show they are against it," Curtis said. "I think they have taken a sensible approach."

Wrestlers preparing for upcoming season

By JIM ALVERNA
Daily Staff Writer

When a coach looks half of his starting lineup due to graduation, that is usually the signal of a rebuilding year.

This year, the Mustangs are without five of last season's starting wrestlers.

The team ended the season as the national AAU tournament team, a squad that had the greatest dual meet record of Poly history.

One is the wrestlers that helped Poly rank up a 21-4 record including an 18-16 upset over the Iowa State Cyclones.

The Cyclones ended the season as the national AAU tournament team.

Taking a closer look, though, the Mustangs had five Horse show team rarin' to go
