Taxes down the drain

I would like to add that the road is un-

marked, and it is very indirect and con-

taining. I didn't have the slightest idea how

to get there.

I was lucky to meet with those people

who could tell me how to find the gins.

My roommates had to suffer enough with

her condition. It's a good thing she wasn't

critical, I would like to think of it as what

would have happened if she had been:

I would like to request that the Emergen-

cy Entrance be advertised local and

clear. I don't want anyone to go through what

we did.

Maria Wells

Ed.

As a senior student in business ad-

ministration, a medical corpsman in the

Health Center and a chairman of the

Nursing Council, I am deeply concerned about the fact our Health

Center has no proper emergency signage.

Time and time again, students have
come to the Health Center after hours only to

find a huge building with 13 entrances

and locked doors. This is a serious problem

and needs to be rectified now.

The after-hours entrance is located at

the west entrance. The entrance is the entrance

which faces Bishop's Peak. Many

people don't know where the west en-

trance is simply because they do not know

where the east entrance is.

Cleaners top grocery product usage list

BY GARY ZAPLAN
Daily Staff Writer

According to a recent survey published in Progressive Grocer magazine, the findings of Target Group Index's 1977 study of over 16,000 adult shoppers:

The study ranked the 175 most used supermarket grocery products in terms of the percentage of people using the product. Of the top 15 products used, no fewer than ten were cleaners of some sort. These included the top three, toilet paper, face and hand soap, and laundry soap.

Other cleaning products in the top 16 were scouring pads, non-sudsing, American cruiser, and silver polish.

The highest ranked food product in the survey was bread, used by 97 percent and ranked fourth. Other food products ranked were all containers from instant ice cream, American cruiser, canned soups, and salted crackers.

It should be pointed out that eggs, milk, and some meat products were also included in the study.

A number of non-foods like salt, mayonnaise, campuse, pepper, paper towels, and all-purpose household cleaners were used by 90 percent of the people.

The survey also indicates that product sales are depending on the socioeconomic status and employment status, income and age of the American consumer.

The survey is based on Target Group Index's 1977 study of over 16,000 adult shoppers.

The survey included income levels (less than $5,000 yearly to $100,000 or more), age, level, race, and employment (full-time, part-time, or not employed).

Evans brings her ‘happy trails’ to Poly

By DOROTHY NEWELL

While the National Women’s Conference in Atlanta was occupied with abortion and sex education, Dale Evans was in Chico, California, to help promote her new movie, "An Evening With Dale Evans" as a benefit for the disabled children at Cal Poly. Evans’ show was a testimonial of her life, filled with songs of encouragement and the ‘_house of roses’ theme.

At a press conference Sunday afternoon, Evans revealed a decided negative attitude toward what she called “that mess in Houston.”

“The very high salary a woman can have,” said the petite, fair-haired miner, “is to be a good constructive mother raising good children. I’m for equality for women. But I am not for telling women what to wear or how to be. I respect women.”

Evans talked about her disastrous high school career and later, in show business, via radio and film and her 16-year marriage to movie cowboy Roy Rogers. It isn’t love you campus,” was her opening line. “I don’t go in college,” she said. “I went to the school of hard knocks.”

Evans has had more than her share of hard knocks. She was married, pregnant and deserted by her young husband as a high school student in Texas. After their marriage in 1936, she and Rogers lost two adopted children in accidents. She and Roy’s first child, born together, was born with mongolism and died at age two.

Evans began and ended her show with, of course, “Happy Trails,” and presented the fans with a plaque declaring Nov. 17 as “Dale Evans Day” at Cal Poly in recognition of her humanitarian efforts.

Football season closes with win

By CORKY BRITTON
Daily Sports Editor

In what could be called the Polar Bowl, two Cal Poly universities and Los Angeles High headed for the football stadium at Paramount as it now stands.

Visiting Cal Poly Pomona came up short on a late-game rally effort, losing to its in-town-rival by a 26-14 score. It put the Mustangs’ record at 5-4, while the Broncos slipped to 1-8.

The cold night marked several monumental moments for Cal Poly. It was the final game of the 1977 season. It marked the end of Joe Harper’s 15-year head coach and his career, and it also marked the end of Harper’s career as a man who had given many years of his life to Cal Poly.

Also this was the final game of Bob Trudeau, who in February received several awards from students, honoring him and his devotion to sports.

He received an honorary lifetime membership of the Associated Students Inc. A lifetime pass to all athletic events, a lifetime field pass (the first one ever given at Poly), his and her warm-up suits, and a personal team bench for two to sit with the team.

It also marked the setting of college football records for 11 seniors. They include Mike Fuller, Richard Burton, Jeff Jones, Mike Johnston, Rick Haycock, Bob Trudeau, Glenn Hoving, Jim Grinnell, Andre Keys, Kula Kuresa and Jimmy Chase.

Dear Trudeau, it was a night full of memories. Trudeau and Keys had fine efforts during the game. Trudeau scored two touchdowns and Keys scored his first of the season.

Running back Trudeau, who holds the career record for yards running at Poly, ran for 171 yards.

Trudeau made his first career start in the 1972 place where he enjoyed playing football, with 1,200 yards. His place, now, is a place with his education and his place on the Poly record books.

Keys had a game he will long remember. Starting at center last year for the Mustangs, Andre Keys caught his first pass for 69 yards. He caught a 49-yard pass in the third quarter setting up a Boyd Field field goal.

In the fourth quarter, he caught his final touchdown pass of the season on a 11-yard toss from quarterback Bob Amat.

SPORTS SHORTS

Swimming

Cal Poly’s women’s swimming team made good showing last weekend at its first league meet at the Southern California Athletic Association conference meet.

Polly came in fourth overall, only two points out of place. U.C. Irvine and Northridge took second place with the University of Southern California Athletic Association conference meet.

Cross country

The Cal Poly women’s cross country team added another feather to its cap Saturday by running away with the team title at the California A.A.U. club cross championship at Fresno. Polly took first place for the second consecutive year.

Volleyball

It was a sad Friday night for the Bulldogs. University of Southern California Athletic Association meet.

FOOTBALL PLAYER OF THE WEEK

BOB TRUDEAU

Trudeau had his second best career day Friday, carrying the ball 10 times for a total of 175 yards. The West Covina senior scored two touchdowns from his fullback position, returning the ball from the 2 yard line and again from the 16.

ANDRE KEYS

Keys, the 6’ 110-pound senior from San Francisco caught a total of 6 passes for 97 yards in the Cal Poly win over Cal State Bakersfield. Keys, in his final game, passed six points with 6 of his passes scoring on an 11 yard gain.
Head volleyball coach to leave Poly

By JON HABTING

TMTO IS about to be introduced to a new head volleyball coach, the architect behind Cal Poly's highly successful volleyball program. For the last three years, the total commitment, passion, and vision of Dr. Ernest Wheeler have been the driving force of the Mustangs, a team that has consistently placed itself in the upper echelons of the Big West Conference. With the departure of Wheeler, the weight of expectations now falls on a new leader, who will be tasked with maintaining the program's success.

Dr. Wheeler has already secured a job as head volleyball coach and athletic director at the University of Iowa. Along with the head coaching position, he will serve as one of the main ends and coach Poly's men's volleyball. "I didn't have the security of knowing what was going to happen," said Wheeler. "I am disappointed to see him go," said Bandy. "He is a very good instructor and volleyball was a strong suit of his."

TOMO: "I think the first reaction of the players was that I was called out on them," said Wheeler. "But after I thought about it, they feel it was a good idea and were happy for me." Wheeler said he sees no reason why this year's team cannot be as successful as last year's state championing team. This team is very talented, and I think they will be able to handle the coaching change very well," said Wheeler.

The new coach will inherit a first-rate program and facilities, and the Mustangs are going to have to return to Wright College.

Poly cagers trounce Aussies

By DAVID STAFF WRITER

It was a rout for the Mustangs as they trounced the Aussies, 52-39, today. Lane Wood, senior guard, scored 19 points and grabbed five rebounds. "It was a very fast game, and we moved the ball well," said Bandy. "Our defense was good and we moved the ball well," said senior guard Mike Bandy. "Every player got a chance to play in the game and we worked well as a team." Wheeler said, "We moved the ball well, and our defense was good."

The Mustangs held a free instructional clinic and autograph session for elementary school children before the game. Towards the end of the game, the Mustangs broke up a couple of their opponents. They were not happy with the result. "I was surprised at the result," said forward Neil Watson. "I was O.K. this time, but I don't think we did it again."

People don’t remember UFO attack

Chester, Ill. — The 5,000 residents of this quiet Southern Illinois community must have been busy at other pursuits last Aug. 2 because not one can be found who remembers the attack by flying saucers that destroyed the town.

According to a magazine called Official UFO, the town was attacked by a fleet of alien invaders.

Chester’s sheriff-turned-freelance-writer Luke Grahame said he called Channel 2 television station in St. Louis to get Stratigle Air Command jet fighters to repel the invaders, but was unbalanced.

The story recalls that Channel 2 television station in St. Louis held the image of a flying saucer. As everyone had already known, Chester has no city sheriff, but there is a chief of police named Harold Howie. I didn’t have a thing to do with that story,” says Howie.

Getting to know people. From my first few months on the job. I suspect though that somebody nearby told the story. An alien figure, Howie adds that the city government has received calls about the story for the past week.

A headline in the magazine speaks of the looting and burning of Chester and what I have seen, the Health Center appears to have an amazing array of available services. Cal Poly’s Health Center includes an 18-bed hospital, outpatient clinic, pharmacy, oral hygiene clinic, physical therapy, cash center, laboratory facilities, and a mental health clinic.

Included on the staff are 10 physicians, 23 other professional employees, and a support staff of 30 members.

Ultimately, I am so in admiration of Cal Poly’s contributions to any other health facility, Dr. Nash said. These differences are the often-trying people of our world, our group and any dentists mostly create problems.

AS A NAVY ENGINEER, YOU COULD BUILD A HIGHWAY, A PIER, AND A HOSPITAL ALL IN YOUR FIRST YEAR.

As a Navy Civil Engineer, you get responsibility the moment you get the stripes. Responsibility on a wide range of projects, responsibility in every area of construction and engineering management, responsibility in every project and in every area. You must spend your first few weeks falling in with the ship, all hands aboard. Then you will get your three- or four-year obligation. Such is the Navy officer at home, and Navy officers do it again and again.

So be you, and you get more. Become an Engineer. Speak to a Navy recruiter or contact your Professor of Naval Architecture He’ll be glad to tell you how proud the Navy is the best way to build the future.

St. Mary’s University (513) 460-1103 NAVY OFFICE. IT’S NOT JUST A JOB. IT’S AN ADVENTURE.

We’re all the bank a student needs.

If you’re looking for a bank that can do it all for you, chances are you’ll be looking into Bank of America. With a complete range of basic student banking services: College Plan Checking, Personal Choice Savings Plans, and our Student BankAmerica Card, you’ll have the advantage. And now...

Including Consumer Information Reports to provide you with the kind of straight to the point facts you need to know about banking, establishing credit, financing an education, and many other subjects.

Our Reports cover a range of topics. And you can pick up your copy from any one of our many offices. Without obligation.

If you are quite frankly, we want to be your bank. To know how it is we want it to matter. What matters is what you want. And that’s why we’re banking on you. We have been working on it ever since it began.

Quite a few Californians think that’s us. If you look into it thoroughly, we think you will agree. Depend on us. More California college students do.
