Grandma’s House offers unique care

By JOY BERG

A unique child care program between the ages of 1 and 3 has been offered by two child development majors.

In Hubbard and Campbells's program, Toddler's Club during Fall quarter is an innovative setting at Grandma’s House.

"Fall quarter Anne and I were unsure whether or not it was all off. We hired our guardian, Barb Karovich, and the day care was fantastic. It was almost like having the place to have it all, so we incorporated in the program for 1-4 year old, no highchair, no rubber bands.

Grandma’s House is a new child care program owned by Betty Branch, a licensed marriage, single and child counselor. According to Hubbard, Grandma’s House is not just a babysitting service but a comprehensive child care program that allows interaction of students, parents and children.

"Most of our children were involved in the program, while the pupils and maybe a brother or sister. This interaction is what makes Grandma’s House different," said Hubbard.

This Fall quarter Hillman was replaced by Grandma’s House because of its different philosophy on child development programs. "It’s an experience," said Hillman.

Grandma’s House is a one-of-a-kind atmosphere brought about by Hubbard and Hillman in the program. "One in every corner of the room."

The loose, unstructured atmosphere he brought about by Hillman is perpetuated by Hubbard and Hillman in the program.

"Once we do not have that structured, personalized, hands-on environment."

By FRED GUM

Students who park in handicapped zones create problems.

"Illegal parking in handicapped zones creates problems. Students have the attitude that they can park in the spot for a little bit, but it always takes longer than expected," Fleming said.

The enforcement and parking in the California system is to keep spaces free for use by the handicapped. "That means as many as sixty tickets could be written during the day if the other two officers are busy as ambulances as he is."

One of the biggest problems Fleming said that the students and a parking officer are the complaints about the time needed in the tow zone. "At night, some nights are worse than others when the student is in the program."

"We make an effort," Fleming said. "To tow the vehicles away that are parked illegally in the handicapped zone. The only reason there seems to be a discrepancy in parking procedures at a time is because there is a manpower gap."

At night there are no parking officers on duty, only University Police. According to Fleming, when a towing order is issued it usually takes about half an hour for the tow-truck to arrive. While the citing officer waits for the tow vehicle, the other officer on duty cannot get involved in a procedure because there must be one free officer on call at all times. Therefore, Fleming says, if the officer comes across a disabled parked car, all he can do is ticket it.

Fleming said, "Other factors come into play as well, such as the availability of a tow vehicle, or an emergency, which calls for the officer’s attention. University Police officer Wayne Carmack said he has not had unwarranted complaints about students parking in tow zones, but he is aware of them."

"One night I was going to my class on the 10th, and I looked out and saw three handicapped zones taken by students. I yelled out the window and the students left the vehicles," said Wyatt.

Wyatt, who was a student, said he later took the car to the University Police. "They towed the car, but it was in the street so I had to get it down away," she said.
They shared a beautiful gift

Our parents have been friends since the days of the last century. Their children, our grandparents, had been close growing up in the same small town. Our parents, now in their 50s, have been married for 15 years. They have two children, an 8-year-old son and a 10-year-old daughter. They are both deeply religious and have a strong commitment to their family. They have always been devoted to each other and to their children. Their relationship has been an inspiration to many who know them.

But the warmth in the air was enabling. It was a perfect day for a walk in the park, or a hike in the mountains, or even a picnic outside. The sun was shining, the birds were singing, and the air was fresh and invigorating. It was a perfect day to be outside and enjoy the beauty of nature.

There are many different ways to express love and appreciation. Some people prefer to say things directly, while others prefer to do things. Our parents have always been a bit more indirect in their expressions of love, but they have always been there for each other, through thick and thin. They have always been there to support each other, to lend a helping hand, and to offer a shoulder to cry on.

Audiovisual services aid in instruction

By Barbara Chiswell

Diamond Bar residents have long been of concern about any services the university can provide to both campus and family of students.

"To any thing we don't check it out are barred," the university Audiovisual Services Director, C. Floyd Post said. "The Audiovisual Services Department is responsible for all instruction, services and activities." The Audiovisual Services Department of Cal Poly assembles the appropriate equipment for any music, drama, and/or television.

The Audiovisual Services division, located at the rear of the Student Union, is responsible for the classroom, television, "and all in between," said Director of the Department. "But audiovisual services are not just for the classroom, they are available to the campus, department, or any other audiovisual field of study." The Audiovisual Services can also help out in the library or in the president's office, or just on the campus as a whole.

Watson's concert tonight

Concerts are one of the many things that Cal Poly students enjoy. Tonight, students are excited for the concert featuring the rock band, "The Waiting.

The Waiting is a popular band that has been performing for the past few years. They have released several albums, and their music has been played on various radio stations across the country.

The Waiting's concert tonight is sure to be a hit with Cal Poly students. They are expected to perform a variety of songs from their latest album, "The Waiting," as well as some of their older hits. The band is known for their energetic performances and strong vocals.

Don't miss out on this opportunity to see one of the best bands around! The concert is free, so make sure to get there early to secure your spot. The Waiting's concert is a must-see event for any music lover in the Cal Poly community.
Montana de Oro: shadowy past for mountain of gold

By JULIE AUTWIN
Daily High

Tourists, visiting this area, often ask what the shadowy past of Montana de Oro is. The story is simple: the mountain wasonce a source of gold and silver. The mountain is now a state park and is protected by the state of California.

However, the story behind the mountain is much more complicated. Montana de Oro was once a source of gold and silver. The mountain is now a state park and is protected by the state of California.

The mountain is known for its beautiful scenery and its history. The mountain is also known for its rich history. Montana de Oro was once a source of gold and silver. The mountain is now a state park and is protected by the state of California.

The mountain is located in the western part of California. The mountain is a popular destination for tourists and hikers. The mountain is known for its beautiful scenery and its history.

Cancers in the Fear of Cancer

The fear of cancer is often fatal.

American Cancer Society

Sweetheart Ball

On Saturday, February 4th, the Sweetheart Ball will be held in the Engineering West Gallery. The event will feature a silent auction, live auction, and dance. Tickets are available for purchase online or at the engineering office.

Backpack Trip

A backpack trip to Montana de Oro will be held on Saturday, February 4th. The trip will include a guided tour of the area, a picnic lunch, and a chance to explore the beautiful mountain scenery. The trip is limited to 50 participants and registration is required.

Energy

People are generating energy from wind turbines and solar panels. The city of San Luis Obispo has recently installed a wind farm on the outskirts of the city. The wind farm is expected to generate enough electricity to power 2,000 homes.

Yearbook photos

Yearbook photos will be taken on Thursday, February 9th. All students are encouraged to participate in the photo session. Photos will be used for the yearbook and will be available for purchase online.

Welcome to the Montana de Oro State Park!

The Montana de Oro State Park is a popular destination for tourists and hikers. The park is located in the eastern part of California and is known for its beautiful scenery and its history.

The park was established in 1965 and is managed by the California State Parks. The park is located on the coast and is known for its ocean views and its natural beauty.

The park is open year-round and is open daily from 8:00 a.m. to 5:00 p.m. The park features a visitor center, hiking trails, and picnic areas.

For more information, please visit the website of the California State Parks or contact your local park district.

Roman Polanski flees country

AND MONICA (AP)—Roman Polanski’s lawyer told a judge Monday that the fugitive director had left the United States and returned to his native Poland before he learned that a warrant for his arrest would be issued.

Judge Laurance J. Uttonband immediately issued the warrant for Polanski’s arrest and set a £100,000 bond. The director was to surrender to court to be arraigned for a probation violation.

But before noon, lawyer George A. Bowers told a packed courtroom that “Your honor, I received a call from Mr. Polanski informing me he is not here today.”

Bowers, who handled Polanski’s case, said he was scheduled for final sentencing for his sexual offense in four days. The court adjourned and Bowers turned over the case to the prosecutor.

Thurcday, February 2, 1978

NEWsLINE

Heart patients win court battle

WASHINGTON (AP) — A judge to allow them time to pursue their legal case before sentencing.

So said from prison Friday after 41 days of freedom following his trial. The judge said that freedom was not likely to be the judge’s decision.

Younger hits Brown’s record

ORLANDO, Fla. (AP) — The prosecutor for a man who underwent a transplant surgery to hold his left leg says he plans to use the case to highlight the potential dangers of transplants.

The prosecutor, according to the Florida Bar Association, has charged that the man’s leg was not repaired as he had hoped. The man now has a left leg and is still using a prosthesis.

Holmes officials being sued

In a rare move by a state agency, Holmes officials have been sued by a group of heart patients who claim they were denied proper care.

The three patients, who have been in court for two years, are seeking $2 million against the state for transplant failures. The patients claim they were denied proper care.

Redwoods expansion criticized

SAN FRANCISCO (AP) — The San Francisco Chronicle, a major newspaper in the state, has criticized the city’s expansion plans, saying they are not in the best interest of the parks.

The Chronicle has called for a moratorium on the expansion plans, saying they are not in the best interest of the city.

Poly puts dual meet record on the line

By JIM ALFERNAR

The Mustangs wrestling team, led by Robertson, could best their all-time record in their dual meet against Rice.

Robertson, one of the Mustangs' highest ranking wrestlers, said, "It's not too bad. We've won a few dual meets already."
