Advisory housing task force approved

By RICHARD PRICE
Daily Trojan

Official task force to
look into student housing
was approved by
the Los Angeles City
Council on Tuesday night.

The councilors were
overwhelmed by the
local students who
tested their questions
about the proposed
task force in person and
through a pre-written
letter drawn up by
students at Cal Poly.

The task force will consist
of 13 members, including the
city's planning and
housing department.

A mixture of representatives from the
community and the university's
council will be involved.

The task force will be
responsible for public
representatives from a wide
range of community
interests.

The task force will meet
frequently and report to
the City Council at least
every three months.

Councilman Jeff Jerzem, who
voted against the
draft of the
task force's

Woman with gun at Cuesta arrested

Compiled by Tony
Trush, Bill Havron and
Richard Price, Daily
 Trojan staff writers.

A gun-wielding young
man was taken into
custody yesterday after
a shooting at Cuesta
College. According to
information director
Lori L. Cuesta.

The man was
identified as a
student at the college.

According to Eddy Eddy, a
library employee, she
was crouching under a
bookcase when she
heard shots from the
library.

She immediately
rushed to the
library and
notified authorities.

According to
information director
Lori L. Cuesta.

The man was
identified as a
student at the college.

A woman who
was standing behind
a bookcase when
she heard the shots
ran from the library.

**editorial/opinion**

**Spare the redwoods**

Last week, the United States Senate was asked to consider a bill that would save 2,500 acres of Redwoods National Park near Eureka. 

The Senate bill orders the National Park Service to offer preferential hiring to any workers who lose their jobs due to expansion. The Senate bill includes many of the same provisions.

In arguing against expansion, Sen. B. N. Horsley of California said the park was one of the six least visited parks in the nation.

Some say that reflects much of the thinking in this country that equates improvement with numbers. Even if Redwoods National Park were the least visited park in the nation, the expansion should still go through.

For the redwoods are as much a part of America as Yosemite and Yellowstone. Maybe even more so in a way.

At one time in this country's past, there were 2,500 acres of virgin redwoods. That number has now been reduced to 379,000 acres.

It is plain to see a remainder of our past must be saved. The Senate and House Bills tech offer fair and generous approaches to expansion. Only ignorance will defeat them.

Let's hope this does not happen, for our good and for those to come.

**Frustration and helplessness set in**

My Dear Friend,

I only wish I could know today and want you to know our hearts are with you. I too have felt the disheartening and frustration. It is such endurance that they call college. I echo you.

It's been over 2 years since we left high school and you know it's a great way. We were two of a kind in this world - and I believe that two will be more than you think.

But they told us, didn't they? Or, at any rate, the university had me in bad shape. I was one of the tellers of bad news. Fortunately, I've got better.

You say you feel a good reassurance of another 2 years support, too, at times this worried. How many times have you got it? A few years and the real life and you have some hope.

I, on the other hand, am a two-year-old. That's not the same. I write and you have to write a two-year-old. That's not the same. I write and you have to think of someone else, the real life. But, often, too, I have to think more of what's going on.

She was up every day, all right. But then what do they give her? Nothing but a 15-minute lecture. Don't they realize that there are other ways of getting across their points? And in any case, they have to be mindful, endless facts, to do it.

Their heartfelt approach to teaching, I'm getting across ideas, causes, so for us to become humanized in our own way, instead of having our minds reaching out for us, we find all wanting to hide in the comfort that another minute, another few minutes, it will all be over. At least until tomorrow and the day after.

I agree with you there are too many teachers who have no success in being in a college or anywhere else. It's such an important job, they're making such a mockery of it.

It's odd that we can no longer use this word. About the only comforting thing we have are that it will soon be over and of the few truly good teachers who made it known to everyone their worth and their good work.

My Dear Friend,

You have a large general interest in education and that much good work does affect much upon us.

Here's to June and graduates, my friend. Don't let on hurry.

Archie 5-year BA degree phased out

By BOBBY CRAVEN

Daily Staff Writer

When UC Poly officials recently decided to phase out its five-year architecture program or five-year environmental design program, they received an expected reaction from Dean George Bickel of the School of Environmental Design.

"The five-year program was cut because of the sudden decision by the Board of Regents," Bickel said. "We were going through a five-year accreditation program, and they would receive five years toward a license. The five-year program is a necessary program to get a master's degree entitles the student to live abroad and work for a living."

The reason for the change was the 1986 Anderson Commission report on environmental design schools in this state. The report recommended that all five-year programs in the state be turned into six-year programs, which would improve the program in terms of general education and professional standards, provide a better balance between the professional and the general studies, increase employment opportunities, and permit more opportunities for interdisciplinary study and research.

James Basye, president of the University of California Board of Regents, does not agree with the change. "I think accreditation is the right thing to do," Bickel said. "I think it's an architecture program that was accredited by the National Association of Schools of Architecture. And when they advised students to move on, the five-year program, they didn't give them any guidance."

The faculty also tried to convince the students, but they didn't respond. They said, "We are concerned about the students, and we have to do what's best for them to get into graduate school and meet professional standards, provide general education and to permit more opportunities for interdisciplinary study and research."

The Board of Regents at Cal Poly has decided to phase out the five-year program at Berkeley and start most of their students in the third year. As for Holy students, it is a very difficult situation for the students to change their major, because they are urged to change their learning environment.

Academic overloads studied

A committee to check academic overload valuations by Cal Poly students has been established by the Academic Senate.

Chairman of the committee, math professor Harriett Grossberg, said the purpose of the committee is to check requests received by the senate that certain departments and individuals have been teaching an excess of classes.

Grossberg said the committee found that the maximum load was the maximum load that should be allowed. The executive committee of the Academic Senate found that it was weighted teaching units is the limit, he said.

Grossberg was asked if there was a number the faculty agreed upon. "If you put it to professors in one room you would have 10 different answers," he said.

"There hasn't been much we can do. The committee needs additional funds to look into the matter in greater detail," he said.

Race deadline

Friday is the final day to enter the annual Milk Carton Boat Race.

Entrants must use milk cartons or containers for buoyancy and be powered by oars, paddles, outboard, or water wheel. The use of motors or electrically operated motors are not allowed.

The annual event is sponsored by Los Lecheros. Rules and entry forms are available in Ag 123, or by calling 546-8253 or 546-8262.

The trauma of adolescence

Loneliness in one heart can bring tears to the eyes of an entire audience. "The Member of the Wedding," opened at Allan Hancock College Tuesday night in a packed house and a standing ovation.

The play takes place in a small town in the midst of World War II, but focuses on the pain and trauma in the life of a 15-year-old.

Frankie Adams, an intelligent comic played by Melinda Dans, captivates the audience with every appearance. As a towering pre-teen, Frankie decides to change her image and act as a woman.

Her appearance in a gaudy orange formal and bobby socks brings disapproval from the maid, played by Johanna Jacob.

Review

by Virginia Saxe

"I'm not accustomed to seeing a human Chestnut tree in August," she told her confidant in lernin*

"I wish I were more like her," she said. Frankie can't comprehend the dependence on - a woman.

Johanna Jacob is too early in her role as Berenice Beuken. Berenice is Frankie's surrogate mother and for Frankie the adoration she so desperately needs.

"Start a club for your son; don't be president yourself," she tells her. The play is presented by the Performing Arts of Allan Hancock College, and is directed by Carlo Cuglio.

The Pacific Connectors of the Performing Arts of Allan Hancock College will present their third production of "The Member of the Wedding" through Feb. 18.

The play is staged in a PAPA's Studio at Santa Maria. For box office inquiries call 544-8250. No advec is required.

2' houseplants $1.00
9 Bare Root Roses only $1.00 each
Specials on outdoor ornaments
Store Hours 9:30 pm.

Also: "Our Sweetheart Special" two flowers in an unusual vase with inscription one for love one for friendship Guaranteed to win her over available 11,12,13,14 Rhy Plant Shop hours are 11:00 am-5:00 pm.

Buy your gifts from our regular Mustang advertisers.

And tell her/him you care in a special Valentine's Day ad in the Mustang - ads of one column inch only $2.00 and they'll run under a Valentine heading in the color of the day.

The day. No ads taken after Friday, 4PM. Place your ad in person at Room 226, Building 26.
Budget approval takes time

By SCOTT CRAVEN
Daily Victorville

The approval of the fiscal 1978-79 school budget is a lengthy process that involves many meetings, hearings, and discussions. The budget process begins in January, and a tentative budget is usually presented in February. The budget is then reviewed by the school board, which typically meets four times during the budget process. The budget is usually approved in June, after a review by the state board of education.

The governor looks over the board's request and figures out the total budget. The governor must have the budget turned over to the legislature by June 15, or it may be disallowed. The budget must be submitted to the Board of Education. They will review all of the program changes and cuts that the school district has made in order to fund the budget. The governor must ensure that the budget is within the limits set by the state budget.
Grapplers face Bulldogs

Cal Poly has been taking it on the chin from Fresno State University this season. The Bulldogs revenge the Mustangs in football 36-14 and again beat them down in basketball 85-74. Fresno State beat out the Mustangs in season country and won the 10000 meet between the two schools 5-2.

Poly did manage a 1-0 tie with D-B Bulldogs in wrestling...that is the most positive showing of the year for the Mustangs, at least.

The TI-57. The super slide-rule that’ll get you into programming... fast and easy.

Even if you’ve never programmed before.

For the student who requires slide-rule functions, the TI-57 delivers an exceptional combination of advanced mathematical and statistical capabilities. From functions such as trig, logs, powers, roots and reciprocals...to mean, variance, standard deviation and much more.

And as long as you’re in the market for a super slide-rule calculator, why not buy one that can also put the power, speed and convenience of programming at your disposal?

Programming a calculator simply means giving it a logical set of instructions for carrying out a given task. A key to programing a calculator is to be able to break down a problem into smaller sub-problems and use them to solve the entire problem. The TI-57 has been designed to make this process easy.

All of the TI-57’s operating instructions are included in the instruction manual. The manual is easy to understand and provides a step-by-step approach to solving problems.

The TI-57 has a built-in user-friendly programming function that allows you to easily enter your own programs. This feature makes it easy to add your own personal code to the machine.

The TI-57 is a powerful tool that can help you save time and effort in solving complex problems. It is an ideal tool for students who need to perform mathematical calculations or students who require a tool for general programming.

DEFENDING CALIFORNIA COLLEGIATE ATHLETIC ASSOCIATION BASKETBALL CHAMPIONSHIP TOURNAMENT...

The Mustangs are the host for the Western Regionals at Fresno State University in early March. Results of tonight’s individual matches will influence seeding for that tournament. The regional tournament is especially important because of the fact that it is the corridor for the national tournament.

The Bulldog’s revised the Bulldog’s invade the Main Aquad.

Poly crucial matches

Defending California Collegiate Athletic Association basketball championship must face Poly this weekend; head on Friday when Poly hosts Cal State Bakersfield. Game time is 7:00 p.m. Friday is a parent night with all Cal Poly students admitted free. Presentation of student body P.O. an each match.

On Saturday night the Mustangs are host to U.C. Riverside in an 8:00 p.m. conference game. All in attendance will have the opportunity to purchase the Mustangs 1978-79 game program containing a complete statistical and photographic recap for $1.00. In addition, Poly alumni who have not supported the Mustangs in recent years will be invited to return to the University and purchase a copy of a current membership card at the door.

This weekend’s games begin the second round competition in the CCAC. The Mustangs, along with Cal State San Bernardino and Cal State Poly Pomona are all tied in the standings with 5-0 records. Cal Poly has won 5 straight matches over the Mustangs and has entered the tournament with a 5-0 record. Cal Poly has 4-0 record in CCAC play and a 5-0 overall record. The Mustangs have yet to win a tournament this season.

NBA ticket prices

It may go to professional basketball games there are literally no tickets available to the fans. The owners charge what the market will bear, and the market will bear what the owners charge.

The New York Knicks, who refused to provide F.A.R.S. with ticket information, 1977 average ticket price on the strength of their season tickets. The New Jersey Nets charged an average of $6.50.

The Seattle SuperSonics, among the NBA teams, sold tickets at a lower average price. The Seattle average ticket price is higher than the average ticket price of the NBA teams, the Nets are at $6.50, and the Seattle SuperSonics have been at $8.50. F.A.N.S. reported last year that the Seattle SuperSonics average ticket price is 94.

Top rank in the league, four other NBA teams—New York Knicks, the New York Nets, the New York Yankees, the Chicago Bulls and the Boston Celtics—also reported ticket information in their 1977 media guides.

All teams were asked to provide information on the number of seats sold in each category, the number of seats per game, the average price per game, the average price per game, and the average price per ticket. The teams did not cooperate by providing information on the ticket price.

In addition to having the highest average ticket price, the Knicks had the top one in the NBA—$13.40. The Cavaliers and the Golden State Warriors had a smaller number of seats at more than $10.00, but not enough to be considered the leaders.

The New Orleans Jazz sold both the most tickets and the lowest top price in the league at $4.45, but the Baltimore Colts sold them for $4.95.

The mid-range pricing in the NBA is provided by the Seattle SuperSonics, who appear to lead the league in the largest average ticket prices. They sell their tickets at a higher average price than the other teams.

The Seattle SuperSonics appear to lead the league in the largest number of tickets sold. After the SuperSonics, the Seattle Sonics sell the most tickets. The Seattle SuperSonics sell the most tickets, and the Seattle SuperSonics sell the most tickets.

The Seattle SuperSonics appear to lead the league in the largest number of tickets sold. After the SuperSonics, the Seattle Sonics sell the most tickets.

Housing task force

(continued from page 1)

He added, however, that the task force should confine itself only to the issue of housing and not to matters such as community-university relations. He said limiting issues would avoid a common tendency of committees to “do nothing at all.”

Kennedy recommended that any university-community problems should be taken up by a separate committee.

The university president also denied previous charges by council members that his administration has been irresponsible in allowing enrollment to increase without planning for adequate housing. Noting that Cal Poly is the only university in the state system to restrict students to other campuses, Kennedy said the university has been growing at a rate of 1500 to 2000 students a year. Kennedy said he is not sure how the task force’s membership will be determined as long as the essential idea is preserved. “And the sooner the better,” he added.

Albert argued that it more-than-three ordinance, which would weaken enforcement of the University’s enrollment to increase without planning for adequate housing. Noting that Cal Poly is the only university in the state system to restrict students to other campuses, Kennedy said the university has been growing at a rate of 1500 to 2000 students a year. Kennedy said he is not sure how the task force’s membership will be determined as long as the essential idea is preserved. “And the sooner the better,” he added.

Albert argued that it more-than-three ordinance, which would weaken enforcement of the University’s ordinance*.

But Councilman Jorgensen said no action is being taken on the more-than-three ordinance until the City Planning Commission takes a vote. That would appear to be a reaction to reports from the City Planning Department that letters have already been sent to landlords advising them of the ordinance.

Not everyone at the hearing agreed with the idea of a task force. Homeowner Sylvia Drueker, a resident, said the housing shortage is really the university administration’s fault. She said students should petition the university to provide more housing.

As to the formation of a task force, Albert said, “We cannot allow a dilution of law.”
