Tuaaday, April 4, 1978

BLASTS ORDINANCE

Lambert said city officials had failed to meet the needs of residents by not enforcing the ordinance. Lambert said the city had special housing permits. City officials have been exempt from the law that requires them to live in the city. Lambert said its officers had also failed to meet the needs of residents by not enforcing the ordinance. Lambert said the city had special housing permits. City officials have been exempt from the law that requires them to live in the city.

Task force shunned on issues

By SCOTT CRAWLEY

The San Luis Obispo City Council set up a temporary task force more than a year ago to study housing and its impact on the city. But one of the most important changes in the city since 1977 was not addressed by the task force, according to a city official. The official said the task force had not addressed the issue because it did not have the authority to do so. The official said the task force had not addressed the issue because it did not have the authority to do so. The official said the task force had not addressed the issue because it did not have the authority to do so.

The city has no responsibility for student housing, Aaron Arimi. Arimi said that up to 1977, students had been housed in abandoned buildings or tent camps. Arimi said that up to 1977, students had been housed in abandoned buildings or tent camps. Arimi said that up to 1977, students had been housed in abandoned buildings or tent camps. Bike safety

classifieds

They are parked on lawns, on stairways and in hallways, and are in garages and in the middle of the street.

According to campus bicycle regulations, bikes belong in bicycle lanes or parked in proper bicycle racks.

The other afternoon I was surprised to see a student pedaling through the hall. Then I recognized him as the same person who had received two tickets for failing to stop at stop signs. He seemed to be engaging in "the bicycle mentality". "No stop, no stop."

Too often bicyclists ignore long established rules of the road. They take dangerous risks that can affect the lives of others.

Nation wide bicycle-related accidents are registering the half-million mark annually. About 1,000 and accidents involve bicycles, mostly resulting from collisions with other objects, especially cars. Many bicycle signs are rising, as means of regulating traffic.

Senior projects enhance Cal Poly

By JAMIE FRAY
Daily News Writer

Senior projects, which are required by every student, can become a permanent part of the Cal Poly campus.

A senior project on Cal Poly's campus may be seen in the form of play structures for children in the child development department, the library walkway, shaded seating areas, and the amphitheater behind the music building.

Many have 11 senior projects have been constructed in Poly Canyon. These include a stress release structure, a concrete bridge, an arch formal restroom facility and even a steel bridge base.

According to Paul R. Noel, director of family in the School of Architecture and Environmental Design, articles and booklets of the senior projects have appeared in Life Arts and various trade journals.

The steel bridge base was awarded a national award for its use of steel and aesthetic design.

She's not board with spring

Photos by Dennis Steers

"Generally the students start thinking about their senior projects two quarters prior to the quarter they are going to be done," said Noel.

"All the materials for the projects are donated. The students have to attempt to build their projects within the last two quarters of school.

"They build an experimental structure of some sort that has not been done before or attempt to solve some sort of problem," said Noel.

A senior projects built in Poly Canyon, Noel explained, was the ArtCarved representative will be here to select your ring. You can charge your purchase on Master Charge or BankAmericard.

Men: We’re introducing three new men’s rings for men that make a new college jewelry statement. They’re bold, contemporary designs that go well with today’s lifestyles.

Women: We’re introducing three new rings for women to give you a choice of femininity, smaller in scale, contemporary to go with the kind of clothes you wear today.

Come to ArtCarved Ring Day.

It's a busters are our thing, too. We've got one selection of traditional oval rings and we have tradition is your way, see our collection. the ArtCarved representative will be here to select your ring. You can charge your purchase on Master Charge or BankAmericard.
What you eat now will affect you in the future.

That’s what senior dietetic major Phillip Phillips said she would often tell students. "When I go through the snack bar I see trays filled with a lot of convenience items and junk food," said Phillips. "Many people are unaware of the importance of nutrition." 

"Good nutrition is very much a health factor now and preventive medicine for the future," she said.

Phillips defined good nutrition as maintaining a well-balanced diet throughout the day. A well-balanced diet includes items from each of the four basic food groups: meats, vegetables, and fruits, dairy products, and breads and cereals.

"It's not a good practice to consume any one of the food groups in a diet," Phillips said. "People often try to lose weight by cutting out carbohydrates, according to Phillips, carbohydrates are important because the body needs an immediate source of energy and help the body use other nutrients.

"If you don't have carbohydrates in your diet, you end up utilizing the protein and fat stores as your energy source." Protein should be utilized as the body's energy source for repair.

"Phillips said eating whole wheat bread is a good practice and contains more fiber than white bread.

"A lot of students get up in the morning, skip breakfast, and then they are going to be hungry at lunch," Phillips said. "Just as carbohydrates are important, so are proteins, and the most important foods are fruits and vegetables. "

"When the body runs better, you can eat certain foods throughout the day. If you don't eat breakfast, you're going to be hungry at lunch and then you're going to gorge at dinner," Phillips said.

Good nutrition should last for a lifetime.

By CAROL EVANS Special to the Daily What you eat now will affect you in the future. That's what senior dietetic major Diane Phillips said she would often tell students. "When I go through the snack bar I see trays filled with a lot of convenience items and junk food," said Phillips. "Many people are unaware of the importance of eating right."

Phillips, a nutrition counselor at the Student Health Center, said people need to consider the long and short term consequences of what they eat. "Good nutrition is very much a health factor now and preventive medicine for the future," she said.

Phillips defined good nutrition as maintaining a well-balanced diet throughout the day. A well-balanced diet includes items from each of the four basic food groups: meats, vegetables, and fruits, dairy products, and breads and cereals.

"It's not a good practice to consume any one of the food groups in a diet," Phillips said. "People often try to lose weight by cutting out carbohydrates, according to Phillips, carbohydrates are important because the body needs an immediate source of energy and help the body use other nutrients.

Brown says Jarvis is 'a trap''

WASHINGTON (AP) — Gov. Edmund Brown Jr. said yesterday the Jarvis initiative is "a trap" that will eventually ruin the state, while Republican challenger Dan Evans charged that Jarvis is a "mogul for the taxpayers of California."

Brown and Evans plashed heads over the tax issue, November 3 on the June ballot, in separate appearances before the Association of Manufactures convention. The two men were among about 500 candidates for governor, criticized both Mr. Jarvis and his initiatives in the campaign.

Mayor Pete Wilson told the Republicans that he would sign the Jarvis bill if important, but before he had been signed to Proposition 13, which he said he opposed.

LA Olympic bid in jeopardy

LONDON (AP)—Los Angeles is moving toward a head-on conflict with the International Olympic Committee and it is in danger of losing its bid to stage the 1984 Summer Games against a rival bid by Tokyo, officials said yesterday.

Los Angeles is bristling with anger over the tone of Los Angeles' P. B. Smith's questionnaire. The Associated Press said yesterday that the Los Angeles P. B. Smith's had been asked for the purpose of evaluating Los Angeles' bid.

"There is no case for a law as we are eliminated," said Mr. Jarvis, the main rival of S. C. Smith's, who is in charge of the Los Angeles bid.

"I am trying to stop us, we will fight them too," Mr. Jarvis added.

Tax hikes favored, poll shows

NEW YORK (AP) — Most Americans support the year's bill to raise state and local taxes even though members of Congress and the public are clamoring for a busing of the tax issue.

A random sample of the national public last week favored state and local tax increases by a 52-to-48 margin, and 47% said they were "certain" or "very certain" that Congress and the states would raise taxes in the coming year.

A recent survey found that 56% of the public are "certain" or "very certain" that Congress and the states would raise taxes in the coming year.

Sundesert plant future unclear

SAN DIEGO (AP) — The threat to build the smelter that the smelter plant in the desert became more uncertain yesterday when the San Diego Gas & Electric Co. announced that it would not be able to build the smelter.

The San Diego Gas & Electric Co. announced that it would not be able to build the smelter.

"We are very pleased to announce the decision of the San Diego Gas & Electric Co. to purchase the smelter," said Walter A. Brown, president of the smelter.

The smelter plant was planned to be built on land west of the San Diego River.
Poly loses again—fourth in a row

By WILL GRIMSMALY

But who is the greatest fighter of any era? Poly loses again—fourth in a row

By MAX HENDRIX

Special to The Daily The 11th has ended but the game isn't over for the Cal Poly Mustangs.

Tuesday night the Mustangs dropped a 6-4 loss in to the Mustangs of Fresno State. Poly has lost in last four outings, but every time they battled back to have a chance in the 6th and six innings to lead 6-4, the Mustangs pulled away. Today at Northern California's home game, the Mustangs split the series at home, winning the first game 3-0 and losing the second game 8-3.

POLY LOSSES AGAIN—FOURTH IN A ROW

The Mustangs have had 11 losses in 15 games this season. The Mustangs are 6-4 in the first game of the season.

WHO IS THE GREATEST FIGHTER? SUGAR RAY LEONARD

By BILL GRIMSMALY

EL CORRAL BOOKSTORE has the Super Scientific Calculator for $27.95

suggested retail $34.95

This 8-digit multi-line/2-digit exponent scientific calculator is thin and compact enough for engineers, mathematicians, scientists, and students to use it anywhere. Special double-column keys give fast answers to trigonometric, inverse trigonometric, hyperbolic, logarithmic, statistical and algebraic calculations. Other features include a 14-segment memory, double-function % key, extra-battery protection with automatic power-off function, DEG/GRAD/GRD/SELECT switch, and much more. The PEL liquid crystal display is easy to read and consumes very little power. Nearly 1,000 hours of operation on two silver oxide batteries.

A battery indicator tells when batteries must be changed. The metallic finish and attractive leatherette case Simulate style and practicality. All from Sharp, a pioneer in the field.
Poly plays well against tough Spikers

By Jim Allenman
Daily Sports Writer

The outcome was determined before the Poly match began. The
Wilton boys' basketball squad was still smarting
from a loss at Muetang in the league playoffs.

The Mustangs, who had defeated the Bears in a
surprising upset last Saturday, were favored to win
this game, but they had had a rough week, losing
twice in three games. The Bears were also in a tough
spot, having to win to stay in the playoff hunt.

The game started slowly, with both teams
playing defense. Poly won the first game, 52-49,
and the Bears took the second, 47-44. In the third
quarter, Poly took a 34-27 lead, but the Bears
responded to tie the game at 41. In the fourth
quarter, Poly pulled away, winning 61-54.

Best fighters continued

De Anza

The De Anza men's tennis team squared off against
the Mustangs on Monday night. The game was
close, with Poly leading 4-3 after the first four
doubles matches. In the final singles match, De
Anza's Randy Smith won 6-4, 6-2, giving the team
the victory.

Tennis team surprised by

De Anza

The Poly men's tennis team was surprised by
De Anza on Monday night. The Bears, who
had lost their last three matches, rallied to take
the final doubles match, 6-2, 6-4, giving them the
winning edge.

Football notes

Wilton's middle hitter Paul Draper

Wilton noted that the Mustangs' middle hitter Paul
Draper was a key player in the match. Draper
recorded 11 kills and 12 blocks. His performance
helped the Mustangs to victory.

Sports report

Wilton's middle hitter Paul Draper

Wilton's middle hitter Paul Draper was a key player in
the match. Draper recorded 11 kills and 12 blocks.
His performance helped the Mustangs to victory.
