Redesigning the Galerie

By SUS BONNER
Daily Night Editor

A collection of student design projects from Monday night at the University Union Galerie.

The Fifth Annual Graphic Design Show displays the best work from three art communications classes, one of the show's jurors.

Display categories are the most important used in the works. Handwriting, word design, drawing, lettering, corporate identification, poster design, packaging, design communications, paper sculpture, and other designs and advertisements are included in the show.

The works were selected by four art professors for the exhibit. Student submitted projects were accepted at the show. Designs and advertisements for the exhibit were designed and supervised by the students.

About half of the art submitted was selected for the show, according to Janis Baker, a student's show displayed about the same amount of work, but only 100 works were submitted for the exhibit this year, so said.

The limited space the designs were made to fill to visually fit the space, and only 100 works were submitted for the exhibit this year, so said.

The judges were done as a process of elimination, until only the best remained for the show, according to Janis Baker, a student's show displayed about the same amount of work, but only 100 works were submitted for the exhibit this year, so said.

The annual show begins in late July and continues until the end of the school year. About 100 to 120 students are expected to compete in the show. The annual show ends in late July and continues until the end of the school year. About 100 to 120 students are expected to compete in the show.

Absurdities poked

According to Packer and Wagnalls, absurd means "full of or characterized by contradictions; nonsensical; ridiculous." The meaning is also defined as "unbelievably silly." "Absurd" has a similar connotation to terms like "peculiar," "dubious," and "fantastic."

These two words combined describe a situation where people have a hard time seeing the truth. The problem is that many people want to have their beliefs and opinions validated, but they don't want to challenge them. This leads to irrational and impossible situations, especially when people are talking about matters of importance and their reasoning is faulty. Because of this, making the opposite makes it a "peculiar" situation.

The famous quote "Absurd" by Albert Camus is a great example of how people think about life and the world. Camus believed that life was absurd and the only way to deal with it was to accept it and live a fulfilling life. This is a famous example of how Camus described the absurdity of life.

The absurdity of life today is that people are too afraid to think about the possibilities of the world. They are too afraid to think critically and speak their mind. Instead, they are afraid of being misunderstood or labeled. The absurdity of life today is that people are too afraid to speak their mind about the issues that really matter. They are too afraid to stand up for what they believe in, and they are too afraid to take action. This is the absurdity of life today.

Poly life looks good after trip north

With all the troubles that have been going on about almost nothing, student life on campus has been lively, and all the other problems seem to be minimal. The only way to keep up with a lively atmosphere is to go away for a week. Don't you just love it when you hear news that things are going to be better? You can edit some of the news of the past few days, but one can't help but wonder about the most part of that at least some of it is in the beauty and even more is in the ground that is less dangerous than alcohol. And don't forget ourinky number one drug problem in America today is alcohol.

Now let me say I've always thought Berkeley was where I really belong, but after spending a week in Berkeley I can't help but wonder if I really do. But I haven't had a chance to see much of the campus, but I've met some people who seem to be very nice. I think I might try to look at some of them as constituting a ghost.

The real indication of my growing interest came Sunday when my college roommate at Berkeley was going home to Oakland. We were sitting at a table in the front room when Jim mentioned something to Anne about two women who were looking for a job. He was interested in telling them about our dream house, which he has been working on for the past few months. The house is going to have a swimming pool and a garden. A word posted into my attic, and the dream house will have cost a whopping $237,400, which $80,000 in interest will take 20 years to pay off, which he said would be money to pay off the house in leisure.

In the end, this is how these great dreams with no money whatsoever can be turned into reality. I'm going to be a world-famous economist and a winner of 61 Pulitzer Prizes, and I was going to be working for his parents, going to Cabritto College (our local community college), and not really going anywhere.

But I did. And I really thought they must be sane, but I was never one at high school for a lot of years! Why do dreams disappear as we get older?

Respite from Poly gives insights

We complain about Cal Poly a lot, don't we? Regrettably, student rebellion is the only way to make ourselves heard. And so on, of course.

But this is what happens when you complain about the place you are in. The university isn't perfect—but then what is?

Have you ever thought about what you are complaining about? Are you really just complaining about the things that make you want to leave? Don't you think that the best way to make yourself heard is to start changing them?

One of the first things I did when I went to Cal Poly was to get a job. I was doing a lot of work for the college and some friends, just to see what they were like. I was making $100 a week, which was quite good, but it was not enough to pay for my rent.

I was one of the lucky ones who was going to be paid. I was able to pay my rent with my earnings. But I was in the high school and I was angry with the things that I was learning, and I was trying to find a new way to live. He was going to be a world-famous economist and a winner of 61 Pulitzer Prizes, and I was going to be working for his parents, going to Cabritto College (our local community college), and not really going anywhere.

OUR READERS WRITE...

Dear [Editor):

I wonder if it's possible that when you see Poly's great new badminton court, you realize that the track team's "new" track isn't so new. I understand that they attempted to build a new track, but apparently it was more difficult than expected. I heard that the new track is now under construction, and hopefully it will be completed soon.

Sincerely,

[Name]

Enrollment is up. The schooers are in a state of being over-worked. Housing is more difficult than ever. And then there is the problem of on-campus parking.

It is obvious to those drivers with classes between 7 a.m. and 1 p.m. when finding the last spot paid for is not as convenient as they had hoped.

When the plan of lettered laterals was introduced last year, it was believed the parking conditions would improve. This is far from reality.

The foot is the lettered lateral in the lower right-hand corner of your windshield is nothing more than a constant reminder that you have to be careful.

There are several realistic approaches to alleviate this situation. To begin with, issuing only the number of tickets as there are parking places would eliminate the need of having to comb the lots trying to find an opening.

Another approach would be the construction of new parking lots or expanding existing ones. The revenue from the lettered laterals and those costly parking tickets should be used in the creation of new parking areas, rather than for the salaries of officers to issue violations.

It seems to this writer that the ultimate answer would be to limit enrollment to the resources available on campus, rather than over-taxing the system in its entirety.

There is a unique environment here at Cal Poly. Population growth can be maintained at a reasonable level by putting a ceiling on enrollment. Action is needed now, before any solution becomes unattainable.

Patrick McDermed

LOOKING FOR A QUIET ENVIRONMENT?

If you are serious about school, studying and quiet living, come on over. We welcome qualified applicants!

ARE YOU TIRED OF:
- Noisy Neighbors
- Loud Parties
- Barking Brows
- Dorm Food
- Cramped Quarters
- Interrupted sleep
- Being Bugged when you want to study

If you are serious about school, studying and quiet living, come on over. We welcome qualified applicants!

COMPARE THESE FEATURES:
- 1 and 2 BR, 2 and 4 Person Furnished Apartments
- New This Year
- 8 McNair Leases (for the 3 BR)
- Four Floor Plans To Choose From
- Electric Company Between Floors
- Double Studded Party Walls
- Low Utilities
- 7 Minutes Walk To Campus
- Heated Swimming Pool
- We Pay Hot Water
- Parking Pay Plan
- Close To Banta Rose Park

Thorough Screeing, References Required; 24-Hour Management Supervision.

Frat fosters ASI heads

By TONY THOMPSON
SUN Editor

A Cal Poly fraternity appears to have become the first brewer to hold a beer within the CSU campus.

The last two presidents have been members of Alpha Delta Phi, and ASI members, John Jones, president and John Smith, were both ASI members, and the third in line to hold office was an ASI member.

ASI is a professional organization and is composed of members who want to continue their lives after college. According to Jones, ASI members will be the leaders of tomorrow, according to a brochure.

In addition to the ASI members, the ASI officers-potential and future ASI members will be the leaders of tomorrow, according to a brochure.

Curley has appointed Curt's Alumnae Association positions during his presidency's term.

If you've got two years left in college, you're probably giving some thoughts to after-college life. If you're interested in learning more about the Army ROTC, you're in luck.

The Army ROTC has prepared a briefcase for your life after college. Stop by the department and get a briefcase for your life after college.
Shop’s miniatures reflect colonial era

by Ruth Allen

Mrs. Lula McNaughton’s doll house in downtown Arroyo Grande is a small but detailed world of early 20th century America.

The doll house which is 30 years old was purchased in Portland, Oregon in 1947 after Mrs. McNaughton attended the World’s Fair in Portland.

The doll house is small but is built with great care and attention to detail. It has a chimney, a step downstairs, and a working door. The windows are frosted with paper and the walls are lined with a small white wallpaper. The furniture is all handmade and includes a tiny bed, a desk, and a chair.

Mrs. McNaughton has a collection of dolls that she uses to decorate the house. She also has a collection of miniatures that she uses to fill the house with tiny objects. The miniatures include a small Bible, a tiny clock, and a tiny vase.

The doll house is a small but detailed reflection of early 20th century America. It is a testament to the attention to detail and the care that is put into creating such objects.

The state capital in Sacramento is in the midst of a long renovation project. (Daily photo by Dennis Story)

By TONY TRANA

Sacramento, CA - It's the land of the Sacramento, site of the Chinatown and the downtown area. It's the place where you can have a good time, enjoy a good meal and have fun. It's a city where you can experience the real America.

In the midst of a long renovation project, Sacramento is growing. The state capital is located in the heart of the city. The state capital is located in the midst of a long renovation project. Poly Royal previews:

Hot rodeo competition:

Hot did you know that the Poly Royal Rodeo is only a few weeks away? The Rodeo will be held in early May. The Poly Royal Rodeo is one of the largest rodeo events in the region. The Rodeo will be held in early May. The Poly Royal Rodeo is one of the largest rodeo events in the region.

Poly Royal business:

The Poly Royal business is getting ready for the Poly Royal Rodeo. The rodeo will be held in early May. The Poly Royal Rodeo is one of the largest rodeo events in the region.

Juniors!!

If you are a junior majoring in math, physics or engineering, the NAVY has a program you should know about.

Tractor pull contest:

Party trucks from all over California are expected to compete in this year's Poly Royal tractor pull. The tractor pull has been held during Poly Royal since 1978. This year the contest will be held at 11:00 a.m. on both April 21 and 22 on the runway of the former Poly Airport.

PolyGE employees accept anti-nuclear info

By DOD WILSON

The PolyGE employees are slowly moving toward energy alternatives. Many of the employees are supportive of energy alternatives. "I think we've got a real chance to make some changes in the way we run our bus just by looking at the alternatives," said one employee.

The leaflets contain information on the proposed nuclear power plant located at the Palisades Nuclear Power Plant in Michigan. The leaflets were distributed through the PolyGE employee relations office.

"If you have any questions, I'll be happy to answer them," he said.

GET INVOLVED NEXT FALL

Come to the STUDENT INVOLVEMENT CONFERENCE Saturday, April 21 at 8:00 a.m. Room 320, University Union.

Learn about opportunities for membership in University committees such as computer, data processing, international education, facilities use, food services, parking management, graduate studies, recreation, co-curricular plans, etc.

You'll hear about opportunities for students on committees of the Academic Senate such as instruction, curriculum, personnel policy, general education and breadth, library, etc.

You'll learn about the Staff Senate and its student affairs committee.

AND, you'll find out about the many openings in student government from Paul Curtis, Larry Robinson, Bob Walters and Jimmy Nault.

All Candidates and their campaign managers have been asked to be in attendance for the complete student involvement workshop/candidates meeting. 

• You do not have to join anything.
• You do not have to sign anything.
• And the donuts, coffee, and orange juice are free.

SATURDAY, APRIL 22
At 9:00 a.m. Room 220
Meatless menus compose valid diet

By PAULA CHAMBERS
Daily Staff Writer

If you feel heavy and sluggish after a meal, and if meat is a daily consequence in your life but it's price are, maybe vegetarianism may be a valid way of eating, and can be done in a healthy manner.

"Vegetarianism is a valid way of eating, and can be done in a healthy manner," said Phillip A. Philipos, director of The Daily Diet Counseling Center.

"A person should not be confused for being a vegetarian. The only difference between a vegetarian and a non-vegetarian is that the vegetarian does not eat meat," Philipos said.

"Vegetarianism is a valid way of eating, and can be done in a healthy manner," Philipos said.

"Vegetarianism is a valid way of eating, and can be done in a healthy manner," Philipos said.

"A person should not be confused for being a vegetarian. The only difference between a vegetarian and a non-vegetarian is that the vegetarian does not eat meat," Philipos said.

Poly percussionists elude the gong

Speaker explores creative source

FIVE MEMBERS OF THE PERCUSSION section of Cal Poly's Symphonic Band performed on "The Gong Show" recently. Clockwise, they appeared on television as the daytime version of the "Gong Show." The second show is scheduled to appear on the evening show May 11. Members are Brian Lindgren, Hoyt Vetter, Jeff Jones, Bill Hara and Rick Rolchel. (Daily photo by Laurie Brasil)

"The whole thing started a couple of years ago when the drummer for the symphonic band, John Bob, wrote the piece," said Jones. "It was originally for a quartet, but we later arranged it so that all of us could perform it." The piece is written and performed as a symphony according to Jones. When the group performs, it is in three acts:

"It had performed as a one-hour show, but that was all, it wasn't much," said Jones. "The show was a whole week in the act, and we were the last act on the bill. If anyone didn't want to see the show, they were asked to stay for the singing of the show. "We set this in a big warehouse for about eight hours waiting to be called."

The piece begins with a whole week at each act, and the group has never had a lot of fun watching the groups prepare. Said Jones, "When Master of Ceremonies Chuck Morris is not prepared, he has a lot of fun withing the groups. . . ."

"At least they gave us a beach and dinner," said Jones. "But we were never asked to stay for the singing of the show."

The piece performed on "The Gong Show" was the first in its survey. Jones said he is to use this piece to explain the requirements for an all-girl band and down in one weekend. "Then we asked for their participation, and the group planned a week's worth of shows."

A sporting view

A weekly column in the Daily

Ouch!—A budget cut of $1,687 from the men’s athletic fund by the ASU has left several Cal Poly sports out in the cold. Perhaps the cancellation of a trip to Northern California by the football team next year could ease the pain a little. The trip is expected to cost over $11,000.

All the field’s a stage—O.J. Simpson is doing it. So is Alex Kerr and Jim Brown. Johnnie Unitas tried to call.

West coast’s pro men are so many thieves turning to when their playing days are over? Analyze.

And why not? Theoretical training starts early in the field of athletics. Even if Poly’s Paul Martin won the baseball players real headquarters when they struggled to find a place in hopes of gaining a free lunch.

The soccer program is another question. It’s not unusual to see someone rolling around on the field, holding his knee up to his chest after stopping a kick. The players hope that the referees will not stop play on the unnecessary opposition that happened to be nearby when the ball occurred. Out.

Awards—Steve Cola, who has done the play by play for Poly basketball for KVEC, the past few seasons, is being honored by the Associated Press for the best sports broadcast in California by a class A station for 1978.

The game, which was judged by the Texas AP, was the 1978 Tournament of the World Series game between the Mustangs and the University of Alabama during the ‘78-79 season.

Marvin Tucker

Nicholson 11th in free throws

Cal Poly basketball guard Steve Nicholson is now second in the WCC in free throw percentage. Nicholson has made 96 of 108 free throws and has a free throw percentage of 89.6.

The Mustangs finished the 1977-78 season with an overall record of 17-11. The most important statistic for the Mustangs is the California Collegiate Athletic Association standings with Cal Poly finishing with 9-4 record.
