A tree's-eye view of Poly Royal

By KEVIN FALLS

I went to Poly Royal. There are adults and children on the same level, with a lot of people and events going on. The buildings have a unique color of carnivals.

I should introduce myself. The students all know of Poly Royal, the food, the buildings, the trees, the grass, the buildings, the community and all around the Poly Royal area. We are connected to Poly Royal.

Let's try it again: Restaurants guide

Changes hit the city

By RICHARD PRICE
Daily News Writer

City police cars have their black and white colors. Laguna Lake shriveled in a midsummer sunblaze, and a planned mosque never turned into a Little Hilton that could’ve.

These are just a few of the more visible changes in San Luis Obispo since last year.

Now, a year later, the police cars have a blue, a green, a silver, and a red. Laguna Lake has been drained and the Hilton, in construction, halted by financial problems. San Luis Obispo is a city that is changing.

MADRID, according to Mayor Kenneth Schwartz, describes the kind of changes the city has been through.

"There haven’t been many kinds of changes that really stand out," he said recently. "I guess the past year could be better measured as a steady improvement of city policies and ordinances."

There have been a few ripple effects in the calm, however.

The city has gotten larger. Population continues to climb upward. The clammer of carpenters’ tools is a familiar sound along Los Osos Valley Road, where houses and apartment buildings have been springing up in what Schwarts calls “well-planned growth.”

The city has seen some abrupt changes in its leadership. Councilman Keith Gurrieri resigned, and his seat was filled by Vice Mayor Allen Keller, a Cal Poly political science professor.

Pine Mountain College’s city administrator recently resigned, adding that he intends to devote more time to his family and local golf courses.

There have been a few ripple effects in the calm, however.

ASI Concerts:

Spectrum of sound

The crowd is growing restive. Near the back of the gym, a small gathering of people start bending on the sides of their chairs in nervousness. Finally, the lights dim, and through the smoke surrounding the stage, four shadowy figures emerge with a crescendo surge of sound, the concert is underway. After the hours of waiting, standing in line and pushing, the fans are ready to ring the harpsichord.

Although the ASI Concert Committee transitioned from its perennial roller coaster ride, Cal Poly students and local tenants have packed into the concert this year. Shortly after last year’s Poly Royal concert, a student was hit by a bus in the first incident show in Cal Poly’s history. Three big names—Glenn Yarbrough, Sonny Bono and the energetic Marshall Tucker Band (bassist right) were scheduled for this year’s concert. Last May, Crowd estimated to be as large as 5,000 or 6,000, and the show even met the concert committee enough energy to make a contribution to the sold out Spirit of St. Francis, Stadium, San Francisco Drive.

This fall, George Benson (immediate left) brought four musicians and a single guitar to the stage of the Main Gym. The Oct. 11 concert was successful—energetically and financially. The concert committee got off to a slow start and had problems to show for it. Several cancellations were made, and the concert was postponed and rescheduled for another concert the year before.

Ag plans Royal presentation

BY LAURA CHRISTIAN
Daily Beast Weekly

Just about everything covering from plans to teachers will be used in the new Agriculture and Natural Resources Poly Royal presentation this year. 

The Poly Royalty within the school will present the exhibit. There will be a display of all the Royalty in the school. These will include such Poly Royal characters as the president, president pro-tem, and the treasurer. All in the Agricultural Program, said Brown.

The School of Agriculture and Natural Resources is the largest school at Cal Poly, according to Lutt. However, only 26% of the students in the School of Agriculture and Natural Resources are majoring in the field. He said about 20% of the students in the School of Agricultural and Natural Resources are required to complete the School of Agriculture and Natural Resources in the early 1970's. Agriculture has been one of the largest and most important fields at Cal Poly. Brown said. He attended Cal Poly and was an Agricultural Emphasis major in the School of Agriculture in 1984.

There are two required and two schoolrequired courses in the School of Agriculture and Natural Resources. Two of the required courses are a basic environmental and a basic environmental science. In addition to the required courses, the School also has a liberal arts and a general program. The School of Agriculture and Natural Resources has an open admission policy. The School has an open admission policy to all students who complete a basic environmental science course.

We have been one of the largest and most important fields at Cal Poly. Brown said. Students take production and minor classes in their first year. 

"The majority of the students aren't going four years," Brown said. "I don't know if they are going to stay in their major classes and future classes. Sometimes they are going to be in their minor classes and in their major classes. Sometimes they are going to stay in the program they are in." 

Brown said students can leave after one or two years and still be employable because many occupational areas don't demand a degree, but rather skills. The students can then take a career in agriculture and work their way up to the top.

"We have seen students who have grown tomatoes, sugar beets, and many other crops in local and even local areas," Brown said. We also have many majors who are the Basler Brothers and others.

The student body is high on this field of agriculture and Natural Resources. A great number of students are majoring in the School of Agriculture and Natural Resources. The school has about 200 faculty members and an area of about 40 acres.

The School of Agriculture has come back after the establishment of Cal Poly. Most of the departments in the School originated from the early 1970's. Agriculture has been one of the largest and most important fields at Cal Poly. Brown said. He attended Cal Poly and was a major emphasis major in the School of Agriculture in 1984.

There are two required and two school-relevant courses in the School of Agriculture and Natural Resources. Two of the required courses are a basic environmental and a basic environmental science. In addition to the required courses, the School also has a liberal arts and a general program. The School of Agriculture and Natural Resources has an open admission policy. The School has an open admission policy to all students who complete a basic environmental science course.

Alumni donations amount to $20,000

By SANNYMAX
Poly Staff Writer

About 18,000—double the amount for the same time last year—were sent in for Cal Poly's campus fund this year, according to Steve Riddell, Poly Alumni Coordinator. The Poly Alumni Giving Program began the school year 1976-77. The program consists of mailing appeals to alumni, current Poly students, faculty and staff, and people not affiliated with the university.

In an article in "Cal Poly Today," a campus publication, the program was begun to provide funds for facilities not provided in the state budget.

The total state budget amounted to $46 million for Poly, according to Riddell, and is not enough money to fill the Poly needs.

As is the case of all universities in the 19-campus California State University system, says Cal Poly, no funds will be allocated for new programs or facilities. Also, even though Poly will have new address numbers put on the university, but Riddell said, "there is no doubt we will have a very successful program."

The Poly fund has been on the rise. Last year the Poly fund was $100,000 raised. This year it is $175,000 raised. Last year the Poly fund was raised, according to Riddell, through a combination of private and state funds. This year it will be raised through private funds only. The Poly fund was started in 1974, according to Riddell.

This year 21,000 have addressed Poly in the university. But, Riddell said, "there is no doubt we will have a very successful program."

Original Mustang Stadium project is scaled down

By TONY TRAPTA

A scaled-down Mustang Stadium renovation project was approved by city officials last month after the original plan was abandoned because of spiraling costs. The new project was announced last month by President Robert Kenneth in a letter to approximately 100 donors who previously contributed to the original plan. Kenneth said the new plan will involve the availability of living quarters for the players. The new project was approved, and it was estimated that the project's estimate soared to $300,000 and the figure seemed unattainable. After nearly a year and a half, $118,000 was donated to the fund.

The scaled-down project would have required complete removal and replacement of the wooden stands on the west side of the stadium. The new proposal calls for repairing and replacing the old stands with masonry other than that donated in the campaign. A state structural engineer earlier said the wooden stands would be safe if the minor repairs planned were made.

Also in the new version is the installation of new steel bleachers near the upper corners of the east side stands. The stadium will provide 60 additional seats. Approximately 60 additional bleacher seats will be installed at the south end of the stadium.

Changes to the west side stands, in addition to the minor repairs and painting, are scheduled to include covering the wooden seats with plastic plastic.

Kennedy said in his letter to donors that more than $17,000 had been received by donors who wanted refunds after the original plan was approved. Kennedy also said that many of the donors said they would reconsider their donations after the new project was approved.

March 4 as the date for proceeding with the new plan, and this said this will give ample time to possible contributors to study the plan and ask questions. The letter also said that since funds are no longer available to replace the west side of the stadium, the university will improve and expand the stadium's retail room facilities and thereby the present press box using non-campaign funds.

Staff continues to come and go at Cal Poly

By Michael Wilson

Staff continues to come and go at Cal Poly. This leaves
continuity of instruction in question.

Dr. James Nash, director of health services. (Daily photo by Peggy Master)

Three schools on campus have new leaders. Dr. Lyle White was named director of
the School of Education and Dr. Thomas S. Pianta was
named director of the School of Business. White is an
authority on educational psychology and Pianta is a
businessman who has served in the state legislature.

The School of Education has been
progressively declining in enrollment and the school
has had difficulty recruiting new faculty. White is
expected to reverse this trend.

The Department of Business Administration is
expected to continue to grow with the addition of
Pianta.

Two new directors joined
the Poly family this past year. Mr. and Mrs. John
Hill, in charge of the Health Center staff, have
been hired.

Three designated operating
areas include the School of
Education and Business Administration.

Mr. Hill, in charge of the
Health Center, is expected to
continue to grow with the addition
of Pianta.

Math and Science school adds faculty members

BY JOHN SHEHRMAN

The Department of Poly Royal's Mathematics and Science programs have expanded with the addition of three new faculty members.

The Math Department has split its curriculum into three different degree options. The first is traditional Biology, the second is Science-Math and the third is Environmental and Systematic Biology.

The Biology Department has been working on the math and science world for the past three years. The Math Royal plans for the Biology Department to be a "Bio Science" in America. They plan to have classes in the different fields of biology and open a science lab for the world, according to Dr. John Hamilton.

The Math Department gained two new members to its faculty. They are Dr. Dennis Finlay and Dr. John Logan.

Dr. Dennis Finlay and Dr. John Logan

The Chemistry Department has made plans to open a new building next year. The building will be located behind the library. 

Even with the new architecture building, students are no longer able to access the school still has a faculty problem. The students spread throughout the new building will be a lot of space. 

The building has several classrooms on the first floor. The building will be used for science classes. All permanent classes are open to students every day. The building has a lot of space.

The new architecture building has facilities for drawing, painting, sculpture, and analyzing. The students are required to take at least one class in the arts. The students must have their own supplies for photography in the presentation facility.
Cal Poly Mustang sports roundup

Another winning season for Mustang football

Coach Joe Harper coached the football team at Cal Poly with a 6-4 record in 1977. Harper ranked nationally among the active NCAA Division II and III coaches prior to the '77 season. He said winning a state championship is the best ever.

Senior tailback Bob Smith scored two touchdowns in the Mustangs' 21-0 victory over Cal Poly.

Soccer record uncertain

Despite a 1-1 tie with Pomona, Cal Poly's soccer record is uncertain due to the uncertain number of games played.

Poly finishes fourth

Cal Poly's women's soccer team finished the 1977-78 season in fourth place after a 6-4-4 record.

The Mustangs had a tough season against the Bruins during the season. Poly lost to the Bruins on Saturday night at the Memorial Field, 4-0.

Poly is 4-4 in their first season as an independent, according to coach John Cullen. The Mustangs have one more game to play this season.

Dana Townson

Cagers tie Pomona for second in CCAA

The Mustangs basketball team was announced as the second in the CCAA for a second straight year. The Mustangs' 7-4 record was enough to secure the second place in the CCAA with Cal Poly Pomona.

Veteran guard Lewis Cohen and senior center Paul Mills were named to the All-CCAA team for their efforts in the season.

Paul "Blade" Mills was tops in the league in field goal percentage with a 57.7 percent accuracy. He was fifth in scoring and seventh in rebounding in the league.

Senior reserve guard, Rob Nickelson, was selected for the second team. Nickelson, a transfer from Cal State Northridge, was selected for the second team even though he didn't play much.

Cal State Northridge coach John Cullen said the Mustangs' championship crown was well-deserved for their hard work and dedication.

Cohen was hurt and will not play during the season.

Another winning season for Mustang football

Coach George Perry's team finished the season with a 6-4 record.

Soccer record uncertain

The Mustangs had a tough season against the Bruins during the season. Poly lost to the Bruins on Saturday night at the Memorial Field, 4-0.

Poly is 4-4 in their first season as an independent, according to coach John Cullen. The Mustangs have one more game to play this season.

POLY ROYAL EVENTS:

Miller’s prediction is true for ’77 team

Second year coach Steve Miller conducted an exhaustive recruiting campaign after finishing second in cross country and third in track and field in the California Collegiate Athletic Association (CCAA) and NCAA in his first year at Poly. He set a goal of a CCAA championship and finish among the top five in the NCAA Division II meet prior to the 1977 season.

Miller proved a prophet as his team won the CCAA in cross country for only the second time in Mustang history. His team then placed 17th in the NCAA Division II championship— the highest placing ever for a Cal Poly team sport.

Grapplers win fourth title

The Cal Poly wrestling squad maintained its dominant position in west coast competition during the 1977-78 season.

Coach Vaughn Hitchcock’s team won its fourth straight Western Regional tournament title, finishing with 97 points to easily outdistance runners-up San Jose State which amassed 97 points.

The Mustangs qualified seven wrestlers for the NCAA Division II wrestling finals in College Park, Md.

Steve Hitchcock, 190: Robert Kiddy, 180; and Scott Hansen, 177, all won their second regional crowns and a berth at the nationals.

The Mustangs finished their dual season with a 17-7 record.

The Poly matmen took on NCAA champion Iowa State in February, falling to the powerful Cyclones 38-14. The team was hoping to repeat last year’s 16-5 upset over the Cyclones but could not contain the Iowa squad.

Spikers finish in cellar

After getting off to a 9-2 start last fall, Cal Poly’s volleyball squad finished with an overall record of 4-10.

The Mustangs’ 1-8 record in the California Collegiate Athletic Association (CCAA) tied them for last place with Cal State Los Angeles, Chico State, and the ten other CCAA members.

The Mustangs were led by four seniors, two juniors, and a sophomore.

If you are a junior majoring in math, physics or engineering, the NAVY has a program you should know about.

It is called the Nuclear Propulsion Officer Candidate - Collegiate Program (NUPOC-C) and if you qualify, you can earn as much as $850 a month right through your senior year.

If selected, you have qualified for an elite engineering training program which will lead to unequalled hands-on responsibility, a $84,000 salary in 4 years, and gift-edged qualifications for jobs in private industry should you decide to leave the NAVY later.

For more information, call (collect station-to-station) LT Tim Norrbom at 213-466-3311 or send your resume to NAVAL OFFICER PROGRAMS 4727 Wilshire Blvd, L.A., CA. 90010.

YO'VE COME a long way, Poly! This picture was
taken by Journalism professor John Hasley in late
1968 from an airplane. Obviously, the red brick dorms,
the university union, the gym, and the music center,
are a few years away. The only
recognizable landmark could be Mustang Stadium.

Looking like a cross between an army camp and a
farm, Cal Poly, nearly 50 years later, looks bigger
higher and wider.
By MATTHEW LEWIS
Daily Staff Writer
After watching miles and miles around the Cal Poly campus, it seems like the only one looking forward to it is a good meal.

San Luis Obispo offers a variety of restaurants, each with a different menu and atmosphere.

The list below covers dining spots from Cambria to San Luis Obispo. If you can't find what you want, you can try Cambria, Paso Robles, or Pismo Beach and Arroyo Grande.

Here are a few restaurants that will serve your needs.

**CAMBIANNE CAFE: 1217 Sycamore St.** A relaxed, casual dinner or lunch this is the place. Open 11 a.m. to 9 p.m. Monday through Saturday. Enjoy their specialty, Mexican marinated barbecued chicken while sipping daily dinners every Friday and Saturday night. Also be sure to try their honey cheese enchiladas. Prices are moderate.

**ALLENAPE HOFFBAUER DER: 971 Embarcadero Rd., San Luis Obispo:** Enjoy the old world style atmosphere and Morro Bay view during a lunch of swordfish and boneless lamb. Prices are moderate and reservations are recommended.

**APPLE FARM: 1016 Monterey, SLO:** Hot apple dumplings and homemade soup is the specialty of the house. Also the view is breathtaking. And, if you have a farmer's market to fill your orders, open 9 a.m. to 6 p.m., then you have to try this place. Prices are moderate and reservations are recommended.

**CAMBRIA PINE LODGE: 900 Burton Dr., Cambria:** A beautiful drive through the Cambria pines takes you to another great dining place. The Lodge serves not only breakfast, lunch, and dinner, but also offers the traveler a fine place to stay while on the road. Dinner starts at $10 and the seafood is a specialty. There is entertainment occasionally and reservations are recommended.

**PARLEYS: 1188 Morro, SLO:** Being one of the few restaurants open 24 hours, Parley's has helped many a student make it through finals. It has low prices and a variety of food to choose from.

**FOOD POOD: 1181 Morro, SLO:** Enjoy steak, seafood, and chicken at Food Pood. Open 11 a.m. to 11 p.m. Monday through Saturday. Prices are moderate and reservations are recommended.

**FRIAR TUCK'S REFECTORY: 1038 Burton Dr., Cambria:** Along with your fish or steak you receive a complimentary cheese board. There is a salad bar and dinner varies from $8.00 to $11.00. The Sunday brunch is popular and reservations are recommended. Be sure to visit the southwest menu.

**GALAXY RESTAURANT: 189 Embarcadero, MB:** If you are a fan of Chinese food, this is the place to go. Good service and service starts at $8.00. The Galaxy is located right on the water with a beautiful view.

**GRAND AVE:** Thursday through Sunday from 5 p.m. to 9 p.m. This place is open for breakfast, lunch, and dinner.

**GROVER CANYON:** A great place to go for a meal, it has a large menu and reservations are not required.

**HOME OFFICE:** 21 Santa Rosa 543-4838

**HOT SPOTS**

**Restaurant guide**

- **Seafood, Steaks and prime ribs are also a specialty of the house.**
- **Families are welcome during the late hours (9 p.m. or 10 p.m.) or dinner is featured for the staff group.**
- **Louisa's Place:** 914 Higuera, SLO; O'Connor's and Pollock's, SLO; and the House of Pizza, SLO; can't be left here. Choose from a variety of fillings and top it off with some cheese or sauce. It's open from 4 p.m. to 10 p.m. about $6.75 and Louisa's is open for breakfast, lunch, and dinner.
- **иков:** 618 Higuera, SLO; The seafood is fresh and the service is great for large groups.
- **Palm:** SLO; Chinese food for a moderate price is found here. A delicious shrimp and rice dinner average $6.00 and for something to be desired. There is also

**Preparing for the Royal Feast**

by JANE ABEYTA

Dancing with the wind

Standing at the edge of Cuesta Ridge, Brian Peaker, 13, surveyed the landscape of the valley 1,300 feet below. His 60-foot hang glider moved easily in his hands as he waited for the wind to pick up.

Soon he no longer held the glider; it held him. The wind sent him off the ground and carried him over the valley. Brian twisted off to the left and glided over the slopes.

An hour and a half later, Brian set himself down as easily as the sun set down over the mountains.

The hang glider Brian used to drift the winds was experimental. The basic design came from a commercial model. The difference is in the design he and two friends developed. The new wing gives the hang glider a better glide ratio and more stability.

Eventually Brian and Don, who is a hot air balloonist, would like to fly a hang glider. Brian would add a new dimension to both his interest and his job as a glider pilot.

Story and photos by Bill Faulkner
Cal Poly's Doug Jones is not just another administrator

BY DENISE RAO
(Morning Tribune)

Doug Jones, who recently joined Cal Poly as an administrator, says his job is not just about managing people and resources, but also about making a difference in the lives of students.

Jones, who previously worked at UC Berkeley, said his goal is to help students succeed academically and personally.

"I see my job as being a bridge between the students and the university," Jones said. "I want to make sure they feel valued and supported." 

Jones, who is responsible for overseeing the College of Science and Engineering, said he is passionate about science education and wants to help students develop critical thinking skills.

"I think science is fascinating," Jones said. "I want to inspire students to pursue their passions and to make a positive impact in the world." 

Tractor pull is popular weekend activity

BY LAURA CHRISTIAN
(Daily Telegraph)

The tractor pull is a popular weekend activity in the region, drawing crowds of people who enjoy watching the muscle-powered tractors compete against each other.

"It's a great way to celebrate the hard work of farmers," said one spectator. "The tractors are impressive, and it's fun to cheer them on." 

The tractor pull consists of various classes of tractors, each with its own set of rules and regulations.

"We try to make sure the classes are fair and competitive," said the organizer. "We want people to have a good time, but we also want to make sure the tractors are treated fairly." 

The tractor pull is a great way to support local farmers and enjoy some good old-fashioned fun.

"It's a great way to spend a Saturday morning," said another spectator. "I love watching the tractors battle it out on the course."
Poly Royal: A celebration not for adults only

Poly Royal is a fund-filled education experience for thousands of school age children who visit each year. In addition to the regular exhibitions, contests, tours and games there are several events oriented toward children. The current exhibit in the parking lot of the Science Building (Stk 34) provides younggers the chance to win a golden or brass dimes four. They can browse bandanas at the Farm Management Club's dunking machine or join the egg club's booth. Children can participate in science experiments that are safe and simple under the supervision of Cal Poly science students. Also in the science building will be a giant blowing exhibit.

The Prospective Elementary School children can build a magic wand for children's birthday parties. It is a in front of the Science Building. Children can build their own expressions and watch "Probably the best magician in the world." "The "Magician" will be in the Math Department (Stk 1)

At the Graphics Communication (Stk 34) and Shoestring Press office, visitors to Poly can enjoy a graphic communication exhibit and the Mustang Daily newspaper. Poly Royal is open to children of all ages.

Cal Poly's newest dean

BY SCOTT CRAVEN
Poly Royal Co-editor

This marks the first time in 30 years that Dr. Everett Chandler will not participate in Poly Royal as dean of students. Chandler, who will be visiting Cal Poly as dean of students, retired Dec. 31, 1977.

Dr. Russell Brown took over as dean as he assumed his duties April 1. Until then, Robert Timmes, assistant to the dean, was the acting dean.

Chandler's health held him an era. When he came to Poly in 1951, enrollment stood at 1,500 and the student affairs program was in its infancy. He then returned to the University of Nebraska and in 1963 concluded graduate studies leading to a master's degree in education policy and measurement.

Prior to his appointment at University of North Dakota, Brown serves as dean for Student Development and is assistant professor of educational policy and measurement at the University of Nebraska's College of Education.

Brown arrived at Poly this spring from South Dakota State University. In his new position, he will direct Poly Royal and staff after a nationwide search involving a field of more than 100 candidates.

Royal festivities get canned after the weekend

BY SCOTT CRAVEN
Poly Royal Co-editor

As the sun went down on Saturday, the Royal festivities were coming to a close. The Friday night'sfestivities were a huge hit with the students and a great success for the Poly Royal organizers. The weekend was filled with various events and activities, including a concert, a pancake breakfast, and a parade. However, the weekend came to an end on Saturday night, and the festivities were wrapped up.

The Royal Festivities were not only a great time for the students but also a financial success for the Poly Royal. The proceeds from the events will be used to fund future activities and events. The organizers are grateful for the support of the students and hope to continue hosting similar events in the future.

Its been a great year with Poly Royal, and we want to thank all our sponsors for making these events possible. This years Royal was, as always, one of the best. We hope to see you all next year for more fun and excitement.

Relaxed fine dining. Dinner reservations recommended. Open Friday, April 29, 11 am to 9 pm; Saturday and Sunday, April 29 and 30, 9 am to 8 pm. Located on-campus near the Grand Avenue entrance and close to the resident halls. Relax and let Cal Poly students serve you in this delightful restaurant with a breathtaking view of the city.

student dining rooms

Open for breakfast, lunch and dinner. Located south of the Corral Bookstore. Stop by and enjoy a complete meal served in the cafeteria-style in the active atmosphere of campus life. Friday and Saturday: Breakfast 6:30 am to 9:30 am. Lunch 10:30 am to 1:30 pm. Dinner 4:00 pm to 7:00 pm. Sunday: Breakfast 10:00 am to 11:30 am. Lunch 12 noon to 2:00 pm. Dinner 4:00 pm to 7:00 pm.

snack bar

Open Friday and Saturday, April 29 and 30, 8 am to 6 pm. Located in the heart of campus across from the Physical Education Building. Your order sets quick hands to motion preparing your meal within minutes. You will enjoy your food in the lively dining room where breakfast is served until 10:00 am and lunch from 10:30 am to 8 pm. The widest variety of foods on campus.

ice cream parlor

Open Friday, April 29, 11 am to 10 pm and Saturday, April 29, 10 am to 8 pm. Located in the McPhie University Union Building across from the Burger Bar and recreation room. Come in and travel back to the 'good old days' of the roaring 20's. Ice cream sundaes, malts, shakes and cones filled with famous Cal Poly ice cream—nostalgically delicious and different.

burger bar

Open Friday, April 26, 10 am to 11 pm and Saturday, April 29, 10 am through 11 pm. Located next to recreation room on the first floor of the Library and easily accessible from the lower campus buildings. A great place for a quick meal. Vending machines serve coffee, tea, snacks, soft drinks, fresh fruit, hamburgers and more. A microwave oven heats your food in seconds.

the cellar

Open Friday and Saturday, April 29 and 30, 8 am from 7:00 am to 6:00 pm. Located on the first floor of the Library and easily accessible from the lower campus buildings. A great place for a sandwich or meal. A unique meal service experience. Based on a wide variety of hot and cold deli sandwiches, as well as salads and hearty stews as you dine in an outdoor atmosphere of trees and hanging plants.

meal plans

Open Friday and Saturday, April 29 and 30, 8 am to 8 pm. Located across from the northeast corner of the Corral Bookstore. A truly unique meal service experience. Based on a wide variety of hot and cold deli sandwiches, as well as salads and hearty stews as you dine in an outdoor atmosphere of trees and hanging plants.

Individual students have different meal needs, and surveys show that students like to have a choice of eating atmospheres. Two economical meal plans are available—which offer unique flexibility of food choices, atmospheres and methods of payment. Meal Plan Cards are honored at four eating areas on campus.

Campus Food Services

Poly Royal 78
Committee to Elect Sheriff George Whiting

Dear Colleagues, Staff and Students:

In June 1, 1978 the citizens of San Luis Obispo County will elect a Sheriff. The responsibility of this office is demanding and I believe Sheriff GEORGE WHITING is the best prepared person for this position by virtue of his experience, ability and integrity.

GEORGE WHITING was sponsored by Sheriff of San Luis Obispo County in May, 1977 after serving 20 years in law enforcement. In 1977 he served as an Investigator and as an Associate in the Police Science. Sheriff GEORGE WHITING is a graduate of the FBI.

Sheriff GEORGE WHITING served with the U.S. Army in the Pacific Theater during World War II. He is a member of the County College Advisory Committee, Housing reversing, Rotary International, and the San Luis Obispo Chamber of Commerce. He has served as President of the International Pine Busters, an honor that the House of Representatives and the Southern California Farmers Association.

He works to move with his wife Pat, and one of their five children, one of whom attended Cal Poly, and the other Lee Cal Poly High School. Sheriff GEORGE WHITING believes the citizens of San Luis Obispo County deserve a Sheriff who is experienced and able. He will continue to provide the kind of leadership.

If you believe as I do in professional law enforcement, I invite you to join the Sheriff GEORGE WHITING Campaign.

Sincerely,

Jack B James
Chairman

p.s. For the Committee to Elect Sheriff George Whiting

"Let's keep a good thing going!"

THE CAL POLY library as it looked in 1906.

THE FUTURE Robert E. Kennedy library to be completed in mid-1968.

THE LARGER but overcrowded library as it now looks.

Roots: Saga of a library

It began 10 years ago in a small room of the first Administration Building. Now the library has grown and will be contained in a new five-story building soon to be completed.

THE library has modest beginnings. Its roots go back to 1906 when Cal Poly established the first recorded school library. It had 1,000 volumes and was contained in a room in the Administration Building.

Before the school had to use the facilities of the San Luis Obispo Public Library.

In 1916, the library moved to the Science Hall and its first librarian was hired to keep a tab on the 1,000 volume collection.

The number of volumes more than doubled in the next 10 years to 7,000.

With the completion of the new Administration Building in 1941, the library collection was moved to the second floor there.

In 1949 Robert E. Kennedy was president at Poly, resigned the State's librarian. The college, under Kennedy’s tenure as librarian maintained last level.

Finally, in 1944, the library was a new building to its own. In September 1967, the library was a new building to its own. In September 1967, the library was a new building to its own. In September 1967, the library was a new building to its own. In September 1967, the library was a new building to its own.

During 1968, the collection grew from 10,000 volumes to 12,000; in 1969, this Library Annex was started.

But in 1974, Poly had opened a new library, it was because of the overcrowding that the new Robert E. Kennedy Library is now under construction.

The new $15 million library will be room for 50,000 volumes and 500 seats, a computerized cataloging system.

Design Village

An experiment in architecture

By JULIE AUFIN

By the end of the year, a group of students and faculty will be living in model residential structures temporarily on the site of the experimental Village Design.

The student structure will be the first of its kind in the United States, designed and built by students. The buildings will be an experiment in modern architecture and will be an important step in the development of the student housing program.

The Village will be designed to provide a complete living environment during the academic year. The Village will consist of 12 buildings on 12 months of the year, and it will be a complete community of its own. It will be a model of a self-contained living community, and it will be a model of a self-contained living community.

The Village will be designed to provide a complete living environment during the academic year. Taking royal lumps at the Poly rodeo

The lumps-and-bumps intercollegiate rodeo circuit comes to Cal Poly April 28-29 for the Poly Royal Rodeo with several Cal Poly competitors hoping to improve their national rankings.

The rodeo this year features additional seating capacity for spectators. Members arrive this past week and will seat an additional 500 spectators, bringing the total seating capacity to 2,000.

The rodeo will be held all day on Friday, April 28, and at 5 p.m. on Saturday, April 29. "Rodeo" time both days starts at 9 a.m. More than 100 teams and over 90 competitors are expected to compete in the Poly Royal Rodeo, one of the biggest in the West Coast Region.

Prices of tickets are $2 reserved; $1 in advance; general admission tickets are $1.50 for adults and 75 cents for students and $1 for children under 13. Tickets are on sale at the University Union on campus.

Cal Poly possesses one of the most prestigious records in collegiate rodeo, with four national championships and over 15 regional titles, but has had an up-and-down season so far this year.

In recent weeks, several Cal Poly competitors rank nationally in the top ten of their events.

Among the leaders are Pat Jones, ranked second nationally in steer wrestling, and Cindy Crow, second in breakaway roping. Tom Kuenzi, Jim Pratt, and Dan Hagland rank fifth, sixth, and seventh in saddle bronc riding. Henry Bertram is seventh in bareback while Hagland also ranks seventh in team roping.

Also expected to compete at Poly Royal is Flint Hemstedt of Hartnell College, who ranks first in the nation all-around and in bareback.

Harvest is shaping up as Cal Poly's main threat for West Coast Region title this year.
