ASI appointments

Senators question Kranz's choices

BY TOM FULKS
Daily Breeze

ASI president Rose Kranz has made several appointments this year that have not sat well with some ASI senators. The appointment her brother, Tony, to the board of the Instructional Related Activities committee, which controls money for student related activities such as dances and sports, was also appointed Jeff Shapiro, ASI internal affairs assistant, to the committee. Shapiro was Rose's campaign manager last spring when she was running for president.

Kranz also appointed her boyfriend, Phil Dunn, to the Academic Senate. The Senate acts as an official faculty and student so that students have some say in determining the policy of faculty. As an alumnus, Ron Schotz, was also appointed to ASI external affairs assistant, where he acts as a liaison between the students and the city of San Luis Obispo.

The one-way fare to San Francisco is $21.50, to Los Angeles, $17, to Santa Barbara, $14, and to San Jose, $16.

Although ticket fares to points between San Francisco and Los Angeles are higher than Greyhound fares—and require reservations—they can drink coffee, beer and other beverages and are allowed to smoke.

"You can't do that," said Mello. "The train is more comfortable." But the Starlight, and other runs, has its disadvantages. "I think our major complaint is the outdated equipment we're forced to use," said Woudstra. Ironically, said Woudstra, Southern Pacific Railroad sold much of its best passenger train equipment to Canadian and Mexican rail companies because passenger service in the U.S. wasn't profitable at the time. Now, with gasoline up to $1.15 a gallon or more in some places, Amtrak is in the middle of ridership boom.

"It doesn't look like it's going to let up," said Woudstra, who has been with Amtrak for four years. "It's going to go straight through till New Year's." 

Although buses roll down the highway with greater speed than trains, "there's no comparison between bus and train travel," said Woudstra.

"People are more friendly on the train," he said. "On a train it's almost like a big party. The train is more of a social event than a trip." In addition, he said, there are none of the eyesores along the Coast Starlight route that typify the super highways going up and down the state said Woudstra.

"You get away from that," Woudstra said.

Amtrak will go out of their way to assist the handicapped onto the train and help them move around during the trip, said Woudstra.

Another good point, said Mello, is the train sells alcohol. Passengers can drink coffee, beer and other beverages and are allowed to smoke.

Kranz blamed much of the fuss on personality hassles. "These people are qualified and I trust their judgment," Kranz said. Some of these appointments are not firm anyway, Kranz said. She said two of the appointees failed to meet academic qualifications last summer quarter. A 2.0 grade point average is required of all ASI members. She refused to say who the two students were. "I'd be happy to defend anything I did," Kranz said.

ASI Business Department

Anne Perry, and Architecture and Environmental Design Senator, John DeAngelis, IRA appointments must be approved by the senate. They said Kranz disagrees. They are also up in the air because the senate was not consulted in the process of selecting the appointees.

"Kranz says she made a mistake" when the appointed Schloter in the summer by not consulting the executive committee of the ASI. According to the ASI bylaws, she should have. Kranz said she made the appointment was nobody from the committee was here this summer. Another grape of the senators was that the integrity of the ASI was being jeopardized by the fact that Kranz was surrounding herself with her personal associates and friends. They said this policy was in direct opposition to Kranz's campaign promises of last spring, which said there would be an "open administration."

Kranz's response to this was: "If you take any (other) year and look at it, it hasn't been any different." She compared her administration to that of Larry Robinson's last year. She said he also picked his close associates to help him run things.

"When you elect a president you elect a whole administration. I value these people's judgement and qualities," Kranz said.

She went on to compare her administration to Jimmy Carter's and John Kennedy's, who also appointed close associates. Kranz continued: "I think it's no one's business what goes on in my personal life. My personal life has nothing to do with appointments."

San Luis Obispo Telegram

Poor ticket sales have caused the cancellation of the Michael Nesmith concert slated for Sunday night in Chumash Auditorium.

ASI Concert Committee Spokesman Chris Romak said a total of 32 tickets had been sold at all outlets as of Wednesday afternoon. Romak said he was disappointed in the pre-sale for the Nesmith concert because the former Monkees member has sold-out concerts in clubs across the nation.

Romak said Nesmith sold-out for two nights at the Old Waldorf in San Francisco and at an auditorium in Houston. They (the Cal Poly students) want diversity and they want to see these good bands, but they've got to realize we can't get the Rolling Stones," said an upper Romak.

Nesmith was originally to be an opening act for The Rolling Stones in Houston.

Nesmith had already been up in publicity and promotions, and $1,000 will go to San Luis Obispo.

Romak blamed part of the problem on local radio station's unwillingness to play Nesmith's music.

"The local stations—with the exception of KCRP which really helped us out—weren't playing his songs," he said. Romak said metropolitan areas have picked up on Nesmith's music.

Romak said he blames part of the problem on local radio station's unwillingness to play Nesmith's music.

Opinion

Mustang Daily

Student rights

The legislators are not in session; now they have time to consider the onerous assignments lie the uncertain future of two significant student-related bills—AB 705 and AB 224.

AB 705 concerns the ability of students to collect unemployment benefits while attending college. As proposed, the bill allows benefits to students with two-year history of at least part-time employment. The catch phrase—"history"—means students must have verifiable work experience.

The other bill, AB 224, would outlaw discrimination against students in housing. As things now stand, landlords may discriminate against an individual solely on the basis of their being a student.

Richard Houria, Development Director of the California State Students Association, said discrimination against students has been a problem in the California State Universities for years.

Houria said the situation is worst where housing is tightest. San Luis Obispo must rank near the top of the list.

Both bills are worthy of passing.

AB 705 would be a benefit to any married student, or those who are independent. Just as an out-of-work non-student needs funds to withstand workless periods, so do students who must worry about studying and meeting the bills.

AB 224 is a long over-due bill. Discrimination against race, creed or color is unlawful and students should be put in this category.

A student is no worse than a non-student, just more identifiable. Renters should refuse rental to people with a history of rental abuse, but not arbitrarily deny occupancy to a selected group, whether students or a minority.

Like most bills before the legislature, AB 705 and AB 224 will get due consideration only if wide support is shown by the student population. Students should not only speak out, but write to their legislators.

In San Luis Obispo, students should tell Assemblywoman Carol Hallett and Senator Robert Nimmo we no longer want to be treated as a cult.

Music minor may be available at Cal Poly next year

BY VICKI MILLER
Daily News Writer

A minor in music may be available to Cal Poly students in the 1981 fall quarter.

"There are a number of students interested in a music minor," said Bessie Swanson, head of the music department. "For instance, people who are majoring in business and have a musical background might want to consolidate the two."

The minor would offer a wide selection of humanities courses and advanced music classes, said Swanson. It would also help prepare students for jobs in the music industry.

"We applied for a minor two years ago," said Swanson.

The proposal to establish academic minors was approved by former President Robert Kennedy on March 15, 1978. The proposal passed the Academic Council and will go before the Academic Senate on November 15 this year. From there it still needs the approval of the Chancellor's Office before it is instituted.

"All along we have felt music had a pretty strong case," said Malcolm Wilson, Associate Dean of Undergraduate and Graduate Studies and member of Academic Affairs. "But I don't know what will happen when it gets to the Senate Floor."

The Senate will be evaluating the proposal by the competencies to be achieved and the financial and physical resources available for the potential minor, said Wilson. Student interest, projected enrollment, and possible negative impact will also be considered.

Cal Poly is the only university in the California State University and Colleges System without a music minor. Last year, Associate Dean of Undergraduate Affairs Malcom Wilson requested the Academic Senate reject a proposal for a music minor. Wilson said recently he made the request because proposals for the minor were made without proper guidelines.

Also, he said the affects of adding a minor were not fully determined. For example, he said a music minor might cause courses to be dropped in other schools.

Publishing courses offered

In a time when the nation's publishing houses are flooded with 300,000 manuscripts at any one time, a beginning writer may need help to overcome competition. That's the view of Lachlan P. MacDonald, a writer, publisher and literary agent who will teach two Cal Poly extension courses on publishing this fall.

The Donald's workshops are entitled Getting Published and How to Self-Publish Your Book. The former explores the options open to writers of book-length manuscripts or projects. The course includes manuscript preparation, finding editors and consultants, studying the market and negotiating a contract. The latter course focuses on step-by-step planning, design and specifications for writers publishing their own work. MacDonald is editor and publisher of Padre Productions and author of An Uncommon Guide to San Luis Obispo County California. He retired last year as Director of Public Affairs for Cal Poly.

Getting Published is set for this Friday from 7 to 10 p.m. and Saturday from 9 a.m. to 5 p.m. How to Self-Publish Your Book is scheduled for Saturday Oct. 19 and 20. Fee for the course is $25 each. Cal the extended education office at 2053 for more information.

Career Opportunities

Exploring for Energy

We need individuals with degrees in the physical sciences — E.E., M.E., E.T., engineering science, physics, geophysical engineering — and a spirit of innovation and adventure.

Birdwell is an important division of Seismograph Service Corporation whose world wide businesses include geophysical exploration, wireline services for oil and gas wells, radio location services, and supportive manufacturing.

We need field service engineer trainees to help meet our expansion plans. If you have the education, initiative, and are willing to work and travel, you can expect the same opportunities for advancement realized by many of our executives.

Our work is not easy. But it is always challenging.

We will be on campus for interviews

**Student Record late due to publishing problems**

VICI WIGGINTON
Daily Signal Writer

For the second consecutive year the New Student Record was not delivered to entering Cal Poly students on time. The Records were supposed to be delivered to the incoming students before their arrival at Cal Poly, said ASI Publishers Board member Ted Hannig.

The New Student Record is a publication similar to a yearbook. It contains pictures of student entering Cal Poly for the first time, along with a description of where they went to high school, their major and their hobbies. The record also gives a listing of clubs at Cal Poly.

Nutrition, diet

Lendon Smith to speak

JEANNINE FRANUSCH
Daily Signal Writer

Dr. Lendon Smith, pediatrician, author, and television personality will speak on behavior at Chumash Auditorium tonight. Smith, who has devoted much of his time to treating hyperactive children, is the author of several books, including "Improving Your Child's Behavior." Smith's speech, which is being co-sponsored by the school of Human Development and Education, and the San Luis Obispo County Reading Association, will begin at 7:30 p.m. A question and answer period will follow Smith's speech. Admission is free.

Author to kick off lecture series

VICKI WIGGINTON
Daily Signal Writer

Marvel is slated to speak on March 28 on campus, as the first in a lecture series. Admission to the program will be free for all.

Couple has at least one common thing: juggling

BY LOREN SCHNEIDERMAN
Daily News writer

While most students are busy juggling their class schedules early in the semester, a Cal Poly couple have a different act in mind.

Jim Wilson and Mary Seifert, both self-taught jugglers, can be seen on campus tossing bean bags, balls and rings through the air with greatest of ease.

Jim is a physics major who decided to learn juggling four years ago. He said that he decided to learn because he needed a discipline, but he started to take juggling seriously when he met Mary.

Mary, on the other hand, said she decided to learn juggling so she could impress Jim. She said that she wanted to start having a relationship with him, but she didn’t know how to get it started.

Since their introduction Jim and Mary have performed at a Fourth of July comedy act in Riverside, at the Renaissance Faire, near Thousand Oaks and on the streets of San Francisco.

Their last performance was on the library lawn with Houdini-style magician Stan Greene.

Jim and Mary said they like street juggling because it allows contact with the audience.

"Street performing is best," Jim said. "It's all about the spectators."

Jim said. "Either people like you or they don't, but you let yourself in a hurry.

The two jugglers are trying to obtain a permit from the Los Angeles City Council to allow them to take their trade out into the streets. Their first request for the city's permission was denied, said Mary.

"Juggling isn't a threat to anyone," she said. "It isn't political so you can't insult anyone.

The team is going to persevere.

In order to provide improved service to students and campus personnel, the Foundation cashing hours have been extended. Effective immediately the hours will be 7:30 A.M. to 4:30 P.M., Monday through Friday. The Foundation cashiering is located adjacent to University Union, Room 212.

The Foundation will continue to have a $2.00, per day, per person check cashing limit.

When it comes to the 1979 homecoming, the only thing missing is enough student help to get the float on the road.

That is the view of Homecoming Publicity Committee Chairman Kim Rendov- Bendow, who said he hopes to get many students involved in preparations for this homecoming, which is entitled "Time Out for Homecoming."

The activities start Tuesday with the Host and Hostess Pageant at 7:30 p.m. in Chumash Auditorium. All clubs and organizations may nominate a host and hostess candidate to represent them in the pageant. The Cal Poly Jazz Band will perform and Pat Jackson and the American Dancers may also make an appearance.

Gary Hinz and the Run-A-Muc Band will give a concert, featuring country-rock music during 11:00 activity hour* on Thursday. The song leaders and cheerleaders will also do a routine.

A banquet will be held on Friday in honor of the eight former Cal Poly students who have been named the Honored Alumni for 1979. The banquet begins at 6:30 in the Staff Dining Room and is open to the public. Price for the prime rib dinner is $6.00.

The downtown parade, which is scheduled for 10:00 a.m., will start off Saturday's activities.

The Grand Marshall is Roy "Silver Fox" Hughes, a former coach at Cal Poly. A chicken barbeque will be held on Saturday from 4:00 to 6:00 at Poly Grove. Tickets are on sale for $3.50 advance and $4.00 at the gate.

The Mustangs will take on Northern Colorado at Saturday night's Homecoming football game. During half time, recognition awards will be presented to honored alumni.

The Music Machine will provide disco music at a dance contest to be held at the Homecoming Dance Saturday night from 9:30 p.m. to 1:00 a.m. in Chumash Auditorium. Norm and Pat Jackson will be judges for the dance contest and prizes will be awarded to the winners.

On Sunday, an alumni breakfast will be held at 8:30 a.m. in the Staff Dining Room. A flag football game between the football coaches and any interested alumni will be featured at 11:00 in Mustang Stadium.

"Time out for Homecoming" buttons are now on sale for 50¢ from the Homecoming Committee and possibly at the bookstore.

Sail from Los Angeles, February 3, 1980, and from Seattle, September 3, 1980, to the Orient, Southeast Asia, India, Egypt (Suez Canal) and the Mediterranean.

Apply now.

July 1 to March 31, 1979. This also includes second-degree students.

English Proficiency Exam. The proficiency test is to be given Jan. 19, 1980 and April 12, 1980 but there are two other options that can be chosen to fulfill the requirement.

One option is to pass with a grade of C or better in one of the following composition courses: English 300, 304, 310, 318, 326 or 392.

Another option is to pass with a grade of C or better and receive certification of writing proficiency from the instructor in one of the following literature courses: English 330, 331, 332, 333, 340, 341 or 342.

Harrington stresses students should not worry about the test now and that ample information will be available before the sign-up period.

The English Proficiency Exam is on its way, but there is no need for students to worry, said Dr. John Harrington, coordinator of the Writing Proficiency Program.

Students have been calling the English and Evaluation Departments inquiring about the exam, but Harrington said students need not and cannot do anything for the test until sign-up period, Nov. 12-Jan. 11.

Those who must fulfill the graduation writing requirement are all students with between 90 and 135 units as of summer quarter 1979 and all those who will graduate after spring quarter 1980, even though they have over 135 units as of summer quarter 1979. This also includes second-degree students.

One, option is to pass with a grade of C or better and receive certification of writing proficiency from the instructor in one of the following literature courses: English 330, 331, 332, 333, 340, 341 or 342.

Newscope

Pen pals
Students interested in writing to a pen pal in the California Men's Colony at San Luis Obispo can contact Michele Pruitt in University Union Room 103. The colony provides an opportunity for inmates at the colony to express themselves to correspondents outside. Letters will be mailed to UU 103.

"Watershed Down"
ASI films "Committee is planning to present "Watershed Down," an animated film based on the book by the same name. This is a $1 admission charge for the film which will be shown Friday, Oct. 5 at 7 and 9 p.m. in Chumash Auditorium.

Body Shoppe
The ASI Recreation and Tournaments Committee is producing "The Body Shoppe," an event which includes men's and women's competition and a wrestling exhibition. There is no entry fee. Prizes will be awarded. The event will take place in the Recreation Union Plaza today at 11 a.m.

Extension course
Students can earn one unit of academic credit by taking the Cal Poly course "The Human and Natural History of the San Luis Obispo National Monument," to be taught Friday, Oct. 5 from 9 p.m. and Saturday and Sunday, Oct. 20 and 21 from 9 a.m. to 4 p.m. The trip includes a field trip to the San Luis Obispo National Monument at Soledad. A registration fee of $28.50 is charged for the course. More information can be obtained by calling 346-1203.

Child abuse talk
Child abuse expert Donna Lero will talk about her field, Friday, Oct. 5 at 4 p.m. in University Union Union Room 120. The talk, sponsored by the Child Development Club, is free.

ASI finance jobs
The ASI Finance Committee has openings for representatives from the Social Science Division, from the School of Engineering and Technology, and from the School of Business Administration. Students interested in serving on the committee may contact Nick Forrest, 546-1291, or stop by the ASI office in UU 217A.

Benefit concert
A benefit concert for the West Side University of California State University at Humboldt will be held Saturday, Oct. 27 at 8 p.m. in Chumash Auditorium. The concert, which will feature solo obos by Evelyn Tuggle, is open to the public. Proceeds will be used to purchase additional French horn for the Humboldt Symphony Band. Information can be obtained by calling 346-2033.

ASI film series
ASI film series begins its fall season with "The Little Mermaid," an animated film which will be shown Thursday, Oct. 4 at 9 p.m. in Chumash Auditorium. The event, which is sponsored by the San Luis Obispo County Reading Association and the School of Human Development, is free.

Foreign study
A course in basic conversational Russian taught by Dr. Lendon Smith, a pedagogian and author, will cover the taught by Ms. Smith in the fall semester. The program will be held Monday through Friday, Oct. 15 at 7:30 a.m. in Chumash Auditorium. Thes course will be given in the San Luis Obispo County Russian Association and the School of Human Development, is free.

Omega Psi Phi dance
Omega Psi Phi Fraternity Inc. is having a dance October 5 from 9 p.m. to 1 a.m. in the Highland Society Social Dining Hall. A marching exhibition will be held after the dance. The price of admission is $1.

Diet and behavior
Dr. Lendon Smith, a pedagogian and author, will speak tonight on the effects of diet in the behavior of children. The speech will be held in Chumash Auditorium. A registration fee of $20. The Russian class goes from 6:45 to 8:15 p.m. and the course in French runs from 8:15 to 9:45 p.m. Both classes are held Mondays and Tuesdays at San Luis Obispo Junior High School, Room 3. More information can be obtained by calling 346-9090.

Credit for field trip
There are seven openings for students who are interested in studying any area of agriculture and natural resources management in New Zealand during spring semester, summer and fall, 1980. Deadline for application to the foreign study program is Nov. 10. All work done under the program is transferable to a degree at Cal Poly. Information and applications can be obtained from Dr. Connie in the International Programs Office in the Dexter Library.

Skateboard contest
Contests are invited to the fifth annual San Luis Obispo County Skateboard Championships to be held Sunday, Oct. 7. Registration for the contest will be from 9:30 to 10:30 a.m. and the course will be open for practice from 10:30 to 11 a.m. Competition will begin at 11. The event, which will include competition in dual slalom and freestyle for skateboarders and freestyle for roller skaters, is to be held on Main Street in downtown San Luis Obispo. Entry fees are $15.50 for contestants 13 years old and under and $25 for those over 13. Proof of current insurance coverage is required.

Women In Design
Women in Environmental Design invites both men and women to attend a meeting of the organization at 11 a.m. on Tuesday, Oct. 9. The meeting will feature research on the effects of ships and employment practices on human behavior and participants in workshops and speakers will discuss various fields of environmental design. Meetings are held in Environmental Science Room 232.

Astronomy meetings
Anyone interested in learning more about astronomy and the space sciences is encouraged to attend a meeting of the Central Coast Astronomical Society on Thursday, Oct. 4 at 7:30 p.m. in Room 6-27 of the science building (Building 52). The meeting is being sponsored by the Physics Department and the Cal Poly Chapter of the Society of Physics.

Bagpipe band
The Central Coast Highland Society Pipe Band is seeking pipers, drummers and Scottish-style dancers. The Society meets at 7 p.m. Tuesdays at 1750 Alta St., LMC.

Copyright lecture
A lecture covering all aspects of copyright processes will be given by Lachlan MacDonald, owner, editor and publisher of Padre Productions. The lecture in Room B-5.5 of the Science Building (Building 52) will be held Tuesday, Oct. 9 at 8 p.m.

Bicycle club
The San Luis Obispo Bicycle Club will hold a meeting this evening at 7:30 in the Recreation Center on the corner of Mill and Santa Rosa Sts. More information may be obtained by calling Skip Amerine at 544-5526.

Dance workshops
Modern dance workshops taught by professional dancer Debbie DeRosa will be held Friday, Oct. 5. Tickets for the workshops are $3 and may be bought at the Credillion Gym dance studio from Monday to Saturday. Times of the workshops can be obtained from Mrs. Suhr.
BY DOUG HUCKINS

The marine life of Diablo and South Coves at Diablo Canyon received extensive damage from silting during construction of subdivisions and jetties in 1970. The coves are the warm water intake and discharge sites for the Diablo Canyon nuclear power plant. According to Richard Burg, a marine biologist for the California Department of Fish and Game, which had once supported healthy populations of marine invertebrates such as red and black abalone and sea urchins, now support the same type of life found on a mud flat. On the bottom at 20 to 30 foot depths in South Cove, sediment has accumulated to depths of four inches, he said.

During May, 1972, Fish and Game divers removed 741 red abalones from within the confines of the jetties because the bottom no longer provided habitat that could ensure continued survival. These abalone were transplanted to Shell Beach and plaising without success in San Luis Obispo at 15 to 20 feet of water.

A balone populations outside South Cove are abundant and have not been affected by construction. Over 100 abalones were transplanted outside the extensive Diablo Canyon area to Montaña De Oro and Shell Beach from 1969 to 1972 to avoid or minimize the effects of construction activities.

"PG&E dredged 80 to 90 percent of the sill that had settled in South Cove," said Burg, "but they have to remove all of it to be successful." The Department of Fish and Game recommended a special engineering study be undertaken by PG&E, but said, the one million dollar cost will keep them from doing it.

Diablo Cove is located at about the midpoint of a 13 mile long rockier shoreline road. This reef, which is physically isolated from other similar coastal areas, supports important bed communities of non-migratory vertebrates and invertebrates that are dependent upon each other and upon dense stands of kelp and algae, said Burg.

In addition to the bottom life in the coves, this area is an important nursery for juvenile rockfish. Approximately 75 species of invertebrates, 113 species of marine plants, and sea urchins and harbor seals make their home there.

The power plant is licensed, Burg doesn't think that the temperature of the warm water discharge will necessarily be any warmer than that from a conventional power plant like the one in Morro Bay. "Burge thinks that there will be an impact on marine life if the warm water discharge is started.,"
AS1 Outings plans annual ranch trip

BY CINDY HUANG

River rafting, swimming and hiking are awaiting a large group of Cal Poly students this weekend on a ranch near Salinas.

Singing and laughing around a campfire will help students who have left the pressures of school behind to enjoy their wilderness weekend with the ASI Outings Committee.

"This is our annual get together to introduce people to ASI Outings," said Aaron Walters, Outings Committee Chairman. "It's a lot of fun and a great way to get involved and see what the group is all about."

The ASI Outings committee is still taking applications for the October 6-7 trip. The cost is $19 for food and transportation. Sign-ups can be made until 5 p.m. Thursday. The committee plans to leave for the Escape Route, which is located about 90 miles south of San Luis Obispo, around 9 p.m. on Friday, Oct. 5.

"I feel they have taught me how to be more independent in handling myself," she said. "When you're alone in nature, you have to start handling situations on your own."

The committee also runs the Escape Route, which has maps and information that students may use to record their own observations.

"We can tell students what they might need to take and give them cost estimates," said Walters. "If we can't help them with something, we'll refer them to someone who can.

The Escape Route also rents equipment for camping, such as sleeping bags, lanterns, tents, pots and stores. Those who go on any ASI Outing trip can rent equipment for half price.

Bruce Hope, general manager of the Escape Route, has been involved with ASI Outings because he likes what the wilderness does to people. A senior ornamental horticulture major, Hope has been involved with the committee for two years.

"The thing I like best about the trips is the people," he said. "I go on a lot of difficult mountain climbing trips. When you're in a situation under stress or at a beautiful mountain scene, people are less inhibited and tend to look out for others more."

"I guess you could say they become more human," he said.

"We have qualified people able to teach beginners and we love having new people," Walters said. "Part of the fun is teaching people on the trips."

Walters, a sophomore recreation major, was a beginner when she went on the introductory ranch trip three years ago.

"I wasn't too enthused about the trip at first," she said. "but my roommate dragged me along. The group taught me how to backpack and rock climb, and I ended up having a lot of fun."

Walters soon found herself getting more and more involved in the committee and became chairman this year.

"The committee has helped her build up her self-confidence, which was the reason to get involved," Walters said.

Wilton said his players will be ready for the tough match and they hope to turn around what happened to them last year here. They were best by UCSB, three games straight. He thinks his players are better this season. "Marie Lunde and Alene Sempern both made the All Tournament Team in Utah," he said. "Also Monica Park has been giving us real steady play all season, and Wendy Lewis is a 5'3" fire-brand. "Laura Borgaro is doing lots of excellent serving and fine net play. Becky Bonsall, our starting center blocker has done a very fine job in the back row and gains confidence with each outing. "Susan Forte, has become kind of a super sub for us. She can center block and hit outside. Erin Wetzel is a fine all-around player too, especially in the back row." He said the tournament in Utah was exciting, but "Tonight we ought to see a slam-bang of a match."

ERIE, Pa (AP)—A pair of bungling burglers missed their chance to hold-up a bank in a suburb of this northwestern Pennsylvania city by arriving two minutes late, police said.

A masked man carrying a pistol walked up to the bank in a suburb of this city by arriving 2 minutes late. Police said.

"They have just been at it forever," Wilton said about UCSB, the team that took fourth in the San Jose State Invitational last weekend.

Correction

In yesterday's article titled, "National Junior College Athletic Association Meet," it was stated that athletes are not allowed to compete in it because there are no California athletes are not allowed to compete in it because they have their own California Junior College Athletic Association. The National Junior College Athletic Association Meet is held every year but California athletes are allowed to compete in it because they do not have their own California Junior College Athletic Association.

WHERE TO GO WHEN YOU DON'T KNOW WHERE TO GO

El Monte
5:00-10:30 p.m. Thursday-Sunday
3:30-8:30 Monday
750 Higuera St.
In the Creamery
544-9002

The prices at El Monte range from $2.10 for lunch and from $3.25 for dinner.

For dinner, El Monte offers a varied menu including vegetarian specialties, and all you can eat Specials for $4-5. The special this week includes BBQ chicken, soup, salad, rice or potato, and fresh vegetables.

DON'T MISS OUT!

Titi Raps will be on campus October 15 to talk "careers" with upcoming Math & Computer Science grads.

See your Placement Office for details.

Seafax, in Denver.

Kim Graham will coach the Mustang softball team in the spring. Graham received her bachelor's degree in social science from Cal Poly in March, 1978.

With Lewis Jackson listed as doubtful for the Saturday night game against Fresno State, the coach would read second stringer Jim Colvin could fill his shoes. After all, Colvin gained 117 yards on 24 carries and scored a touchdown against UC Davis when Jackson went out with an ankle injury.

Colvin probably will not get the chance he needs. He is listed as more doubtful than Jackson for the game against the Bulldogs. He gained a score in his back when he was hit in the head in the game against the Aggies.

The backfield will look like this, as of Wednesday night. Paul Dicks will move from fullback to tailback. Dickells backed up Jackson last year at tailback, and Mitchell Blair will step in at fullback.

The women's cross country team travels to Berkeley Saturday to compete in the Cal Berkeley Invitational.

"To run against a national power such as Cal, everyone must have a superior race," he said.

The Mens cross country team goes north and south this weekend. The 'A' team goes to the Aztec Invitational in San Diego and the 'B' team travel to UC Davis to compete in the Aggie Invitational.

The Athletic Department has named four coaches to women's athletic positions. Marilyn McNeil will coach the Cal Poly women's basketball team. She obtained her master's in PE at McGill University in Montreal in 1974.

Herbicide dumped into pools
SAN JOSE, Calif. (AP)—Health officials warned by a bizarre anonymous letter, said Wednesday that hundreds of people may have been exposed to a suspected cancer-causing chemical deliberately dumped in three swimming pools.

Traces of Silvex, a powerful herbicide, and the chemical 2,4-D, which contains the suspected carcinogenic dioxin, were discovered last week in a pool at Oakwood Gardens North, in west San Jose. Tuesday, similar traces were found in two pools at Oakwood Gardens South, a 78-unit complex about a mile away.

So far nobody has reported ill effects from swimming in the contaminated water.

Both complexes are owned by R&B Enterprises, but officials said they did not know why the two were chosen by the pool poisoner. Police said an investigation had turned up nothing.

In a letter opening with the phrase "Days of Orange," the apartment manager at the North complex and the San Jose Mercury News were warned that chemicals had been placed in the pools.

"This deed is done to unnamed regulatory agency of my whereabouts to force justice from them. Will name when their inaction condemns more," the unsigned letter said in part.

Traces of Silvex, a powerful herbicide, and 0.1 of 2,4-D, which contains the suspected carcinogen dioxin, were found in the pools.

Mercury News were warned that chemicals had been placed in the pools at Oakwood Gardens South, a 78-unit complex about a mile away.

In a letter opening with the phrase "Days of Orange," the apartment manager at the North complex and the San Jose Mercury News were warned that chemicals had been placed in the pools.

"This deed is done to unnamed regulatory agency of my whereabouts to force justice from them. Will name when their inaction condemns more," the unsigned letter said in part.

Bill Mapes, a Santa Clara County public health engineer, said samples from the pools showed that a 41,000-gallon spa contained .035 parts per million of Silvex and .44 of 2,4-D.

The main pool, 71,000 gallons, contained lower levels of Silvex only, while the pool at the North complex contained 0.1 parts per million of Silvex and 0.1 of 2,4-D.

Mapes said the concentrations were not lethal, but regional apartment manager Killian Byrde warned anyone who might have used the pools to see a physician as soon as possible.

**How you can change the world in 25 years or less.**

Let's face it.
In 25 years or less, the world of energy as you know it, will be entirely different.
So will the company you work for.

Today, we're a leader in the petroleum industry. Tomorrow, we'll be a leader in what we hope to be meeting their energy needs as well.

We've committed 50 million dollars this year alone to research and development programs to read like science fiction.

We've got earth sciences, Mining and milling uranium. Solar research, Geothermal energy, Fusion technology to produce fuel from coal; and synthetic crude oil from tar sands and oil shale.

And all this time, we're still looking for ways to squeeze every drop out of old oil fields. And continuing the important search world-wide for new ones.
If you're also committed to changing the world, tomorrow instead of just tomorrow.
