WHAT: Design Village is a competition in which students from colleges and universities across the western United States design shelters at their home campuses, then transport all of the required materials to Cal Poly's Poly Canyon, where they build structures that suit the year's theme and inhabit them for the three days of the event. They are judged on craftsmanship, cost efficiency, excellence in design, suitability to the theme -- "Upside Down" this year -- and public response to their creativity. It is sponsored by Cal Poly's College of Architecture and Environmental Design, with students from the college's departments organizing the competition.

WHEN: At about 8 a.m. April 19, the teams begin the one-mile hike up Poly Canyon, carrying their materials. Competitors must attempt to complete construction by nightfall. The public viewing day is April 20, with free shuttles running 10 a.m.-4 p.m. The public can view the judging of the entries 10 a.m.-noon. The presentation of the awards takes place at 11 a.m. April 21.

WHO: More than 120 students in 21 teams from 13 colleges are expected to participate. New this year: Cal Poly's landscape architecture students will represent the college with an installation in Poly Canyon's geodesic dome.

WHERE: Poly Canyon is easily accessible from the northeast portion of the central Cal Poly campus, about a mile up Poly Canyon Road. Admission and shuttle rides to the site are free. The shuttle pick-up location is in the parking lot at the corner of Poly Canyon Road and Perimeter Drive. Visitors may also walk to the site.
A QUOTE FROM THE ORGANIZER: "We invite the public to come see what the spectacle of Design Village is all about and to see what the students' creativity allows them to build with their own hands," said Ben Ross, student director of the competition. "You'll see students from all over the West turning the entire Design Village 'upside down.'"

MISCELLANY:
· Design Village originated as a competition to design disaster-relief shelters.
· This is the competition's 30th year.
· Village sources predict the appearance of a hanging landscape from the roof of the geodesic dome.

WEB SITE: For more on the College of Architecture and Environmental Design's Open House celebration, visit www.calpoly.edu/~caed/.

ACCESS FOR NEWS COVERAGE: Members of the media with credentials should exit Highway 101 at Grand Avenue. Follow the signs north to Cal Poly and pass through the traffic checkpoint. At the end of Grand Avenue, turn right on Perimeter Drive and then right on Poly Canyon Road. Media vehicles with credentials will be allowed access up the canyon. Those without credentials should enter campus from Highway 1 at Highland Drive and park near the shuttle location noted above.

IMAGES: The students have created a compact disc -- available upon request -- that includes multi-media elements (some from past years' events), a poster-flier, still pictures, a short "movie," a canyon contour map, directions and other files.
