Senate argues budget by laws

by Mary Hennessy  
Staff Writer

The 1983-1984 ASI budget and the bylaws of a student organization were discussed at a lengthy Student Senate meeting last week.

Next year's budget was introduced to the senate at April 20 meeting, but the highlight of the meeting was the passage of the Benevolent Order of Alternative Needs bylaws. The group, formerly known as the Benevolent Order of KROC, had been asked by the Student Senate a week earlier to amend the bylaws in order to better clarify their objectives.

One objective of the organization is to promote alternative dances, student, youth, and senior services, conviviality, coteries, levies and legacies, which hereinafter will be referred to as our Special Purpose, according to its bylaws. The ASI Program Board expressed concern that a conflict of interest might arise between the two groups because of the fact that both groups' officers are on the Program Board.

"Right now you mention this club to the Program Board and you get an allergic reaction," said Senator Dan Rickert.

The senate after much reluctant debate, amended the BOAN bylaws to include a clause that reads "officers shall not hold executive positions on Program Board committees."

We are setting up requirements that haven't been set up for 300 organizations," Activities Director Bob Walter said. "Conflict of interest is the responsibility of the Program Board. We cannot prejudge what people might do."

"The reason we're forming this group is to do things a little differently, like dances," said Julia Pross, sponsor representative for BOAN. "We want things done that aren't getting done."

The bylaws were approved with 14 senators in favor, six against and two abstaining.

The Senate also agreed to change the requirements for amending the ASI bylaws, subject to approval by the student body in the May 4 and 6 elections.

Current policy states that the senate must pass by a two-thirds vote to put an amendment on a ballot for a two-thirds student body approval before the bylaws may be amended. The proposed amendment that the senate will be able to amend the bylaws by a three-quarter vote, subject to student body vote. The proposed amendment must be posted conspicuously and the full amendment must appear as an official notice in the Mustang Daily, once a week, at least three weeks prior to the vote of the Student Senate.

"The Student Senate was formed in 1952," said Senator Maryann Chalmers who was in the senate's first meeting. "In 1955 I was a student senator and I think we have done a pretty good job."

Finance Committee Opening

GET INVOLVED!!
There are currently openings on the ASI Finance Committee for all schools except Architecture. Come sign up in the ASI Office, University Union, Room 214.

Architect to Speak
Landscape Architect David Streatfield will be giving a lecture titled "The California Landscape: from Lockwood de Forest to Halprin," on May 5. The speech will be held in Dexter Library Room 211 above the "Cellar" at 7:30 p.m. Cost is $1. Sigma Lambda Alpha Honor Society is sponsoring Streatfield's speech.

Opening
There are currently openings on the ASI Finance Committee for all schools except Architecture. Come sign up in the ASI Office, University Union, Room 214.

Poly Notes

Hunter Safety Course
A Hunter Safety Course being offered covers firearms and archery, safety, conservation, ethics, first aid and survival. Passing the course enables one to get a hunting license.

Social Dance Club
There is a new club on campus called the Social Dance Club. The requirement to be a member is one quarter of a social dance class or the equivalent. Meetings will be held on Tuesdays at 7 p.m. in the Crandall Gym.

University Christian Center
Every week until the end of the quarter the university Christian Center will hold two events. A Brown Bag Communion is held on Wednesdays at noon. Bring your lunch, share in a discussion of a life issue and take Communion together. A Bible Study is held on Thursdays at 11 a.m. The study will focus on the essence of the Biblical story and how it can be applied to your own faith journey. Bring your favorite translation of the Bible.

Stained Glass Class
There will be a stained glass class offered on Wednesdays from 6-9 p.m. beginning April 27. Those interested should sign up in the University Union Craft Center. Cost is $22.50 and includes basic supplies. The class will run through May 26.

Pre-Health Professionals Club
Mu Delta Phi is holding their monthly meeting on Thursday, April 28 at 11 a.m. There will be an election of officers, followed by an ice cream social. The event is in Science North, Room 206.

Mustang Aviation Club
There has been a change of plans for those people interested in attending events sponsored by the Aviation club. Lt. Chris Ives, a Poly graduate and Blue Angel, was scheduled to speak at Cal Poly on Thursday. The Blue Angels are flying in from the east coast on Thursday, therefore Lt. Ives will be unable to speak. The club apologizes for any inconvenience.

Food Drive
The Sigma Alpha Epilson Fraternity Pledge Class, along with Campus Hunger Coalition will have tables set up in front of six local supermarkets on Friday, April 29 from 9-6 p.m. asking for donations of food to be donated to Grass Roots II. Grass Roots II is a non-profit organization concerned with providing emergency food supplies to those people with great need in the San Luis Obispo community. Tables will be set up at Williams Brothers Markets on Broad and Higuera streets, in the University Plaza, at Safeway on Madonna Boulevard, and at Lucky's in Madonna Plaza and on Foothill Boulevard.

ASI Outings Spring Day Excursions

April 30: Breakfast Bike Ride to Avila Beach—Pedal your bike with Lynda and Laurene to the Old Custom House in Avila Beach for a hearty breakfast.

May 1: Lopez Lake Canoe Trip—Canoe along the lake with Kim and Clay and enjoy a day of relaxation and beautiful scenery. Bring your lunch and paddle your way into some fun.

May 7: Morro Bay Canoe Adventure—Canoe through Morro Bay’s fascinating estuary with Cindy and Colleen where you might catch a glimpse of a great blue heron.

May 8: Bishop Peak Hike—Hi-ho! It’s up the peak we go! Join in a happy slow paced hike up Bishop’s Peak with Sharon and Marcel for a spectacular view of San Luis Obispo.

May 14: Morro Bay Bike Ride—Pedal your bike with Terry to Morro Bay for lunch and sightseeing along the famous Embarcadero. Get your legs ready for a great day of riding.

May 15: Horseback Riding—Get your horses ready for a great day of riding.

May 15: Sailing to Paradise...Well maybe not Paradise, but how about Lake Lopez? Experienced skippers will give manual and safety instructions and then each participant will take to the water for a great day of sailing.

This bird seems to be saying to his companion; “How many times have I told you not to starch my collar?!” Actually this pair perched on the rocks at Montana de Oro State Park are just a sample of the wildlife to be seen on the guided hikes offered by the Morro Bay Museum of Natural History.

Museum of Natural History offers tours

While the sunshine may only be making sporadic appearances on the Central Coast, the volunteers at the Morro Bay Museum of Natural History offer guided hikes in and around the Morro Bay area, providing free, convenient recreation to those recuperating from cabin fever.

The volunteers, called docents, perform services such as leading hikes, giving lectures, and putting together slide presentations, according to docent Katherine Bell. There are currently 120 docents involved with the Morro Bay Museum of Natural History, she said.

Those participating in the docent program are of varied ages and backgrounds, ranging from Cal Poly or Cuesta College students to retirees, said Bell. They undergo a formal training seminar which covers the rules and regulations of the state park system.

The museum facility itself is a panorama of natural history exhibits, including a diorama of the Perigrine Falcon. A library is also available, featuring books about Natural History and Central Coast geography, said Bell. Those who are camping in the state park system may view the museum’s displays for free; admission is 50 cents for the general public. The museum is funded by the Natural History Association, which is “the parent organization,” said Bell.
Japanese students perform tonight

Japanese pianist Kikuo Watanabe will perform tonight in Chumash Auditorium.

One of the most highly regarded wind bands of Japan will perform at Cal Poly tonight in a benefit fund-raiser for the university’s Symphonic Band.

The Musashino Academy Musicae Wind Ensemble of Tokyo, a 60-member student band, will perform selections by Dmitri Shostakovich and George Gershwin among others during the concert scheduled for 8 p.m. in Chumash Auditorium of the University Union.

“We’re delighted that the ensemble has been able to arrange its schedule in order to appear at Cal Poly,” said William Johnson, a member of the university’s Music Department and director of bands.

Tickets for the concert are $4 for adults and $1.75 for students. They are available at the University Union Ticket Office, Premier Music Co. in San Luis Obispo, and from members of the Cal Poly Symphonic Band.

The concert will be a benefit for Cal Poly’s Symphonic Band, which has received an invitation to represent the United States and perform at Switzerland’s Festival of Geneva this summer, but needs to raise $20,000 in order to cover expenses.

The Musashino Academy Musicae Wind Ensemble was founded in 1963 and is comprised of students selected only after rigorous auditions.

Each year the ensemble makes concert tours of Japan that are well received and CBS-Sony Inc. has contracted it to produce a record every two years. The 1979 record won the grand prize from the All-Japan Band Directors Society.

The ensemble is under the direction of conductor Antonin Kuhnel, who is serving his second tour as guest professor and conductor with the ensemble.

Born in Prague, Czechoslovakia, Kuhnel studied conducting and percussion at the Prague Conservatory and Prague Academy. He played tympani with the National Theater Orchestra while a student at the academy.

The guest pianist for the concert at Cal Poly will be Kikuo Watanabe, a 33-year-old graduate of Indiana University, where he studies with pianist Gyorgy Sebok, cellist Janos Starker, violinist Josef Gingold, and conductor Tibor Kozma.

He has held recitals in many U.S. cities as well as Japan and in 1976, studied in Vienna with the late Stanislav Neumann. Since 1977, Watanabe has been on the faculty of the Musashino Academy Musicae.

Selections for the program include “Rhapsody in Blue” by George Gershwin, “Armenian Dances Part One and Two” by Alfred Reed, “Incantation and Dance” by John Barnes Chance and “Kobiki-Uta for Flute” by Kiyoshige Koyama.

The concert is being sponsored by Cal Poly’s Music Department and School of Communicative Arts and Humanities, the ASI/IRA and the San Luis Obispo Rotary Club.

The Navy is looking for highly motivated juniors and seniors to fly in tactical aircraft.

Sound too good to be true? The Navy Officer Information Team will be on campus May 25. For details call the Placement Center or call toll-free 800-252-0559.
Students invited to tour industrial sites in Japan

by Frank VanBrooklin

Cal Poly students have been invited to tour the industrial heartland of the Orient, according to the dean of the School of Industrial Development and Education.

Carl C. Cummins, Cal Poly coordinator for the tour, said students will be able to view Japan's unique group decision-making processes which have been successful in Japanese industry, while being treated to the warm hospitality and culture of the country. The tours will extend from June 15 through Aug. 14. All Cal Poly students are eligible, but the tour will be most interesting to students in the industrial fields, said Cummins.

The cost of the 16-day tour is $1,480, and covers transportation, meals and lodging. The application deadline is May 15. Tours will be departing weekly from San Francisco and Los Angeles for the month that it is offered.

Cal Poly is one of 25 United States universities invited to participate in the program. The tour has been organised by the International Friendship Association in Japan and is headed by Japanese industry.

For more information, students may contact Cummins in his office in the Dexter Building, Room 214 or call 546-5338.

Poly organization receives $15,000

The Wilshire Foundation, a non-profit Los Angeles organization, donated $15,000 to the Cal Poly Disabled Student Services in a University Union ceremony on April 20.

The foundation's main interest is dealing with health-related organizations. The Disabled Student Services falls into this category.

Dr. Yoko Tiber, a retired foundation member living in San Luis Obispo, did some investigating to find the appropriate group to donate the money. He and his wife were at the presentation.

With the $15,000, the DSS purchased a gas-run tram that accommodates seven passengers. This extends the current tram service up to the Ornamental Horticulture and Agriculture units. The electric trains cannot make it up the hill.

The new tram is available for daily service.

The DSS also bought a speech synthesizer unit for the learning and visually handicapped students so they can use the computers as a learning resource.

City, campus benefit from Poly Royal

From page 1

Two shirts reading "Par- Royal" summed up the atmosphere in San Luis Obispo last weekend. An estimated 150 kegs of beer were sold by the Carl and bottle liquor store at 290 California Blvd. Carl Urquiva, a clerk at the store, said they usually sell 20 to 30 kegs in a full week.

Restaurants also rapped rewards from Poly Royal.

Reports show that 1 out of every 3 bicycle accidents involves an automobile.

Ron Waynes

Ron Waynes

It is sometimes before daylight savings time. The sun barely peaks over Cuesta Ridge, and San Luis Obispo is in that diffuse golden wash of morning. Cars begin to fill up Cal Poly parking lots, but they seem sluggish in the morning cold. Hundreds of coffee pots are set on hundreds of burners, so hundreds of students can get their caffeine fix for morning classes. No one is really moving fast.

Except for Ron Waynes.

He is not on the Mustang Track, alone except for his coach, Tom Henderson, who quietly offers suggestions. Waynes is moving fast, sprinting and jumping, sprinting and jumping. Now it is afternoon. Students nod to their desks in class. Teachers have long lost the energy to fill heads with knowledge. Everyone is moving slowly. Except for Ron Waynes.

He is on the track again. Now he is just sprinting—sprinting, sprinting, sprinting—in the 100 meters. Waynes is hardly moving slowly.

It's enough to make sluggish people cringe to hear about him. But Waynes is not just doing it to impress. His marks show he is just trying to be good. From the looks of things, he is trying to be good at everything. And he is succeeding.

Waynes, who was a Division II all-American the last two years in the long jump and the 400 meter relay team, has performed exceptionally well this season and may possibly achieve Division I all-American status this season.

In 1981 Waynes got all-America credentials in the long jump and in the 1982 Division II National Championships placed third in the long jump at 26-0 and ran the first leg on the third-place 400 meter relay team.

Please see page 7

Sue Landis looks uncomfortable, but at least she's got the ball.

Women grab league title

All the candy sales and car washes have paid off for the women's soccer team. The lack of coverage, admittedly unfair for a team of this caliber, didn't faze them. The coaches never gave up. The players certainly didn't. If they had a Gipper they would have won it for him.

"It" was the Division I Southern Conference championships in women's soccer, which puts them in the state championship playoffs May 13-14 in Santa Barbara.

The women, who ended the season at 9-1-2, were catapulted into the league title with a win two weeks ago at San Diego State. Cal Poly handed SDSU its first loss of the season, 9-1. You could have called that game the Sue Landis-Kris Sandberg show. When Landis wasn't breaking through the defense they would have won it for him.

Ron Wayne

From page 6

But this year may prove to be the finest season for Wayne, who has qualified for the Division I and Divi­
sion II National Championships. Last year, Wayne led 26 feet, 3/4 inches last month in a non-
scoring open invitational meet at Cal Poly to break a 15-year-old record set by Ceci Turner. Turner’s mark of 26-1/4 was set in 1968. Wayne’s leap also broke the old stadium record of 25-1/2 set by Mohinder Gill in 1970.

He has been jumping consistently over 24 feet with jumps of 24-1/4 and 26-0 this year. His mark of 28 feet, 3/4 inches is one of the best outdoor marks in the world this year. “I would like to be consistent at 28 feet,” said Wayne.

When Ron is not jumping—of course you know by now—he is sprinting. He has a 10.8 wind-aided time in the 100 meters this year. “I want to qualify for Divi­sion I this season,” said the 22-year-old senior from San Jose. Besides the 100 meters, Wayne has run very well in the 440-yard relay and his 260-yard dash, event he also plans to qualify for.

Another important point is that Wayne has brought to a Divi­sion I qualifying standard, the 440-yard relay team.

The team of Terry Wynn, Gordon Reed, Dru Utter and himself, qualified with a seasonal best time of 41.17 at the Bruce Jenner-Michels Classic. The team has the best time in the COA.

Wayne believes that the team should do well in na­tions this year and attributes this belief in the team’s togetherness and will to win.

Wayne will compete in the 100 meters, 200 meters, long jump, and the 440-yard relay team this weekend at a dual meet with Fresno State University.

Before the whistle blew, the tired Aztec side line man by the Mustang things, coupled with a supportive crowd, could help the women clinch the division title.

Women’s tennis

The women’s tennis team will face what may be the most important match of the season—Wednesday weather permitting.

The women will take on Cal Poly Pomona at 2 p.m. on the home courts here in San Luis Obispo.

Cal Poly is tied for first place, “So this should be the game to watch,” according to Coach Yeast.

The women will have a definite home-court advan­tage Wednesday. Yeast said the courts, coupled with a supportive crowd, could help the women clinch the division title.

Women’s soccer

On page 8

with a Nancy Wilson pass to score, as she did in the first, she was passed byizacao to Sandberg to score.

And when Sandberg scored on her own which la ta in the second half. Mustangs finished the season with a 1-1 tie with UC San Diego. Sue Landis made the lone Poly goal.

Wayne, who takes to training out with ms alone, has in­cremented Waynes.

Wayne believes that the team should do well in na­tions this year and attributes this belief in the team’s togetherness and will to win.

Wayne will compete in the 100 meters, 200 meters, long jump, and the 440-yard relay team this weekend at a dual meet with Fresno State University.

Ron Wayne
Opinion
Complete the plan

State and federal emergency agencies wanted the Campus Disaster Preparedness Plan improved so that the county’s nuclear emergency preparation would be complete. The Faculty and Student Senators, faculty and student members of the Disaster Preparedness Task Force, and Concerned Cal Poly Faculty and Staff objected to its approval while still in a draft form.

Last week President Warren Baker okayed the draft. He expected to submit the checklist of tasks and operating procedures to the State Office of Emergency Services after May 1.

Baker should listen to student and faculty concerns rather than approving an incomplete plan because state and national organizations want Diablo Canyon Nuclear power plant cleared for operation.

The 16 people who marched through Poly Royal Friday wanted to make two points: Poly’s emergency plan should cover more than sheltering or evacuation in case of an accident at Diablo Canyon, and the entire plan is still too sketchy to be approved.

We agree. Baker should be selfish about Cal Poly and put our interests first rather than accepting directions from the State Office of Emergency Services. The OES and the Federal Emergency Management Agency need to approve all county emergency plans before Diablo will be allowed to go on line.

But Poly’s priorities are different. Since Cal Poly has no admission problem, it can afford to let all contingencies from toxic spills to snipers, Baker should not have allowed an incomplete draft to serve as a complete plan.

The Mustang Daily Editorial Board urges students and faculty to write to Baker, as well as Gov. George Deukmejian, and ask that specific plans and training be completed before the plan is considered operational.

The Last Word:
I’m not like that

When the first New York pilgrims sat down on Morro rock, Californians gazed at the sky and asked, “Why us?”

These strange creatures from a distant land have invaded California for years and continue to do so much to the dismay of native El Doradans.

But we’re not all like that!

Some say it’s due to the heat—other’s claim it’s because psychiatrists traditionally take summer vacations. And in the winter, New Yorkers run for cover like polar bears in Hawaii.

But we’re not all like that!

So, like really, do you guys get my drift, like the max, I mean really for sure?

Just like all Californians aren’t blond-haired, sun-struck and talk like grody to strangers.

But we’re not all like that!

Author Karen Bricco is a junior journalism major and Mustang Daily staff writer.

Letters

Student evaluations?

Editor: I’m writing in response to “Janice” who on Tuesday, April 10, wrote a letter to Mustang Daily supporting teacher evaluations. I agree with her. Students should know before registration which of their teachers may be boring, who ramble, who meanders through texts, who memorizes lectures, etc. May we go on step further? Perhaps I, as a teacher, could receive student profiles before I allow students in my classes. In this way I could find the students I would most like to teach:

1. I would like to find students who are sincerely interested in improving their writing and who will carefully read the comments that take me so long to write on each paper turned in to me.

2. I would like to have students who are themselves motivated and who do not expect me to motivate them and explain the “practical” nature of everything I say.

3. I would like to find students who pay attention, who think, and who do their homework on time.

4. I would like to find students who are interested in ideas, who value understanding the past, and who care about the future of the world, rather than students who care only about their grades.

5. I would like to have students who are interested in learning to think and to write and who are interested in education, not only in jobs or in money.

6. I would like to find students who prepare for class by doing the reading or homework that I assign, just as I prepare for teaching them. Then, perhaps, I would not have to go through the readings to point out the obvious.

7. I would like to find students who do not pass notes and who do not talk in class.

Daily policy

The Mustang Daily encourages readers’ opinions, criticisms and comments on new stories, letters and editorials. To ensure that letters will be considered for the next edition, they should be submitted to the Daily office by 10 a.m.

Press releases should be submitted to the Daily at least a week before they should be run. All releases must include phone numbers and names of the people or organizations involved, in case further information is needed.

Letters and press releases may be submitted to the Mustang Daily by bringing them to the Daily office in Room 229 of the Graphic Arts Building, or by sending them to Editor, Mustang Daily, 229, Cal Poly, San Luis Obispo, CA 93407.

Letters should be double-space typed and include the writers’ signature and phone numbers.

Editors reserve the right to edit letters for length and style, and to omit libelous statements. Letters should be kept as short as possible.
