Women spikers feature balance

by Mike Mathison
Special to the Daily

Last year the Cal Poly women's volleyball team was ranked No. 10 in the Volleyball Monthly pre-season poll. It was said then that the Mustangs lacked too much firepower with the departure of setter Marie Lundie and hitter Sherr Walker.

The same is being said in 1983. Volleyball Monthly picked the Mustangs No. 9 in the pre-season rankings. It had been said that head coach Mike Wilson's club was in trouble because it lost a lot of experiences to graduation—siders. This Taylor played in all 10 sets last season and is back. Wendy Hooper and super-sub Jolene Wilton return to the playing lineup.

All lining up and ready to go are these Mustang football players. For a preview of the football season, see story on page 6.

Well, sending into this weekend's fan favorite Invitational—which the Mustangs won two consecutive years ago—is only a big question mark. "The team is doing the job I think," Wilson said. "I'm expecting some blockers to come out of nowhere," said Wilson. The senior setter, who will also get more people into the stands this season because admission for Cal Poly students is free. Need to pay. With this overman concern, the Mustangs should get ready for the weekend.

The Mustangs are also on the road against Santa Barbara, USC, Brigham Young, and UCLA, to name a few. "It's always been my philosophy to play as tough as I can and make it hard for the girls to play," said Wilson. "Every year our schedule is as tough as I can make it. We're not playing the Sisters of the Poor too many times.

Wilson has seven players back from last year's 6-10 hitter, Stephanie Moos from Chico High; 6-5 setter/...
Poly men finished season with titles, champs

by Kristin Simon
Lifestyle Editor

IN MEN'S ATHLETICS, most of Cal Poly's teams compete at the NCAA Division II level. The university currently competes in nine men's sports, seven of them as a member of the California Collegiate Athletic Association (CCAA). In wrestling the Mustangs compete at the NCAA Division I level and Poly football is in the Western Football Conference.

BASEBALL—Rain washed out 18 home games and created a rough ride for Poly's baseball team. Coach Andy Herr's team ended the season at 11-57 overall and 10-17 in CCAA action. High Williamon, right field, led the team with a .385 average and was named All-CCAA and All-District VIII. Scott Bakker, relief pitcher, was also named All-CCAA.

BASKETBALL—The cagers finished the season with an 18-10 overall record and 9-6 in the CCAA earning themselves the 4th place slot. Tom Perkins was chosen first team All-CCAA, and Alex Lamberton was selected for the second team.

SWIMMING—The men's swim team placed 10th in NCAA Division II national competition. Seven Poly swimmers earned 14 All-America certificates. This group was paced by Rich Simon who earned four and Brian Williamson who earned three.

TENNIS—Coach Hugh Beam's men's tennis team managed a 10-6 overall record, and finished in second place in the CCAA with a 7-3 record. Tyler Coras, Andrew Weber, and Dave Rainey competed in the NCAA Division II nationals at Southwest Texas State University.

Howard "Slam" Lawson, who finished seventh in the nation last season, is poised to pin yet another opponent.

Men’s season wrap-up for tracksters, mat-men

From page 2

TRACK AND FIELD—The Mustangs won the CCAA team championship and took two NCAA Division I individual titles in track and field. In national competition Ron Waynes set a school record, leaping 26'4 1/2 in the long jump. Waynes also earned All-America honors by placing sixth in the 100 meters. Carmelo Rios ran off with the 5,000-meter title after finishing second in the 3,000-meter steeplechase. Coach Tom Henderson’s team wound up the season with eight other runners earning All-America laurels in national competition.

WRESTLING—The Mustangs had their best season at the national level since 1978. This year’s group placed ninth in the NCAA Division I nationals with three out of four wrestlers earning All-America honors. Team leader Lou Montano went 41-2-2 for the year and placed second at 158 pounds. Al Gutierrez placed 8th at 118 pounds and Pat O’Donnell placed 7th at 130 pounds. Jeff Barkdale also represented Cal Poly in nationals.

The men’s track team cleared all hurdles on their way to a CCAA crown last season.
Last year was good for women athletes

by Kristen Simon
Lifestyle Editor

The Cal Poly women's sports program picked up 35 All-America certificates, five individual champions, and team championship titles in cross country and track and field during the 1982-83 season. This is Cal Poly's second year of competition in the National Collegiate Athletic Association (NCAA) championships.

Of the eight women's sports at Cal Poly, seven competed at the Division II level, in the California Collegiate Athletic Association (CCAA), with volleyball competing in Division I.

BASKETBALL—Unusually injuries marked a tough season for coach Marilyn McNeil's Mustangs. The team finished the year 8-20 overall and 9-7 in CCAA play. Senior Carolyn Crandall led the Mustangs in scoring and was chosen first team All-CCAA at her forward position.

GYMNASTICS—The winter sports season ended with a much improved women's gymnastics squad. Sue Ring and Pam Dickie led coach Andy Proctor's Mustangs to a 10-11 record.

SOFTBALL—The Mustang women ended with a 15-14 overall record, and 8-7 CCAA mark for third place. Pitchers Jena Holcomb and Dana Tanaka, catcher Amy Bush, outfielder Jill Hancock, and infielder Lisa Hous made the All-CCAA team. Second-year coach Lorene Yoshihara took her team to one of the best Poly finishes for softball.

SWIMMING—First-year coach Duane McRoy led his women's swimming team to a 24th place finish at the NCAA nationals at California State University, Long Beach. Ann Stier turned in three outstanding All-America performances for the Mustangs.

TENNIS—Poly's women's tennis team earned its first-ever full-team bid to the NCAA Division II nationals at Cal Poly Pomona. Lisa Ehrgott was the team's first All-America player, coach Orion Yeast's netters finished 12-5 overall (including a 10-match win streak) and 10-2 in the CCAA for a tie for the championship with Cal Poly Pomona.

Please see page 5
Women's track and volleyball put Poly on the map

From page 4

TRACK AND FIELD—As the defending NCAA Division II champion, Cal Poly's women's track and field team captured four NCAA Division II individual crowns, with Amy Harper grabbing two of them (1,500 and 5,000 meters). Danella Barnes won the javelin, while Sue McNeal won the high jump. The women brought home 22 All-America certificates, earned by 14 athletes. They also won their second straight CCAA team championship.

VOLLEYBALL—The women's volleyball team rolled to a 29-10 record and finished as the runner-up in the NCAA Division I Western Regional, and fifth in the nation for the second year in succession under head coach Mike Wilson. Sandy Aughinbaugh was elected All-America by the Collegiate Volleyball Coaches Association.

The Cal Poly women's track squad ran away, literally and figuratively, from their competition last season.

The women's tennis team displayed good enough form last year to earn themselves a full team bid to the NCAA Division II nationals at Cal Poly Pomona.

Former Mustangs play for pay in the pros

by Mark Brown
Managing Editor

The 1983 baseball and football seasons marked a milestone of sorts for Cal Poly athletics, with two former Poly athletes achieving the highest honor possible in each of their fields: shortstop Ossie Smith was instrumental in helping the St. Louis Cardinals clinch the World Series, and LaCharls McDaniel played in the Super Bowl for the victorious Washington Redskins.

But just a few years ago, both were playing on the fields here, shagging flies and passes as Mustangs and wandering the same halls and the same classes we all took. Now these guys are rich and famous.

Actually, the list of Cal Poly alumni playing in professional sports is a long one.

—McDaniel was a sometime-player with the Redskins that they turn to in times of need. "He's the first one they call when someone's hurt," said Cal Poly sports information director Steve Rutledge.

—Wide receiver Robbie Martin of the Detroit Lions was part of the Cal Poly team that won the 1980 National Football Championship. He was signed by the Philadelphia Phillies before signing with San Francisco.

—Former Mustang Mike Krukow, now with the Chicago Cubs, was instrumental in helping the St. Louis Cardinals win the World Series. He was named Rookie of the Year.

But while each of these players has achieved id sports success, none comes close to the amazing career of Ossie Smith.

Ossie has been a very pleasant surprise," said Eric Burdick, sports editor of the San Luis Obispo County Tribune-Delph, who covered Smith's exploits as a Mustang shortstop. "He spent very little time in the minor leagues."

Indeed, Smith spent only one year in the minors at Walla Walla before being called up by the San Diego Padres. He rewarded their action by an aggrigating the honor of Rookie of the Year.

A switch-hitter, Smith was born in Mobile, Alabama. He attended Cal Poly from 1974 to 1977, in that year Smith helped the Cal Poly team to win their only Southern California baseball Alliance titles in 13 years.

Late that year he was signed by San Diego, where he played for four years before being traded to the Cardinals for shortstop Gary Templeton.

"We don't get a lot of scouts up here," Burdick explained. "We don't get a lot of scouts unless we play in Los Angeles or San Francisco." Nevertheless, professional baseball was eager to snap Smith up. "You could see that he would get drafted," Burdick said.

While only a .241 lifetime hitter, Smith earns his five-figure dollar salary with his glove. With Smith's graceful, errorless fielding, Cardinal manager Whitey Herzog doesn't have to cover the team. Smith has been a reliable in the 150 runs a year. The former Mustang has been honored with three Golden Glove Awards for his fantastic fielding.

The key to Smith's success on the field is his speed. He gets to the plane that other shortstops only dream about to suck the ball off the ground.

Smith looks like a million dollars off the field as well. He made Playboy Magazine's "Ten Best-Dressed Men" list last year.

—Widerecaiver Robbia Martin of the Detroit Lions was Martin's teammate in the 1960 championship.

The 1982 baseball and football seasons marked a new day in Cal Poly athletics, with two former Mustangs achieving the highest honor possible in each of their fields: shortstop Ossie Smith was instrumental in helping the St. Louis Cardinals win the World Series, and LaCharls McDaniel played in the Super Bowl for the victorious Washington Redskins.

**Mustang cagers win and lose in Britain**

by Mary Hennessey
Assistant Managing Editor

The Cal Poly Men’s basketball team hoped to spend the last two weeks of summer playing ball abroad, but probably shot more pictures than basketball.

Head Coach Ernie Wheeler’s Mustangs toured England and France, but due to erratic scheduling, saw less game time than anticipated.

The team’s itinerary included seven games, but after the first two in England, athletic department officials said their schedule suffered some jumbling.

The cagers won their first game against Halifax 79-78 but lost the second to Solent, 90-79. Other results were not available at press time.

Senior Mike Saia and sophomore Jim Van Winden were the high scorers against Halifax, with 16 points each. Senior Katch Wheeler helped with 15 assists and six points. Senior Pat Frazier received 14 points while junior Ron Brumfield sank 10 points.

Brumfield’s 18 points against Solent didn’t give the team enough of an edge for a win. Saia dropped in another 16 points while Wheeler contributed 14 and Van Winden 12. Senior Craig Cleveland tallied 15. The Mustangs posted an 18-10 overall record last year.

It’s built on business formulas that perform complicated transv. as accurate and analytical functions – the ones that usually require a lot of time and a stack of reference books to help you get the most out of calculator and classroom.
Looking ahead to improving on their 6-6 mark of last year, the Cal Poly football team already has one impressive win.
Mustangs eye playoffs

Gary Swanson picked up where he left off, having a hand in 11 stops from his middle position at Sacramento to lead Poly.

Flashing Swanson on one side is Dale Bartel, a 6-3, 200 pound senior from Lompoc. Gary Haering is the other starting backer, but will be out for a couple of games with strained ligaments in his ankle. Haering is also a senior.

Defensive Line—the Mustangs pose an experienced, formidable three-man front, spearheaded by All-American candidate Paul Sverchek. The line, which averages 6-4, 250, also includes junior Pete Prudhomme and Steve Gibson.

Kicking Game—with the untimely departures from Cal Poly of last year’s freshman sensation, David Crotzen, possibly emerges another in first-year man Tom Cortes. Against Sacramento, Cortes banged home three field goals in three tries and converted all three extra-points attempts as well. The twelve total points and three field goals in one game both tied Poly records. Punter Nick Climie averaged a respectable 42.7 yards per kick.

The Mustangs should be flying high this year, with a talented corps of receivers helping to lead the way.

by Daryl Teshima

When it comes to running, the Cal Poly men's and women's cross country teams know how to go the distance. Both teams certainly proved that last year. The men's team took both the California Collegiate Athletic Association (CCA) and NCAA Regional titles, and finished a strong 11th place at the NCAA national meet in Minnesota.

The women's team went even farther. Coach Lance Parter's Harriers were unbeatable last year, taking the CCAA, NCAA Regionals and NCAA Division II crowns. Led by defending Division II national cross country champion Amy Harper and five other runners with All-America credentials, they left every team they faced in the dust and snow.

This year shouldn't be much different. With virtually the same team (four out of their top seven runners are returning) as they had during their championship season, these women are once again the team to beat in their division.

And the frontrunner of this all-star team will be Harper. With her past record-breaking achievements in cross country and track, Harper has to rank as one of the best runners ever to wear a Cal Poly uniform. Please see page 11

Harper and Co. begin fight to defend crowns

The Cal Poly women's cross country team, led by Amy Harper, will be back on the trails in a bid to repeat their successes of last season.
Men, women harriers set to run the distance

From page 10

Entering her senior year, Harper is expecting to con­
tinue her already illustrious career at Cal Poly.

Right behind Harper will be three returning All­
America runners—juniors Marilyn Nichols and Carol
Gleason and sophomore Robyn Dubach. All three have
turned in some impressive times in the pre­season.
Other fine performances are expected from
sophomore Lori Lopez, Kris Katterhagen and Heidi
Ertl, and senior Vicky Bray.

The women’s team can also boast a good crop of
newcomers to the team. Freshmen Leslie White, Katy
Dunsmuir and Gladys Prieto are just a few of these
young runners who will hopefully continue Cal Poly’s
dynasty in women’s cross country.

In the upcoming three weeks the women’s cross
country team will travel to Riverside, San Diego and
Stanford to participate in various invitations. The
invitations will be an exceptionally
challenging contest, as they will compete against
many of NCAA Division I’s top cross country teams.

The men’s cross country team also has its share of
high expectations and talented runners. Although
they lost many top runners from last year; coach Tom
Henderson’s team will still be tough to beat.

They will be led by senior All­America runner Mike
Lansdon. Lansdon took 15th place last year in the
NCAA Division II national meet, and will be the
pacer for the team.

Other top performances are expected from seniors
Phil Bellan and John Rembao, and sophomore Chris
Emmons. Overall, the entire men’s cross country
shows a great deal of depth and strength.

The team’s first three invitations will be on the
road. They will travel to Fresno, San Diego and Stan­
ford to compete in these various races.

Mustangs trying to kick themselves into gear

by Teresa Mariani
Assistant Managing Editor

Although starting off the season 0 and 4 might have some coaches discouraged, Cal Poly men's soccer coach Wolfgang Gartner is expecting to finish nothing short of second in the league this year.

"Last year at this time we were 1 and 4, and then we came in second in the league. We didn't lose the last 10 games," Gartner said before Poly tangled with St. Mary's soccer team last Friday.

"Again well try to make a run at the title, but it will be difficult because we lost to Pomona and Cal State L.A. the first two games," Gartner explained.

Cal Poly started off the soccer season at CSLA, with a 4-0 loss, and then the tirad team lost a close match the following day to Cal Poly Pomona, 3-2. The Mustangs then lost to U.C. Davis 4-2, but pulled together to make Division I Stanford struggle for a 2-0 victory Sept. 14. Gartner said the 2-0 score was deceptive.

Among the new faces on the team, Gartner praised freshman Jeff Meyer of San Clemente and Dan Tobias.

"Jeff is coming into his own as a freshman," the coach said. "I think he'll be very helpful.

Four players have come out for the position of goalkeeper; they have talent and potential," Gartner stressed. "But the season is short, and it might be too late before they mature." But after the men held their own against Stanford, Gartner saw a much more unified team.

"They're playing better," he said. "They're playing clever. They were not clever enough in the beginning. The inexperience hurt us.

The next home game for the team will be 7:30 p.m. at Mustang Stadium Sept. 24 against Cal State Bakersfield, a showdown Gartner says should not be a tough one. Bakersfield is no match for Poly, the coach said.

And as for the win-loss record, Gartner expects a big turnaround, starting now.

"Last year we did exceptionally well for the kind of program we are," he stressed. "We held our own against teams that should have just destroyed us. There are some outstanding athletes here."
Intramurals offers fun, competition for students

by Linda Reiff
Entertainment Editor

An extensive program of individual and team sports is being offered this fall through Cal Poly's recreational sports program.

During the 1982-83 school year, almost 10,000 students participated in recreational sports, a figure recreational sports director, Dave Ciano, said highlights why the recreational sports program probably draws more student participation than any other activity on campus.

Ciano also said that in addition to the 9,672 participants, there were 389 off-campus people who joined in last year's activities. Besides co-recreational sports, there are also activities for disabled people, drawing many community members. These activities include bowling, racquetball, tennis and "Twinges and Hinges," a water exercise program for arthritic people.

Co-recreational sports offered this fall include inertasue water polo, table tennis, weightlifting, a free-throw contest, a rec-festival and a turkey trot.

Separate women's and men's sports being organized are badminton doubles, racquetball, team racquetball, tennis, volleyball and touch football.

Last fall touch football drew the most student interest, with 61 teams and 931 student players.

Two special additions to this fall's recreational sports program are a softball over-the-line tournament and a "Pity Poker Tournament.

Sports open to the faculty and staff include afternoon swimming, early bird swimming, open basketball, tennis, volleyball and the turkey trot.

Managers from prospective teams must attend the fall organization meetings for that sport. At the meetings, the managers will find out more information about team rosters, meeting dates, entry deadlines, tournament dates, equipment rentals and ticket prices. (See Chart 1)

Further information on meeting dates, entry deadlines, tournament dates and when games begin, is available in the recreational sports office, University Union 104. Ciano said there will be an employee meeting on Sept. 22 at 6 p.m. in Chumash Auditorium for people interested in any of the 80 job positions available.

"We need people to work in the rec office, checking out equipment, in the weightroom, taking court reservations and as lifeguards," Ciano said. In addition to those openings, Ciano said he is also looking for referees.

The recreational sports office also checks out equipment and runs the campus sports facilities.

The dates for intramural meetings are:

Spikers rank seventh in nation

Despite, or perhaps due to a 3-1 season record after a tough four-set loss to Purdue, Cal Poly’s women’s volleyball team earned a seventh place ranking in the Division I Coaches Top Twenty Poll last week.

Following are the top ten teams, the points they received, and their records at the time of the poll. Purdue was ranked eleventh with a 9-1 mark.
