Senate studying alternatives to replacing Gersten

by John Bachman
Staff Writer

The Student Senate decided Wednesday night to establish a committee to study possibilities for replacing Roy Gersten, who in December retired as director of both the ASI and UU business offices.

"We want to look at some different ideas," said Senator and committee member Kevin Creighton. "It might not be best just to replace him."

The committee will examine reorganization ideas for the ASI and UU business offices to see if restructuring of the offices is needed. One idea the committee will look at is for the ASI and UU to have separate business directors.

During the short meetings the Student Senate also unanimously approved the committee, with one abstention. The committee will be made up of six students: three from the Student Senate, one from the University Union Advisory Board, one from the Union Executive Committee, and one member of the committee will be a student-at-large.

The committee's goal, said Creighton, will be to investigate all the different options available. "We are trying to get all the information possible from the people who will be affected."

Gersten had been with the business offices 17 years, said Creighton. He added that restructuring of the rules for various offices might be needed to keep up with the changes at Cal Poly that have occurred in that time.

New interim dean is named for School of Architecture

by Jerry Sheahan
Staff Writer

Cal Poly's School of Architecture and Environmental Design has a new interim dean. Kenneth R. Schwartz was named to fill the vacancy left by George Hasslein, who was terminated by President Warren Baker in a controversial decision last December.

President Baker appointed Schwartz after receiving the recommendation of Cal Poly Provost Tomolinson Fort Jr., who polled the faculty and discussed the decision with School of Architecture student leaders.

Schwartz served as associate dean of the School for five years and will remain as the acting dean until a permanent replacement is selected. According to Schwartz, the search for a new dean is currently underway with September as the anticipated starting date for the dean.

Schwartz's major objective during his interim position is "to keep the school on an even keel."

"I think we have a major problem in a transition period to assure our students that we will be carrying out the programs that students want to take when they graduate," he said.

"I think we had a good chance of winning this year—we didn't have any major problems—but I guess the three judges decided they liked other floats better," said publicity chairman Mike Colvin.

This year's entry, which was a combined effort between the Cal Poly San Luis Obispo and Pomona campuses, was a 16-foot float entitled, "A Knight to Remember," and depicted a knight volunteering to fight a dragon which was guarding a castle with a princess inside.

In fifteen of the last nineteen years the float has won, something which hasn't happened in a long time. This year's entry, which was championed for banner awards and the other years among class awards. "Our greatest achievement over the years is winning the award for best animation, seven out of the last ten years," said assistant flower field and junior journalism major.

Schwartz, a former Dean of Architecture and Environmental DesignGeorge Hasslein, architecture instructor and former dean of that school, praised his new positioning, a new Mazda RX-7 from architecture grads.

Pol Rose Float prizeless — for the first time in 19 years

by Margarita Milla
Staff Writer

Despite great hopes and a lot of work, Cal Poly's Annual Tournament of Roses parade, January 2, didn't win any awards; something which hasn't happened in a long time.

This year's entry, which was a combined effort between the Cal Poly San Luis Obispo and Pomona campuses, was a 16-foot float entitled, "A Knight to Remember," and depicted a knight volunteering to fight a dragon which was guarding a castle with a princess inside.

In fifteen of the last nineteen years the float has won, something which hasn't happened in a long time. This year's entry, which was championed for banner awards and the other years among class awards. "Our greatest achievement over the years is winning the award for best animation, seven out of the last ten years," said assistant flower field and junior journalism major.

Poly students, staff look ahead now that party’s over

by Linda Reiff
Lifestyle Editor

Time was made and fireworks ignited as much of the world celebrated the earth’s awesome completion of another circle around the sun. But after the parties popped out and the sun shone on Jan. 1, people turned to face a stunning new year—a year of excitement and a year of questions. Along with 1984 will come the Olympics, elections and comparisons with George Orwell’s novel. When thinking about the new year, many people often examine their past and plan a “better” future. Holding with tradition, people scheme for what they can do better or different in the new year, dubbing this plan a “New Year’s Resolution.”

Collected here are just a few of the many resolutions, serious or cynical, some Cal Poly students, staff and faculty have plotted.

Tim Castaneda
Junior, Crop Science

“To give my all in whatever I do, like school, wrestling and saving money. And maybe I’ll even learn how to surf.”

Barbara Weber
Associate Professor
Child Development/ Home Economics

“To enjoy life to the fullest and just to survive.”

Kathy Daugherty
Freshman
Physical Education

“Not to eat as many sweets, or none. If I could do that.”

Mary Partridge
Senior, Child Development

“To run everyday and lose some weight.”

Bess Brown
Dean of Students

“To get in good enough shape to run a marathon race comfortably at an 8 minute mile pace...focus on quality relationships...do something special for each of my three children each month.”

Robyn Mayes
Junior, Fashion Merchandising

“To better my checkbook balancing and I’d like not to procrastinate as much as I do.”

Dan Robinson
Senior, Agricultural Business Management

“I resolve to appreciate and enjoy people more. To continue setting and achieving goals, but to also take time to enjoy life, for the future is a mystery. And also to get Warren Baker to a Delta Tau T.G.”

Linda Oszawa
Sophomore, Economics

“To transfer to San Diego because I’ve been a local all my life.”

Tomlinson Fort
Provost

“To bring the university reorganization activity to a successful finish.”

Lars Persner
Sophomore, Political Science

“To improve my G.P.A. And to NOT run for A.S.I. president.”

Donna Morris
Junior, Journalism

“To be more creative with my camera and to seriously contemplate the advantages of having four cats, two dogs and two chickens.”

Richard Song
Senior
Mechanical Engineering

“To get a good job and I’m going to work hard for it.”

Bill Driver
Junior, Crop Science

“To get a 4.0!”

Andrew Baldwin
Department Secretary
Activitites Planning Center

“To improve my memory.”
Ag instructor gets laurels for conservation teaching

by Margie Cooper

A Cal Poly agriculture instructor was recently honored with a "Teacher of the Year" award for teaching conservation methods in agriculture by the California Association of Resources Conservation Districts.

William C. "Bill" Kellogg received the award for work done last year while teaching at San Jacinto High School in Riverside County.

Students participated in tree planting wind breaks, a conservation technique used to protect soil against wind erosion according to Kellogg, and were able to learn about other soil conservation tips like pasture rotation by working on the school's farm.

Kellogg worked with students participating in tree sales and public speaking events sponsored by the Resource Conservation District.

Kellogg said, "I taught specifics on conservation construction techniques like how concrete blocks can be applied to soil erosion techniques."

The award was sponsored by the Allis-Chalmers Corporation, manufacturers of tractors and the California Association of Resource Conservation Districts. There are 130 districts in California which annually submit one nominee for the award.

Kellogg said, "Statewide attention should be given to developing a land use policy and guarding against utilizing "prime farm land for structures."

People in the state, he said, need to "conserve the soil and protect it against erosion."

NUTRITIONISTS/HOME ECONOMISTS...

You're Needed
All Over the World.

Ask Peace Corps home economists and nutritionists why they travel to Asia, Africa and Latin America. They'll tell you they are helping to diminish malnutrition by teaching gardening, food preparation and preservation, hygiene and budgeting.

Ask them why Peace Corps is the toughest job you'll ever love.

PEACE CORPS

Peace Corps Representatives will be on the University Union Plaza on January 17th, 18th and 19th. If you are familiar with the Peace Corps and would like an on campus interview, pick up an application at the Cal. Poly Peace Corps office, complete it and sign up for an interview. The office is located in the Agriculture Department on campus and may be reached by dialing (805) 546-1320. Put yourself where you're needed... join the Peace Corps!
Poly Royal Board meets, Equine program receives $200,000

poster design, date set

While students are busy with class schedules this week, preparations for the 1984 Poly Royal began last month. Activity Planning Center Director Kenneth Barclay said Wednesday.

Prior to Christmas break the student-run Poly Royal Board decided to hold this year’s festivities on Friday, April 27 and Saturday, April 28, promoting the theme “Portrait of Progress.”

According to Cliff Young, the superintendent of Poly Royal, the Board also selected a poster design by senior Tim Harris, an Art & Design major, to display the theme.

Young said poster brochures will be available for preview by mid-February.

Although the Board selects the theme of Poly Royal each year, Young said, “It’s whatever we want to define it as.” Each club and department on campus can decide for themselves how they want to use the theme, he said.

Cal Poly’s nationally recognized Equine Program has received a $200,000 “shot-in-the-arm” from the Oak Tree Racing Association.

The gift was in response to a campaign to raise funds for improving and upgrading Cal Poly’s horse facilities. The money raised during the campaign will be used to build an indoor arena, hay barn, and mare and foal pen, and to improve the training track. The facilities will be built next to the existing Equine Unit on Cal Poly’s campus. The campaign will conclude in the spring of 1984.

Louis R. Rowen, secretary-treasurer of the Oak Tree Racing Association, said that the organization believes in turning racing proceeds back to the industry. The group, which holds a meeting each fall at Santa Anita Race Track, has earmarked more than $6 million to Thoroughbred enterprises relating to research, care and breeding in California.

The check presentation highlighted a recent barbecue at Rancho Sierra Grande in Solvang. The event was hosted by Stu and Lynn Gildred of Rancho Sierra Grande and Monty and Pat Roberts of Flag Is Up Farms. Nearly 200 Santa Ynez Valley horse owners and breeders attended the summer afternoon program. Stu Gildred and Monty Roberts, both of whom attended Cal Poly, have been active supporters of the university’s Equine Program, which was established more than 40 years ago.

“Cal Poly is known for preparing students who take an active part in the horse industry after graduation,” Gildred said.

“By supporting the university’s horse program, we are investing in our own future,” Roberts added.

Those attending the barbecue viewed displays describing the Cal Poly Equine Program and had the opportunity to meet faculty and students involved in it.

Nearly 700 students a year receive specialized and practical experience in 10 equine courses and activities offered through Cal Poly’s Animal Science Department.

The Concerned Cal Poly Faculty and Staff protests the attempt by PG&E to obtain a low-power license for Diablo Canyon.

The CCPS and Friends Affinity Group will initiate an act of civil disobedience at the main gate of Diablo Canyon on Saturday, January 14 at 10 A.M.

Join us in a supporting walk from Avila Yacht Club Pier to the Main Gate at 9:30 A.M. on the 14th.

Anyone wishing to join the Affinity Group for the act of civil disobedience should call 544-9193 or 438-4452.

Stomp with health club

The Cal Poly Pre-Health Professions Club, Mu Delta Phi, will be sponsoring western dance classes. The four week long classes will meet in Mustang Lounge in the University Union on Tuesday nights from 7:30 - 9 starting on January 10 and February 7. You don't need a partner for these classes; they will emphasize the western swing and two-step for beginners and up to 15 other dances for more advanced dancers, including the shuffle dance, slappin' leather, and travelling four corners.

The cost is $20 per week for four weeks and no pre-registration is required; just show up at the first night of class. For more information phone 541-4043.

Foreign language plan voted down by students

The California Student Association at its meeting last month in Northridge voted against supporting a one year foreign language requirement for CSU students.

The CSSA, a statewide student organization, originally voted to support the resolution, but after reconsideration, declined 6-11 against the proposal. A statewide Academic Senate Task Force has recommended a one year equivalency foreign language requirement. The requirement would be added to the general education requirement.

"We were originally the only campus to oppose the requirement," said ASI President Jeff Sanders. "We have a lot of technical majors with no flexibility. Adding this requirement would be adding 15 units to many majors.

Sanders said he would consider supporting the resolution if it could be worked into the general education requirements. "I support the idea, but the way it was presented, I don't think it would work."
Polyn wins in second, blows out Canadians
by Shari Ewing
Staff Writer

After a stretch of nine road games, the Cal Poly women’s basketball team enjoyed a successful homecoming, beating the University of Regina (Canada) 65-46, Wednesday night in an exhibition.

Senior forward Terrie MacDonald led the Mustang attack, scoring a game-high 22 points. Michelle Harmoir also scored in double digits, contributing 12 points. Annette Pfeiffer of Regina topped her team’s scoring with 19 points.

MacDonald supplied the initial points in the slow-starting first half, and the Lady Mustangs maintained their lead which was whittled to two points by halftime.

After what must have been an inspirational talk from Coach Marilyn McNeil, a new and improved Cal Poly squad hit the boards in the second half, scoring 40 of the final 65 points.

“We didn’t show any intensity or go-get-em,” said McNeil. “They (the Mustangs) came out and played better in the second half. I’m just glad to have another win.”

The Mustangs entered the game which did not count for official NCAA records with a 7-4 record. Most recently the team placed second in the Chico State Tournament held Dec. 31-Jan. 2. Cal Poly defeated Idaho State (84-70) and host Chico State (71-62) to gain a spot in the finals, where they dropped the championship game to California Collegiate Athletic Association rival Chapman College, 76-68.

The Lady Mustangs get a breather until their league opener against UC Riverside Jan. 14. “They’ve (Riverside) played just over .500” said McNeil. “They (the Mustangs) came out and played better in the second half. I just glad to have another win.”

As a division of Ingersoll-Rand, a Fortune 500 multi-national manufacturer, Schlage offers excellent long-term career opportunities. Schlage is an established firm, based in San Francisco, known for its quality commercial and residential lock products. A people-oriented organization, Schlage offers competitive benefits and salary advancement.

MECHANICAL ENGINEERING and BUSINESS ADMINISTRATION majors will be interviewed for MANUFACTURING ENGINEER, SALES REPRESENTATIVE and DESIGNER positions. Poly women netters open season versus alumni

by Rebecca Prough
Staff Writer

The Cal Poly women’s tennis team swings into action this weekend in an alumni match set for Sunday, January 8, at 10 a.m. on the upper Cal Poly tennis court.

“I think it’s really important to get the alumni involved in the community,” Yeast said. And the women’s team is ready to play after working out all last quarter.

Coach Yeast said the upcoming season looks really good. Cal Poly is ranked seventh in the nation. The team is “looking real steady,” Yeast said, “and they have a good chance to defend the title.”

The team had never before done as well as last season when it won the conference and had an all-American player. “We were the Cinderella team last year,” Yeast said. He hopes the whole team will go to the national tournament this year.

Yeast said the team is plagued by a few injuries right now, “but the girls are more experienced, and I am more experienced.” He is excited about the upcoming season, though the schedule will be tougher than last season’s.

Yeast said that the “team unity is really coming together,” and he has high hopes for a winning season.

Wrestlers lose to ’Runners, waiting for first win

by Scott Swanson
Managing Editor

Life has been tough this season for the Cal Poly wrestling squad and its dual match at Bakersfield State Wednesday night proved to be the epitome of the entire year.

The Mustangs lost their second dual meet of the season 19-15 to Bakersfield to lower their dual meet record to 0-2. The Roadrunners are now 6-3.

It wasn’t the matches that the Mustangs lost Wednesday that hurt. It was the ones they should have won.

The first disappointment came when 118-pound Mike Provenzano lost 6-3 to Edde Woodburn. That weight category, along with 167-pounds and 190-pounds were Bakersfield’s three really weak spots, according to Poly head coach Vaughan Hitchcock.

“Those were weights where they were weak compared to us,” Hitchcock explained.

“Provenzano’s match was the crucial one for us. He lost on technicalities, but he had not had a good performance this year.”

Provenzano was penalized two points, one for stalling and the other for locking his hands, an illegal hold.

The defeat at 118 pounds was amplified by Don Townsend’s loss to Ray Mann in the 167-pound bout by a 10-5 score.

“Donny didn’t wrestle well, but he didn’t do all that bad,” Hitchcock said.

The real disappointment came as Danny Romero, who has not worked out since he injured his knee on Dec. 8, lost the 190-pound match to Bob Button, 14-11.

Romero, who usually wrestles at 167 pounds, scored three takeowns in 30 seconds at the end of the match, but blew his strategy when he tried to tilt Button as the clock ran out. Failing, he made a desperation try and Button flipped him over for a tilt. A controversy arose over the fact that time apparently ran out in the second period before Button got a reverse and near fall on Romero. The buzzer was in the corner next to the Cal Poly bench and Hitchcock said it went off, but the crowd was so loud that no one but the Cal Poly team heard it.

There was no toll on the scorer’s table and finally Cal Poly’s Chris DeLong ran out on the mat and told the referee that time had expired. The referee checked the timer at the scorer’s table and the tournament official.

“I don’t know when the clock ran down. The referee then went ahead and gave four points to Button over the protests of the Cal Poly bench.”

Dennis Townsend, wrestling in the place of heavyweight Jeff Steward who has a pinched nerve in his neck, beat Mike Blakey 11-9. Despite being penalized two points for stalling.

Blakey had not wrestled a match since the Cal Poly Open on November 19 when he lost to Steward. He was ranked fifth in the nation after winning the Caesar’s Palace and University of Oregon Tournaments in December.

Jesse Reyes, Bakersfield’s other strong performer, pinned Jordan Cunningham at 1:52 in the 150-pound category.

At 126 pounds, Ernie Geronimo scored a convincing 10-4 victory over John Smithson. Joe Holbrook beat Troy Osborne 15-8 at 167 pounds while Roger Sayles scored a 9-0 decision over Scott Teuscher at 177 pounds.

Cal Poly travels east to take on Central Oklahoma, Oklahoma State and the University of Oklahoma this weekend.
