Misunderstandings create commencement ticket distribution problems

by Michael Marter

An inability to accommodate all who wish to attend commencement and a stipulation requiring only participating graduating seniors to pick up commencement tickets are just two problems confronting seniors as the year ends.

But the tougher restrictions that have been imposed on the distribution of commencement tickets this year are to equally protect the graduating students' rights, said Donald Costa, the associate dean of educational Services, commencement coordinator and chair of the Commencement Committees.

Excess tickets are being traded in from a marching faculty member or any faculty member wishing to invite guests of students.

Those who do not have a ticket will be absolutely denied entrance to the stadium. Coats said.

The applications are issued the Monday after Fo- by Rosemary Costanzo

An unusually high number of students who had bought tickets for last year's Hall's next year are now scrambling to find off-campus housing before they go home for Summer Quarter.

Director of Housing Robert Bostrom said that about 400 students have been notified that their applications for admittance to the residence halls have been denied.

"Everybody on our floor is pretty pissed," said Steve Widdicombe who lives in Sierra Madre. No one ever said anything about the possibility of the dorms filling up. This leaves us with only nine days to find a place to board. Bostrom said there are a lot of other housing possibilities open to students for next year. "No, it's not a bad time," he said."

"If the Housing Department gets up to 55 new listings a day for off-campus housing, it's a bad time."

"I added that the Housing Department gets up to 55 new listings a day for off-campus housing.

"We seldom turn this many students away, but we're going to do it this year," said Costa. "This is an exception and then placed on probation.

"I think any earlier than that people don't do it wisely. We get up to 55 new listings a day for off-campus housing, and it's a bad time."

"I added that the Housing Department has been working "diligently" to make forecasts and get the tickets the way they should have been.

But the toughest restrictions that have been imposed on the distribution of commencement tickets this year are to equally protect the graduating students' rights, said Donald Costa, the associate dean of educational Services, commencement coordinator and chair of the Commencement Committees.

Excess tickets are being traded in from a marching faculty member or any faculty member wishing to invite guests of students.

Grandmother died, and instructors aren't playing fair

You break your leg. You get a new job. You took too many classes—bit off more of a unit load than you can chew. There's an emergency in the family requiring your presence. And it's past the deadline for dropping a class.

What do you do?

Whatever you do, we suggest you don't go see people like Dr. Keith Stowe, head of the Physics Department, with a petition to drop your Physics class. Apparently, the Physics Department head is applying the "serious and compelling reason" section of the university's withdrawal system with all the proper concern and compassion for student welfare typical of a Captain Bligh.

Stowe has apparently taken it upon himself to "personally check" all reasons students give for petitioning to drop a class after the drop deadline passes. He calls out-of-state employers, talks to financial aid supervisors, and doublechecks medical and psychological excuses given to students. He also frequently ignores recommendations from Cal Poly doctors, according to Dr. James Nash of the Health Center.

Other instructors and department heads at Cal Poly are not as harsh. Stowe admits. We say thank God for that. We wonder if the admitted attitude of the Physics Department is consistent with a healthy learning environment in which instructors genuinely care about their students.

"Living the moment" means striving for greater heights.

Lately, I've had the same type of feeling creeping over me. But, when I begin to feel that way, I look in the mirror. There I was, held up at a liquor store I worked at. A guy with a mustache who works for a news shift for KCPR radio was alerted to a not-so-serious incident involving two Poly students. She began making phone calls to put together an accurate account of the incident. She later found out that one of the students that died was very close to her roommate.

My friend later told me she had felt like a nobody.

Another friend of mine is a news photographer. He frequently has to take photos of people that are involved in 'bad' news. He told me once, "Sometimes I look down at these girls who have had an accident, and wonder what the hell I'm doing.

One of the students that died was very close to my roommate.

"We must laugh and play while we're still young"—Rod McKuen

"We must laugh and play while we're still young"—Rod McKuen

There is a girl I know named Karen. She competes in several different events for Poly's track team. She runs, she jumps and she throws. One event she never seems quite satisfied with is the high jump. She is always striving for greater heights. If Karen doesn't do well, she will get back on the field and try again. That's a great attitude.

Karen is also a journalist. In reporting the news it isn't easy to keep that same optimistic and enthusiastic outlook. Some people get tired of trying and trying again. Everyone's heard the saying: ever^rday is a chance to propel my efforts to greater heights. If the 'bad' news, after repeated exposure to stories about wars, killings, and other terrible happenings it's easy to become insensitive. I've been limited to the outside world or just to newspapers.

Committee members cite deficient consultation in nuclear plan revision

From page 1

"My personal perspective is that since it's been going on since 1979, there appears to me to have been a great deal of opportunity to study this plan, to put it in one form or another," I'd be very surprised if, this is a personal point of view, there is any major component that has been thought of or dealt with in the plan. "If I'm assuming in this final plan. Frankly, it's only the plant. I believe that there is no final, subject to reevaluation during the next cycle," said Landrath, who was appointed by President Warren J. Baker earlier this year, this period to succeed Howard West as chairman of the committee.

But Martin Vix, an Agricultural Management Assistant Professor of the committee, said the complaints about lack of consultation concern the time when between the Environmental consultant, visited Poly on April 16, and the release of the final plan. Vix, who has been Planning Coordinator of the Biocultural Sciences program and who also sits on the committee, said he knew nothing about the knowledge of the consultant's stay at Cal Poly, between April 16 and May 9.

Landrath, however, said, though no specific dates were named, members of the committee should have been aware of the visit through an April 13 memo he sent to them and an item which appeared in the April 16 meeting. "There may be, and I'm sure various members of the committee, said Vix, "I'm not sure I had to read them."

Reached by telephone in New York, Celia G. Basteto, the Principal Engineer of the Radiological Assessment Department of the Environmental Co., who authored the latest version of the plan, said the committee was not a public safety group and had "close consultations with them." The consultant was on campus, she said, for four hours, "she had on May 1 with the Public Safety Staff which indicated follow-up action." Vix, Latrin, and Currier all said they weren't aware of the meeting.

Orwell's novel predictions fall short

by Rebecca Prough

Women in today's society are better than the obe­

ient servants of impulsive rebels that George Orwell described in his 1984.

Assistant Professor Patricia L. Engle of the Child Development and Home Economics Department said women today do not stick to the strict alienated and passive conservative style of the 1950s.

Engle presented her lecture, "Women's roles in 1984: Then and Now," yesterday as the final program in the 1983-84 Arts and Humanities Lecture-

ship Series. The lecture, which started at 7:10 p.m., was sponsored by the Women's Studies Program.

Engle observed women in three ways: as mothers, lovers and revolutionaries. As mothers, she said, women still perform the basic tasks of preparing meals and washing clothes, but they play an active role in the family structure.

As a result of being involved in extramural sexual relations and women, she noted, are becoming more independent and want to stand on their own feet, as she said.

In 1984 there was government control over the family. Today, Engle explained, "the United States

ple asper that Student Services Fees go to financial aid. We are still trying to change that. He added that the State Legislature has the final say on what goes in and what stays out of the fee structure by the Trustees.

Past year, Engle explained, the state legislature implemented a $25 per year tuition without the approval of the State Legislature. "There has been a lack of discussion here, there is a lack of consultation, some Trustees are philosophically against the idea."

The Student Senate also passed a bill on roll call votes, allowing any senator to request a roll call vote. In the past, a senator has needed to get a ma-

jority of the senate to approve a roll call vote. The senate also moved its Foreign Language Re-

quirement Resolution to a discussion item. The resolution calls on the university to review and possibly change the requirement sometime during the last two weeks of April. The following paragraph states that "The Senate calls on the campus community to return to campus sometime between early and mid-May for an even-

Figure..." which is now the June 1 meeting. "He's always been an adversarial person," Landrath said, "I shouldn't have had to read between the lines."

"If I was a junior or senior I would have been looking for something..." said Erickson. "The resident halls house 2800 students which is 17 percent of Cal Poly's total enrollment. Bostrum said since 90 percent of Cal Poly's students come from within the state, they are away from home, many people wonder there are more things housing on cam-

пус. If "we build more housing it would drive the prices up so high that students wouldn't be able to afford it. It would cost more than living off-campus. The Resident Hall system is totally self-supporting. The rent collected pays for utilities, utilities, and cost of maintenance on the dorms and grounds. Rooms can be purchased by students. Bostrom. A nine month lease in the dorms

Not all schools affected

from page 1

"If you can't find a few places, it's time to change," said

Snyder explained. "There is a more cooperative

atmosphere in the community, the landlords are willing to listen."

Although there are still housing problems either.

"The information on (the application) is not limited to the Summer Seminar. We are still trying to alleviating the problem."

"The general consensus of several students is that now is the time to change," said Snyder.

Making students want to be admi-

istered. The student body is there. We have been more unfair than letting them go on the waiting list, Snyder explained. The 500 students who are admitted would have had to try and add all their classes. "We're just not picky enough," he said.

"Don't allow students to stop on graduation day. Adapt to new situations..." said Snyder.

"Even if the student body is not in a major crisis, it's time to change," said Snyder.

"Don't allow students to stop on graduation day. Adapt to new situations..." said Snyder.

**Exhibits**

**REAL TO REAL (University Union Gallery)**

"Real to Real," a display of paintings, drawings and sculptures by 23 upcoming student artists, is now on display in the Cal Poly University Union Gallery. These artists are from across the far away as Washington and Oregon, and their work will be on display until June 10. For more information, call 546-1183.

**Theater**

**UNDER THE GASLIGHT**

The Great American Preladama and Vaudville is staging their latest production, "Under the Gaslight," through June 10. The show takes place a little after the Civil War and is the story of "dark" deeds, with the honor of the heroine at stake. This play and the vaudeville revue which follows are performed in the Melodrama's inimitable style, where the audience is encouraged to express their opinions with boos and cheers. For more information, call 489-2499.

**FIRESTARTER (Madonna Theatre)**

Dino De Laurentiis, the producer and director of such films as "King Kong," is the latest person to tackle the task of translating horror writer Stephen King to the silver screen. "Firestarter" is the story of a young girl with pyrokinetic powers, or the ability to start fires. Although the film features two fine performances from "ET"s Drew Barrymore and David Keith, the film is bogged down by all of the special (yawn) effects and huge explosions. Directed by Mark Lester.

**MOSCOW ON THE HUDSON (Plaza Twin Cinema, Central Coast Theatre)**

Robin Williams stars in this Paul Mazurzky film about a Russian saxophonist who defects in New York City's Bloomingdale's Department Store. Although the initial premise of the movie seems funny enough, the actual follow-through isn't. Mazurzky, instead of going for laughs, opts for a serious look at the differences between Russian and American culture. Intriguing, but not always entertaining.

**SWING SHIFT (Bay Theatre)**

"Swing Shift" is a movie set at the outbreak of World War II, starring Goldie Hawn and Kurt Russell. This film primarily focuses in on the jobs which women had to do in the war, working around the clock at various weapons factories. Directed by Johnathan Demme.

**FINDERS KEEPERS (Madonna Theatre)**

Molly Ringwald stars in this film about a girl who reaches her sixteenth birthday with no boyfriend in sight and no notice. This popular movie is inspired on by an effective advertising campaign features better than average performances from Ringwald and Justin Henry as the nerdy, fresh-faced, crush you always had a crush on. This film is "the Risky Business" of this year.

**BREAKIN' (Plaza Twin Cinema)**

Break dancing has got to be one of the most ludicrous and stupidest fads to come along in recent memory. If you are one of those types that consistently enjoy dancing on your head instead of your feet, then you'll probably really like this movie. Once again, the flesh-eating zombies strikes the silver screen, with the dancing taking center stage and the plot and character development somewhere off in the wings. If you like this stuff, watch M-TV—it's cheaper.

**THE GREAT AMERICAN MELODRAMA AND VAUDEVILLE (Fair Oaks Theatre)**

"This IS SPINAL TAP (Log Cabin Theatre)"

Spinal Tap, an aging heavy metal band, has taken to the road once again and the results are hilariously captured by "All in the Family's" Rob Reiner in what is perhaps the funniest movie about rock and roll ever made. No subject in the often pompous rock world is too sacred in this film, as record company executives, pretentious guitarists and spacey groups are all lovingly parodied. A must-see for all rock and film fans.

**INDIANA JONES AND THE TEMPLE OF DOOM (Premier Theatre)**

Indiana Jones and the Temple of Doom—the long awaited sequel to "Raiders of the Lost Ark"—was released this week to much fanfare. Applauded for its special effects and huge explosions, the movie is bound to be a blockbuster even though it lacks the Raiders intriipuing plot. Unfortunately, they should have tried to steal a better cache. Unfortunately, they should have tried to steal a better cache.

**THE MAN FROM AIAAA (Central Coast Theatre)**

Directed by "WKRP in Cincinnati" star Loni O'Keefe spend the whole movie trying to please this hit by not being it. The plot is a little off; a train carrying the casket of a dead soldier killed in Vietnam is actually filled with millions of dollars. Louis Gossett Jr., Beverly D'Angelo and Michael O'Keefe spend the movie trying to pluck this hidden cache. Unfortunately, they should have tried to steal a better written and conceived script.

**POLICE ACADEMY (Fair Oaks Theatre)**

"POLICE ACADEMY" is the story of "dark" deeds, with the honor of the heroine at stake. This play and the vaudeville revue which follows are performed in the Melodrama's inimitable style, where the audience is encouraged to express their opinions with boos and cheers. Melodrama’s ‘Gaslight’ burns up the stage, makes for a rip-roaring good evening of fun
by Julie Rach
Staff Writer

"Under the Gaslight," the latest production of the Great American Melodrama and Vaudeville, combines the best elements of melodrama to produce a fun-filled entertaining evening.

The play has something for everyone—action, drama, romance, hidden identity heroes, villains, Victorian women. Audience participation is encouraged in the form of cheers, boos, and hisses, and there are plenty of opportunities to use all three.

To tell more than the barest essentials about the story would give away too much, so here goes...

The story concerns itself with Laura Courtland, (Andrea Press), a young lady of New York society who falls in love with a beautiful American (Scott Wilson), who falls in love with a beautiful American (Scott Wilson). To tell more than the barest essentials about the story would give away too much, so here goes...

Laura leaves him to save him from making the girl he loves. Bruce Jones, who plays the villain, Byke, is also worthy of special mention. He continued to get boos and hisses from the audience well into the vaudeville revue. After the play and the customary sing-along for birthdays and anniversaries comes the vaudeville revue, which for this production consists of eleven short comedy or musical skits.

This show’s revue features two barbershop numbers, a tap dance piece, several comedy pieces and the finale—"Musical Glasses" led by Brad Carman, who got laughs and applause each time she cane onstage, and Sean Sharp, who plays singer-messenger Joe Snorkely. He received cheers and applause whenever he was on.

This show’s revue features two barbershop numbers, a tap dance piece, several comedy pieces and the finale—"Musical Glasses" led by Brad Carman, who got laughs and applause each time she cane onstage, and Sean Sharp, who plays singer-messenger Joe Snorkely. He received cheers and applause whenever he was on.

Bruce Jones, who plays the villain, Byke, is also worthy of special mention. He continued to get boos and hisses from the audience well into the vaudeville revue. After the play and the customary sing-along for birthdays and anniversaries comes the vaudeville revue, which for this production consists of eleven short comedy or musical skits.

This show’s revue features two barbershop numbers, a tap dance piece, several comedy pieces and the finale—"Musical Glasses" led by Brad Carman, who got laughs and applause each time she cane onstage, and Sean Sharp, who plays singer-messenger Joe Snorkely. He received cheers and applause whenever he was on.
Lady Mustang trackster Carol Gleason became the first Cal Poly champion at the NCAA Track and Field National Championships in Cape Girardeau, Missouri.

Gleason ran a blistering 34:20.2 in the humid weather to capture the 10,000 meter crown. Her time easily eclipsed the former meet record of 35:02.21, set by Patti Gray of UC Davis last year at the same site.

Gleason's teammate Robyn Root placed fifth in the event, earning her All-American honors.

The 10,000 meter was the only final race of the day; the remaining competition on Wednesday and Thursday will be preliminary events, with finals slated for Friday and Saturday.

In the heptathlon, the Mustangs placed two athletes in the top ten on Monday and Tuesday. Junior Karen Kraemer finished eighth overall, after amassing 4990 points in the seven event competition. Freshman Sharon Hansen, despite recent surgery on her knee, placed tenth with 4934 points.

Kraemer scored personal records in the javelin (113-0 feet) and the long jump (17-11 3/4").

The Lady Mustangs are shooting for their fourth consecutive national title (one AIAW crown and two NCAA championships). After trooping the competition for the past two years, Poly should be pushed by Abilene Christian, Alabama A M and California rival Cal State Hayward.

Awards dinner for CP athletes

Tickets are now on sale for the Second Annual "Night-of-the-Mustang" Awards Banquet. The dinner will be held at the South County Regional Center in Arroyo Grande on Wednesday, May 30.

The dinner begins at 7 p.m. with awards presented at 8:30 to the Male and Female Athlete-of-the-Year. A special service award will also be presented to those who have devoted their time on a volunteer basis to the athletic department.

Dancing will follow from 9 until 1 a.m. The local group "Whales Knees" will provide the music. The local group "Whales Knees" will provide the music. Banquet tickets cost $6 for Cal Poly athletes and $10 for guests or the public at large. Tickets can be purchased by contacting the Cal Poly athletic department in the Main Gym, or by contacting the athletic office.

This year the sports will be divided into team and individual categories for both men and women. Last year track and field All-Americans Amy Harper-Avrit and Ron Waynes were chosen Athletes-of-the-Year for their outstanding performances. Avrit also won the individual national title in cross country.

Hang in There
