Springsteen draws Poly crowd

BY DONALD MUNRO

It's a familiar story: a student is running late, and he has to stop by the bookstore or the Snack Bar before rushing off to class. Being in a hurry, he sets his backpack down at the most convenient spot—the open shelves, in front of a locker. Most of the time he will return to find his property untouched, but there is always the chance that when he comes back, he will find it out of place, and he will discover that his backpack owner suddenly turned around and went back to his table, because his theft was hurriedly called off through a set of hand signals.

When a student returns to find a backpack missing, the reaction can vary, said Barrett. "Some students are very angry, and some are very depressed." In some cases, copies of class notes and senior projects are never replaced. But the class notes, the backpack is a serious project, you can't replace them on campus, and is always those, said Barrett. The worst during the beginning and end of each quarter, said Cal Poly, is that some of the students lose their backpacks, and some of the students who have been stolen are the ones who have lost their backpacks. The worst are those who have lost their backpacks, and some of the students who have been stolen are the ones who have lost their backpacks.

Rule arrived with a group of classmates to get tickets for the last Springsteen concert yesterday. When he saw that the line was longer than he had expected, he ended up getting tickets at a new location.

FOR HIS FOURTH CONCERT, WILSON said that he knows he won't have time to get tickets at the last minute. He ended up getting tickets at a new location.

"I bought a lot of concert tickets for the last concert," Wilson said. "It was a lot of work, but I know I won't have time to get them at the last minute. He ended up getting tickets at a new location."

"I bought a lot of concert tickets for the last concert," Wilson said. "It was a lot of work, but I know I won't have time to get them at the last minute. He ended up getting tickets at a new location."
Education schools may become 'wasteland'

WASHINGTON (USPS) - The nation is facing a teacher shortage so severe that the least academically qualified could become the next generation of American schoolchildren.

A recent study by the National Education Corporation shows that the shortage of teaching force is changing dramatically. The study says that the number of teachers in the United States is now at a record low.

Furthermore, academically inclined women and minorities, more restricted to teaching as a professional option, are now moving into fields which offer better pay, less stress and better working conditions. A lack of advancement opportunities in teaching is also a factor.

In the past ten years, teachers who have stayed in the field have had to take on two-thirds of the teaching force. Fewer and fewer almost alone have achieved to take up teaching.

By 1986, Rand says, the supply of new teachers may “satisfy only about 80 percent of the demand.”

Incentives to join the teaching profession are dropping even faster than the supply of new teachers. Teachers’ salaries, too, have been declining, 17 percent over the past decade.

Moreover, there is a trend toward rapid eduction in education, which cuts deeply into job satisfaction and the non-monetary rewards of teaching. According to the Rand study, those teachers most discouraged by arrogant bureaucrats, inexperience, qualification, and most extensively prepared to teach.

Nevertheless, the most disturbing feature in the part of the nation’s education system is the lack of it. One third to one half of the nation’s education schools are nothing but diplohaft mills and should be shut down, said Feistritzer of the National Center for Education Statistics operating in our communities.

The university was chosen by the University of California San Diego for this new national “center of excellence” for the study of the disease, Alzheimer’s. The UCSD School of Medicine will house “one of five national ‘centers of excellence’ for the study of the center, Alzheimer’s, United States, and American education schools are nothing but diplohaft mills and should be shut down,” said Feistritzer of the National Center for Education Statistics, said Feistritzer of the National Center for Education Statistics, said Feistritzer of the National Center for Education Statistics, said Feistritzer of the National Center for Education Statistics.

 stead of the nation’s education schools are nothing but diplohaft mills and should be shut down, said Feistritzer of the National Center for Education Statistics, said Feistritzer of the National Center for Education Statistics, said Feistritzer of the National Center for Education Statistics.

Editor

The Department of Public Safety has been working on a program which has been developed to help identify and, therefore, assist, when possible, hazardous situations. Present at the meeting are Dr. Terry, Dr. Katzman, Dr. Dr. Katzman, Dr. Katzman, and Dr. Katzman.

Terry first described aspects of the research, and then described the brain structures that are composed of abnormal teaching nursing home, nursing home, nursing home, nursing home, nursing home. He was joined in the meeting by the editor, the editor, the editor, the editor, and the editor.

The UCSD center will include a program funded by the University of Southern California research center, a patient-care component and a unit that is part of the UCSD Medical School’s Medical School, University level and graduate students, and professionals interested in the field.

Womens League sponsors voter registration

By JILL PERRY

Representatives of the League of Women Voters will also make

Registration far exceeded that of drives at other SLO locations

available unbiased literature containing pro and con statements on the state ballot issues for the Nov. 6 election.

The deadline to register to vote is Monday, Oct. 8. Carolyn Brumley, drive coordinator for the League, said registration during the early part of the drive Monday far exceeded that of drives at other San Luis Obispo locations.

"It's way ahead of what we've done at Farmer's Market and in their home county and include their name and address as it appears on the registration. The ballot must be signed and received by the home countv no later than Oct. 30.

Brumley said registering students is a high priority with the League, "I think having students register is very important. They have to begin thinking about politics, and the sooner the better," she said.

Students! Work Smart.
Work Simply...With Hewlett-Packard.

If you're in Science or Engineering, chances are your classes include Calculus, Physics, or Chemistry, Engineering Statics, or Dynamics. You're running up against some tough calculations, with statistics problems, hyperbolas, and logs. The HP-11C calculator helps you breeze through those problems with a few simple keystrokes.

Need to simplify problems that are even more complex? The HP-41CV gives you 128 built-in functions—and the HP-41CX over 200—to simplify your long homework assignments. Use up to 6,437 bytes of memory to save the programs and formulas you use often. And there are thousands of software programs, so you don't have to start from scratch next term.

If you're in Business or Finance, you're probably taking Accounting, Statistical Methods, Finance, and Investment Analysis. Classes loaded with tedious calculations. End the pencil-and-paper drudgery with the HP-12C. The most powerful decision-maker on the market! Dedicated keys make time value of money calculations, amortization. Net Present Value (NPV), Internal Rate of Return (IRR), and statistics solutions as simple as a single keystroke. And it's easy to change values or correct mistakes without reentering your entire problem.

Hewlett-Packard calculators. They help you work smart this term. And next term. And even later on the job. Get your HP today from your local HP dealer.

For the location of the dealer nearest you, call TOLL FREE 1-800-FOR-HPCC.

Entertainers ask Nicaraguan to talk

LOS ANGELES (AP) -- A group of entertainers opposed to Reagan administration policy in Central America has invited Nicaraguan President Daniel Ortega to speak on upcoming elections in his homeland, spokesmen said. The Committee of Concern for Central America will sponsor a forum featuring Sen. Christopher Dodd, D-Conn., and Ortega if he accepts; the group's spokeswomen Linda Hunt and Tracey Ullman said.

There was some discrepancy over a published report that Ms. Fonda and Ms. Hunt wanted to invite Ortega.

Ms. Hunt said Friday that Ms. Fonda is not involved with the committee, whose president is actor Mike Farrell, nor was she involved with the invitation to Ortega.

"She is not a part of our organization," Ms. Hunt said.

Ms. Fonda's spokesman, Steve Rivers, said he had spoken to Ms. Fonda in late July that she was involved and was told by another committee member, peace activist Elaine Brown, that Ms. Fonda's name was one of 45 listed on the invitation sent to Ortega.

Rivers said Friday he had not been able to locate Ms. Fonda and verify whether she had consented to her name being used.

Ortega, head of the Sandinista government, was granted a visa to travel to New York and Los Angeles next week, the State Department said Friday. Ortega has said he plans to speak to the U.N. General Assembly in New York and will meet with artists and intellectuals in Los Angeles.

Meetings end with peaceful progress

CHICAGO (AP) -- Allstate Insurance Co. has agreed to pay $5 million to about 3,100 women presently or formerly employed as sales agents or trainees in a settlement of a class-action lawsuit accusing the company of discrimination, Allstate officials said Monday.

The suit, filed in 1975 by Lola Koba, formerly a sales agent in Sacramento, Calif., alleged that the company violated the 1964 Civil Rights Act by giving her a guaranteed starting salary lower than that of male agents.

Despite the settlement agreement, Allstate officials said Monday that they did not discriminate in the past and that the $5 million settlement was based on numerous factors, including previous experience, ability and willingness to train and accept a lower guaranteed starting salary.

The plaintiff and the Equal Employment Opportunity Commission objected to the use of prior salary as a factor in setting the guarantee.

Allstate has had a new marketing program under study for a number of years," the company said in a prepared statement. "It is ready to be introduced on Oct. 1, 1984, and its introduction gives us the opportunity to reach a settlement in the Koba case, thus ending what looked to be years of expensive litigation.

Under our new plan, all sales agent trainees and agents within the same market will receive a guaranteed starting salary based on numerous factors, including previous experience, ability and willingness to train and accept a lower guaranteed starting salary. The guarantee will be based on numerous factors, including experience, ability and willingness to train and accept a lower guaranteed starting salary.

The only women affected by it are about 3,100 females who were or are Allstate agents or sale trainees. Allstate currently employs about 19,000 women.

The agreement has been approved by U.S. District Judge Lawrence K. Karlton in Sacramento, the company said.

THE BETTER BALLPOINT pen.

When it runs out you won't have to.

The exciting Pilot ballpoint. It's got everything going for it. Smooth writing, specially designed finger ribbing for continual writing comfort. Stainless steel point. Sought after carbide ball. Perfectly balanced. A choice of medium or fine points. And best of all...you'll never throw it out. Just slip in a 3St refill and you're ready to write again. So next time your old scratchy pen runs out, run out and get the best. The 9St Pilot ballpoint pen.
THE 1984 HONEYWELL FUTURIST AWARDS COMPETITION

TRAVEL AGENDA: Your mission, should you decide to accept, is to transport yourself 25 years into the future, take a look around and write three essays of up to 500 words each. For the first two essays, you are to write about significant developments in any two of the following subject areas:

In the third essay, you are to write about the societal impact of the changes you've predicted. Your entries will be judged according to creativity (30%), feasibility (30%), clarity of expression (30%) and legibility (10%).

PACKING LIST: To enter the contest, type (or clearly print) your name, address, college and declared major on an HONEYWELL sheet of paper. Include your T-shirt size so we can send you a Honeywell Futurist T-shirt designed by French illustrator Jean Michel Folon. Each of the three essays should be typed, double-spaced, on separate sheets without your name at the top. All sheets should be stapled together and sent to The Honeywell Futurist Awards Competition, P.O. Box 2009F, 600 South County Road 18, Minneapolis, Minnesota 55426.

PASSENGER QUALIFICATIONS: Any person enrolled as a regular full-time student at an accredited U.S. college or university may enter, with the exception of full-time faculty members, previous winners and Honeywell employees.

THE 1984 HONEYWELL FUTURIST AWARDS COMPETITION

Beyond scientific speculation and extrapolation, perhaps the richest inspiration for imagining the future comes from exploring our daydreams and realizing that today's fantasy may become tomorrow's reality. If you have imagined what our world will be like in 25 years, now is your chance to release those thoughts — tempered with your knowledge of technology — by entering the 1984 Honeywell Futurist Awards Competition. If your ideas are among the most imaginative and feasible, you will be awarded $2,000, a trip to a futurist awards banquet and a Honeywell internship. Read the accompanying travel plans to find out how to enter. And fuel up for a trip to the year 2009.

Together, we can find the answers.

WE HAVE FULL LOCKER ROOM FACILITIES, AND A NEW WEIGHT LOSS PROGRAM CALLED NUTRA GUIDE!

COME CHECK OUT OUR NEW 1600 sq. ft. AIR CUSHION. SPRING BASED, HARDWOOD AEROBIC FLOOR! TOTALLY INJURY FREE! RECOMMENDED BY AEROBIC SPECIALISTS!
Yes, there are differences. And we think you should know what they are. Ask yourself these questions.

WHEN YOU LEASE A CHICKEN, DO YOU GET THREE MONTHS FREE DURING THE SUMMER? Probably not. But when you lease your telephone from AT&T this fall, you won’t pay any lease charges next summer. You can use your phone at home, and bring it back to school in the fall.

DO LEASED CHICKENS COME IN A SELECTION OF COLORS AND STYLES? No. Chickens don’t come in many colors. But the AT&T telephone you lease this fall comes in a variety of colors and three popular styles.

ARE LEASED CHICKENS REPAIRED FREE? Don’t kid yourself. Repairing a chicken is a delicate process that requires the work of expensive professionals. However, in the off chance your AT&T leased telephone needs repairs, we’ll fix it absolutely free when you visit any of our AT&T Phone Centers.

ARE LEASED CHICKENS SHIPPED DIRECTLY TO YOU? Ship a chicken? Don’t be silly. However, your AT&T leased telephone will be shipped directly to you after one call to 1-800-555-8111, or you can pick up your phone at any of our AT&T Phone Centers.

ONE FINAL QUESTION: DOES IT COST THE SAME TO LEASE A CHICKEN AS TO LEASE A TELEPHONE THIS FALL? Hardly. While we have no hard data on the exact cost of leasing a chicken, we can tell you with some certainty that the cost of leasing a telephone this fall is far less than you might think. The decision to lease a chicken or a telephone, of course, rests with you. But should you opt for the telephone, remember: you get three months free next summer, and you can take the phone home with you. There’s a choice of colors and styles, free repair, and we’ll ship you the phone or you can pick it up at any of our AT&T Phone Centers.

It doesn’t cost much either. And that’s something to crow about.

AT&T Consumer Sales and Service. To order your telephone, call 1-800-555-8111 for delivery right to your door or for information concerning AT&T Phone Center locations.

Plan generates 25 senior project ideas

By ROSEMARY COSTANZO

The warm power of the sun is not all Marc Jenefsky seeks for his innovative Poly Canyon building project—he also seeks the brain power of many students with skills ranging from photography to electronics. Jenefsky seeks for his innovative Poly Canyon building project, and on this campus there seems to be a void in directed construction of the Passive Solar Greenhouse in Poly Canyon. Due to be completed in March, 1985, the greenhouse could generate enough energy to extend the growing season, perhaps even to grow plants and provides enough heat energy to extend the growing season, perhaps even year-round.

When finished, the greenhouse will demonstrate how modern building materials and advanced technology can be adapted for modern horticulture. The greenhouse will continue to operate as a student learning facility, offering practical experience in the cultivation, computer applications and solar research.

"By the end of it all, it will have the opportunity of working with people of different backgrounds; learning to exchange ideas and accepting compromise," Jenefsky said. "So far, more than 100 students have helped to complete the first phase of construction and Jenefsky said many more are still needed.

All senior projects related to the greenhouse are categorized into three areas: planning, promotion, and operation/scheduling. Under planning/promotion, students in art, graphic communications, journalism, marketing and business management are needed for various projects ranging from information. The passive solar technology includes a combined mass storage system of phase-change panels, solar chimney walls and thermo-siphon solar chimneys.

Two-thirds of the $63,000 needed for the greenhouse has already been donated by corporations and organizations. AFG Industries, Dow Chemical USA, General Electric Company, the California Redwood Association and the Concrete-Masonry Association have all donated to the project. Jenefsky hopes to enlist help from people with a knowledge of solar power. "Companies would not put millions of dollars into a market that's dead," he said.

Motivation for the project stems from the almost unlimited possibilities solar power offers, and from society's limited consideration of the sun as anything more than a tanning lamp.

Jenefsky hopes to enlist help from people with a broad spectrum of interests, not just those with knowledge of solar power. "Often those who know the least about solar power come up with the best ideas, asking about something that you've totally ignored," he said.

Jenefsky, stressing he wants to make students' participation in the project worthwhile, said he is making a "damn good try to give people a chance at education."

Anyone interested in working with the Passive Solar Greenhouse project should contact Jenefsky through the architecture office at 546-1221.

Clinics soften seniors' projects

By ROSEMARY COSTANZO

The five-stories of cold gray concrete known as Robert E. Kennedy Library can be intimidating, especially when senior project is academic research. Where to find the one book or magazine needed among the thousands available for your senior project can be a mind-wrenching notion. But looking for reference material doesn't have to be debilitating. Throughout this month the library staff will offer senior project clinics to help students explore research possibilities.

The one-hour sessions will discuss reference points, books, periodical articles, government documents, statistics and product information.

The clinics will be held in Room 202 of the Library on the following dates and times:
- School of Agriculture: Tuesday, Oct. 2 from 9-10 a.m. and Tuesday, Oct. 9, 3-4 p.m.
- School of Architecture and Environmental Design: Wednesday, Oct. 3, 10-11 a.m. and Thursday, Oct. 11, 3-4 p.m.
- School of Business: Thursday, Oct. 4, 10-11 a.m. and Wednesday, Oct. 10, 3-4 p.m.
- School of Engineering: Tuesday, Oct. 2, 3-4 p.m. and Thursday, Oct. 11, 3-4 p.m.
- School of Science and Mathematics: Wednesday, Oct. 3, 3-4 p.m. and Thursday, Oct. 17, 10-11 a.m.
- School of Communicative Arts and Humanities and art students: Tuesday, Oct. 9, 9-10 a.m. or Tuesday, Oct. 16, 3-4 p.m.

English, journalism and speech students: Wednesday, Oct. 10, 10-11 a.m. or Wednesday, Oct. 17, 3-4 p.m.

History, social science and political science majors: Thursday, Oct. 11, 10-11 a.m. or Thursday, Oct. 18, 3-4 p.m.
- School of professional studies, art and education: and graphic communications: Tuesday, Oct. 9, 9-10 a.m. and Tuesday, Oct. 16, 3-4 p.m.
- Home Economics, physical education, recreation and social studies: Differential development and social studies: Thursday, Oct. 4, 3-4 p.m. or Thursday, Oct. 18, 10-11 a.m.

An additional hour-long session covering library computer searches will also be offered for all students Wednesday, Oct. 24, 10-11 a.m. or Thursday, Oct. 25, 3-4 p.m.

The competition has begun, so it's time to 'turn on' to 'turning off.'

How to interview companies all over the country in a single day.

**BPI-SOURCE™**
The Satellite Communications Recruiting Network.

If you are graduating with a technical degree, ready to find out what jobs await you, here's an opportunity you won't want to pass up. Come to the premiere telecast of BPI-SOURCE, the Satellite Communications Recruiting Network. We bring major companies and their career opportunities to you, the high tech college graduate.

**How it works.**
Major technical company presentations will be transmitted to 30 U.S. campus communities from a satellite 23,000 miles up. You'll watch their presentations live and in full color. A representative from each company will talk about their philosophy and job opportunities. And then proceed to take you on a video tour, show products, tell about the area, or have other employees give views about working for the company. Following each company's presentation, you may ask questions and see and hear the answers.

**What companies are participating.**
Among the companies telecasting live to your campus are Sperry Computer Systems (formerly Sperry UNIVAC) including all domestic operating units, nine divisions of Tektronix, Inc., five groups of Combustion Engineering, Inc., the Federal Aviation Administration and three operations of the National Security Agency. There will also be a special presentation, "Space Station...The Next Logical Step," by NASA. Featured speakers include Polly Rash, Director of Marketing at Satserv (formerly with Public Service Satellite Consortium), Dr. Russell Drew, Vice President of Student Career Development of IEEE, and Dr. Marvin Centron, author of Jobs of the Future.

**How you'll benefit.**
Through this one day video teleconference, you'll learn about many career opportunities that are awaiting you. BPI-SOURCE gives you, the student, a chance to learn valuable and helpful information about each company.

Participating companies are recruiting students majoring in all engineering disciplines including aerospace, chemical, civil, electrical, electronic, industrial, mechanical, all disciplines of computer sciences, plus majors in aviation management, math, physics and all other technical degrees. Admission is free. High achievers and above average grades are welcome. And no registration is required.

In addition to the company presentations, question and answer periods and featured speakers, there will be special door prizes including BPI-SOURCE T-shirts, T.I. Scientific Calculators and a surprise Grand Prize. We'll also have helpful information on each company to take with you.

The BPI-SOURCE presentation is Oct. 9 at Chumash Auditorium, Rm. 204, University Union and will include a live morning telecast at 9:00 a.m. PST and a live repeat approximately 3 hours later. Choose the telecast that best fits your schedule. Pick up further information including presentation schedules at the placement office or call:
BPI-SOURCE 1-800-328-4032

Fill out this coupon and bring it to the BPI-SOURCE presentation. It's your entry for the door prize drawings.

Donovan indicted by jury for 137 counts

WASHINGTON (AP) — Administration sources said Monday that Labor Secretary Raymond J. Donovan has been indicted by a county grand jury in New York in connection with a subway project by the construction company he formerly served as executive vice president.

Six officials of the Schiavone Construction Co. of Secaucus, N.J., were also named in the 137-count indictment, one source said. The source spoke on condition he not be identified.

Labor Department and White House spokesmen declined to comment on the matter.

The source said Donovan was flying to Houston on Monday to make a series of speeches when the indictment was handed up.

"The secretary was notified by telephone during an airport stopover" in Atlanta, and immediately head­ed back to Washington, this source said. He said the secretary planned to meet with his attorney, Dean Burch.

In Biloxi, Miss., traveling with President Reagan, White House deputy press secretary Peter Roussel said, "We have not received any information or been informed" about the indictment.

The grand jury in the Bronx was investigating charges that the Schiavone Co. falsified records in a federally funded subway project in New York.

Donovan, who was a part-owner as well as executive vice president of construction company before he joined the Reagan Cabinet in 1981, had been in­vestigated for nearly a year by a special prosecutor in 1982.

In two separate 1982 reports on allegations that Donovan, as a construction executive, had ties to organized crime figures, special prosecutor Leon Silverman concluded there was "insufficient credible evidence" on which to prosecute the secretary.

Candidates for BS or MS in CS, EE, ME, IE—or those specializing in Technical Writing.

Students with technical background interested in Sales or Systems Engineering.

Students interested in discussing IBM’s co-op program.

Meet IBM.
Schedule a formal interview.

Why not engineer in the passing lane?

Explore the Technical World at IBM.

Come to our INFORMATION AND SIGN-UP DAY
Wednesday, October 10th, 8:30 am-4:00 pm
IN UNIVERSITY UNION—CHUMASH AUDITORIUM

IBM will be here in strength to give you blue carpet treatment.

Representatives from many different IBM operations and locations will be available for informal, stress-free briefing sessions. You’ll get a good idea if there’s a promising fit at IBM.

Then sign up to schedule a formal interview on Friday, October 12th with the IBM facility (or facilities) of your choice.

Please bring 3 copies of your resume or Personal Data Sheet. U.S. citizenship or permanent residence is required for interviews.

(Whether or not you’re at our Information and Sign-Up Day, you are invited to see and hear special IBM technical presentations on Thursday, October 11th in Discovery Motor Inn—Banquet Room—any time between 11 am and 2 pm.)
High court upholds anti-slavery laws

WASHINGTON (AP) — The Supreme Court today allowed the government to use anti-slavery laws to prosecute eight individuals accused of bringing Indonesians to the Los Angeles area to use as house servants.

The court, without comment, let stand a ruling that ordered the eight to stand trial on charges they conspired to bring Indonesians in involuntary servitude.

A federal judge threw out a number of the charges involving involuntary servitude or peonage. But the charges were reinstated in March by the 9th U.S. Circuit Court of Appeals.

The appeals court, in ordering the trial to proceed, said it was not necessary for federal prosecutors to allege that the defendants used force or the law to hold the servants against their will in order to invoke the anti-slavery laws.

Prosecutors said the defendants imported poor, non-English-speaking Indonesians by enticing them to travel to the United States.

The Indonesians were then required to work long hours — up to 15 hours a day, seven days a week — and were denied their passports and return airline tickets, the government said.

The slavish charges carry a maximum prison term of five years and a $5,000 fine.

The accused were Elva Singman, Lily Judah, Nasim Mansory, Jack and Hilda Saeson, Moses Aslan and Said Al Mirahfa.

Allstate settles in discrimination suit

WASHINGTON (AP) — One of the largest such settlements on record, Allstate Insurance Co. agreed to give $5 million to female sales agents allegedly held against their will in order to avoid the continuing uncertainty and delay of further litigation.

EEOC Chairman Clarence Thomas called the wage discrimination settlement one of "historic proportion" and said it should have significant impact on salary-setting practices in all industries nationwide.

But even the simple stopgap bill provided an opportunity for legislators continued to block passage of the measure by attaching other pet projects.

"We will not be satisfied until we have our amendments that they want to see enacted before the end of the week," said Sen. Ted Stevens, R-Alaska, the assistant majority leader.

"We voted for a simple two-day continuing resolution to buy time until the Senate and the House can negotiate a compromise " and are "serious about making the legislation would, in effect, reverse that decision."

"The settlement came in a class action case in which Lela Hogan challenged the company's policy of basing the back pay settlement agreement, approved by the 9th U.S. Circuit Court of Appeals, on the total wages and salaries employees received during the five years and a $5,000 fine.

"She said she was told that all new agents make the $825 a month. That was to last during her training period and to serve as the basis for sales commissions.

"The spokesman said the agreement was signed by Allstate "in order to avoid the continuing uncertainty and delay of further litigation."

"At the end of the week, " said Sen. Ted Stevens, R-Alaska, the assistant majority leader. "We have got a campaign schedule that starts Friday night," said Sen. Ted Stevens, R-Alaska, the assistant majority leader. "The settlements receiving federal aid applied only to the program involved and not to the entire institution. The legislation would, in effect, reverse that decision."

"But conservative opposing the measure say it would go far by too much restoring federal laws to their status before it.

"Led by Sen. Orrin G. Hatch, R-Utah, the conservatives continued to block passage of the measure by trying to attach their own amendments to the bill."

"Even after the stalemate over that bill is resolved, senators also will be trying to attach other pet projects to the measure in the usual rush to find a piece of "must" legislation to which lawmakers can attach amendments that they want to see enacted before Election Day.

"A House-passed version of the money bill already has been signed into law and is expected to pass the Senate by the end of the week."

"In a ruling Feb. 28, the high court said a law banning sex discrimination at colleges and other institutions receiving federal aid applied only to the program involved and not to the entire institution.

"Meanwhile, the tangle in the Senate remained unbroken by the court's ruling, a compromise was reached on sex discrimination settlement one of "historic proportion" and is "serious about making the legislation would, in effect, reverse that decision."

"The 9th U.S. Circuit Court of Appeals said it was not necessary for federal prosecutors to allege that the defendants used force or the law to hold the servants against their will in order to invoke the anti-slavery laws.

"It this action were not settled, it could have taken three to five years to resolve the dispute," he said. "We feel the settlement is a compromise and is reasonable, adequate and in the best interest of Allstate as well as the class of women plaintiffs."

"But the spokeswoman also said that Allstate has "realigned its compensation package for its agents.

"It's a plan we've been studying for a number of years and is a result of this lawsuit."

"What it will do is eliminate anything else that ever happened again," she said.

"The Allstate spokesman said the EEOC, charged with enforcing the Civil Rights Act of 1964 and the Equal Pay Act of 1963, will notify all affected women in mid-November and will be assisted by the Internal Revenue Service in locating hard-to-find beneficiaries of the settlement.

"Ms. Hogan, who no longer works for Allstate, filed the lawsuit in 1977 under her married name of Lola Houa, had gone to work for Allstate in 1974 as a sales agent. That was because during her training period and to serve as the basis for sales commissions.

"She said she was told that all new agents make the $825 a month. That was to last during her training period and to serve as the basis for sales commissions.

"The spokesman said the agreement was signed by Allstate "in order to avoid the continuing uncertainty and delay of further litigation."

"At the end of the week, " said Sen. Ted Stevens, R-Alaska, the assistant majority leader. "We have got a campaign schedule that starts Friday night," said Sen. Sixteen die near Manila

MANILA (AP) — Sixteen people, including a civilian Sunday. commander, were killed in a 36-minute battle among government forces and communist guerrillas in southern Surigao del Sur province, the military said.

Brig. Gen. Corrado TanGatao, a government forces and communist guerrillas in southern Surigao del Sur province, the military said.

The settlement came in a class action case in which Lela Hogan challenged the company's policy of basing the back pay settlement agreement, approved by the 9th U.S. Circuit Court of Appeals, on the total wages and salaries employees received during the five years and a $5,000 fine.

"She said she was told that all new agents make the $825 a month. That was to last during her training period and to serve as the basis for sales commissions.

CAIRO, Egypt (AP) — The Egyptian military con­
firmed Sunday that a military convoy bound for the
Gulf of Suez was Soviet-made.

In an announcement distributed by the state-run
Middle East News Agency, the armed forces general
command said the minelayer, found Sept. 12, about
20 miles south of the Suez Canal, was of Soviet origin.

It said that parts of the mine — of a type
previously unknown to demolitions experts here
— were flown to Britain for examination.

The announcement gave no indication who laid the
mine, which Egyptian officials believe is linked to
explosions which have hit 19 ships off the Suez
Gulf and Suez of recent days.

Egyptian officials said the explosions were
caused by mines placed by Libyans to disrupt shipping
in the area.

VATICAN CITY (AP) — Pope John Paul II on Sunday
beatified four people, including a Belgian cook for
a religious order, a Spanish mother of seven
children, and a chaplain to Italy's royal family.

An estimated 10,000 people gathered in St. Peter's
Square for the open-air ceremony despite a driving
rain.

Beatification is a step before a person is canonized,
or raised to sainthood. ATtfr beatification, he or she
command said the mine, found Sept. 12, about
20 miles south of the Suez Canal, was of Soviet origin.

Men and Women doing well

Harriers chase NCAA title

Both Cal Poly cross country programs are off to winning starts. While the women's team again starts on their quest for yet another national title, the men's team are on their way to a title of their own. Among the top male runners, Dave Livingston, Mike Minner and Kevin Jones form a sound foundation for what could be a national championship.

During last weekend's competition the men's team placed eighth overall at the Aztec Invitational, first among Division II teams. The 14-man crew that traveled to the San Francisco State Invitational at Crystal Springs placed first and second with the A and B teams.

Assistant coach, Kevin Broudy, said that the Crystal Springs Invitational athletes and coaches were dumbfounded by the fact that Cal Poly's top seven runners were at the Aztec run.

While the men's team is pulling together, the women runners once again dominate the road, the conference and the national polls.

Junior Jennifer Dunn and sophomore Katy Manning have been top finishers for the Mustangs in early invitational races.

Winning the Riverside Invitational with a perfect team score and following this performance by another rout at the Aztec Invitational, the Cal Poly women are becoming a common name on the NCAA Division I poll.

This weekend's race will again test the strengths of this formidable team. The Stanford Invitational will host at least five teams ranked in the top twenty nationally, said women's coach, Lance Harter.

LA cancels conference;
Walton not signing yet

LOS ANGELES (AP) — A hastily-called press conference called by the Los Angeles Clippers Sunday night to announce the signing of center Bill Walton had to be cancelled when Walton balked at the contract after flying in from San Diego.

Club officials said Monday that Walton is expected to sign with the National Basketball Association team and work out with the club Monday night.

"We were probably just a little too enthusiastic, prematurely optimistic about signing Bill," Clippers General Manager Carl Sheer told the Los Angeles Times Sunday. "It's gotten down to the little things. We have to make sure there are dots on all the 'i's' and all the 't's' are crossed.

Everything went according to plan for the Clippers until Walton, who flew to Los Angeles from San Diego Sunday, was given the contract to sign at a local hotel and he refused.

Walton's refusal to sign surprised even his advisor, Ernie Vandeweghe, who is the father of Kiki Vandeweghe, former UCLA star now with the Portland Trail Blazers. The Clippers had come to an agreement in principle with Walton's attorney, Gary Vandeweghe, Ernie's brother. Saturday night and all seemed set for Walton's signature.

"I was disappointed that it didn't happen (Sunday night)," said Sheer. "But I don't think Bill missing a couple of practices means that much. We want to get the contract settled. Bill wants to get his belongings back here today (Monday).
