X-rated theater raided, still to show movies

By LESLEY GLEASON

Five X-rated films were confiscated from the Log Cabin Theater Wednesday night by 10 armed policemen.

The films were seized at about 6 p.m. by officers possessing an arrest warrant from the Santa Maria City Attorney's Office in connection with a violation of the city's ordinance concerning the display of profanity.

Police officers removed advertising posters from in front of the theater and reviewed the company's business records, and 22 hours after the incident, the financial aid office was charged with six unclaimed moneys.

LaBarbera was unavailable for comment.

Two X-rated theaters have been investigated this month and about 30 theaters throughout California but the controversy over the Log Cabin Theater began only 3 weeks ago when they started showing X-rated movies.

Prior to that, Johnson said he had tried to market foreign films but that they were poorly selling so they switched to X-rated films.

"People get by their own choice," Johnson said.

In a previous meeting with student journalists, LaBarbera said that part of the problem with prosecuting the theater is that it lies outside the city limits which makes it a county issue.

"Because the county ordinance doesn't specify restrictions concerning X-rated materials, several ambiguities have arisen," he said.

He said there was a problem with determining the definition of obscenity, a conflict with the First Amendment and questions concerning X-rated movies, people who view movies are "people who have basic problems with their own sexuality and they can't deal with anything else.

But Roger Conner, executive director of ASI said, "If any literature is accurate, there is a great diversity of ticket buyers, not just some old guys in a rubber raincoat.

Another Cal Poly student who wished to remain anonymous didn't find the theater offensive at all. "I've lived in San Francisco and I've been exposed to X-rated movies," he said.

But Laina Morris, a home economics senior, said, "I think it's sad that there is a degradation of any kind of film," she said.

Another Cal Poly student who wished to remain anonymous did find the theater offensive.

"I've lived in San Francisco and I'm very open-minded to X-rated movies," she said.

Another Cal Poly student who wished to remain anonymous said, "I think it's true that there is a degradation of any kind of film, even a break down in the family and it's sad but I understand the constitution as a means of a legal status of the Log Cabin Theater.

Because of the present question of legal status of the Log Cabin Theater no more ads will be allowed on the same page as national ads.

Joann Seremet, Mustang Daily general manager, said, "We don't accept any realistic, visual or written information that would be offensive to the viewer or reader.

Because of the present question of legal status of the Log Cabin Theater no more ads will be allowed on the same page as national ads.

Mike Hedden, computer science major said, "I can turn away from the ad. I lived in San Jose and I see those things, this is no big deal. I have never really been tempered by an ad - we probably make ourselves open for the theater parties eventually.

Edeen Berry, advertising manager for Mustang Daily said, "We get more skin in a fashion ad, but it is a matter of principle. We also added that alcohol or pornographic ads will not be placed on the same pages as national ads.

CSU fee legislation proposed

By T. WILLIAMS

Three California senators announced the introduction of historic student fee legislation aimed at protecting students in the UC and CSU systems.

Senators Ken Maddy, R-Fresno; Walter Stern, D-Huntingfield and Nicholas C. Petro, D-Oakland authored the bill that, if adopted, would do the following:

• Establish an explicit formula for setting and adjusting student fees.

• Limit fee increases, regardless of the formula, to no more than ten percent in any one fiscal year.

• Reaffirm the State's commitment to providing sufficient financial aid to offset fee increases for needy students.

"This consensus has evolved out of a painful and prolonged process which required participants to set aside their individual differences in recognition of a long-term fee policy which is in the best interests of current and future generations of California students." Maddy said.

The participants referred to were representatives from the UC and CSU administrations and students, the Hastings College of Law and its students, the Office of the Legislative Analyst, the governor's Department of Finance and Postsecondary Education Commission. He said these groups were key to the introduction of this important legislation.

In the 1984-85 Budget Act, the Legislature directed the California Postsecondary Education Commission to convene these representatives and to develop specific principles, policies and methodologies for setting and adjusting fee levels.

Stierén said, "My intent here is to protect students against the kind of sudden changes that caused fees in both systems to be increased four times in the 21 months between January 1982 and September 1983.

If this proposed fee policy had been in place at the 1981-82 and 1982-83 school years, when the state faced severe revenue shortage, UC fees would have been $1,353 instead of the actual $1,387. Fees for the CSU students would have been $352 instead of $702 that they paid in 1983-84.

Gov. George Deukmejian reduced fees to $317 and 650 for the UC and CSU systems respectively and proposed to hold fees at those levels for the 1985-86. Should the proposed bill be approved, it would become operational for the 1986 school year. But before it does, it must be approved by a two-thirds majority in the Senate and then signed by the governor.

Adding their support as co-authors were Assemblymembers Gwen Moore, D-Los Angeles and Jack O'Connell, D-Santa Barbara.

Moore successfully passed Assembly Bill 1251 through the same timetables for CSU Cal State students from 1983 to 1986.

"My bill helped put an end to the sudden fee increases," Moore said. "In fact, caused the governor to decrease fees for the CSU as well. With the 1985-86 bill will go a long way toward stabilizing fees and making them more predictable.

Members of the San Luis Obispo PTA filed the initial complaint against the theater, charging that it was bad influence for children in the area.

Specifically they noted a bus stop located directly across the street from the theater where children have been known to take the bus to school.

But, Johnson insists that the bus stop doesn't exist. "I don't muddle in the PTA's business, they are welcome by all means to come in and take notes," he said.

One Cal Poly staff member who wished to remain anonymous said, "I don't think the mothers are protecting their children's innocence by not facing the issue head on."

But Roger Conner, executive director of ASI said, "If any literature is accurate, there is a great diversity of ticket buyers, not just some old guys in a rubber raincoat.

Another Cal Poly student who wished to remain anonymous didn't find the theater offensive at all. "I've lived in San Francisco and I've been exposed to X-rated movies," he said.

"The imagination was related to the self-concepts taking place in Latin American countries Thursday by a Chilean author.

Fernando Alegría's speech was part of the Communicative Arts and Humanities seminar titled "Imagining the Imagination." He explained that "Imagination is the way that Latin America Today: Fantasy and Reality." Alegría related the subject of imagination to the social contexts of Latin American political and economic activities. He spoke about his book "A Song of Granada" which is a writer in a country where the economic and social injustices are so deep.

"It is seldom that one thinks of the imagination as a subject," Alegría said. He explained that he considered the imagination to be a "thing" that works with the imagination, first being a student, then a writer and finally a professor. Alegría presently teaches Latin American literature to Stanford University. He is also the head of the Swiss Center in the United States.

Opinion

The road to class, a risk to take

It is a real challenge to get from one end of campus to another along with thousands of other students in the ten minutes that is allowed for class change. Add to that large delivery trucks or maintenance vehicles driving along the inner-perimeter road. Instead of getting to class on time, the challenge becomes getting to class with no broken bones. Last year the Student Senate passed a rule that vehicles were not to be driven on the inter-perimeter road from on-the-hour to 10 minutes after the hour. President Baker endorsed this rule.

The rule stated that drivers who were in violation were not to be cited. However, they were to be reported to their supervisors, who would in turn reprimand them. These reprimands, if they are being issued, must not be very harsh.

It seems that this year the traffic is worse along inner-perimeter road than it was last year before the rule was enforced. Day after day, students walking to and from class will hear a noise behind them and turn around just in time to jump out of the way of a large delivery truck or other vehicle.

No serious injuries have occurred yet. However, people have reported being brushed aside or pushed by one of these vehicles.

Was the rule passed just to pacify the student senators who saw the dangers of too many cars mingling with walking students? Did the administration ever have any intention of enforcing it?

The administration fills in the answers to this question.

Surely this is better than nothing. It may stop a serious accident that is waiting to happen.

Let's not hope a serious accident is what is needed in order for the rule to be enforced.

Letters

Readers respond to pornography ad in Daily

Theater ad supported

Editor

This letter is in response to one by Mr. Al Polito published in the January 30 edition of the Mustang Daily.

Mr. Polito is offended by the running of an ad from a local porn theater in the Daily. He claims this ad must be pulled due to its nature. He goes on to claim that porn films cause sexual perversion, the cheapening of women and sex and the perversion caused by the films, that is a little hard to believe. In order for your claims to have any validity at all, you must have seen one of them. That being the case, do you feel perverted now? Do you thing poorly of women or sex? Of course not. You now are just the same kind of letter writer as the ones you always were. Anyhow, who is perverted and who is not is all a matter of opinion; which brings up the most important point. No one should be forced to support his idea and hope this ad is banned from our paper. 

Michael Jarvis

Daily urged to keep ad

Editor:

I completely agree with Al Polito's opinion on the porn ad that has appeared in the Mustang Daily. He said that porn cheapens sex. For example, who has heard of a porno movie showing sex as the loving act it should be? And, most importantly, these movies show women as sex objects, not human beings. I was very surprised to open up the paper and see that the ad staring me in the face. I also feel our paper doesn't need this kind of advertisement. So, I support his idea and hope this ad is banned from our paper.

Shawna Sadoff

Anti-ad view advocated

Editor:

This letter is in reference to the comments made in the Mustang Daily on Jan. 29 by Al Polito. Mr. Polito recommended that the Mustang Daily should discontinue advertising pornographic films for the Log Cabin Theater. I disagree. I do not feel that an advertisement should be removed from a newspaper just because an individual finds the ad "in extremely poor taste." I respect the fact that Mr. Polito finds the ad offensive. Yet if he wants to have his way, what else would he want removed? I do not patronize the Log Cabin Theater and I'm not asking anyone else to. I just feel that censorship of the press could start an era precedent. Stick to your guns Mustang Daily. keep the ad.

Editor:
I would like to respond to the article on the first page of the Daily today (Jan. 31) titled "Student Rep upset with UGS service." Not having read the information from which this "student rep" claims to draw her source, I cannot comment on the financial position of UGS.

However, it did irritate me to see several paragraphs written for the sole reason of destroying the integrity of UGS based on one student's opinion. I have just finished dealing with UGS in regard to several jobs, and I, for one would like to raise a round of applause for the crew there.

Duane Thomas Mielkowitz

Readers praise UGS for service

Opinion cannot be right or wrong about abortion

Editor:
I am writing this letter to argue Kevin Swanson to get off his high and mighty horse. An opinion is a viewpoint of an individual and cannot be deemed right or wrong. The opinions and points of view that are stated in your letter to the Mustang on Jan. 30 are not the only correct and morally sound ones. Therefore, they should not be stated as such.

I am an anti-abortionist who's views come from the Roman Catholic Church. I do not believe the way the posters relate the anti-abortion message is appropriate. The ends do not justify the means in my opinion.

Now, G. Prior and R. Ricord may be pro-abortion, but their opinion is still valid. Neglecting to recognize this fact shows a lack of an open mind. It represents an insult to those who have cooled over the issue and decided in favor of abortion. To insult for one's pro-abortion point of view may be the objective of those who made the flyers, and that of Kevin Swanson. The point I would like to make is that it is not the objective of an anti-abortionist.

A final point I would like to make is about the argumentative logic used in Mr. Swanson's letter. I feel it is a one-sided, self-righteous argument and an embarrassment to those who have chosen a side after long deliberation. The drifting from topic to topic shows a lack of capability to present precise facts to convince the reader that your view is right and all others are wrong.

Special Olympic coaches sought

People who are interested in becoming a Special Olympics coach or official are encouraged to attend a gymnastics training clinic tomorrow at Crandall Gym. Participants will receive hands-on training on how to coach and train Special Olympics athletes.

Registration will be from 5:00 - 8:00 p.m. at Crandall Gym. Class size is limited to 30 people. All participants who complete the eight-hour clinic will be eligible to be nationally certified by Special Olympics.

Refreshments and lunch will be provided.

For more information call Mert Burns at 543-7732.

Students who transfer from a four-year college or a junior college to Cal Poly may be taking more classes than necessary to get their bachelor’s degree, said supervisor of the Evaluations Office, Paula Ringer.

"I didn’t get the credit I thought I’d get," is a common complaint that Paula Ringer, supervisor of the Evaluations Office, hears from transfer students. Because some students don’t question their evaluation, they might end up repeating material learned in a similar course at another college. The problems can begin when students forget to send a final transcript or general education certification from their previous college to Cal Poly.

"It’s necessary to have the junior college make a statement to us formally that they have finished all of the general education or that they have finished part of it. If the general education certification doesn’t come it makes it look much worse than it is," Ringer said.

Even when students take the necessary steps, more can be done to get maximum credit from transfer courses.

"It’s really important for them when they get their evaluation at the first quarter to look at it really carefully," said Ringer. "Student’s first important job is to look over what was listed as an elective and see if in fact there is something there that they feel should have gone for something else."

Ringer encourages students to bring any questions to their evaluator.

"There are many reasons why a course may not be applied toward a degree and instead listed as an elective," Ringer said. "Sometimes it can be as simple as having a catalog that we don’t have."

By talking with his evaluator, Robert Rinaldi, a mechanical engineering junior, was able to get more credit for his courses. "I thought I’d have to get credit from a lawyer’s uniform, and argue the point but that wasn’t the case," Rinaldi said. "Ringer talked with him about 22 more units toward his degree."

"I thought I’d have to go get a degree in a lawyer’s uniform and argue the point but that wasn’t the case," Rinaldi said. Rinaldi transferred to Cal Poly from Bakerfield College. "It’s necessary to have the general education certification doesn’t come it as part of it. If the general education or that they have finished all of the general education or that they have finished all of the general education or that they have finished all of the general education certification doesn’t come it makes it look much worse than it is," Ringer said. "Sometimes it can be as simple as having a catalog that we don’t have."

When students take the necessary steps, more can be done to get maximum credit from transfer courses.

"It’s really important for them when they get their evaluation at the first quarter to look at it really carefully," said Ringer. "Student’s first important job is to look over what was listed as an elective and see if in fact there is something there that they feel should have gone for something else."

Ringer encourages students to bring any questions to their evaluator.

"There are many reasons why a course may not be applied toward a degree and instead listed as an elective," Ringer said. "Sometimes it can be as simple as having a catalog that we don’t have."

"In the Jan. 15 public hearing, ASI Community Affairs Representative Linda Eshel complained that the 55 decibel limit is unrealistic for a college community. "A car passing by on campus can produce a noise level above 55 decibels on the decibel meter," Eshel said."

By talking with his evaluator, Rinaldi added that the people he spoke with were helpful but he hadn’t have received more units toward his degree if he hadn’t made the effort himself.

Cal Poly ROTC holds compass contest Saturday

By T. WILLIAMS

The Cal Poly ROTC program will sponsor its seventh annual Orienteering Meet Feb. 2 at 9 a.m.

Orienteering involves the use of a map and compass. Competitors are given a map with five points designated at different locations on the map. This is accompanied with a compass, they must locate those points on the course. Each point will have a marker attached to it that competitors must mark their scorecards with. The first one to cross the finish line first with all five points correctly marked will be the winner.

The event is free and open to the public.

Noise ordinance voted on soon.

By T. WILLIAMS

The proposed San Luis Obispo noise ordinance, first introduced in October 1984, would provide an objective means of measuring noise levels in both commercial and residential areas of the city.

Noise levels would be measured in terms of decibels on a decibel meter. By definition, a decibel is a unit for measuring the relative loudness of sounds perceptible by the human ear. If the ordinance is approved, any member of the community generating noise that registers above 55 decibels on the decibel meter could be cited as a violation of the law.

In the Jan. 15 public hearing, ASI Community Affairs Representative Linda Eshel complained that the 55 decibel limit is unrealistic for a college community. "A car passing by on campus can produce a noise level above 55 decibels on the decibel meter," Eshel said."

The ordinance, first introduced in October 1984, would provide a means of measuring noise levels in both commercial and residential areas of the city.
Chinese Magic Revue provides thrilling, chilling performance

By JULIA PRODIS
Staff Writer

Mustang Daily Friday, February 1, 1985
Page 5

The Chinese Magic Revue of Taiwan performed Wednesday night to a packed Main Gym.

A group of the performers, rang­ing from age 15 to 38, have spent most of their lives in training to be a part of the circus. One of the leaders of the troupe, Ken Mei Hai, said in broken English, "The Tower of Chairs act is the most difficult and dangerous. It took over 10 years to perfect.

The show began late. The performers' bus had broken down. In the half hour delay time, the hundreds of children who had come to the show with the parents were restless. So they put on a show of their own on the gym floor. A few five and six-year-olds did their rendition of break dancing as others played games of tag. When the perfor­mance was announced, the children scurried to the sidelines, where they remained sitting on the wooden floor for the next two hours.

In one of the first magic tricks, one of the performers seemed to fit her whole body into a small basket. With only the swirl of a silken blanket over the basket, the girl disappeared, then reap­peared.

A member of the Chinese Magic Revue of Taiwan does a handstand on blocks Wednesday night in the Main Gym.

A group of the men proceeded to dive through a "Circle of Knives and Fire." With perfect grace and ease, the agile acrobats seemed to fly through the hoop, even blindfolded, and land in a handstand on the lap of a partner who was waiting on the other side of the hoop.

One of the most fascinating acts for the children was perhaps the "Tower of Chairs." The performers balanced on top of each other, creating a towering human pyramid.

Stepping on the lap of his partner, one member of the Chinese Magic Revue of Taiwan performs a handstand in the Main Gym Wednesday night.
In the nuclear Navy, you learn quickly. Over half of America’s nuclear reactors are in the Navy. And that means you get hands-on experience fast.

You get rewarded fast, too. With a great starting salary of $22,000 that can build to as much as $44,000 after five years. And with training and skills you’ll use for a lifetime.

Then, whether you’re in the Mediterranean, the Pacific or the Atlantic, wherever you move around the world, you’ll be moving up in your career and in the Navy.

Lacrosse team looking to net first big year
New coach leads seasoned team

KEVIN H. FOX

Staff Writer

After a disappointing season last year, the Cal Poly Lacrosse team says it is ready and looking forward to a year of hard work, a winning record and a trip to the playoffs.

Lacrosse Club President Andy Tait said the team has been playing together for the past several years and are now over its building stage.

“Last year’s record of 3-7 was like a building year. We lost only one player from last season and most of the guys have played together for three years,” Tait said. “We are looking to go far this season, hopefully to the playoffs.”

Tait said that this season marks the first in which the team will have a real coach who has
taken the team as a whole to a new level. Sutton fears career over

PEBBLE BEACH, Calif. (AP) — Don Sutton has compiled 3,208 strikeouts and 280 pitching victories in a baseball career which he fears might be over.

“Professionally, winning 300 games is the most important thing I can think of. It’s the key to the Hall of Fame for me. I believe, and I want to make the Hall of Fame,” Sutton said Thursday before teeing up in the opening round of the Bing Crosby Pro-Am golf tournament.

What I’ve done has been methodical, boring; not spectacular. Tom Seaver, Nolan Ryan and Steve Carlton are leadpipe cinches to make the Hall of Fame. I don’t think I am,” he said.

Sutton, whose 40th birthday is two months away, gave that indication Friday.

“I’ve been a mechanic in a baseball career as long as it’s going to be,” he said.

Professional, winning 300 games is the most important thing I can think of. It’s the key to the Hall of Fame for me. I believe, and I want to make the Hall of Fame,” Sutton said Thursday before teeing up in the opening round of the Bing Crosby Pro-Am golf tournament.

Men again on rough road

Important game for both teams

History setting is something teams usually enjoy, but not the Cal Poly men's basketball team. After starting the league season with two wins, head coach Ernie Wheeler has suffered four straight losses, a first in his 13-year career here.

The most recent two losses were by one point, and Wheeler said Monday night has been plagued by turnovers and missed free throws in the last minutes of games.

"We haven't taken very good care of the ball in the final minutes," said Wheeler. "When the score is tied you have to take charge, We haven't taken charge.

Poly could be 5-1 this year in league, said Wheeler, playing hard enough to win. "We created problems for ourselves. We have played hard and gotten beat."

The Mustangs now play three road games, tonight against Cal State Bakersfield and two more next weekend.

At 3-3 in the California Collegiate Athletic Association, the Roadrunners, said Wheeler, also consider the game tonight important.

Poly got off to a slow start last year said Wheeler, and the tough close games this year are typical of the CCAA race. The Mustangs are 13-6 overall, Bakersfield 15-4.

This is the first time it has ever occurred at Cal Poly."

The new backboard needs welding, said McMath, and may take a couple of days to replace.

Basketball player to surrender, charged in alleged student rape

MINNEAPOLIS (AP) - Mitchell Shoptaugh, the University of Minnesota's athletic director, charged in the alleged rape of a student, is scheduled to surrender to authorities when he returns from a road trip, the prosecutor said Thursday.

Shoptaugh's charge of third-degree criminal sex conduct was filed Thursday against Lee in Hennepin County District Court, according to Jim Gaffney, the assistant county attorney handling the case.

"He's out of state with the basketball team, so he'll surrender to sheriff's deputies when he returns," Gaffney said of Lee, who left Wednesday with the Gophers on a two-game Big Ten road trip.

The university issued a statement from Dutcher which said "because of the charges, Lee cannot give the necessary time, effort and concentration necessary to play Big Ten basketball."

The prosecutor said Lee is scheduled to appear in court Monday. If convicted, he faces a maximum penalty of a 10-year prison sentence, a $10,000 fine or both.

Lee, a 6-foot-4 freshman forward from Carol City, Fla., surrendered to university police and was arrested last Friday in connection with an alleged sexual assault on a 20-year-old woman. He was released to the custody of an assistant coach and was allowed to leave with the team after a judge lifted a restriction on his travel.

Derrick Roberts shoots in heavy traffic. The men play their next three games on the road.

Backboard shattered by dunk

Rain of glass in the Main Gym

Darryl Dawkins has made a reputation for breaking backboards, but for the Cal Poly Main Gym, it was a first.

During practice Wednesday, Mustang guard Mark Shelley hit a dunk shot, said Poly's head coach, splintering the glass backboard into pieces.

"It was scary," said head coach Ernie Wheeler, "it just exploded on us."

It was the first time in his career he has seen backboard shatter, said Wheeler.

Center Mike Chellsen received cuts from the flying glass, but no one was seriously injured.

The backboards in the gym were old, said equipment man Dick McMath. "The glass gets smaller and smaller," he said, and when it broke, "it looked like a million diamonds."

The old backboards didn't have break-away rims, said McMath. "This is the first time it has ever occurred at Cal Poly."

Tate Hasten, hitting for 10 points per game in league. Teammate Derrick Roberts is hitting for 8.5 per game. James Wells 8 points per game.
FOR THE SERIOUS, THE DEDICATED
(Special Ends Wed. Feb.6)

FACILITIES

• 8000 total sq. ft.
• 1000 sq. ft. wood base aerobic floor—helps prevent injuries.
• Nautilus, Workout Class & Universal machines.
• Clothes and men's lockers and showers.
• Computerized lifecycles (Minimal fee).
• Computerized lifecycles—helps prevent injuries.
• Staff of over-35 trained instructors to help you with your questions.
• Staff of over-35 trained instructors to help you with your questions.
• Group rates available—Call for details.

PROGRAMS

• Aerobics taught by trained fitness instructors.
• Personalized fitness programs designed to suit all body types.
• Different types of aerobic classes, with varying levels of difficulty.
• Computed lifecycles (Minimal fee).
• Free AM/PM childcare.

• Facilities open 2 days/week.

There's room to grow at

EXCELLON!

Excellon is the world leader in the application of its technology in precision positioning using electronic controls. Our printed circuit board drilling and routing equipment is the first choice of over 50% of the production market. Our laser marking products, just introduced this year, have gained attention worldwide as have our microprocessor-controlled hybrid assembly machines. These products as well as others still in the research and development stage promise to maintain Excellon's proud reputation as an innovative producer of high quality equipment.

During our company's twenty year history, we have grown from a small group of creative and dedicated pioneers to a new industry to more than 1,100 employees still dedicated to Excellon's future.

Excellon is seeking superior individuals to become part of the bright future we seek ahead. Through our TECHNICAL START DEVELOPMENT PROGRAM, we are planning for the leadership needs of our growing company.

New graduates move directly into various challenging positions working side-by-side with our experienced staff members. These assignments provide unique opportunities for training and experience leading to responsible positions at the end of the program. We are especially interested in graduates with BS or MS degrees in ME, EE or IE.

Southern California's nearby beaches provide the perfect setting for swimming, boating, bicycling and sunbathing. It's just a few hours drive to the mountains for skiing or to the desert for year-round sunshine. Opportunities for cultural enrichment are also convenient and plentiful with theaters, concerts, dance and art exhibitions all around the city.

To learn more about exciting careers at Excellon, come and see us at our Career Symposium, Monday, February 4th, 1985. College interviews will also be conducted on March 7th, 1985. Or write to Sarah Christman, Excellon Industries, 23915 Garnier Street, Torrance, California 90509. We are an equal opportunity employer m/f/h.

Men take close one
Fourth win over SB

BY NANCY ALLISON

This is the fourth time in a row in the past two years that the Cal Poly men's tennis team has beaten UC Santa Barbara in a close 5-4 victory.

The Mustangs turned it on Wednesday for their season opener at home against the Division I Gauchos.

Poly was without its No.1 singles player Brian Bass, who is recovering from a bike accident, so the entire ladder was moved up one spot.

Pulling out singles wins for the Mustangs were No.3 Rob Pritzker, against Kirk Hall, 6-4, 6-1, 6-3; No.4 Bob Zoller against the Gauchos' Scott Morse, 6-2, 6-8, 8-10; and No.6 Jim Rakela against Francis Alvar, 4-6, 6-3, 6-3.

UCSB also took three singles points with wins at the No.1 spot, where John Nissley defeated Poly's David Reynolds, 7-5, 6-4, 6-4; at No.2 where the Gauchos' Gus Anderson defeated Paul Landry in the only two-set singles match, 6-4, 6-3; and at No.5 singles where UCSB's Chris Russell beat Tom Salmon, 6-2, 6-4, 6-4.

In doubles action, Poly's No.1 team of Pritzker and Zoller were overpowered by UCSB's Nissley and Anderson, 6-1, 6-2.

Poly came back to tie the team score 4-4 when No.3 Jim Rakela and Mike Giusto pulled out a 6-3, 6-4 win.

In the final doubles line-up the No.2 team of Landry and Reynolds pulled out a much needed 6-7, 5-7, 6-3 victory to close out the match at 5-4 for Poly.

Coach Hugh Bream was pleased with his team's performance. "We played well for our first match. With a little more experience and Brian Bass back in February, we'll be ready to roll."

Bream said he was especially proud of the team's victories in five out of the six matches that went to three sets. "This is indicative of our physical conditioning and mental toughness."

The netters have a busy weekend, with three matches back-to-back. Today the team is in Riverside, to play their first conference match against UC Riverside.

The men travel to Redlands Saturday to play the University of Redlands, and on Sunday they will take on conference opponent Cal State Los Angeles in Los Angeles. The next home match for the netters is Saturday, Feb. 9 against Division I Santa Clara.

Dave Reynolds serves during the win over UC Santa Barbara.

Wadkins cools in Pebble wind

Miller leads using long putter

PEBBLE BEACH, Calif. (AP)—Lanny Wadkins' string of sub-par rounds came to an end in cold, howling winds and Johnny Miller, with an elongated putter tucked under his elbow, took the first-round lead Thursday in the 44th Bing Crosby National Pro-Am.

"It was a tough, tough round of golf today," Miller said after he negotiated Spyglass Hill in 68—four under the listed par. Players and spectators were scoured by sand blown from the bunkers at Cypress Point.

It was at that course, the most exposed of the three Monterey Peninsula courses used for the first three rounds of this unique event, that the wind blunted and frustrated the efforts of some of the game's greatest names. These were some of the scores:

- Defending Crosby titleholder and two-time U.S. Open champion Hale Irwin, 77.
- Tom Watson, twice a Crosby winner who collected the U.S. Open title at Pebble Beach, 75.
- Jack Nicklaus, 2 under par early in the day, finishing at 76.
- Masters champion Ben Crenshaw, 79.
- Hal Sutton, runner-up in last week's Los Angeles Open, an impressive 17-2 and are 2-3 in conference play.

Dominguez Hills 171-60) and zone."

The Mustangs, meanwhile, first place in the California Collegiate Athletic Association. Others sport an impressive 17-2

Having played each other in the U.C. Davis Tournament in November, the two teams know what to expect coming into tonight's game.

"They are a very physical team," said head coach Marilyn McNeil. "They play a strong man to man defense and also a good zone.

In the previous contest, the Runnin' Panthers beat the Mustangs by 20 points, mainly on the merit of their strong defense.

"We had trouble getting into our offense because their defense was so strong," said McNeil. Helping Chapman to its sparkling record has been the double-figure scoring of three players. Melissa Figo averages 13.5 points a game, Leene Patterson nets an average of 12.2 and Delissa Carter tallies 12.4 points with 8.5 rebounds a game.

Aside from their tough defense and consistent scoring, the Runnin' Panthers boast one of the tallest teams in Division II with four starters six feet tall or over. In preparing for tonight's contest, the Mustangs have added some drills to their practices to get them ready for a physical battle.

"We have been trying to be really physical in practice so we don't get intimidated," said McNeil. "It has really been good for us.

In order to win the game, McNeil believes that the defense will have to play as well as it has been and the offense must play like it did in the second half of the win over Dominguez Hills.

"We won't he able to play the kind of first half we did last week against Dominguez Hills," said McNeil. "Chapman is the type of team that will not let us back in the game."

Trish Groo fires a jumper. The women will play at home tonight.

Take on running Panthers

By DAN RUTHEMEYER

After edging Cal State Dominguez Hills last weekend, the women's basketball team has had little chance to rest as it gets set to host the top-ranked Runnin' Panthers of Chapman College at 7:30 tonight in the Main Gym.

Coming off of victories over Dominguez Hills (71-68) and Biola (62-36), the Runnin' Panthers sport an impressive 17-2 record and have a firm grip on first place in the California Collegiate Athletic Association.

The Mustangs, meanwhile, have an overall record of 7-11 and are 2-3 in conference play.

Having played each other in the U.C. Davis Tournament in November, the two teams know what to expect coming into tonight's game.

"They are a very physical team," said head coach Marilyn McNeil. "They play a strong man to man defense and also a good zone.

In the previous contest, the Runnin' Panthers beat the Mustangs by 20 points, mainly on the merit of their strong defense.
